The OREGON STATER

MAY 1953

Student Views on Campus News

By Lucile Davis, '54

Spring and politics are in the air at Oregon State now. Two political parties have been organized—the Collegiate Party and the Pleasant Party—and are stirring up the first glimmer of student enthusiasm over ASOSC elections in two or three years. Open party meetings, car rallies, and campaign speeches at living groups have made even the most lackadaisical Stater aware that an election is in progress. We think this is a step in the right direction . . . and hope the enthusiasm carries over into other areas of campus life, such as supporting student body dances and convocations.

* * * *

Beaver Preview, planned to give interested high school seniors a sample of life at Oregon State College, will emphasize the educational opportunities offered by OSC. A criticism of high school senior weekends in the past has been that the emphasis shifted from things academic to things social. This year's program hopes to revive the educational viewpoint. The various departments and schools will hold open house and demonstrations for visiting seniors.

* * * *

The Interfraternity council will sponsor a "Help Day" during which many of Oregon State's 30 fraternities will take part in cleaning and working on the churches of the community. First planned to replace initiation "Hell Weeks," the project has grown to include many active fraternity members; over 450 men are expected to join in the work. The Benton County Council of Churches and the Corvallis Ministerial association have outlined projects including painting, building, clearing brush, seeding lawns, planting shrubs, and cleaning and polishing the interiors of the churches.

* * * *

A debating team from Cambridge University, England, visited the campus recently and debated with two OSC students on the topic, "American success owes everything to co-education." Oregon State students taking part in the competition were Dick Pedranti, '53, Newberg; and Paul Fillinger, '54, Portland. This is Pedranti's third year of debate competition; he has taken third place the past two years in the Pacific Forensic League debate tournament. Fillinger is a second-year debater; he has also been active in radio and after-dinner speaking.

Still on the subject of oratory . . . OSC was recently host to 146 high school speech students representing 37 Oregon schools. The two-day session was sponsored by the extension division of the state system of higher education, OSC, and the University of Oregon.

* * * *

Oscar Levant will present a concert for Oregon Staters this term in Gill coliseum. Advance press notices describe the program as a "Program of Music with Comments." This means, say the notices, that no one, not even Levant himself, knows what will be included in the program until the music begins. He will play numbers to suit the "mood" of the audience and himself, with "asides" appropriate to the moment, instead of following a formal program. Sounds refreshing and interesting!

* * * *

The works of Leonardo Da Vinci, one of the greatest geniuses of all time, are now on display in the Memorial Union main concourse. Besides being a great artist, the exhibit shows Da Vinci to be an outstanding scientist and inventor. Living, as he did, in the late 15th and early 16th centuries, it is remarkable to find that he made significant contributions in fields of art, geometry, optics and mechanics, botany, zoology and anatomy, and geology and geophysics. Far ahead of his time, the extensive drawings found in his sketchbooks illustrate almost every kind of phenomenon in the areas of art and science. This is one of the most worthwhile and interesting exhibits shown on the campus in several years. It will remain on display long enough for the visiting high school seniors to benefit from during senior weekend.

* * * *

Small item of small interest . . . One night this week seven sorority sleeping porches were thrown into confusion by the appearance of half-grown white turkeys in the wee hours of the morning. One group suggested keeping the bird as a permanent wake-up man, since it did such an effective job!

* * * *

The Oregon State traveling talent show, "College: The Chance of a Lifetime," has been received with enthusiasm by high schools, civic groups, and colleges over the state. Recently the group performed at the veterans' hospital in Portland on an Oregon State College public relations trip to the city sponsored by the Corvallis Elks club.

THE OREGON STATER is published monthly except July, August and September by the Oregon State College Alumni Association at 104 Memorial Union Building, Corvallis. Entered as second-class matter at the Post Office at Corvallis, Oregon, October 1, 1940, under the Act of March 3, 1879. Annual dues of the Association are \$4 which includes a year's subscription to THE OREGON STATER.

Cover Personality

Our May Cover Personality is Dr. William Edmund Milne, professor of mathematics and department head since 1923. He was graduated from Whitman College in 1912 and then received his masters and Ph.D. from Harvard. Professor Milne has also received a D.Sc. from Whitman in 1942.

His family, all Oregon Staters, reads like a Who's Who in Education since one son, Henry Bayard, '37, is a professor of chemistry at Washington State, daughter, Mary Evangeline, '38, is married to a professor of mathematics, another son, William Porter, '44, is a geologist for the Oregon State highway department, and a third son, Edmund Alexander, '49, is a candidate for his Ph.D. this June at the California Institute of Technology.

Doctor Milne is a fellow of American Association for Advancement of Science, member of Mathematical Association of America (twice member of the board of governors), Phi Beta Kappa, and a host of other honoraries. He has authored several mathematics books, written research papers in mathematical and technical journals and is the author of several hundred reviews in Mathematical Reviews.

Robert Lemon, three year old son of Mr. and Mrs. Mardis Lemon (Ardena Shorthill, '44) of Corvallis, won the top spot in the Boys Studio 2-5 years division.

Winner of the Girls Studio under two years division was Claudia Cilker, four month old daughter of Mr. and Mrs. George E. Cilker (Betty Baldwin, '46) of Palo Alto, Calif.

Baby Contest Winners

A few baby pictures failed to appear in this issue because they were received after our magazine press deadline. However, they will appear in our next Oregon Stater issue of July 1. The July issue will also carry news of class reunions and graduation.

Suzy Q. Smith, three year old daughter of Mr. and Mrs. Pete Smith, '40 (Yvonne Hollenbeck, '39) of Corvallis was picked by the judges as winner of the Girl's Snapshot 2-5 years division.

William Lowell Capps, five month son of Mr. and Mrs. James Capps, '47, (Mary Jo Cox, '46) of Fort Wayne, Ind., won the Boy's Snapshot under two years division.

Ellen Eileen Davies, daughter of Mr. and Mrs. Irven W. Davies, '47, of Killeen, Texas captured the first choice of the judges in the Girls Snapshot under two years group.

Mark J. Wooden, 19 month son of Mr. and Mrs. Don Wooden, '42 (Janis Welcome, '42) of Everett, Wash. walked off with the top position in the Boys Studio, under two years division.

This smiling three year eight month lad, Gregory Hulbert, won first place in the Boys Snapshot 2-5 division. He is the son of Mr. and Mrs. John R. Hulbert, Jr., '47, (Wilma Feike, '50) of Crescent City, Calif.

Kathleen and Katherine, 4½ year old twin daughters of Mr. and Mrs. Harry J. Logan, '29, of Salem were tops in the Girls Studio 2-5 year classification.

Future Beaver Boosters

(1) and (2) Ingra Marie and Peter Milton Rinearson; Mr. and Mrs. Len Rinearson '50, (Helen Paulson '49). (3) Douglas; Mr. and Mrs. Vaughn Dorsey, '50. (4) Helen Marie daughter of Mr. and Mrs. Melvin C. Loomis, '50. (5) Alan, son of Mr. and Mrs. F. E. Svendsen, '50. (6) Nancy, daughter of Mr. and Mrs. Richard Thurin, '49. (Norma Cass, '50). (7) Larry, son of Mr. and Mrs. Earl R. Mosen, '50. (8) Joyce Irene, daughter of Mr. and Mrs. M. L. Fisher, (Betty Jean Adams, '42). (9) Larry, son of Mr. and Mrs. Lawrence F. Page, '40, (Dorothy Bohle, '42). (10) Gayl, daughter of Mr. and Mrs. Clyde Salor, Jr., '44. (11) Ronald Bruce, son of Mr. and Mrs. W. H. Emig (Bernice Erickson, '46).

(12) Mary Elizabeth, daughter of Lt. Col. and Mrs. Charles E. Welsh, '36, (Charlotte Redfield, '36). (13) Scotty, son of Mr. and Mrs. Orin Zimmerman, '47, (Josephine Schumann, '47). (14) Nancy Ann, daughter of Mr. and Mrs. Stanley W. Carlson, '49, (Jane Jones). (15) Donald, son of Mr. and Mrs. Donald K. Buffington, '48. (16) Kelly Jean, daughter of Mr. and Mrs. Robert Swan, '50, (Pat Kelly, '51). (17) Tim, son of Mr. and Mrs. Bob Underwood, '48, (Betty Stevenson, '46). (18) Natalie, daughter of Mr. and Mrs. Roland Brown, '49. (19) Ronald, son of Mr. and Mrs. Norm Carey, '49. (20) Linda Kathleen, daughter of Mr. and Mrs. Frank Caskey, '41, (Frances Coldwell, '35).

