FOOTBALL

1934 Season

OREGON STATE

Carl A. Lodell, graduate manager.

Lon Stiner, head football coach.

Schedule, Dates of Ticket Sales, Prices

| DATE | OPPONENT | PLAYED AT | PRICE (Including Tax) | | ALUMNI PREFERENCE CLOSES | PUBLIC SALE OPENS |
|----------|------------------------|-------------|--------------------------|-----------|--------------------------------|-------------------------|
| | | | RESERVED | GEN. ADM. | | |
| Sept. 22 | Willamette and Pacific | Corvallis | | \$.75 | * | * |
| Sept. 28 | San Francisco | Corvallis | | \$1.10 | * | * |
| Oct. 6 | Stanford | Portland | \$2.20 | \$1.50 | Sept. 22 | Sept. 24 |
| Oct. 12 | Columbia | Corvallis | | \$.75 | * | * |
| Oct. 20 | Southern California | Los Angeles | \$1.65 | \$1.00 | Oct. 6 | Oct. 8 |
| Oct. 27 | Washington State | Pullman | \$2.20 | \$1.10 | Apply to Washington State | |
| Nov. 3 | Washington | Seattle | \$2.20 | \$1.00 | Oct. 20 | Oct. 22 |
| Nov. 10 | Oregon | Portland | \$2.20 | \$1.50 | Oct. 20 | Oct. 22 |
| Nov. 17 | Montana | Corvallis | | \$1.10 | * | * |
| Nov. 24 | U. C. L. A. | Los Angeles | \$1.65 | \$1.10 | Nov. 10 | Nov. 12 |

* General admission only.

Norman (Red) Franklin, Oregon State half and all-American last year.

Reserved seats are on sale for the games with Stanford, Southern California, Washington State, Washington, Oregon and U. C. L. A. Oregon State College alumni should apply for tickets to the games with Stanford and Oregon direct to Carl A. Lodell, 104 Memorial Union, Corvallis, Oregon.

General public applications for the games with both Stanford and Oregon should be addressed to Multnomah Civic Stadium Ticket Office, Portland, and remittance made to Multnomah Civic Stadium Association.

Both alumni and general public applications for the games with Southern California, Washington State, Washington and U. C. L. A. should be mailed to the Football Ticket Departments of these institutions.

Mail applications as early as possible.

The President Speaks

OREGON State College stands at the opening of another year of service. Progress has been made during the past twelve months. Under the wise leadership of Chancellor Kerr, the various units in the state system of higher education are gradually settling down to an ordered and amicable relationship. Slowly the sharp edges of prejudice and misunderstanding are being worn away, and alumni and faculties of the institutions, and the people of the state are coming to think in terms of a state system of higher education—a unified organization functioning as an organic whole for all the people and all the interests of Oregon.

The action of the state board last January in appointing presidents of the different educational units was pre-eminently wise. This, with other actions, apparently indicates a settled policy on the part of the board to recognize, as far as may be, the individuality of the various units in Oregon's educational system, the values inherent in true college and university spirit.

The spirit of an educational institution is a time-ripened product—a blending of the hopes, aspirations, ideals, friendships, efforts and accomplishments of students, faculties, alumni and friends. It is a dominant, vitalizing force. In proportion as the spirit is great, the college is great. But freedom is the essence of the spirit's growth. If the spirit of Oregon State has languished in the past few years, it is because of the restraints which it has suffered. As limitations are removed, as freedom is restored, the spirit of Oregon State expands to its opportunities and to its responsibilities. There is nothing, if I interpret present tendencies correctly, to indicate that this institution will not be in position to render the State of Oregon, and the students therein enrolled, a degree of service equal to that which it rendered in the period of the state's greatest prosperity. Oregon State faces the new day with confidence. In these times when industrial and social systems long established are being placed on trial—when it is apparent that many changes are inevitable—if the stability of our time-tried institutions is to be maintained, Oregon State college has a great and a serious work to perform.

When I use the term "Oregon State College," I am meaning the college in its broadest sense, I include the faculty, the student body, the alumni, and the friends of the institution. The alumni can be assured that there will be an enlarged student body on the campus this coming year. It is my privilege to challenge the alumni of this college to join in spirit and in action with faculty and students in making effective as never before the great spirit of service of Oregon State College.

GEORGE W. PEAVY.

JIM MOE, '36

Before his death on August 19 as a result of an automobile accident, Jim Moe prepared the copy of this issue of the Monthly. In the passing of Jim, Oregon Staters have lost an enthusiastic, vibrant force that personified the spirit of present-day clean-thinking college youth. Always happy and cheerful, always full of pep and enthusiasm, always genial and cooperative, always active in O. S. C. affairs, Jim—the fourth Oregon Stater in his family—will be greatly missed by hundreds of his friends.

THE OREGON STATE MONTHLY is the official publication of the Alumni Association of Oregon State college. Published monthly at Corvallis, Oregon. "Entered as second class matter, October 6, 1926, at the post office at Corvallis, Oregon, under the act of March 3, 1879." Yearly subscription \$3.00. Single copies 25 cents each. Office 111 Memorial Union Building, Corvallis, Oregon. Member of Graduate Magazines, Ltd., Berkeley, Calif.

ANEROID

*This is no more than winds may tell
But this is the way to know its spell.*

*Rimmed round with minarets of snow
Higher than mountain goat may go,
And cupped in hollows still and void,
Deep sleeps the mystic Aneroid.
Its dawns are like dim wells of sleep
With exhalations sweet and deep;
Its noons are drowsed with tropic gold;
Its twilights slow, and faint and cold:
Its midnights sapphire diadems
Set thick with argent trembling gems.*

*In summer's blare or winter's hush
Here is neither noise nor rush,
Only the torn leaves on the lake
Betray the devastating wake
Of summer thunder storms that mass
Their cannonades above the pass;
Or dropping slowly from the height
In winter's slender noon-day light,
Only the feathered snowflakes speak
Of blizzards raging o'er the peak.*

*Serene behind her barricades
The wild swan cruises in the glades,
But in her cruising scarcely seems
To stir an echo of the dreams
That shimmer softly, half awake,
Above the calm empurpled lake,
Where glacial turrets, ghostly tall,
Turn giddy in their mirrored fall
From topless heights of windy feuds
Into these blue infinitudes.*

*Encircled by Blue Mountain walls
A-whisper with white waterfalls,
By neither storm nor stress annoyed,
Deep sleeps the mystic Aneroid.*

—Edwin T. Reed.

