Risser: New Job a Cover Up!

Recently Paul Risser announced that he would be leaving OSU for a job as chancellor at the Oklahoma State System of Higher Education. Yep, he is supposed to even get a 100,000 dollar raise. Sounds a lil bibble too good to be true. When was the last time you learned of something great that Paul Risser did for OSU? What would make the OSS of HE desire Mr. Risser so damn much? One of our secret sources informed us that the Oklahoma State System of Higher Education doesn't even exist. According to our source Paul Risser actually was secretly forced to resign because of miss use of funds.

Apparently Mr. Risser was redirecting funds from the new janitorial system. About three months ago OSU began hiring the mentally challenged to clean the many buildings on campus. Ever since this time Paul Risser began stealing money from the janitorial funds shorting the mentally challenged paying them only pennies an hour. Total over a few months Risser managed to milk the mentally challenged for nearly 700,000 bucks.

Risser wasn't exactly keeping his cool. About two and a half months ago Risser purchased a new home in Hillsborough California. This four bedroom five bath nook is next door to Jerry Rice and across the street from WWF's The Rock. Before Risser was busted, last week, he was scheduled to show off his new castle on the hill on MTV cribs.

According to our source Risser feels no regret. After striking a deal with the school he was able to keep his new house and his reputation as a good guy in trade for his resignation. OSU has pulled the sheets over our eyes again. Risser is stealing from retards and still he gets a break. Next time you see Paul Risser on campus ask him to let you barrow ten bucks.

WHERE ARE THEY NOW?

AC Slater-

don't know his real name, but this superstar of Bayside High's wrestling squad was one tough cookie. Known for calling his friend Zack Morris a 'preppie,' AC co-hosts his own talk show with some dude who looks like a fucked-up aging Bud Bundy. The show is called the "Other Half." It is a replica of the "View" with Barbara Walters and company, but supposedly made for guys....Umm yeah, right. AC is the next Sally Jessie Raphael. He traded his hardcore, babe-magnet bod and greasy locks for a cup of Darjeeling tea with goats milk and a part in his hair.

Still smokin that PCP?... it will make you stupid man. Now let us get to the point. I don't know about you, but my heroes were never given a chance to shine in the light of a 'where are they now' story. Like Bruce Springsteen says- these are the glory days. Not the days of your prime, but what you have built for yourself throughout the course of your career. Exactly what have my heroes done for themselves after giving me inspiration and making the world a better place? I wanted to get to the bottom of this- and everyone knows that the dope dealer drives the Mercedes Benz. A Pogo Ball is a thing of the past, but it was cool and you know it.

LeVar Burton-

classic Star Trek TNG material. Resume also includes years upon years as the Reading Rainbow guy. When they discontinued TNG, LeVar was jailed for attempting to steal the thing he wears over his eyes and threatening to eat the producer like a hot-dog. It was a real ugly scene that day at the studio. He loved those glasses to death. LeVar was diagnosed with a mental illness stemming from an overload of children's books. A spokeswoman for the hospital where he now resides says he has the mental capacity of a 6 year old. LeVar has lost some of his privileges because he has twice taken tin foil from the kitchen and tried to make the glasses he loves so much.

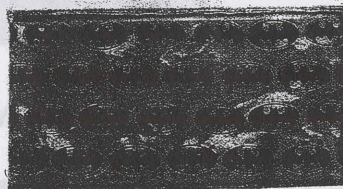

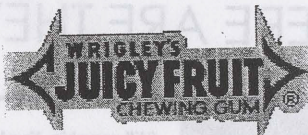

Bubble Gum Test

Buying gum is hard. With so many choices of clever packaging and inventive flavors, one might get overwhelmed by deciding which bubble gum brand will best please their chompers. This intensive bubble gum taste test might help you out a bit.