Future Beaver Boosters

(1) Deanne, daughter of Mr. and Mrs. John R. Hulbert, Jr., '47, (Wilma Feike, '50). (2) Brad, son of Mr. and Mrs. Jack T. Stiles, '48, (Melba Lucille Jonsrud). (3) and (4) Velda and Gary Dey, daughter and son of Mr. and Mrs. James R. Dey, '49. (5) Nancy and Rickey, daughter and son of Mr. and Mrs. Robert Millington (Isabel Roper, '42). (6) David, son of Mr. and Mrs. Monte Thoen (Doris Read, '47). (7) Jimmie, Janet, and Loyal, daughter and sons of Mr. and Mrs. James Kuhn (Betty De Shazer, '45). (8) Linda, daughter of Mr. and Mrs. Lyle Peterson, '49. (9) Tommy, son of Mr. and Mrs. Gilbert Ward, '50, (Mary Stephens, '52). (10) Janet, daughter of Mr. and Mrs. Orin Zimmerman, '47, (Josephine

Schumann, '47), (11) Kathy Gay, daughter of Mr. and Mrs. Grant Wade, '50, (Gay Nelson, '51). (12) (13) (14) (15) Rusty, twins Stevie and Ricky, and Edward, four sons of Mr. and Mrs. R. J. Wilson, Jr., (Shirley Voights, '47). (16) Susan Carol, daughter of Mr. and Mrs. Robert Crookham, '41. (17) Steven, son of Mr. and Mrs. Ernie Neal, '50, (Ellen Williams, '49). (18) Dona Jo, daughter of Mr. and Mrs. E. A. Mikkalo, '48. (19) Michael, son of Mr. and Mrs. L. S. Michels, '50, (Margaret Anderson, '44). (20) Kathryn Joyce, daughter of Mr. and Mrs. Theodore Pimm, '51, (Maxine Wright, '49).

Future Beaver Boosters

(1) Barbara, daughter of Mr. and Mrs. James Capps, '47, (Mary Jo Cox, '46). (2) Gregory William, son of Mr. and Mrs. Donald Buffington, '48. (3) Wanda Lee, daughter of Lt. and Mrs. William D. Boggs, '50. (4) Jo Anne, daughter of Mr. and Mrs. Nils Edin, '41, (Ruth Larsen, '48). (5) Karen and Betsy, daughters of Mr. and Mrs. Gordon Borchgrevink, '48, (Nancy Carter, '48). (6) Bruce, son of Mr. and Mrs. James Edwards (Mary Ellen Edwards, '54). (7) Charles, son of Mr. and Mrs. Charles E. Painter (Dorothy Erickson, '41). (8) Janice, daughter of Mr. and Mrs. Stanley Christensen, '50. (9) Brian, son of Mr. and Mrs. George Cilker, (Betty Baldwin, '46). (10) Roger, son of Dr. and Mrs. Ervin Jones

(Margie Pierson, '43). (11) Michael, son of Mr. and Mrs. George Dewey, '45, (Nan West, '50). (12) Elaine and Charlotte, daughters of Mr. and Mrs. Robert Iliff, '30. (13) Allen, Mary, and Charles, children of Mr. and Mrs. L. O. Van Blaricom, '38. (14) (15) Bill and John, sons of Mr. and Mrs. John L. Cravath, (Margaret Hardie, '48). (16) Billy, son of Mr. and Mrs. William Alexander, Sr., '49, (Anna MacGillivray, '51). (17) Lesley, daughter of Mr. and Mrs. Ray Howden, '50. (18) (19) Douglas and William, sons of Col. and Mrs. Robert Ruegg, '39, (Evelyn King, '40). (20) Gregory, son of Mr. and Mrs. Derwood Smith (Billie Husa, '43).

From

OREGON STATE COLLEGE

By FRED SHIDELER

It's officially Oregon State College now. The recently adourned 1953 Oregon legislature passed a bill making legal the name that most people have associated with the College for the past two or three decades, or more.

The new legislation will not change much of anything, though it might throw an additional mental block in the way of the few individuals who, in their moments of frustration apparently have been unable to think of anything more contemptuous in their own minds than to hurl the epithet "Aggies" in this direction.

While there will probably be some disagreement, it appears that this is the first time since the College was founded as a state-supported higher education institution by legislative act October 27, 1868, that the official name has been changed.

Corvallis College was incorporated August 22, 1868, but the October action of the legislature specified "that until other provisions are made, the Corvallis College is hereby designated and adopted as the agricultural college in which . . . , etc. The governor approved on October 21, 1870, an act of the legislature providing "that Corvallis College in Benton County is hereby designated and permanently adopted as the Agricultural College of the State of Oregon."

Some may question whether this constituted the official name of the institution or

not, but at the turn of the century and for some time after that Oregon Agricultural College was the accepted name. Somewhat later by more or less common usage it became Oregon State Agricultural College. The word agricultural was frequently dropped from the name in the 1920's and by the 1930's Oregon State College was pretty well used both by students and graduates and by others.

Through the Oregon statutes and in older official records a number of these names of the college undoubtedly appear. But everyone seems to have known that they all refer to what is now officially, by legislative act, Oregon State College.

* * *

Faculty members and OSC alumni have recently been rather prominently in the public eye through their journalistic efforts and recognition of their professional standings.

Dr. Don D. Hill, head of the farm crops department, is author of a brief article on chemical control of grassy weeds that appeared in a Swift and Company advertisement carried in newspapers and magazines nationally.

Dr. I. R. Jones, professor of dairy husbandry, wrote the lead article in Hoards Dairyman, national farm magazine, on what poor hay can do to dairy herds.

A recent issue of Life magazine, in a comprehensive article on traffic engineering and traffic problems, referred to George

Howie, a 1932 graduate in electrical engineering, as "one of the best of the country's traffic engineers." George divided his time while on the campus among the EE department, the Tech Record and the Daily Barometer. Later he entered technical journalism in Portland as a staffer on the Marine Guide and Trade Lanes and then was with the traffic division of the City of Portland for nine years. He is now traffic engineer for the City of Cincinnati, where his solutions for unsnarling motor vehicles has won national acclaim.

Noel Bennion, extension poultry specialist, breaks into print rather frequently in a number of farm publications, including a recent contribution to the Farm Journal. Bob Fowler, '39 in agriculture, incidentally, is now an associate editor of the Farm Journal with offices in San Francisco.

Bob Morse, '47 in education, recently left a promising job on the news staff of the Oregon Journal to go to New York as assistant director of Life's New York news bureau. Russell Sackett, one of Bob's classmates at OSC and now night city editor of the Journal, recently spent a week in New York at the invitation of Time and Life to see how this vast organization's wheels turn. Russ replaced Bob as the Time and Life correspondent in Portland.

Bob Swan, who some time ago joined the Oregonian sports staff after a stint with the

A NEWCOMER.

When Prince M. C. Chakrabhandhu, vice rector of Kaesetsart university recently visited the campus, he presented President Strand with a silver music and cigarette box. When

the cigarette rolls out the box plays a tune. Pictured in the middle is Ralph Beck who is now in Thailand to assist Kaesetsart university in its expansion program.

Cooperative Education

IT MIGHT not be strange, within the next few years, to see Oregon State students and faculty members attending and instructing at a far-off Thailand university.

For with the appointment recently of J. Ralph Beck, assistant director of the OSC extension service, to go to the south Asia university—called Kaesetsart university—a major step was taken in the development of a cooperative assistance program between OSC and Kaesetsart.

Beck was selected by President Strand and approval of his selection came through the Mutual Security Agency, which is sponsoring and financing the program.

By this unique arrangement of educational institutions, an exchange of information and problems and cooperative assistance can be worked out. The arrangement with Kaesetsart will add to the scope of OSC influence in shaping technical, agricultural and forestry programs in foreign nations.

For a background of how this arrangement came about and of Kaesetsart university itself here are facts as presented in an OSC bulletin.

"Last spring the committee on the selection of a Pacific Basin university with which to establish a friendly cooperation, recom-

mended Kaesetsart University at Bangkok, Thailand, to the Faculty Council. E. L. Potter, professor emeritus of agricultural economics, spent a month in Thailand surveying the organization of Kaesetsart and consulting with government and university officials. His report to President Strand and Mutual Security Agency officials prompted the new one year assignment of Ralph Beck.

Beck left Corvallis in mid-April for Washington, D.C. for a week of orientation training and he and Mrs. Beck departed for Thailand by air in late April.

Thailand is about the same size as Texas but with three times the population. It is the principal surplus food-producing country in Asia with rice as a primary crop. Kaesetsart university in Bangkok, Thailand is interested in most of the same fields as OSC with major interest in agriculture, forestry, fisheries and cooperative sciences, and supporting work in engineering and home economics. Beck will assist in the development of plans for physical plant expansion and organizational frame-work for the Thailand "land-grant" university.

At least partly as a result of the interest of OSC in Kaesetsart University, the officials of the University made a survey of its

present status and of its future possibilities and developed a four-year plan for expansion and improvement.

