## Seating Arrangement and Color of Tassels

**Faculty, Doctoral Degree Candidates, DVM Candidates, and Master's Degree Candidates** will be seated in the southwest and northwest corners of the coliseum at the balcony level.

## **ACADEMIC COSTUME**

ACADEMIC GOWNS represent a tradition which comes down from the universities of the Middle Ages. At that time they were a common form of dress and were retained by the clergy when the laity adopted more modern styles. The caps, originally round, later became square mortar boards. The hoods attached to the gown were originally cowls which could be slipped over the head for protection from the weather.

The significance of the costume is indicated especially by the sleeves and hoods. The bachelor's gown has pointed sleeves; the master's gown has long, closed sleeves; and the doctor's gown has bell-shaped sleeves and velvet trimmings.

The colored velvet border of the hood indicates the field of study to which the degree pertains, as do the tassel colors. (See Processional, page 2.)

The colorful lining of the hood indicates the institution from which the wearer received his or her degree. The lining of the Harvard University hood, for example, is crimson; Yale, blue; Wisconsin, bright red; California, gold; Washington, purple above gold; Oregon, lemon yellow and dark green, Stanford, cardinal; Oregon State, burnt orange.

### **Your Graduation on Videotape**

A videotape program of the 1987 Oregon State University Graduation Ceremony will be available for purchase by graduates, relatives, or friends. The program will be professionally produced in high-quality color and will be narrated by Shirley Howard, OSU alumnus and Oregon Public Broadcasting radio and television host. ## DISTINGUISHED SERVICE AWARDS

---

Upon recommendation of the Faculty Recognition and Awards Committee, the Faculty Senate of Oregon State University has selected the following recipients of Oregon State University Distinguished Service Awards:

**BETTY EILEEN HAWTHORNE** . . . for nearly half a century, including 42 years as an OSU faculty member, Dr. Betty Hawthorne has served as one of our nation's leading authorities in the important field of home economics, both as a contributor to knowledge in human nutrition, and as an administrator dedicated to expanding the capabilities of home economics programs throughout the country . . . today, she receives the highest award of Oregon State University for truly exceptional contributions to society and her profession, both at home and around the world . . . after serving her country in the Naval Reserve during World War II, she came to OSU in 1946 as an instructor . . . over the next 20 years, her talents for teaching and scholarship earned her national recognition and promotion to dean of her college . . . during her administration (1965-83), OSU's College of Home Economics strengthened its already outstanding international reputation . . . she served as president or chairperson for virtually every state, regional, and national organization in her profession, including the Oregon Dietetic Association, the American Dietetic Association, the American Home Economics Association, and the National Association of State Universities and Land-Grant Colleges . . . in the 1960s, she contributed nationally in the development of the accreditation process for the field of home economics . . . unquestionably, Dr. Hawthorne has made outstanding contributions to her profession, to education, and to that broad base of individuals within society who require the services of home economists to ensure quality of life . . . she has unselfishly shared her life to better life and it is with pride that OSU honors her today.

**LEONARD KUNZMAN** . . . throughout his long and distinguished career, Leonard Kunzman has been a moving force in Oregon agriculture . . . he started as a Vo-Ag high school teacher in 1949 and was known by his students as an excellent, innovative instructor . . . he served with distinction as director of Agriculture Education in the State Department of Education and later as director of Career and Vocational Education and then as associate superintendent in the State Department of Education . . . he organized and directed the first high school adult vocational education programs in Oregon . . . he served on the boards of the Oregon Department of Agriculture, the Oregon Farm Bureau Federation, and Oregon's Agricultural Business Council . . . as executive vice president of the Oregon Farm Bureau Federation, he organized revolutionary new tax legislation that assessed farm land according to a farmer's income . . . for the past 12 years, he served as Director of the Oregon Department of Agriculture and was a strong supporter of programs to diversify Oregon's agricultural economy . . . he attracted many millions of dollars from out-of-state investors to help stimulate the diversification . . . he organized the Coordinated Agriculture Group, which met weekly during legislative sessions to keep lines of communication open between lawmakers and farmers on important issues . . . said a colleague about today's honored guest: "that he was able (during his administration) to keep the enthusiastic support of Oregon's agricultural community through the toughest economic times any of our farmers have ever seen says a lot for the man" . . . OSU is proud to present its Distinguished Service Award to Leonard Kunzman, a man with commitment, vision, and dedicated to hard work . . . a truly great Oregon Stater.