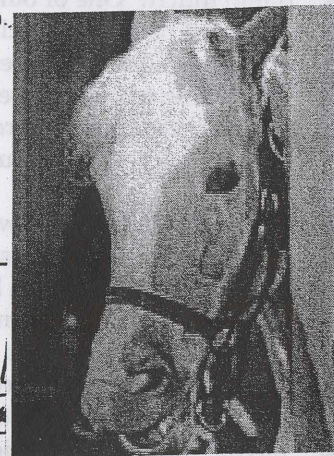

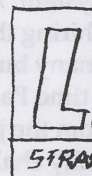

Juicy Fruit:

New packaging didn't win me over. Juicy Fruit has that invigorating fruity taste that's gonna move you, but you'll soon me moving towards the trash can because that great taste disappears in seconds and leaves you with uninspired taste buds.

Mr. Ed-

A talking horse that starred in a TV show long ago. Wasn't much of an actor, but loved to eat carrots.

A great reward for having to deal with that Wilbur guy. Mr. Ed passed away in 1973, but his legacy lives on today. He is glue. There you have it. You have been brought up to date... aint no thing but a chicken wing, baby. I've had my bowling ball for years, and it still works.

Fruit Stripes:

This shit sucks. I actually took two different stores to find this crap, but this one hasn't fooled me since the 3rd grade. Fruit Stripe's intoxicating tang is very short lived.

Carefree Koolerz's Berry Splash:

Tasty with lasting flavor, but the best part of this gum is that it matched my skirt today. My skirt looks good, and the gum tastes

Bubblicious Twisted Tornado:

Nothing twisted about this bubble gum treat. Bubblicious has obviously mastered the art of bubble gum. Its clear Bubblicious is the best. I don't even know why I wasted my 2 bucks on testing all the other gum anyway.

Ponce de Leon-

UR HEAD

founder of St. Augustine, the oldest city in the US. Was searching for the fountain of youth and found it. 512 years old, is now living in Duluth, MN. Makes his living working at a bowling alley bartending. He loves Ricky Martin and Enrique Iglesias, and won't stop wearing his Spanish conquistador hat.

Letter to The Underachiever:

So I've been an Underachiever reader since your prototype issue and I think you guys kick ass. Your zine provides some much needed comic relief to this craphole in which we live. So what is my problem? Well, what I want to know is, since when did the UA become like "the Man Show" or something? Your last issue was funny as always, but at the same time, TOTALLY lame from a woman's point of view. ESPECIALLY your "tight"

quiz. What was that all about? From balls to bitches, jerkin off to porno, sweaty pussies and checking out your sister in the shower...how the hell is a chick supposed to take/rate herself on that lame "for dudes only" quiz? Some advice guys: send your love and respect out to the ladies because y'all know you would've killed yourselves a long time ago if none of us were around. Here's my version of your quiz. Have fun with it.

-2-5

You are not a dope chick, but the worst part is you think you are. You talk the talk, but you don't walk the walk. You may be seen wearing tube tops in November just to show your headlights or six inch spike heels to class thinking you get a slo mo entrance everywhere you go. You carry your longboard to school because it matches your purse and you love, and I mean really LOVE the guy from Everclear. You were probably really popular in high school but now you shop at Hot Topic. You might even be that one sorority girl with dreads. Sorry, but you just don't make the cut.

5-10

You're not a dope chick, but you aren't necessarily trying to be either. You're okay with following the crowd because you probably don't have a mind of your own which isn't really your fault. You go through life as a passive observer, thinking what people tell you to think and wearing what Cosmo tells you to wear. You might listen to Christian rock in your car or have been known to date a few frat boys in the past. You probably order a non-fat sugar-free caramel latte at Starbucks every Sunday, and you wear a diamond ring on your left hand for you and your boyfriend's six-month anniversary. You're destined to be a soccer mom with cheesy bumperstickers on the minivan. Dope chicks look at you and say "Thank God I'm not her"