This plan envisions an increase of the University budget in Thai funds from 1,734,625 ticals in 1952 to 3,134,700 in 1953, to 5,477,000 in 1954, and to 8,577,200 ticals in 1955. (A tical is worth about six cents) Proposed increases in the teaching staff, to be added in annual increments, number more than 200 for the four years. Salaries of the teaching staff are very low it was reported.

As counterpart funds from the Mutual Security Agency, the University requested 15,717,600 ticals in 1952, 5,033,000 ticals for 1953, 5,841,000 ticals for 1954, and 1,740,000 ticals for 1955, together with \$135,000 to \$201,150 a year in dollars and foreign purchases. The plan is to obtain increased Thai support as the Mutual Security Agency funds taper off.

Of the 15,717,600 ticals requested for 1952, the Mutual Security Agency has granted to Kaesetsart University 7,150,000 ticals (equal to about \$420,000), a little less than half the quantity requested. But at the same time, the MSA has granted 11,695,000 ticals

(Continued on page 23)

Sports Roundup

By JOHNNY EGGERS
Athletic News Director

DON'T let anyone convince you that springtime serves as a lull period in athletics at Oregon State.

On the contrary, it's the busiest season of all, what with four spring sports teams going full blast—plus 20 days of spring football. Scarcely an afternoon goes by that there isn't some form of athletic activity on campus.

Foremost in the mind of everyone, naturally, are the possibilities of the Beaver baseball team. Everyone remembers so well what happened last year, when Ralph Coleman guided the Orange right into the Western Regional NCAA championship. That came smack on the heels of the northern division and Pacific Coast conference titles. Without doubt, it was the best baseball season in Oregon State history.

We aren't suggesting the 1953 team will follow along the same paths, nor could anyone expect such tremendous success again. After all, Coley lost some of his best men. College baseball players like Dwane Helbig, Don White, Pete Goodbrod and Cub Houck don't grow on trees. And they'll be missed—make no mistake about that.

Even so, the 1953 Beavers are fairly well fortified in most spots. At this writing, just as the team prepared to open conference warfare against Idaho, chief weaknesses appeared to be in left field and on second base. Veteran Danny Johnston could have filled the bill perfectly at second, but came up with an attack of yellow jaundice and was advised to rest all spring. Coleman tried several inexperienced performers at the position, but none came through adequately in exhibition contests.

One possibility was to move Shortstop Bobby Buob to second and Third Baseman Chuck Fisk to shortstop, leaving Sophomore Roy Rothstrom on third. But again, can Rothstrom make the grade? It was certainly worth an experiment.

The job of replacing Helbig in left field hasn't been easy. At press time, it looked as though footballer Jack Pinion had the job sewed up, after compiling a .412 batting average in pre-season games. If Pinion can continue to hit at that gait—and few players can—think what a help it would be.

Remainder of the lineup is fairly well set. Letterman Jay Dean is back again on the initial corner, with Fisk and Buob sure to start somewhere in the infield. We can't say enough about Fisk, and it's all complimentary. As a freshman playing varsity ball last year, he wound up with a .444 average. And in pre-season action this spring, once again it was Fisk who led the regulars, this time with .353. That boy can hit. What's more, he runs those bases like a deer and covers half the diamond defensively.

Capt. Bud Shirtcliff should have his best season yet in centerfield, and look for the Letterman Jim Ruggles to knock in a lot of runs, in addition to handling his right field duties.

Norb Wellman and Bailey Brem, a pair of experienced righthanders, will give Oregon State a fine one-two punch in the vital pitching department. It's a rough assignment for two men to carry the mound load, however, and they may need help from Corky Coleman and Jim Nierman, both of whom dished 'em up for the jayvees a year ago.

All in all, there's room for at least a mild bit of optimism in baseball. Fisk, Buob, Dean, Ruggles, Rothstrom, Nierman and Jack Stephenson are sophomores, and Pinion, Wellman and Coleman still have another year of competition remaining.

It'll take a worthy opponent to beat them—even in 1953.

* * *

Hal Moe's job as track coach presents the really tough situation, and Hal would be the last in the world to complain. With only seven letermen and some inexperienced sophomores, no northern division cinder crown is likely to adorn the Coliseum trophy case this spring.

We can all be proud of individual standouts, however, and Oregon State has several really good ones. Sprinter Marv Brock has always been among the best on the coast and there's no solid reason why he should lose that classification as a senior. And there's Ralph Sutton, the defending Pacific Coast conference javelin champion. He whipped the spear 225 feet in 1952 for one of the best marks in the nation. Another prize prospect is Jim Holmes, the pole vaulter, with an early leap of 13 feet 6 inches to his credit. Certainly Don Chambers can hold his own with the best hurdlers in the conference, too.

Moe lost his best high jumper when Don Thompson was forced out with a leg infection, so the Beavers will be weak there. And also mediocre in the broad jump and

(Continued on next page)

CAN THE BEAVERS WIN THEIR THIRD STRAIGHT NORTHERN DIVISION TITLE?

Capt. Bud Shirtcliff

John Thomas

Bailey Brem

longer distance races. Joe Fulwyler and Dick Duncan are two good discus throwers.

* * *

The tennis situation is a wee bit brighter than track or golf. Coach Irwin Harris was pleased with his club in early matches, but whether the Beavers can do as well against N. D. opposition is another question. As of now, the lineup consists of Eddie Dey, Peter Carter, Bud McCoy, Wayne Leuhr and George Betebeinner, with Jack Pimentel filling in on doubles.

Jim Barratt is in the midst of a rebuilding program in golf and has high hopes for the future. His top men thus far have been Bill Kessinger, Fred Duncan, Bill Sundstrom, Ron Grabler, Roy Strand and Bob Mathis.

JOHN STUBBS DIES

John Stubbs, the man who was hired by the alumni association to conduct the extensive stadium drive for a year-and-a-half, died on April 6 of a heart attack in Milwaukee, Wisc.

Stubbs worked for the American City Bureau organization and was on a job for an architect's firm in Milwaukee. His wife, Edna, will continue to make her home in Berkeley, Calif.

CHARLES MOCKMORE DIES

Charles Mockmore, head of civil engineering at Oregon State, died suddenly April 11 while gardening at his home. He apparently suffered a heart attack.

Mockmore was born in 1891 at Platte Center, Nebr. and was graduated with honors in civil engineering in 1920 from the University of Iowa. He received his professional civil engineering degree there in 1926, his master of science in 1932 and his doctorate in 1935.

Mockmore joined the OSC staff in 1921 and was promoted to assistant professor in 1926, to associate professor in 1929, and to department head in 1933. He was the author of a number of papers in his field and was a member of a half dozen professional societies, serving on the engineering education committee for the American Society of Civil Engineers.

He was married in 1921 to Adriano Corso, who died in 1942. In 1946 he was married to Mrs. Buena Marris, then OSC dean of women. She survives, as do two daughters, a step-daughter, a brother, and four grandchildren.

Leonard Warren, noted Metropolitan opera baritone, sang at OSC winter term.

CONSTRUCTION AND DESTRUCTION

CONSTRUCTION and destruction have been two by-words around the Oregon State campus this Spring. And the words center on the building of a new football stadium and the tearing down of rickety old Bell Field.

As of the press time of this magazine here is the situation of progress on the new stadium.

(1) As of mid-April there was need of \$110,000 before the complete first phase of the stadium is finished. Of this amount \$90,000 is outstanding in pledges and most of this should be collected. Therefore \$20,000 additional is desired by the Stadium Executive Committee from outside sources. Two recent drives aimed at Forestry and agricultural interests have netted about \$10,000 in contributions.

(2) Bids on the seat construction have been called for and in early May the contract is expected to be let. Construction would then begin by the lowest bidding contractor late in May. Seat construction, turfing of the field, should enable the Homecoming Game of November 14 with Washington State to be played. Alumni should remember that the complete first phase of the stadium will NOT be finished by Homecoming time. There will be just as much stadium as there is money to construct it. But, there will be about 25,000 good seats ready for the November 14 football date.

As for Bell Field here is the latest.

(1) Bids for the dismantling of the stands were opened the beginning of April. At that time College officials decided that the bids were too low and that the sale and removal of Bell Field stands would be rebid later in the spring. As the matter stands now the old stands will probably be torn down by summer.

(2) The Bell Field playing area will remain for intramural use and the track around the field will still be used for varsity track.

Due to the illness of his wife and to be near his son, **W. Claude Williams**, '95, has sold his Portland home and moved to Phoenix, Ariz.

Lewis W. Oren, '95, suffered a stroke in 1949 and is slowly recovering at his Portland home at 704 S.E. 29th avenue.