**ROBERT W. SCHONING** . . . over the 116-year history of the National Marine Fisheries Service, there have been less than two dozen directors . . . today, Oregon State University honors a man considered one of the best of that group, a man who has dedicated his entire career to the conservation and wise management of the fish resources of the Pacific Northwest and the nation . . . after serving his country in World War II, he went to work as a researcher with the Oregon Fish Commission in 1947, a job interrupted by further military duty in the Korean Conflict and resumed in 1953 . . . from this entry-level position, he rose rapidly through the ranks, serving first as Director of Research for the Oregon Fish Commission, then as State Fisheries Director, and finally, as Director of the National Marine Fisheries Service of the National Oceanic and Atmospheric Administration (NOAA), the top fisheries job in the country . . . during his tenure at NOAA, he helped write and

implement the Magnuson Fishery Conservation and Management Act, the most significant fisheries legislation in our nation's history . . . he served for a combined total of 15 years as a presidentially appointed commissioner on the International Pacific Halibut Commission and the International North Pacific Fisheries Commission . . . from 1978-82, OSU was fortunate to have Mr. Schoning on campus as a visiting professor . . . during this time, he impressed both fellow scientists and students alike with his talents for teaching, research, and working with widely divergent interest groups . . . he has touched the lives of many thousands of people and his tireless dedication to duty has left an indelible mark on OSU scholarship and on fisheries research and management throughout the country . . . remarked an associate: "as a scientist, administrator, soldier, and human being, Robert Schoning is first-rate."

# GIFTS

---

Oregon State University gratefully acknowledges the receipt of many gifts to the institution. These gifts from individuals and organizations significantly benefit students, faculty, and programs. Student awards are described in the catalog and a partial list is recorded elsewhere in the commencement booklet.

## *Oregon State University Foundation*

The Oregon State University Foundation is the nonprofit corporation through which interested persons or organizations may make gifts to Oregon State University. Outright gifts of cash, securities, and real and personal property, and deferred gifts such as bequests, life insurance, and life income agreements have brought many benefits to Oregon State. The purpose of the Foundation is to aid and promote the educational and research activities of Oregon State University. It fills the need for a legally sound, inclusive, and permanent agency apart from, but working in close coordination with, the University.

Funds received from all sources into the Foundation for the fiscal year 1986: \$16,323,758.

## *Oregon State University Library*

### **GIFTS AND MEMORIAL BOOKS**

Gift books, memorial books, and cash donations play an important role in the Library's acquisition program. Through the OSU Foundation, the Library received \$48,667.89 from gifts and memorial book funds. Memorial books constitute an enduring tribute from individuals and groups to deceased relatives and friends. During the last year, 250 volumes memorializing 21 persons were added to the Library. Each of these books has a special bookplate recording the name of the person memorialized and that of the donor.

In addition, the Library's collection was enriched by 1,157 gift books from individuals, groups, publishers and firms, with an estimated value of \$17,509.99.

The Memorial Book Plan, originated in 1943 and originally sponsored and promoted by the Friends of the Library, Oregon State University, has grown over the years and is now directed through the OSU Foundation for greater ease of administration.

The Friends of the Library in their 1985-86 annual membership/fund raising drive have raised over \$16,000 directed in support of the library materials portion of a challenge grant from the National Endowment for the Humanities.

## *Memorial Union*