Newest Pool

Recent Turn in Education Proposes Alliance to Meet Pedagogical Inclinations

TODAY'S best thinking on social and educational problems was well represented at the Conference on Higher Education at the University of Oregon July 11-14. Among the speakers were Dr. F. J. Kelly, Chief of the Division of Higher Education, Washington, D. C.; Dr. F. L. Hovde, Assistant Director of the General College, University of Minnesota; and Dr. G. W. Frasier, President of Colorado State Teachers College. Called by President Boyer and planned and conducted by committees of the university faculty, the conference was regional in scope in respect to attendance and national in respect to theme and point of view. A considerable representation from Oregon State College attended throughout the conference, at one of the sessions of which Dean U. G. Dubach presided.

Dr. Kelly at the closing session characterized the conference as "something of a new venture in higher education, to bring together institutions to pool their ideas about meeting the present situation. No similar conference has been held."

Speaking on "Present Educational Trends," Dr. Kelly emphasized four principal trends, as follows:

"(1) Education is becoming more **student** minded and less **subject** minded. The interest of the teacher is now first in the student then in the subject. Very complete historical records of students beginning as far back as the seventh grade are used in many personnel programs. Instruction is being individualized in connection with honors courses. The student must assume responsibility in the learning process. Syllabi for each course are becoming common as guides to study, the student being placed on his own responsibility for mastering the field outlined. Courses are being increasingly based on student interest. Examinations to an increasing extent are being prepared by committees of specialists rather than by the instructor. It is curious that in American educational practice this has been virtually unknown, whereas in Europe examinations have always been given by others than the instructor. It is significant that the University of Chicago, the University Examiner is also Dean of Students. This arrangement represents a very important

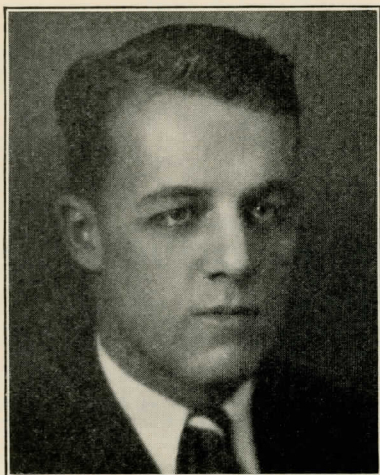

correlation of aims indicating the trend to emphasize the student rather than the subject.

"(2) Education is devoting increased attention to preparation for meeting social needs. There is more social science instruction. Enrollments in social science classes have doubled. Social sciences are being more closely related to social activities. In social science classes undergraduate students are assigned first-hand studies to be pursued on the ground—that is, off the campus, in actual situations. Teacher training curricula places increased attention on social science."

In introducing his next Trend, Dr. Kelly paid a special tribute to what has been done in Oregon to acquaint high school students with the opportunities in higher education.

"(3) Higher education is broadening the basis of its selection of students. There is a definite trend to admit high school graduates without specific requirements other than assurance of fitness to pursue college work. There is a vast increase in popular desire that students of college age shall have training suited to their needs. Colleges in the past have never touched more than a small fraction of those of college age. The future is likely to demand that a much larger proportion of youths of the ages 18 to 25 shall have the benefit of training suited to their needs. If the colleges fail to provide suitable training, it seems likely that it will be provided otherwise. An example of training very different from what colleges furnish is that of the C. C. C. It is probable that the program that will serve these college-age youths will be a combination of what the colleges and the C. C. C. can contribute. There is no more important problem in American life than this problem of youths 18 to 25 years of age.

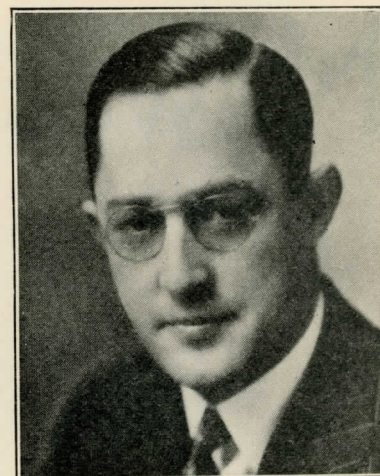

"(4) Education is practicing more rigid economy. Essential to these programs of economy is the development of coordinated systems of higher education. These include not only state-supported institutions but in at least two states

Dr. F. L. Hovde, Assistant Director of the General College, University of Minnesota.

Dr. C. V. Boyer, President, University of Oregon.

Dr. G. W. Frazier, President, Colorado State Teachers College.

privately supported institutions also. An example of the new developments taking place in the coordination of institutions which in the past have been not only separate but actual rivals is the cooperative curriculum between Yale and Harvard by which a student in the Yale law school spends his first year at Yale, his second year in the Harvard business school, and his third and fourth years again at Yale, receiving his degree from Yale."

A new type of college directed to a new objective was the subject of Dr. F. L. Hovde of the University of Minnesota, in his address on Minnesota's General College. This new college is a beginning in an effort to serve the needs of the thousands of young people who graduate from high school with a desire for more schooling but who lack the "scholar" objective. "They come to college," said Dr. Hovde, "to acquire friends, social polish, and a thin veneer of knowledge—they want answers to questions, not to answer them themselves." Traditionally the academic world has considered such students intruders. Universities and colleges

that sent them home in large numbers were regarded as showing a high standard of academic values.

A new philosophy of education, according to Dr. Hovde, is making a place for such students—not in the same classes with the "scholar" type of students nor in the same courses of study, but in courses specially planned to meet different needs. It is recognized that these students can be made happier and better citizens if they receive continued education.

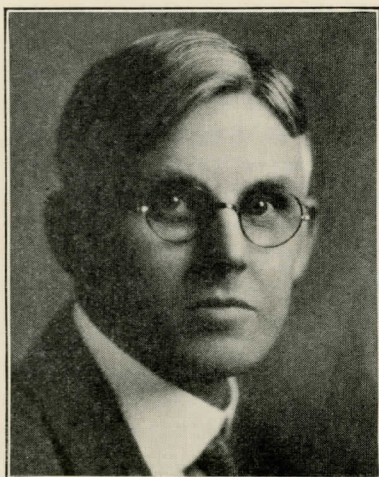

"Present trends suggest a long period of schooling for youth," Dr. Hovde said. "Machines have created leisure and have created the need for 'training for living,' to make rich and fruitful the hours of days of leisure. Our citizens must be taught to be good citizens. In place of the success motive must be substituted more altruistic motives. The General College seeks to realize the abilities of students, to recognize that students' attitudes are more important than what they know. The aim is general education rather than specialized education."