Lester Leland, '95, remarked about the television of the NCAA basketball playoffs in March. He said it was thrilling to have the '95 class tree come into view as scenes of the campus were shown.

'06-'10

R. K. Brodie, '08, was recently made an honorary member of the University of Cincinnati Omicron Delta Kappa, national men's upperclass leadership society. Brodie is vice president of the Proctor and Gamble company and chairman of the University of Cincinnati board of directors.

Died

Yantis—Don W. Yantis, '08, died in March in a Portland hospital. He was 65. Yantis was a druggist in The Dalles for 22 years. After a brief residence in Portland, he moved to Reedsport 14 years ago. At the time of his death he was at the Umpqua Drug company there. Surviving are his wife, daughter, son, sister, and eight grandchildren. Burial was in Salem.

Hofer—Fred M. Hofer, '07, died suddenly of a heart attack on January 24 while visiting relatives at Berkeley, Calif. He had lived in Umatilla, Oregon since retirement last year as construction engineer for Standard Oil. Surviving are his wife and one son.

'11-'15

Edward A. Geary, '15, is again a member of the Oregon legislature. He was first elected to the house in 1948 and last year was elected for his third term from Klamath county. Geary is one of Klamath county's leading ranchers and in the senate he is chairman of the important highways committee. He has served for several years on the state board of agriculture and was chairman for a time.

Ira E. Gillet, '13, and his wife Edith Riggs Gillet are missionaries in Africa.

Mildred Brockman Gehlmann, '15, recently returned from a five month trip to Germany (including side trips to England, France, and Italy) where her husband, John, was on a grant from the U. S. State Department. He helped German teachers of English introduce more American literature into their English courses, which were formerly devoted almost entirely to literature of England.

'16-'20

Mrs. Walter Gerke, '20, (Florence Holmes) is a landscape architect in business with her husband in Portland. The busy Oregon Stater plans gardens for private homes and public institutions and recently modernized an old home for apartments and offices.

J. H. (Butts) Rearden, '20, of Corvallis Feed and Seed company, remembered that he gave the present Secretary of Agriculture Ezra Benson his first agricultural position. Rearden was county

REUNION DAY!

It's getting closer to the annual Reunion Day! The big day for the 50, 40, and 25 year reunions will be Saturday, June 6. At that time the classes of 1903, 1913, and 1928 will gather on the OSC campus for their day of reminiscing. Letters have gone out to each member of these classes and many have indicated they will attend.

1903 CLASS

There will be a noon luncheon for members of the 1903 class. After the luncheon will come pictures and a get-together at one of the class member's home. In the evening will be the annual alumni banquet in the Memorial Union ballroom. Class members coming should reply to Corvallis committeeman Claude Buchanan.

1913 CLASS

Letters of invitation have been sent out by Corvallis Chairman Helen Cowgill to all members of the 1913 class. Replies have been good but there are still many members of the class not heard from. At the reunion the class will hold their luncheon at noon, followed by pictures, tours of the campus, and then the evening alumni banquet in the Memorial Union building.

1928 CLASS

Corvallis chairmen Dean of Men Dan Poling and Dean of Engineering George Gleason are handling local arrangements for the 25 year reunion. General Chairman is Jack Foley. Plans are to have a luncheon, tours of the campus, and the general alumni banquet in the evening.

agent leader on the extension staff at Idaho State College in about 1933 when Benson had just received his master's degree at Iowa State College. He appointed Benson as county agent for Franklin county in southeastern Idaho.

Mrs. Marie E. Pederson, the former Marie Johnston, informed the alumni office that her husband, Dr. John E. Pederson, died December 13, 1952 and that she had moved to a new address at 2520 32nd avenue west, Seattle.

'21-'25

A life member in the Alumni Association is **Wilbur Biederman, Sr.**, '23. He is a postal employee in Jefferson, Wisc. Their address is 1313 Center street, Jefferson, Wisc. The Biederman's son, Arthur, '51, is teaching in the Portland high school system. The Biederman's youngest daughter

is teaching her second year in the Portland elementary schools.

Matt Mathes, '23, Corvallis florist, was recently presented with the Delta Tau Delta, national social fraternity, top award. The distinguished service chapter award was presented at the western division banquet held on the OSC campus in March. Mathes has been active in fraternity work at OSC for the past 26 years.

T. G. Cowgill, '24, was recently selected as manager of the First Federal Savings and Loan company of Albany. He has had much experience in banking matters, having been with the Harrisburg National bank and the Lebanon National bank and later the National Farm Loan association there. His wife is the former **Annette Weatherford**, '23.

Cora Pattison Frick, '25, toured Europe last summer with her daughter. The Fricks were subjected to many of the earthquakes in the Arvin, Calif. region last summer. Their address is Route one, Box 315, Arvin, Calif.

Wayne K. Davis, '23, is president of the Pest Control Operators of California, Inc. He was on campus recently to participate in the Pacific Northwest Pest Control Operators Fourth Annual Conference.

A. B. Clough, '22, is at Arlington, Ore. operating the Chevron Gas Station. He opened the station in 1926. It was reported incorrectly in a previous Oregon State issue that he was a wholesale distributor for Standard Oil company in Tulelake, Calif. **E. J. (Jack) Clough**, '29, is the wholesale distributor living in Tulelake.

Joe Tibbetts, '22 is now at Fort Harrison, Mont. where he is working with the Veterans Administration. Joe met **Earl White**, '22 who is working as the Chief of Advisement and Guidance in the Veterans Administration.

'26-'30

Juanita Jenkins, '26, is chief of the physical therapy department, physical medicine and rehabilitation division of the veterans administration hospital in Oakland, Calif.

Lyle Burnough, '26, has been with the Prudential Life Insurance company in Portland for 21 years.

P. T. Sinclair, '28, was recently advanced to one of the vice presidencies of the Crown Zellerbach corporation. He worked on the staff of the West Linn paper mill from 1944 to 1950, becoming manager in 1947. He then moved up to a San Francisco post, becoming assistant vice president of manufacturing about 16 months ago. As vice president Sinclair will have charge of industrial relations.

A. V. Pullen, '29, was recently promoted to assistant manager of the United States National bank's branch in Grants Pass. Pullen first came to Grants Pass as a chief in 1950. For the past year and a half he has been in the loan division. Pullen first joined the U. S. National in 1927 serving in various positions until 1943 when he resigned to go to California. Four years later he returned to the auditing division and other departments until his transfer to Grants Pass.

Al. W. Moore, '26, retired after 35 years of service from the U. S. Fish and Wildlife Service on June 30, 1952. He is now serving as a consultant to private industry on matters pertaining to reforestation and forest biology "at times when such work does not interfere with hunting and fishing," according to

Hours 7:30-10:30

AL BATES CONTINUES BUSY CAREER

AL BATES, '29, author last month of the story on Alan Coutts, '31, was up to his ears in activities while at Oregon State and the situation hasn't changed in the least for Al since he was graduated. At the present time he is busy with his own office as an independent consultant in the public relations field in New York City.

At OSC Al was president of Sigma Delta Chi, professional journalistic fraternity, and he brought back from the Evanston, Ill. convention in 1928 the only first prize for the best all around chapter the Oregon State unit has ever won. He was also president of Alpha Kappa Psi, won the Barometer editing efficiency prize money for three consecutive terms, was vice president of Phi Delta Theta fraternity, served on the student council, was Homecoming chairman, and participated in many other campus activities.

After graduation he served for five years as executive secretary in charge of the national headquarters of Sigma Delta Chi in Chicago. In 1941 Al joined the public

relations department of Swift and company and was an executive of the company when he resigned in 1945 to become Director of Public Relations of Castle and Cooke, Ltd. in Honolulu.

Al Bates spent four years in Hawaii as chairman of the public relations subcommittee of the joint labor negotiating committee for seven stevedoring and 21 sugar plantation companies in the long series of communist-led strikes.

Later he was called back to Chicago to head the editorial department of Whitaker and Baxter in the campaign against socialized medicine and for voluntary health insurance, after which he moved on to New York City. Then, after doing special account work with existing public relations firms for nearly two years, Al opened his own office.

He is well qualified for his new work because over the years he has directed public relations programs in the meat packing, sugar, shipping, baking, distilled spirits, coal and other industries, in addition to contributing both policy and communications counsel to non-profit operation of various kinds. Much of the work has been national in scope and every type of communication has been used in the work.

Honors have been bestowed on this outstanding Oregon Stater too. He twice won the Wells Memorial Award, voted by the national convention of Sigma Delta Chi for distinguished service in 1938 and in 1945. He is a member of the National Press club, Washington, D.C.; Chicago Press club, Headline club, and the Public Relations Society of America.