10-15

You are a dope chick. You probably kicked at least one guy in the balls when you were a kid. You're not afraid to pee outside and you can burp as loud as the next guy. Your outfit looks like a million bucks but it came from the Folk Club thrift store. You probably have a few gnarly scars from trying something really ballsy and you've tried to run over frat boys in your car. You've never been to the Peacock and you don't drink any kind of fruit-flavored beer. When you walk down the street, guys bow down and say "We're not worthy!" And any guy that doesn't can kiss your ass cuz you're a dope chick

Movie Reviews

Jackass

I am not much of a movie buff, but I do know when I see something I like. If you're looking for a good movie to take your girl to your problem is solved. Jackass. This humorous film is not really much of movie. Theirs no real beginning middle and end its more like collection of funny shit that the censors won't let us see on cable TV. With a new enormous budget the Jackass kids put on an amazing display of stupidity mixed with comic genius. First seen Johnny Knoxville rents a car, enters it into a demolition derby, and then returns it to the rental company absolutely destroyed. After explaining he can't pay for the damage Johnny makes a break for it and runs outta the place. I got the bottomless bucket of popcorn but didn't dare leave in fear that I would miss some funny shit. Some of the movie is a bit more on the disgusting side.

And 1 Mix Tapes volume 5

If you like things that represent the next level in entertainment, you'll most likely enjoy this video to the fullest. However, if you didn't pass the "are you tight quiz" in the previous edition of The Underachiever, I highly recommend that you either eat shit and be tight, or take your Bugle Boy wearin' ass back to the Pita Pit to avoid this mix. This movie contains 56 minutes of some of the most unimaginable and creative moves you can do on a basketball court. With underground stars like Skip to My Lou, 50, and Sik Wit It, the game of basketball is turned into an art form filled with eye bending ball handling skills and elusive shit talking. With a collage of hip-hop ranging from wak MC's like Killer Mike to the legendary Alcoholics, this street ball influenced video takes you on a mix that will make you wanna impress your friends the way your new basketball hero's impressed you. This tape's hotter than Arizona Rooftops. You'll find it sitting in your local Blockbuster Video far away from the gay porn section right under a sign that says your tight.

One of the Jackass kids makes a snow cone flavored with his own piss. After eating almost the entire double scoop you get the added bonus of watching him puke up his urine time after hilarious time. In truth this may have been the best \$6 I have ever spent.

It could have been the St. Pauli Girl I downed just before I went, or the chronic I smoked on the way there that made it so good, but what ever it was it left me watching the credits wishing for more. This is a must see for anyone who likes to laugh and your girlfriend is going to fucking love it. But be warned, stay on your toes cause after seeing this your devious friends will be scheming for the perfect opportunity to unexpectedly slap you or push you into some unsuspecting person on a bike.

8 mile

Ok everyone that hasn't seen this movie already thinks its just another way for Eminem to make a buck. I cant really tell if that's the truth but I can proved you with a little bit of insight as to what this movie is about and some unexpected extras. The movie costars fine Brittany Murphy, Kim Basinger who looks pretty good herself, Mekhi Phifer, and of course Eminem. Its about a poor white rapper who through his good friend Future, played by Mekhi Phifer, finds a way to free himself from the cell bars called his life. The movie soundtrack has some new joints from Eminem but doesn't forget the classics like Mobb Deep and Biggy. A surprise cameo from Xzibit spices things up a bit. And who can forget sexy Alex played by Brittany Murphy. This little hussy heats up the screen with her whore like antics that keeps "Rabbit", played by Eminem, guessing. I recently saw Brittany Murphy on MTV's TRL. To get to the point I think in real life she's an idiot. Eminem spits some pretty tight rhymes throughout the film reminding you that this cat really can rap. All in all this film is pretty good but if I where you I would wait till it comes out on DVD. Who needs to spend their money on 8 mile when you could go see the new Steven Segal movie with Ja Rule and Kurupt. Now that's money well spent.