President G. W. Frazier of Colorado State Teachers College, speaking on "Achieving Social Objectives in Higher Education," declared:

"The American college must reshape its purpose to meet the needs of a changing society—

- "(1) Through careful selection of students. The college should leave the high schools entirely free to shape their own curricula. Entrance requirements need readjustment.
- "(2) Through recognition of the aim of the junior college as general education, the field of the senior college as that of providing major work in a field rather than in a subject, specialization in a subject to be at the graduate level.
- "(3) Through great teachers. Teachers with broad general education plus intelligent specialization.
- "(4) Through able administration. A college president can make or break an institution.

(Continued on Page 10)

Dr. F. J. Kelley, Chief, Division of Higher Education, U. S. Office of Education. These four educators were the principal factors in the regional educational conference held at Eugene in July.

Higher Education to September 1

FINANCIAL problems and the annual election of board officers, together with a number of routine matters occupied the attention of the state board of higher education at its regular meeting of July 23. As there was no scheduled meeting for August there have been no official developments of importance since that time though a number of committees of the board and the regular administrative officers of the system have been busy with many matters during the vacation period.

The committee previously appointed to search for a new chancellor has presumably been active this summer though at the July meeting had no report of any kind to make. Following the regular meeting the members of this committee consisting of President Willard Marks, B. F. Irvine, E. C. Sammons and Lief Finseth met and discussed privately the procedure to be followed.

State Education in Jeopardy

Meanwhile much of the attention of the members at the meeting was given to a detailed and vigorous report on the financial dilemma facing Oregon higher education as outlined by Chancellor W. J. Kerr. Chancellor Kerr re-emphasized statements he had previously made that higher education is facing a financial crisis the magnitude of which many connected with the institutions themselves do not fully realize.

"It is not for us to decide what the state can afford for higher education, as that is the province of the legislature," declared the Chancellor, "but it is our duty to report to the Governor, the legislature and the people what the institutions must have if they are to continue to exist and render the service for which they were created.

"The time has come that the people must know that higher education in this state is in real jeopardy. With this knowledge they will not, it is hoped, permit continued discrimination against education in comparison with other governmental functions."

It was necessary for the board to take definite action at this meeting regarding the askings to be made of the coming legislature, inasmuch as the biennial budget and report to the governor is due soon. The chancellor had prepared detailed figures on prospective income as compared with the rate of outgo on the present level of expenditures and with possible restoration of previous salary cuts. In presenting these detailed financial studies to the board, Chancellor Kerr reviewed the trends in higher education and pointed out the responsibility of administrators for keeping the service abreast of the changing needs of the people while carrying on with the economy as dictated by general economic conditions.

The millage support for the institutions in general, and the college and the university in particular, has been drained away in three major particulars the chancellor pointed out. First, in order to compensate for the former direct appropriations made by the legislature for medical school, normals, extension and research work, the two major schools have contributed out of their former normal millage income. The amount thus contributed will total over the two bienniums \$1,843,372.57. Secondly, the system has suffered the loss of \$508,000 of the remaining millage money which was diverted to other state purposes by the legislature. Finally, the yield of funds under the millage laws has been reduced through lowered tax valuations by \$1,057,940. This is comparing the 1929-31 millage with the prospective yield in the coming biennium 1935-37.

Continuing his outline the Chancellor showed that operation on the present restricted basis has been made possible only through the use of accumulated reserves which have now all been budgeted for the current fiscal year. Thus if the operation of the institutions be contemplated on the same basis as for 1933-34 there is still a deficit in prospective income of \$797,366 for the biennium even with no salary restorations. If the half million diverted two years ago is restored by the legislature this deficit is still \$289,366. The chancellor pointed out the desirability and even the necessity of restoring, partially at least, the salary cuts. If these were half restored additional money to the extent of \$604,234 will be needed even if the half million of millage is restored.

Salary Restoration Urged

After listening to Dr. Kerr's presentation the board went into executive session to discuss the situation with the finance committee and decided to submit the biennial budgets to Governor Meier on the basis of operating the institutions at the same level as for the current year 1934-35. As preliminary budgets submitted by the institutions were already in excess of this amount some paring down was necessary following the meeting. No definite statement was made regarding the position the board would take on salary restorations but some talk was heard to the effect that the board would insist at least on the same treatment accorded other state departments. If salaries are restored in other departments it was held that certainly the higher educational institutions should not be discriminated against.

The annual election turned out to be a perfunctory affair when all present officers were re-elected, President Willard Marks being nominated by B. F. Irvine,

(Continued on Page 10)

Rare Books to Have Own Room

ABROUSING room for Oregon State booklovers, finished in Jacobean style with leaded windows and paneled walls in Oregon walnut, will be available on the mezzanine floor of the library building when college opens. The new McDonald room is named in honor of Mrs. Mary J. L. McDonald, donor of the \$10,000 McDonald collection of rare books as well as of the special funds to be used in remodeling and furnishing the room.

Along the inside wall will be open shelves containing works of English, American and other writers for the free use of those who visit this room, while at the end of the room in cases with glass doors will be older books bound in the style of a century and a half ago.

The room has been designed to fit the needs of those who wish comfort and relaxation while enjoying these volumes. A heavy rug will cover the floor. Comfortable chairs and small tables will be placed about the room while in the center will be a larger table with accompanying chairs. Near each upholstered chair will be a floor lamp. The main lighting system will be indirect with brass fixtures of antique finish done in Jacobean design. Planning and furnishing of the room has been supervised by Miss Lucy M. Lewis, director of libraries, and Miss Mildred Chamberlain, associate professor of clothing, textiles and related arts.

McDonald Room Created

The McDonald room with its notable collection fills a special need of the campus—a beautiful place for reading beautiful books. The new room appropriately supplements the excellent study and reference facilities of the state college library. Other changes in the library have taken place during the past two years that greatly aid the work. The library system at Oregon State college centralizes all major work in the main library, with no large departmental collections in the various schools or buildings on the campus. Departmental libraries are limited to small working collections. The organization in the main library is divided into four distinct divisions: order department, cataloging department, circulation department, reference department. While not a separate department, the periodical and continuations work is in charge of the assistant librarian, who correlates this work with the order and reference departments.