Mrs. Bates is the former Dorothy Ann Roost, home economics writer and home economics and journalism graduate of Iowa State College. Al has a daughter, Lynne, age 15; a son, Albert K., six; a daughter, Kathryn, four. Their home is in Wilton, Conn., 50 miles from New York City. Al has a New York office at 162 E. 38th street.

Al. He makes his home at 673 E. Main street in Hillsboro.

Carlie M. Gilstrap, '27, was the recent winner of Portland's Ford Foundation teaching fellowship. She teaches at Jefferson high school. She was selected from the field of candidates who applied for the Ford Foundation fellowship on basis of her record of superior teaching, all of it in the area of social studies, and of the plan of study and travel which she proposes to follow during the next year. The Ford fellowship is designed to do two things—reward the outstanding teacher and focus attention on the first essential of effective education—a broadly educated, intellectually curious, and imaginative teacher. Miss

Gilstrap plans to travel to Washington, D.C.; New York, Boston, Philadelphia at some time during the year but her first interest is a curricular one. She proposes to visit colleges, public schools, seeking the curriculum aids which have not as yet been made available to the mass of social studies teachers in this field. Miss Gilstrap is a member of the League of Women Voters and the American Association of University Women and recently retired as chairman of the city-wide in-service training committee of Portland schools. She is also one of the Jefferson teachers working on the Ford Foundation project for gifted children.

AFFAIRS AT STATE

STUDENTS BUILD COMPUTER

AN ELECTRONIC analog computer that quickly solves complicated mathematical problems is being built by OSC students. Because of its tremendous mathematical capabilities, the computer will greatly speed up teaching programs and let students wrestle with problems that have not been possible in the past because of the time and work involved in solutions. It will also give students another professional career outlet since computer specialists are in heavy demand from industry. When finished the machine will be about the size of an office desk and will have cost about \$2300.

COCKROACHES SERVE SCIENCE

COCKROACHES are serving science at Oregon State in the search for information on how insects develop resistance to DDT. The long life, durability, and ease-of-handling qualities of cockroaches qualify them for use as "guinea pigs" in tracer studies with radio-active DDT. The DDT, once the scourge of the insect world, is now taken lightly by some pests. Flies especially have developed such a resistance that scientists are worried about future prospects. With the cockroaches, the OSC research workers hope to find out what detoxification mechanism the individual insect has or can develop. The work on cockroaches and DDT resistance is a part of an army-sponsored project.

STUDENT BUILDS CAR

A SENIOR student in engineering, Ken Austin, builds much of his automobile equipment in the OSC industrial and mechanical engineering laboratories. Austin has worked out his own auto fuel injection system. He is now building a 1953 Ford-six overhead valve engine to enter in the August races at Bonneville Salt Flats in Utah.

REPTILES, AMPHIBIANS STUDIED

DR. ROBERT STORM, OSC zoologist, is making a study of Oregon's reptiles and amphibian populations. His study shows that Oregon's reptiles include 14 species of snakes, 11 of lizards, and two of turtles. Its amphibians include 12 species of salamanders and 11 of frogs and toads. To date, more than 5000 Oregon reptiles and amphibians are catalogued in the Oregon State College museum of natural history.

BRIGHT STUFF PUZZLING

WHY THE stuff painted on watch hands glows in the dark and why television screens give off light may be two of the many questions answered in a special study undertaken by the OSC chemistry department. Dr. Allen B. Scott, chemistry professor, is studying the mechanisms of phosphors, luminescent materials, under a grant from the office of ordnance research, U. S. Army.

MUSIC SALUTES OREGON

AN ORIGINAL musical tribute to "Oregon, Land of Romance" was held April 15. It was the annual spring concert of the music department at OSC and had more than 350 students participating. Much of the

music and all of the continuity was written by department staff members especially for the concert. The Mutual Broadcasting system has asked that portions of the concert be recorded for national radio release later in the spring.

OSC RECEIVES GRANT

A \$9000 GRANT has been received by OSC from the U.S. state department for planning and preparation of teaching course materials for a proposed foreign food technicians training school. Representatives from the 34 foreign countries receiving Point Four aid from the U.S. would attend. Purpose of the 10 week school is to instruct the foreign food technicians in food preservation and handling methods that can be used to advantage in their home countries.

SPIDERS ARE STUDIED

SPIDERS have been called a lot of things by folks who can live without them, but an Oregon State College entomologist is gaining national recognition for his scientific studies and naming of the eight-legged crawlers. Vincent D. Roth, curator for the OSC entomology department, makes identifications on the species of two North American spider families for numerous museums and institutions. For Oregon, he is building a valuable collection of the different species found in the state. Roth estimates there are probably about 600 different spiders in Oregon. About 300 of them have been named.

THE POLITICIAN'S STONE

DURING this last spring term, OSC's politicians riled up the students and flag-waving and drum beating was carried on in an effort to sway the student vote. In the middle of the campaign a huge stone was placed in the center of the quad. The stone, adorned with political slogans, was deposited in the early morning hours and the next day the campus police and other officials of OSC tried to cart the thing away but they made little progress. They finally informed the party leaders that the stone would have to be removed by the party or the College would charge them for a tow truck to get it off the quad. The stone was dutifully hauled away by the muscle-bound politicians.

THE SENATOR OBJECTS

IT'S LEGAL now after all these years! A bill officially giving the name of Oregon State College to "the State college in Benton county" was passed by the state senate in early April and sent to the governor. The College had never been officially designated as Oregon State College. Senator Richard L. Neuberger of Portland was reported to have said the legislature's action symbolizes a serious question in the field of higher education. He thought that OSC shed the word "Agriculture" from its name because it was raiding the university for additional courses, and did not want such restrictive connotation to its name. As a result, it was said, Oregon State was tending to grow into another university, spreading the tax dollar so thin that there is no money for higher education.

*Bob Armstrong
likes to help people*

Robert B. Armstrong was a graduate biologist when he left Colgate University in 1945. Like most of us, he was searching for his place in the world.

He spent two years in research. But Bob missed people. He wanted to help them personally rather than indirectly. He left the laboratory to look for something else.

Then, one day, Bob had a heart-to-heart talk with an old college classmate. This friend, a New England Mutual agent, pointed out how a career in life insurance offers unlimited opportunities for helping people.

In remembering that conversation now, Bob says: "It became clear that New England Mutual offered the very thing I was looking for—a chance really to help people and at the same time build a successful future for myself. Yes, the life insurance business has been good to me—very good!"

Why not find out for yourself how you can build your future at New England Mutual? Mail the coupon below for a booklet in which 15 men tell why they chose a life insurance career with New England Mutual.

The company that founded mutual life insurance in America—1835

Have you made your new will?

Even if you have had the foresight to revise your will in the light of changing conditions, *is this enough?*

Would the *property* provided by that will produce enough income to take care of your family?

The high level of living costs today means that you need a larger-than-ever estate to "take over" for you.

Fathers, too, are worth more now!

In most cases, life insurance produces more cash than the property disposed of by will. So if *this* vital part of your estate is too small to meet the 1953 living costs of your family—wouldn't it be wise to bring it up to date as quickly as possible?

Get the help of a man who makes the financial security of families and businesses his life work—a New England Mutual agent. He can fit a *flexible* plan to your special needs—using policies whose rates have *not* increased, and which offer liberal dividends as well.

Oregon State College alumni now achieving successful careers as our agents:

Robert L. Parkinson, '23, Modesto, Calif.

Worth B. Babbit, '32, Santa Ana

Frank W. Dedman, CLU, '32, Gen. Agt., Oakland

Charles A. Taylor, '43, Los Angeles

Thomas R. Cantwell, '47, Los Angeles

The **NEW ENGLAND**  **MUTUAL** *Life Insurance Company of Boston*

THE COMPANY THAT FOUNDED MUTUAL LIFE INSURANCE IN AMERICA—1835

They have missed only two years since the war. They live in Portland at 2623 N.E. 65th street.

The former Margaret Zimmerman, '34, is now Mrs. Sam Cross, Jr., living at Box 3167, Carmel, Calif.

Living in Eugene is J. C. (Tex) Carleton, '32. He works for the Western Engineering consulting firm.

Mr. and Mrs. Thomas H. Crawford, '34, now live at 727 West 7th street, Room 822, in Los Angeles, Calif. Mrs. Crawford is the former Bette Losse, '34.

Technical advice on mineral resources development in Colombia and Ecuador will be given to those countries by Joseph F. Harrington, '32, geological survey geologist. He is on a Point Four assignment by request of the two governments. In cooperation with local mineral technicians he will assess the mineralized areas and help determine which of the known mineral commodities should receive first consideration for exploration and development. In addition, Mr. Harrington will aid in the selection of young technicians for in-service and specialized advanced training in the United States. Harrington, who recently joined the geological survey, has served in private industry as an engineer-geologist and conducted mine examinations for the Bureau of Mines. He also served as chief of the mining and geology division at the United States army general head quarters. His publications include papers on Asiatic sources of iron and bauxite and the metallurgy of copper as practiced in Japan. Harrington's wife and two young sons are accompanying him to South America.