The reserve book collection has been segregated in a separate room on the

Home Atmosphere Will Surround Editions

Donated by Mrs. Mary J. L. McDonald to College

Library; Comfort, Relaxation to Be Tone of Furnishings

first floor of the library, under the supervision of an assistant in the circulation department. This has proved a very satisfactory arrangement, both in organization and public service.

The reference department is in the main reading room. Thus centrally located it has taken on many of the duties of an information desk, with a consequent increase in reference questions over the previous year. Two rather extensive new projects have been completed in the reference department this year. The catalog of the serial holdings of the library has been transferred from book form to cards, making it accessible now to faculty and students, whereas formerly it was a staff tool only. The subject periodical list, previously kept on sheets, has similarly been replaced by a card index, making a very valuable bibliographic tool for both the public and the library staff.

Another important project has been a revision of the plan of filing of maps collected and catalogued by the cataloging department with a view to making the maps more accessible. The increased work in the Graduate Division has necessitated the issuance of more stack permits. Only 400 stack permits were issued during the years 1932-33, while during the past two years 3,742 have been presented for entrance. An assistant is stationed in the stacks to direct and help faculty and students in finding material.

With reorganization of circulation and reference departments during the past two years, minor building improvements have been made in loan desks and chutes for returned books. First floor rooms formerly occupied by other institutional divisions were equipped for the order department and for enlarged quarters for the cataloging division. With the removal of the college museum from three basement rooms of the library building, newspapers and documents are now located in one large room, the duplicates in another, mending of books and binding preparations in a third.

The library of Oregon State college is a unit in the system of centralized control for the libraries of the institutions of higher education in Oregon. This system was established by the board of higher education in 1932, with

the central office of the system located on this campus.

The director of libraries also acts as librarian at the state college and on each campus a librarian is in charge. The director is responsible for the policies and organization of the different divisions of service, approval of improvements, and preparation of budgets in cooperation with the librarians. The librarians on each campus are responsible for carrying out the general policies and studying the needs of the students and faculty. Formerly only the university and the state college had library budgets, based upon needs presented by the librarians, but now each library has a definite budget and each librarian works on a planned and controlled budget.

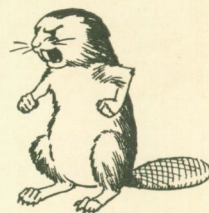

The central order department, functioning for the six campuses, was established with a staff less than the combined former order department staffs of the libraries of the university and the state college and performs also the work for the normal schools. This central department has eliminated possible duplication in ordering. Duplication is further lowered through the interchange of reserve books. Considerable numbers of books needed for reserve purposes within the institutions for periods of from one to six months were idle the rest of the time. The books are now put to work for a longer time by lending them as needed on another campus. In addition to interchange of reserve books, there has been an appreciable increase in inter-library loans of other books. The aim of the unified library system as established by the board is to make all the books of the several libraries, as property of the state, together with the expert services of all the library staffs, available to the fullest extent possible to the students and faculty on every campus.

Mr. and Mrs. Paul V. Maris and daughters Lucile and Pauline left Corvallis the latter part of July enroute to Washington, D. C. Mr. Maris has been director of extension work at Oregon State college for a number of years, but this year has been employed by the government in the national capital. The family will reside in Washington at least for the summer.

SPORTS

By Chuck Buxton

FOOTBALL

When Lon Stiner, Oregon State football mentor, greets his 1934 gridiron squad of some 40 or 50 husky young men early the morning of September 15, opening day of fall football practice for Pacific coast conference colleges, he will have only a week to begin solving problems in football that would give a coach of greater years plenty of grey hairs. The youthful Mr. Stiner however probably will start his second year at the helm of the Oregon State college football machine with much the same vigor that brought the Orangemen from the football doldrums of 1932 to second place in the Pacific coast conference last year.

That year of experience will stand Coach Stiner in good stead this fall for his Orange warriors will travel from one end of the Pacific coast to the other and in the brief space of 10 weekends play 11 contests. Seven of these games will be Pacific coast conference tilts while two of the four non-conference engagements will be of major proportions.

Double-Header Scheduled

After a double-header against Pacific university and Willamette university just a week after practice starts, the Orangemen will play on successive weekends the following "big time" elevens: San Francisco university, Stanford, Columbia university of Portland, Southern California, Washington State, Washington, Oregon, Montana, and U. C. L. A.

Finding capable man power will be one of the most important factors in Oregon State's drive to cope with this "killing" schedule. Under Coach Stiner last year the Orangemen became famous for their "iron man" tactics. It is highly improbable this year however that eleven men could stand up for long under the constant pounding of nine of the Pacific coast's major elevens on successive weekends.

Not only that but graduation and the three-year rule have played havoc with the "iron men"—taking six of the eleven who rose to immortal heights in holding Southern California scoreless at Portland last fall. Those gone are Vic Curtin, end; Tar Schwammel and Harry Field, tackles; Vernon Wedin, guard; Pierre Bowman, half, and Hal Joslin, fullback.

But to make matters even more gloomy for Coach Stiner an even half dozen of the first string alternate lettermen also have been lost. They are Don Wagner, tackle; Bill Keena, guard; Willis Danforth, center; Russ Acheson and John Biancone, quarters, and Mush Dunkin, half.

Lettermen Listed

The "iron men" of the returning lettermen are Woody Joslin, end; Bill Tomscheck, guard; Clyde Devine, center; Hal Pangle, quarter, and Norman Franklin, halfback. Other lettermen are Bill Jessup and Maynard Schultz, ends; Dan Mitola and Stan McClurg, guards; Willard Jarvis and Toad McIntosh, halves, and Arnold Heikenen, fullback.

Biggest needs of Coach Stiner right now is enough player-power for the 11-game schedule; a pair of first-string tackles and alternates; a first-string right or running guard and alternate; player capable of alternating with Franklin at left half; a first-string right half and alternates, and a fullback who combines offensive and defensive prowess.

On paper the Oregon State football situation by positions stacks up as follows:

Left end—Woody Joslin, who won his spurs as a sensational sophomore right end with the "iron men" last fall, but was shifted to the left side of the line because of his defensive ability; John Casserly, transfer from Pasadena junior college; George McSheffrey, transfer from Los Angeles junior college, and Milton Campbell, reserve last year.