International Business Machines Corporation recently announced the appointment of Howard Sargent, '33, as time recording manager in its office here. He previously was a sales representative in Salem. Sargent joined the company in 1935. He served in Portland and then in the Salem office until his present promotion. Sargent has qualified four times for membership in the IBM annual sales honor organization, the Hundred Percent Club.

Gordon A. Finlay, '35, is chief of personnel, U. S. Navy band in Washington, D.C. His address is 4602 Hillside Road, S.E. Washington, D.C.

Cash M. Beardsley, '33, landscape architect for the Seattle park department, recently won a prize of \$500 for the general landscape design for the new Children's Orthopedic Hospital in Seattle. He collaborated with another park planner to garner first prize.

Fremont McComb, was recently promoted to assistant forest supervisor on the Malheur National Forest.

Dr. Lee Mellish, '34, is a dentist at Medford. His address is 402 Medical Center building. He has two children ages seven and 11.

'36-'40

Claire Tittle, '39, is a general contractor in Tillamook, Ore.

Robert W. Root, '38, is in the state legislature as a representative from Jackson county. He is vice chairman of two committees—rules and state and federal affairs—and as a member of the powerful ways and means and taxation committees, he is one of the busiest of all legislators. Away from the legislative business Root is in partnership with his brother as a fruit packer and running an orchard.

Homecoming!

Homecoming on next November 14 should be the largest celebration of returning alumni and students. That will be the date of the dedication of the new football stadium and the Homecoming Game with Washington State.

Please mark the date of November 14 on your calendar right now. We'll have 27,000 seats to fill up so there will be plenty of room for everybody.

Mark Corwin, '39, president of the OSC alumni association, now lives in Portland. He recently received an advancement in the Burrough's Adding Machine company. Mark formerly lived in Eugene.

Ernest Dunnavin, '40 lives in Cottage Grove. His address is Box 468 B.B. Rt. He wrote: "I especially enjoyed the February issue of the Oregon Stater. I will surely pass it along to any prospective Beaver that I might see."

Lt. Col. Charles E. Welsh, '36, wife, Charlotte Redfield Welsh, and family are now located at 601 Grant avenue at Fort Leavenworth, Kan. Colonel Welsh is an instructor at the Command and General Staff College.

L. O. Van Blaricom, '38, is Associate Food Technologist at The Clemson Agricultural College in Clemson, S.C.

Robert Beardsley, '39, is now associated with the Douglas Abstract company in Roseburg. The Beardsleys have three children, Patricia Louise, seven; Mary Ann, five; Robert D., three.

Col. Bob Ruegg, '39, wife (Evelyn King, '40) and four children are living at 409 D. street, Wright-Patterson Air Force Base, Ohio. Colonel Ruegg is chief of the aircraft laboratory. Last fall he attended Harvard business school, advanced management practice course, and is now scheduled to attend the next class at the Industrial War College in Washington. They will move again in August.

Colonel Joe Dillow, '39, and his wife, the former Judy Griswold, are now in Baltimore, Md.

Robley Butler, '39, was recently appointed assistant manager of the Port Angeles division of the Crown Zellerbach Corporation. He was formerly technical supervisor of the Port Townsend division and prior to that was located at Ocean Falls, B.C., Canada.

Mrs. R. L. Weber (Mary Belle Beswick, '40) is a homemaker and teacher in Hamilton, Calif. Her address is Box 643, Hamilton air force base.

Born

Sandoz—Evelyn Margaret Sandoz was born March 2 to Mr. and Mrs. Emile Sandoz, '39 (Margaret Stevenson, '38). She is their first daughter and third child. They live at Santiam Junction, Ore.

Sandoz—The first son and second child of Fred Sandoz, '40, and Pauline Barto Sandoz, '45, was born February 28. He was named Fritz Eugene.

'41

Mr. and Mrs. Nils Edin now live at 2008 Stewart in Medford. Mrs. Edin is the former Ruth Anne Larsen, '48. Nils works as a log buyer and cruiser for Alley Lumber company.

Margaret Jo Roach was recently appointed as county extension agent-at-large in 4-H work. In her new capacity she will revise all 4-H club publications, bringing them into modern and up-to-date values. Miss Roach has formerly been research assistant with the OSC food technology department since 1946. She has had considerable experience in writing, having prepared newspaper and radio material, magazine articles and bulletins for the food technology department. She is also public information chairman for Benton county chapter of the American Red Cross.

Mrs. Dorothy Davolt Ingle, wife of Elmer Ingle, '42, of Corvallis, received a broken collar bone, severe bruises and shock in an automobile accident that occurred in Portland recently. Her daughter, 16 month old Susan, was fatally injured in the crash and another daughter, Marilee, six years of age, was critically injured but has recovered. Mrs. Ingle's aunt was also killed in the crash of the Ingle car with a Portland Traction company bus. The bus reportedly hit the Ingle's car broadside, pushing it across the street and into a pole. Mrs. Ingle's aunt was on the side of the car which took the full force of the impact and was dead on arrival at the hospital. Susan died about an hour later. An emergency operation was performed on Marilee, whose abdomen was pierced by some sharp piece of metal.

Lt. Col. R. E. (Bud) Vandervort, '41, was recently an ROTC instructor at Ohio State in Columbus, Ohio, but was then transferred to Loyola university last summer. His home address is 1561 Stonewood Road, Baltimore, 12, Md.

'42

The Don Woodens moved to 215 East View Ridge Drive in Everett, Wash. Don is working for the pulp division of the Weyerhaeuser Timber company. He is working on the design and construction of a new kraft pulp mill. The Wooden's son, Mark, will be two in May.

A letter to the alumni office from Isabel Roper Millington announced that they have a second child. His name is Richard Seth and he was born May 6, 1952. He is just beginning to walk. The Millington's daughter, Nancy, will be four in August. Isabel said they had a visit last summer with Harry Dick and his wife Betty (Anderson, '44). The Millingtons hear occasionally from the Vince Jessups, '43. (Virginia Garland) and Kay Seber Sears.

The Robert H. Bauers live at Garden Home near Portland. Mrs. Bauer is the former Audrey Lamb. They have a daughter, Nancy. She was born March 5, 1952.

Mrs. M. L. Fisher (Betty Jean Adam) lives at 3554 S.E. Steele, Portland, 2.

Born

Rauch—John Richard Rauch was born September 21, 1952 to Mr. and Mrs. August H. Rauch of Spanaway, Wash. They also have a daughter, Janie, eight years old and three more sons, Joe, six; Mark, five; and Jimmy, two.

This is a model of Azalea House, the women's cooperative living dormitory which is now being built on lower campus. The building will be of the latest designs and comforts and

will be ready for occupancy by 60 girls in fall term. Money for the house was raised by women's extension groups all over Oregon.

Things are different—up there!

You would be amazed at the tricks nature plays in the stratosphere

As aviation progress has carried man farther into the upper air, he has found that nature has many tricks up her sleeve in the stratosphere. Many things that worked well on the ground wouldn't do as well, or failed completely, in the space beyond the clouds. Things are truly different up there.

CARBON BRUSHES ARE AN EXAMPLE—These brushes are the contact points that carry electricity between moving and stationary parts of motors and generators. They're in electric razors, sewing machines, huge diesel locomotives—and in modern aircraft.

THEY COULDN'T STAND ALTITUDE—Today's high-flying planes require literally hundreds of small electric motors and many carbon brushes. Here was one of nature's quirks, for brushes which worked well on the ground and at lower altitudes couldn't take the thin, dry air of the stratosphere. They'd spark and quickly disintegrate. And if the brushes failed, the motors also would fail.

UCC FOUND THE ANSWER—The people of Union Carbide attacked this problem. Through research they developed special carbon brushes that worked uniformly well at all altitudes, making stratosphere flying a practical reality.

OTHER AIDS TO FLYING—Better carbon brushes that keep motors and generators running, alloy metals that stand the terrific heat of jet engines, plastic insulation for high-altitude wiring, and oxygen that provides the breath of life in the upper air—these are but a few of the many UCC products that are helping aviation reach new heights.

STUDENTS and STUDENT ADVISERS: Learn more about the many fields in which Union Carbide offers career opportunities. Write for the free illustrated booklet "Products and Processes" which describes the various activities of UCC in the fields of ALLOYS, CARBONS, CHEMICALS, GASES, and PLASTICS. Ask for booklet C-2.