Left tackle—Earl Hall, transfer from Los Angeles junior college, a 224-pounder, who was the find of spring practice; Ernie Bearss, reserve two years ago; Bob Rushing, reserve last year, and Claire Bentley, transfer from Glendale junior college.

Left guard—Bill Tomscheck, one of the "iron men" who played sensational ball last season until hurt near the end of the season; Dan Mitola, two-year letterman, who also can play tackle and end, and Stan McClurg, one year stripe wearer, who plugged the breach left by Tomscheck's injury last fall.

Center—Clyde Devine, 6 foot 6 inch pivot star of the 1933 season, who is

better known for his "iron man" play during the whole season and his part as the top of the pyramid play devised by Coach Stiner to block place kicks, called the "Devine Dive"; Ned Myall, a freshman two years ago; Ken Deming, star freshman tackle last year, and Jack Pitts, reserve last fall.

Right guard—Melvin Beatty, 161-pound newcomer, who has been given the inside track for a first-string berth; Jack Woerner, transfer from Sacramento junior college, and Edwin Strack, hard-hitting sophomore.

Right tackle—Hal Brown, reserve last year, who had an edge on other tackle candidates in spring practice; Ray Scott, promising reserve; John King, reserve two years ago; John Brandis, made-over freshman fullback, and Don Fisher, sophomore possibility.

Right end—Maynard Schultz, letterman, who was first stringer until hurt early in the season last year; Bill Jessup, letterman, considered one of the best pass receivers on the squad; Dudley Nelson, sophomore, and Hub Tuttle, freshman star last year.

Quarterback—Hal Pangle, two-year veteran, who is considered by Coach Stiner as the most underrated player on the Pacific coast; Ray Woodman, freshman star last year with possibilities as a fine field general; Clayton Crawford, transfer from Eastern Oregon normal.

Left halfback—Norman Franklin, all-American left half as a junior last year, who can do just about anything in the way of offense and is a real defensive star; Willard Jarvis, one-year letterman, who was out last year with injuries; Bob Patrick, reserve quarter last year, who has promise as a ball packer, and Hugh Edwards, transfer from Monmouth Normal.

Right halfback—Toad McIntosh, two-year letterman left half, who was shifted to right or blocking half in spring practice; Tommy Swanson, promising sophomore; Edward Makela, reserve last year, and Bill Patrick, reserve last year.

Fullback—Arnold Heikenen, two-year letterman, who shines on offense but is none too strong on defense; Dick Joslin, 185-pound sophomore, who may step into the first string, and Wayne Valley, heavy but inexperienced reserve from last year.

Colonel Patterson

Patterson Called to Fort Slocum, N. Y.

Several changes have been made during the summer in the military staff stationed at Oregon State college. Colonel William H. Patterson, who has completed his fourth year here as commandant of the student R. O. T. C. on the local campus, was assigned to the over seas recruiting depot, Fort Slocum, New York. Lieutenant-Colonel Charles Thompson, recently on duty at Philippine military headquarters and temporarily on duty at Ninth Corps Area at San Francisco, will relieve Col. Patterson as professor of military tactics and science.

Major F. W. Bowley, associate professor of military tactics and science, was called to the war college at Washington, D. C. Major Bowley has been on duty at Oregon State for six years. Major William Spence, recently of the cavalry division of El Paso, Texas, will relieve Major Bowley as officer in charge of the field artillery section.

Lieutenant Jones, '32, who has been stationed at Oregon State for four years is on a leave of absence and will depart from San Francisco for the Philippine Islands. Another arrival to the staff is Captain L. M. Riley, who has been on duty at Fort Leavenworth, Kansas, for two years. He will be an instructor in the field artillery section of the R. O. T. C.

Miss Nye to Help Relief Administration

Miss Claribel Nye, state leader of home economics extension, left for Washington, D. C., where she has been called by the federal emergency relief administration to serve for two or three months as technical adviser on home projects. Miss Nye is one of a number of specialists in their fields who have been "drafted" by the government to assist in various phases of the recovery program within the last few months.

During Miss Nye's leave of absence from the extension service, Mrs. Mabel Mack, '28, home demonstration agent in Jackson county, will come here as

Campus Review

acting state leader and will continue the co-operation with the state relief committee, which includes supervision of the non-mechanical phases of the extensive relief canning program.

George O. Gatlin Resigns College Post

George O. Gatlin, extension marketing specialist at Oregon State college for more than six years, has resigned effective October 1 and will leave Corvallis about the middle of September with his family to visit for a time at his home in Kentucky. He has not announced his future plans. Gatlin has also served as secretary-treasurer of the Oregon Cooperative council since he came to Oregon State college in February, 1928. During his tenure at the college, Gatlin has assisted in organizing or reorganizing approximately 120 cooperative associations and has had an important part in the growth and efficiency of the cooperative movement in Oregon.

A.A.U.W. Announces Fellowship Awards

The Committee on Fellowship awards of the American Association of University Women announces the following Fellowships for 1935-36: the Sara Berliner research and lecture fellowship, the Margaret E. Maltby fellowship, Latin-American fellowship, Alice Freeman Palmer Memorial fellowship, Dorothy Bridgman Atkinson fellowship, Mary Pemberton Nourse Memorial fellowship, Anna C. Brackett Memorial fellowship, Alpha Omicron Pi fellowship, Fellowship Crusade National fellowship, A. A. U. W. Fellowship Crusade International fellowship, International Senior fellowship in arts, Spanish fellowship and International Residential scholarship at Crosby hall.

Applications and recommendations for these fellowships must reach the secretary of the committee on fellowship awards, not later than December 1, 1934. Anyone wishing to obtain more information concerning these fellowships may do so by writing the secretary of the committee on fellowship awards, 1634 I Street N. W., Washington, D. C.

Relief Fund to Be Increased

Due to an increase in the quota from 10 per cent to 12 per cent of the full-time student enrollment, from 500 to 1000 additional young persons will have a chance to go to Oregon colleges and universities this fall under the state emergency relief administration program and through efforts of the state relief committee.

The work relief program at Corvallis for Oregon State college students will give financial assistance to approximately 224 students, as compared to 187 last spring. Amounts available to each student must not average more than \$15 per month and must be earned at the rate of not less than 30 cents per hour.