BEAVER BOOSTERS

ALUMNI in California turned out to see the Beaver baseball team in action on their southern tour during spring vacation. The western regional champs will try for their third straight northern division championship this year. Pictured below are Mr. and Mrs. Jay Leedy, '12, of Sacramento, Calif.; (Second picture left to right) Herb Van Valin, Jim Clements, Jack Savory, Leo Tormanen, Rook Coach Paul Valenti, Jim Jenks, Stewart Warren, Ray Snyder, Doug Pederson (hidden), Bill Cloyes, Ernie Palfrey. Botom picture is of Mr. and Mrs. H. C. Seymour.

Rosemary Richartz recently returned from Europe where she had been touring for five months before going to Casablanca, North Africa, where she has worked for the past year.

Will Wyatt is working for a contractor in Everett, Wash. in the construction of a kraft pulp mill.

Beth Shipley is now living at 2298 Green street in San Francisco, Calif.

Fred W. Linton is now in Omak, Wash. He is with the national Boy Scout organization and serves a large part of the State of Washington, including Grand Coulee Dam and the new Chief Joseph Dam at Bridgeport. His address is P.O. box 166 in Omak.

Mr. and Mrs. Carroll Hermanson are now living at 309 Edgewood avenue in Pittsburgh, Pa. Mr. Hermanson has been busy in his engineering work. He is a hydro-electric erection engineer. The Hermansons have been traveling through the South and have been as far as Havana, Cuba. They expect to be stationed in Fort Randall, S.D. in the near future.

Francis R. Shoemaker was recently promoted to associate electrical engineer and transferred to the San Francisco-Oakland bay bridge. He now lives at 401 Yale Avenue, Berkeley, Calif.

Hal Puddy is now city engineer and water superintendent in Hood River. Puddy is married and has a young daughter and son.

Vern Townsend is sales manager for International Harvester and has an irrigated farm near Winchester, Wash.

Lt. David L. Keller of the Air Force began a 12 months course in industrial administration on March 16 at the U.S. Air Force Institute of Technology, a branch of the Air Force university at Wright-Patterson air force base, Dayton, Ohio. Dave is the son of Gene Keller, '21, and Mildred Hurd Keller, '23, of Vancouver, Wash.

Mr. and Mrs. E. A. Mikkalo (Shirley Jean Morri-

son) own and operate a wheat and cattle ranch near Mikkalo, Oregon.

Milton Easton is employed by the Publishers Paper company of Oregon City. Milton and his family are living in Rockaway where he is assistant forester in charge of the company's Rockaway operation. He has two children: John, 4½; Janine, two. Their address is P.O. Box 336, Rockaway.

Born

Adams—On March 22 Mr. and Mrs. Ed Adams (Zelta Wieman, '50) became the parents of a five pound 11 ounce daughter. Her name is Debra Dawn.

Underwood—Mr. and Mrs. B. H. Underwood (Betty Stevenson, '46) are the parents of Gayle Elaine. She was born January 12. The Underwoods live at Box 185, Molalla, Ore.

Brough—Jonathan Edward was born September, 1952 to Mr. and Mrs. Lloyd Brough (Joann Richartz, '48) of St. Helens, Ore. They have an older son, Michael, who is three years old.

Paulson—Born September 7, 1952 was John Robert to Mr. and Mrs. Oscar I. Paulson, Jr.

Died

Hyslop—John Joseph Hyslop was killed recently in Portland at the Southern Pacific train yards when he was struck by a switch engine while he was working as a mail dispatcher. He was born on January 12, 1923. The war interrupted his schooling at OSC and Hyslop served as a quartermaster in the navy, seeing action in the Normandy invasion. After his discharge he returned to Oregon State. After graduation he went to work for Weyerhaeuser Timber company of Longview, Wash., as a chemist. Survivors include his mother, three sisters, two brothers, four nephews and four nieces.

'49

Robert A. Moore has been stationed in England. His address is Hq. and Hq.Sq. 20th A.B. Gp.; APO 120, P.M. New York, N.Y.

Ray Larson's address is Rt. four, Box 456, Snohomish, Wash. He saw the Beaver basketball team play U. of Washington in Seattle.

David Bates is going to law school at Willamette U. this year.

Dave White is working for the Monroe Dairy Machinery company as a special sales representative to dairymen. He says he sees Walt Crouse, '48, and Bill Ousterhaud quite often. Dave has three children, Laurie, Brian, and Wendy, and lives at 1649 Beverly Drive in Grants Pass.

Al Rosenfeld is now Al Ross having legally changed his name. Al returned from Korea last July and is now attending UCLA and working for his masters degree in education and a California general secondary teaching credential. While he was in Korea Al served in the same division with Dave Lofts, Dick Lamb, and Duane Roisen. Al said he saw Jack Rawlins who lives in La Habra, Calif. and works for Line Air Products in Los Angeles. He also ran across Jim Mason, '50, and his wife the former Grace Tittle.

Mr. and Mrs. Robert M. Applegate, (Barbara Farnsworth) are now living at 3207 Shorewood Drive, Mercer Island, Wash.

Mrs. Clay Walker (Donna Washburn) recently presented a debut concert at the Episcopal church of St. Matthew at San Francisco. She has spent the last four years in intensive musical study and plans to go to New York for further training.

Married

Larsen-Wadsworth—Velma Jane Larsen and Jack B. Wadsworth were married recently in Portland. The couple will make their home in Portland.

Buckingham-Denham—Married on Valentine's Day at the First Methodist church in Pasco, Wash.

MOST of the estate of Robert Johnson, long-time president of the First Corvallis bank, will go to provide research and other advancements in the field of agricultural economics at OSC it was announced recently. Johnson died March 23 in Corvallis at the age of 96.

Johnson's will was admitted into probate court with the value of the estate set as "over \$30,000." The will directs that the net income annually be used for "the purpose of promoting and encouraging study, research and investigation in the field of agricultural economics and allied subjects by qualified and worthy graduate students at Oregon State College."

A committee of the president of the College, the dean of the school of agriculture and the cashier of the First Corvallis bank will determine the method of distribution in the various fields of study and select the graduate students to carry out the work.

was Hazel Buckingham and Milo R. Denham of Pasco.

'50

Jack T. Richartz is now in the armored field artillery division of the army at Camp Roberts. He hoped to be home on furlough in April.

Clifford Dean Smith is a resident engineer at the sewage disposal plant in Pasco, Wash.

Warren Staton is reported to be working with the U.S. army engineers in Germany.

Dick McCoy has been with the First Marine Division in Korea. He is a medic in the navy.

Pete Darlington is stationed in Korea. His address is Lt. L. E. Darlington, Jr., 60th Trans. Trk. Co., APO 301, Postmaster, San Francisco, Calif.

Joe Devlin now lives at 649 Princeton, Ontario, Calif. He recently returned from French Morocco.

A new address for John Schmid is county 4-H club agent, Enterprise, Ore.

Lt. Robert E. Soden has been stationed with the U.S. Army Engineering Corp at Fort Leonard Wood, Mo. His wife, Norma, and two daughters, Roberta Dale and Mary Beth, are with him.

Sometime in his life,
almost every man
dreams of being a

BIG LEAGUER

"WANT the regular, Mr. Cunningham—medium on the sides and clipper in back? Fine. Would you mind holding your paper up for a minute so I can get this cloth set? There, that does it.

"I see you're reading about Skipper Drake, too. He's doing all right for himself, isn't he?

"Sure, it's a lot of money. But I guess Skipper is worth it. He's the best hitter in the league and a terrific drawing card.

Guess the club can well afford to pay him eighty thousand a year.

"Maybe you didn't know it, Mr. Cunningham, but I used to play a little baseball myself—thirty, thirty-five years ago. Did it for fun, mostly. But I always had a kind of sneaking ambition to get on a big-league team. You know—play my way to fame and fortune and all that.

"Never made it, though. It's like that with a lot of kids, I guess. You dream of being a big leaguer or a great inventor or a captain of industry or something—and then you wind up just doing a job.

"It used to worry me that I wasn't on my way to being a millionaire. And after I got married and started raising a family I tried to figure out all kinds of ways to make a heap of money in a hurry.

"A little more off the top? Why sure, Mr. Cunningham.

"You know Ted Barrows, the New York Life agent down the street? Yes, I guess, most everybody in town does. Well, Ted's the man who set me right about the whole thing, back about twenty-five years ago. He was in here one day, in this same chair, getting a haircut just like you, and we got to talking about exactly this sort of thing. 'I'll tell you,' Ted said to me, 'What really counts isn't how much money you make, but how much security and peace of mind you buy with what you do make.'

"Well, one word led to another, as they

say, and before long Ted Barrows was back here showing me how, just by putting the price of a few haircuts into life insurance every so often, I could set up a fund for my family in case I died and at the same time start building something for my own old age.

"I guess the reason I'm telling you all this is that the other night Marie and I finally decided to sell the shop and move to the little place up in the country where we've been spending our vacations. It's nothing fancy, but it'll do—especially with our daughter married and young Joe working in Chicago.

"No, I never got to be a Skipper Drake or anything like that, but I figure I've done pretty well for my family and myself over the years, at that.

"Haircut look all right to you? Thanks very much, Mr. Cunningham—and come in again. I'll probably be busy fishing, but the new man will take good care of you."

FEW OCCUPATIONS offer a man so much in the way of personal reward as life underwriting. Many New York Life agents are building very substantial futures for themselves by helping others plan ahead for theirs. If you would like to know more about a life insurance career, talk it over with the New York Life manager in your community—or write to the Home Office at the address below.

Member Federal Deposit Insurance Corporation

An income tax auditor is Tom Hooker. He and his wife live at 2589 North 5th street in Salem.

John Howard is an engineer in Portland. He and his wife live at 2415 NW Johnson.

With the Western Engineering Consultant firm in Eugene is Eugene Schaudt.

Dick Spady is now working for the Commerce Investment, Inc. in real estate sales department in Portland since his release from active duty with the Air Force in November. He lives at 1315 S.W. Salmon, Apt. 317, Portland.

With the Southern Railway system and stationed in New York is Jim Hagen. His address is 500 Fifth Avenue, New York City. Jim said he has visited Red Rocha when Red plays basketball with his Syracuse team in New York.

Jack Osburn is living in Winchester, Wash. His address is general delivery, Winchester.

Lt. George I. Dague's address is care of the USS Juneau (CLAA 119) Fleet Post Office, San Francisco, Calif. George has been on the Juneau since August, 1952. He had been on the USS McKean but it underwent repairs and a conversion so George was transferred to the Juneau in Japan. His three years duty will be completed in June and he will be eligible for release to inactive duty. Lt. Dague has accepted an offer with Western Electric company as a field engineer when he is released.

Working in Portland for Electrical Products Corporation in their accounting department is Barbara Nelson Wolfe. Barbara was married November 2, 1952 to Phillip C. Wolfe of Lewis and Clark. They live at 1607 S.E. Bybee Blvd., Portland.

First Lt. Ralph Klingbeil and his wife, the former Shirley Reynolds, are living at 6 West Road, Saffron Walden, Essex, England. Ralph is the air installation officer for the 20th Fighter-Bomber wing. Ralph has been in England since April. They expect to come home in the fall of 1953. They have taken a long leave which included travel to France, Italy and Switzerland. Ralph says he "would be glad to hear from any Staters in England." His address is 20th Installations Sq., APO 120, Postmaster, New York, N.Y.

Larry Getgen recently left for Japan for a three to nine month tour. He is with Western Electric Company. He had been stationed at Long Beach, Calif. for 20 months.

Mr. and Mrs. Robert Steagall (Marjorie Johnston, '51) recently bought a home near Albany. Bob is employed by Montgomery Ward. Their address is Route 1, Box 328 D, Albany.

Ted Gump was recently honored at a ceremony at Vancouver Barracks when he received the Bronze Star medal for heroic achievement in connection with military operations near Puhung-ni from June 20 to July 16, 1952. First Lt. Gump had returned from military duty with the Corps of Engineers in Korea. The citation relates the action as follows: "Late in June, Allied infantrymen surged up Hill 183 and secured a vital vantage at the very crest of the hill. Following this action, violent and incessant counterattacks jeopardized the strategic gains. To consolidate these positions, a supply route, which travelled through the exposed valley at the base of the hill and up the treacherous rock strewn slope, was improvised. Lieutenant Gump supervised his men in the hazardous task of expanding and improving this vital supply and evacuation route. Confronted by volley on volley of hostile artillery, mor-

FROM OREGON STATE

(Continued from page 8)

United Press in Portland, was author of a recent special series of articles in the Oregonian on Pacific Coast Conference athletic finances. Phyllis Watt, research assistant in fish and game management and a specialist in mink before the pelts get into coats, has written a number of trade journal articles in this field. Many other faculty members have had technical articles published, but this is merely a sampling of how Oregon Staters are expressing themselves.

* * *

Three faculty members have recently been honored through regional or national appointments. Dr. Burton Wood, head of agricultural economics, was named as one of 14 members of a national agricultural advisory board by Secretary of Agriculture Ezra T. Benson and has already made two trips to Washington, D.C., for meetings. He also was recently made vice chairman of the Western Agricultural Research Council.

Dr. John M. Swarthout, head of political science, was elected president of the Western Political Science Association at its meeting in Los Angeles in March. Dr. Swarthout will be at Stanford next year on leave to accept a Ford Foundation grant.

Dr. Earl W. Wells, head of the speech department, was selected as president of the Western Speech Association at its Los Angeles meeting early in April. Don Lacey of Corvallis, senior in education, won the Pacific coast oratory championship at this same meeting.

tar and rifle fire, Lt. Gump and his men were often forced to seek momentary cover; flood conditions further complicated their mission. Time and again Lieutenant Gump furnished the leadership which inspired the men in the completion of their mission. The improvements which were incorporated in the road facilitated the supply of the fighting men and evacuation of the casualties. The heroism under fire displayed by Lieutenant Gump on this occasion reflects great credit on himself and the military service."

Ted Case is now working for the R.M. Wade company in Portland. They handle irrigation equipment and farm implements.

Bill Oleson is teaching industrial arts at Glide high school, coaching junior varsity basketball and is now coaching the baseball team.

Roald Bjerke is teaching physics and biology at Coquille high school. Another Oregon Stater teaching there is Clifford Ingram, '52.

How Much Do You Want To Earn?

Opportunities for an outstanding and successful career as a representative of the Sun Life Assurance Company of Canada, one of the ten top-ranking life insurance companies in North America, are now open to alert, ambitious men of personality and character, ages 25 to 40. The Sun Life, established in 1865, invites you to give serious consideration to the excellent prospects offered by this professional career of public service.

- Expert training • Immediate income with commission and bonuses •
- Generous hospitalization and retirement plans •

The Branch Manager of the Sun Life office serving your territory will gladly discuss with you the advantages of a Sun Life sales career. For a complete list of the Company's 100 branches in the United States and Canada, write the Head Office, 218 Sun Life Building, Montreal.

COOPERATIVE EDUCATION

(Continued from page 9)

(about \$680,000) toward agricultural research. Other grants include 7,655,000 ticals for irrigation, 3,500,000 for cooperatives, 3,000,000 for agricultural extension, 1,000,000 for forestry, 1,000,000 for fisheries, and 1,000,000 ticals for livestock development. The total MSA grants now in effect toward these projects (but not including any military aid) are 36,000,000 ticals or about \$2,100,000.

Kaetsart University is under the Ministry of Education, whereas agricultural production is under the Ministry of Agriculture. Hence the University benefits directly in the amount of \$420,000 and only indirectly in the other grants. By agreement, however, part of the training of forestry, irrigation, cooperative, extension, and agricultural officers is to be at Kaetsart University; and increased cooperation is expected in the future.

The University already has in its 1952-53 budget 1,760,000 ticals for an auditorium, 1,500,000 for land purchase to extend its campus area, 1,000,000 for research development, 250,000 for a rector's residence, and 100,000 ticals for a girls' dormitory. Income of at least 2,000,000 ticals is expected from a forest grant. Other income is from the national government and from gifts some of which are partly solicited.

Because of the low cost of building the MSA grant will make possible a biology building, animal science building, agronomy building, a dormitory, cooperative dining hall, classroom building, residences for staff (rent is high), and several other campus improvements, in line with the recommendations of OSC's Professor Potter.

J. C. Chakrabandhu, vice-rector of the University, who recently visited Oregon State's campus, is very optimistic over the prospects of the University. He stated that OSC's interest in their school has been no small factor in the favorable developments of the past few months.

Born

Bjerke—Joanne Patricia was born March 18 to Mr. and Mrs. Roald Bjerke of Coquille. Joanne weighed five pounds eight ounces at birth. They have a son, Danny, who was two years old in December.

Oleson—A boy, Robert Charles, was born in October, 1952 to Mr. and Mrs. Bill Oleson. They have three other daughters; Betty Ann, six; Susan, five, Kristine, three.

Case—A daughter, Sharon Lynn, was born January 21 weighing six pounds 15 ounces to Mr. and Mrs. Ted Case (Caroline Helton, '49).

Married

Farrell-Knight—Married March 21 in Sweet Home was Colleen Farrell to Truman Knight.

'51

Mr. and Mrs. John T. Holmer, Jr., (Nancy Carol Brown) live at 1711 S.W. Broadway in Portland. Jack is an engineering draftsman and Nancy works as a secretary.

Floyd Fisher is proprietor for Fisher Distributing

his wife travel over the states where George assists company in Portland. He and his wife live at 676 N.E. Fargo.