The work to be done will be determined by the institution but must be socially desirable in character and valuable to the college and to the community. It will include clerical, library, research, ordinary labor and special projects of various kinds, but will not absorb the duties of any employee or any activity provided for in the college budget or in the regular routine of operation. In other words, the purpose of this employment is to encourage needy qualified young people to attend college.

Scientists Honored by Redlands University

An honorary degree of doctor of science was granted to Dr. Roger J. Williams, professor of chemistry at Oregon State college by the University of Redlands where he took his undergraduate work 20 years ago. His graduate degrees are from the University of Chicago. The work of Dr. Williams in the organic chemical research field has resulted in important discoveries, culminating a year ago in his announcement of the discovery of a new growth detriment which he called panthothenic acid because of its universal occurrence in nature.

Dr. Williams has been carrying on research with yeast and related substances for years, mostly supported by private funds and grants from the national research council. Last year his paper, presented before the American Chemical society meeting in Chicago, created somewhat of a sensation in scientific circles.

Doings of Beavers

Sacramento Club Holds Dinner Dance

The Sacramento Valley Region Oregon State Club members and their friends met for their semi-annual meeting with a dinner dance at the China Tea garden in Sacramento. President John Spurlock presided at a short business meeting at which time the following officers were elected for the coming year: Kent Walker, '27, president; George Jessup, '20, vice-president; Joe Schlegel, '25, secretary-treasurer. George Jessup, Joe Holmes, '21; Dana Frame, '19, Kent Walker, and Joe Schlegel were appointed on the social committee.

After singing several pep songs and introducing new members present an enjoyable evening was well started. Old friendships were renewed and new ones formed as the pleasant memories of those "good old days" were recalled. After the dinner, dancing and cards provided the entertainment.

The Oregon Staters who were present are Avis Knips Ball, '21; Harold Ball, '20; Ruby Beers, '18; Helen Frame (Helen MacDonald), '17, Dana Frame; G. L. Jessup, Joe Holmes, Mrs. Joe Holmes (Margaret Coleman), '17; Elva Alice Lucas Hickok, '18; Virgil Lance, '30; Mrs. Virgil Lance (Clara Noble), '30; Faith Hanthorn Mires, '17; John Mires, '12; A. L. McMillan, '27; Mrs. A. L. McMillan (Goldie Betts), '27; J. E. McCollum, '17; Alice McCool Mercer, '25; Glen Mercer, '26; Louise Nichols, '31; Vera Kearns Nichols, '28; Ward Nichols, '27; Hazel Hopkins Olsen, '27; Ray Pendleton, '28; Verna Peterson Pendleton, '25; Joe Schlegel, Reva Everhart Schwedler, '26; Walter Schwedler, '27; H. H. Reynolds, '20; Mrs. H. H. Reynolds (Edna Campbell), '17; W. O. Sedwick, '23; Zella Steele Sedwick, '23; Mildred Payton Spurlock, '28; John Spurlock, '27; Elsie Schultz Tomkins, '16; Mary Giles Tulley, class of '22; Stewart Tulley, '16; A. V. Walker, '24; Alice Komm Walker, '23; Kent Walker, '27; Mildred Williams, '29 and Paul Wierdsma, '31.

Therald Moeller, of Toledo, an honor graduate last June in chemical engineering, has been granted the national \$400 fellowship awarded annually by the Sigma Tau, national honorary fraternity in engineering. This is the second year that the award has been granted and the second year that an Oregon

State student has won it. A year ago it was given to Timothy J. Coleman, Portland, who applied it towards a year of graduate study at Massachusetts Institute of Technology. Mr. Moeller, who his instructors here say has made one of the most outstanding records of recent years, had already been granted a \$650 assistantship for advanced study at Wisconsin university.

Alumna Coaches Winners in Contest

Miss Marjorie F. Scott, '28, instructor of home economics at Forest Grove high school, has made an outstanding record in the essay contests sponsored by the national livestock and meat board. For the last five years Miss Scott's classes have been honored by leading the western division in number of prizes won. In 1930 her class contained the national winner and two victors in the western division. In 1931 two Oregon winners won in the western division and the following year the classes repeated.

Miss Scott won the teacher's prize in 1933 for the western district for the best group of papers and her classes contained the only Oregon and western division winner. A handsome silver trophy was gained this year as winner of the western district general excellence and for highest honors in the district.

Pledging Rules Outlined by Group

Prospective freshman pledges will be required to designate their fraternity preferences to a non-partisan group following a period of rushing under a new pledging plan passed by the interfraternity council last term. The new plan will be put into effect next fall. The newly adopted system requires that each fraternity submit a sealed list of desired pledges to the office of the dean of men on the third day after official registration.

From 8 to 1 o'clock of that day rushing will not be permitted. All first-term men who desire to pledge will express their fraternity preference between 9 and 1 o'clock of that day, which will be Monday. No man can alter this expression after it is once made. Monday afternoon a select committee will match the preferences of the fraternities with those of the rushees.

Spriggs Hails Broadcasting Kirkham

"Standing in the studio the other evening," wrote Art Kirkham, '23, Music, announcer for Radio Station KOIN, Portland, "I heard a voice behind me say 'Hi there, Art!' and turned around to face Glenn (Shorty) Spriggs, who was a glee clubber with me and a member of the Class of '21. With him was Mrs. Spriggs, Maude Craft of the Class of '23. Shorty is in the manufacturing business in Southern California but has been on an extended trip across country from Florida after a stay in the Golden State's rival. I hadn't seen the Spriggs in 13 years or so.

"On our nationwide broadcast of the Portland Symphony, May 6, I received a letter from Wilbur C. Kelley, Class of '23, and Ted Bryant, Class of '21, from Toronto, Canada, commenting on the program. Wilbur is with the Iron Fireman Manufacturing company at Toronto and says that apparently he will be there for some time. Ted Bryant is with the same company.

"We are doing regular weekly nationwide broadcasts for the Columbia network now and have been highly complimented by New York officials for the excellence of the different type programs. This is quite a feather for the little old local station here in Portland."

An unusual number of students, 26 in all, made the straight "A" honor roll for the spring term, according to the report by Registrar E. B. Lemon. Eighty-six others were included on the honor roll with grade averages of 2.5 or above.

Therald Moeller, a senior in engineering from Toledo, and Henry Levinger, a senior in pharmacy from Baker, tied for individual honors by making the perfect grade average for the seventh term. The honors were rather evenly divided among schools and classes, though the senior class led with eight in the perfect column.

Miss Faith Lindros, '31, of Corvallis, brought credit to herself in the ladies division of the Pacific Northwest Archery tournament held in Portland the latter part of July. She brought home three cups, winning a new northwest record for the grand championship for women, a northwest record for the highest double national round and also the highest score at 30 yards.

Oregon's Newest Pool

(Continued from Page 4)

"(5) Through a functioning personnel department, 'the most important element in the administration of a college.' Students should always be advised by personnel officers and never by department heads.

"(6) Through a vital library. This is increasingly important."

Dr. W. J. Kerr, Chancellor of Higher Education in Oregon, addressed the Thursday luncheon of the conference on "Adaptation of Higher Education to New Conditions." After reviewing the developments that have led to the problems of today and the various efforts now being made to reorganize and unify higher education in order to adapt it better to the needs of the present, Dr. Kerr described briefly the Oregon plan of centralized control as follows:

"The principle enacted into law in Oregon, and put into operation by the State Board of Higher Education, is a state-wide service through the cooperative work of all the institutions. Each is a distinct entity, secure in its individuality and institutional autonomy. Yet no institution is sufficient unto itself, but rather is a contributing part of a larger whole. No institution is to be built up at the expense of another; each progresses as all progress. The different institutions are bound together in a solidarity of state-wide service.

Education Meets Change

"To conclude, higher education, in spite of its tendency to conservatism, has revealed its adaptability, through internal and external influences, to meet the changing conditions of society. It is now undergoing decisive changes. In response to the larger social aims and the new cooperative principle, emphasis is being shifted from individual institutions to state-wide and nation-wide objectives. Coordination, conference, and interinstitutional harmony are displacing the old spirit of institutional aggrandizement. A unified state-wide program is enlisting the complementary resources of the several institutions in a complete higher educational service, adequate to the needs of the respective commonwealths and within the ability of the people to meet the cost."

Addresses were made also by President Norman F. Coleman of Reed College, Dr. James W. Angell of Columbia University, Frederick M. Davenport of Washington, D. C., and President E. J. Anderson of Linfield College.

A feature of the conference was the division each afternoon into four forums dealing respectively with higher education's responsibility to students, to the commonwealth, in adult education, and for social planning.

Education to September 1

(Continued from Page 5)

and Vice-President C. A. Brand by E. C. Sammons who also nominated B. F. Irvine as treasurer. C. D. Byrne was continued as acting secretary. Mr. Sammons was designated to continue as a member of the board's executive committee.

Considerable interest was aroused in some quarters by the submission of a petition asking for establishment of a major school of science and mathematics at the University of Oregon. The petition was signed by representatives of the Oregon Dads, Oregon alumni, Oregon Mothers, Associated Friends of the University and affiliated living groups. The petition, which was referred to the curricula committee without discussion held that the present arrangement with the school of science at the state college and not at the university is contrary to the best educational practice of the country. Every university worthy of the name has major work in science, the petition stated.

Engbretson Resigns

With the exception of these items most of the work of the board was of routine nature. Chancellor Kerr reported the college and university summer sessions this year have been so well attended that they were largely self-supporting, only about \$3000 of state funds having been used. Increase in enrollment was greatest at the college, amounting to 32 per cent.

Numerous recommendations for personnel adjustments by President George W. Peavy of Oregon State were adopted by the board. Noteworthy among these was the resignation of A. E. Engbretson, '16, as superintendent of the Astoria branch experiment station. Mr. Engbretson is leaving the post after 18 years of service to devote full time to his private farming enterprises and many semi-public duties. The board appointed as his successor, H. B. Howell, '16, former county agent in Josephine county. A number of personnel changes were also approved for the other institutions.

A gift of \$2,800 was accepted from Mrs. Mary J. L. McDonald of San Francisco to be used in equipping the room in the state college library to house the hundreds of valuable books she has presented to the institution.

An unnamed fraternity group at the university asked the privilege of moving into the dormitory in a body, it having given up its house for financial reasons. Chancellor Kerr pointed out that this request opened up an important matter of policy and at his suggestion the matter was referred to the committee on student interests and the chancellor with power to act.

THE NEXT HURDLE FOR HIGHER EDUCATION

SINCE 1929 higher education in Oregon has been running an obstruction race. In the legislature of that year obstructive tactics to "equalize" funds between institutions by riders, and to defeat the discriminating effect of the veto power, led to drastic proposals for administering the several institutions. Escaping the worst of these, the legislature of that year adopted a single board to replace the four then in operation, provided for a survey, and directed a reorganization of all institutions to be based on the results of that survey.

Hardly had the survey been completed, however, before the economic slump made the adoption of many of the survey recommendations impossible. Taking a year to study the problems of reorganization involved in the recommendations, the new Board of Higher Education found itself confronted with a referendum on more than a million dollars of its usual income. To avoid the closing of the normal schools and the Medical School, the State College and the University each gave out of their budgets and balances more than half a million dollars, the college yielding the larger share. Another hurdle cleared in the interest of cooperative progress!

Then the legislature of 1931 made a further slash in salaries, plucked another half million dollars and more off the institutions and turned them loose to the cold winds of another biennium. In raw figures higher education was cut 37 per cent compared to only 19 per cent for general state purposes. But by dint of rigid economies, retrenchment in all directions, and genuine sacrifices on the part of faculty people to keep up the standard of service while sharing public burdens and hardships, this hurdle has also been handsomely cleared. This too in the face of demands for public service on the part of both the federal and state governments unprecedented even in war time.

But there were also other obstacles: politics interfering with the free action of board members, changing the membership of the board without specified causes; insubordination of faculty members toward the board and its officers; out-of-state intervention in the sovereign right of the commonwealth to direct its own interests in higher education. All these obstructive issues have got in the way of higher education and interfered with its progress. But Oregon higher education has gone ahead in spite of the obstacles. Gone ahead in educational offerings, in simplified organization, in harmonious team-work between institutions, in standards of educational attainment, in recognition for pioneering a new and

ENGINEER SHORTAGE SEEN BY "ELECTRICAL WEST"

EVERY fall prospective college students are faced with the necessity of choosing a career and consider the future opportunities for college graduates. The following item is taken from the editorial page of "Electrical West," volume 73, No. 1, July, 1934. The complete editorial follows:

"If you had a son of college entrance age, would you advise him to elect engineering as his career? If you have talked or written replies to as many engineering graduates seeking jobs during the last three years as we have, the answer would be 'No.'"

"Heartening to us and likely to all engineers will be the results of a study conducted by A. T. & T. which proves conclusively that such an answer is wrong. By relating the actual numbers of engineers graduated to a trend line of the requirements of industry and business for technically trained men, this study shows that the 1934, 1935, 1936 and 1937 graduating classes will produce far less than the number required. Furthermore, it shows that by 1937 the accumulated surplus of engineers from the last three graduating classes will be more than absorbed and that an actual shortage will exist in

audacious type of state-wide unification, in economy, in public service!

But the biggest and most threatening hurdle is still just ahead. If this cannot be averted, it will wreck higher education. It will wreck practically all other types of state service. It is the Portland Realty board's 20 per cent tax limitation amendment. Like all tax-limitation measures it can produce only negative results. It cannot stop inefficiency, waste or graft. But the press is agreed that at the November election it stands a good chance of adoption. Its result on the state, in the words of the Oregon Voter, will be creeping paralysis. For in reducing property taxes it will starve state and local government into ultimate chaos. Out of this desperate situation its sponsors expect to see other types of taxation forced, reaching beyond property owners.

Higher education, under harmonious board action directed by competent board leadership, seems to have settled its internal problems. Seeking a new chancellor to succeed Dr. Kerr, who has announced his wish to retire, the board's chief concern for the immediate future seems to be financial. And higher than any hurdle it has yet had to clear, is this insidious and menacing measure sponsored by the realtors, a group of people who have usually been good promoters rather than wielders of the wrecking bar.

1938, when the boy who enters college this fall will be graduated.

"Significant, too, is a statement made a year ago by James A. Farrell of U. S. Steel to the effect that American industry would soon face the worst shortage of skilled and technically trained men in its history. It was his claim that every previous depression has produced a deficiency; that this depression being unusually severe, the shortage will be even more acute.

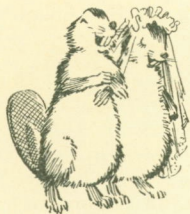

"Such assurances as these should encourage and inspire engineers whose morale has suffered from the retrenchments and repercussions of four years of stringent pressure."

The foregoing statements and statistics as compiled by A. T. & T. brings us face to face with facts that apply not only to the next few years but facts that must and will be applied for all the years of the future. When we consider the boundless reaches of work of the engineer we are convinced that very little which goes into the making of our modern scientific civilization lies outside his fields of operation. All knowledge of the earth, the crust that covers it, the depths that lie within it, and the gases that surround it are an open book to the engineer and by him are harnessed, controlled, and placed at the service of mankind.

Great problems perfected through years of work and research would die in the laboratories of their origin were it not for the engineer and his ability to keep abreast of science and carry on. We look to the engineer to tear down the old and obsolete and build back such structures, highways, waterways and air ways as will meet the requirements of a progress that is ever progressing. The magnitude of this great work of construction throughout the world is such as to be almost beyond conception. Couple with this the demands, on an enlightened people, for efficiency and safety, and we can get some small idea of the tax placed upon our engineers and the need for more men who are skilled in the various branches of the work.

While it is true that there has been a falling off in the demand for engineers during the uncertainties that have beset us the past few years, the wear and tear of the world has been going on and the engineer of today finds his job bigger than ever. Not only must he replace but he must replace with greater efficiency. For this work the engineer must have training and knowledge that has kept step with progress. He must have the ability to cope with changes and recognize what those changes must be.

Once on the ground it is the task of the engineer to take that which nature has placed at his disposal and construct from it "service".

Beaver Tales

Eunice Courtright, '25, Editor

1895

John Allen, ME, Corvallis druggist, had the misfortune to fall and break his foot July 25. As he stepped from the curb to get into his car he slipped on a pebble and fell, breaking his foot.

1900

Inez Zumwalt, BHE, now Mrs. G. E. Knapp, 8414 North Olympia, Portland, signed the alumni register while on the campus for a visit.

1901

Charles H. Horner, A, Condon attorney, in August received the appointment of conciliation commissioner for Gilliam county under the Frazier-Lemke farm bankruptcy act, a position similar to that of a referee in bankruptcy.

1902

Vance Tartar, son of Professor Herman V. Tartar, A, University of Washington, and Stella Parsons, '06, DSA, has received a graduate fellowship at Yale university where he is to work for a doctor's degree in zoology. The young man is a grandson of Professor Nicholas Tartar, '07, of Oregon State college.

1908

Fred Knaus, EE, electrical engineer with the Seattle City Power and Light company, brought his wife and friends to inspect the Memorial Union building while on the campus in July. His residence address in Seattle is 1723 Summit.

Forty-three relatives and friends honored Renton K. Brodie, A, Caroline Buchanan Brodie, DSA, and their son and daughter, at a picnic at the Claude Buchanan home south of Corvallis, July 15. After visiting Corvallis relatives the Brodies returned to Cincinnati via Olympia, Wash., where they visited Horace Brodie, '04, ME, Olympia attorney, and Maude Roberts Brodie, '05, DSA. Mrs. Brodie came west early in June on an extended visit with her mother, Mrs. Ruth Buchanan. Brodie is research director of the chemical division of the Proctor and Gamble company of Cincinnati.

Fred N. Fox, EE, formerly with the First National Bank at Union, is district manager for an insurance company with headquarters at La Grande.

1909

For the benefit of friends of the Class of 1909 and for '09s not attending we have this letter from the class correspondent Edward Callaway:

The reunion of the old 1909 Class was decided success. The old boys and girls were back from the hills, shops and offices—45 of them. We all went home 25 years younger.

It will be of interest to the whole group to know who were back. Here is the happy family and some of the camp followers who made merry for two or three days together: Ralph Allen and Rilla with daughter and sons, Tom Autzen with the same old smile, Orren Beaty and wife from New Mexico, Dr. George Bendshadler with baby girl, and Charles Bendshadler with a daughter, Ed Callaway with daughter, Roy Clark and wife, George Cross and wife, Harvey Currin with wife and two daughters, Keys Donnelly from the hills and Bill Lane with his ten-gallon hat, Ella Dunlap and her sister from their drug store in Brownsville, Barney Groth, former mayor of Newberg, Ethel Harpole-Sprague sans husband, Pearl Horner-Wells with her nice new husband—Dr. Wells, Georgia Irvine-Farrens as full of pep as of old, John Karstetter from Portland, Charles Leonard and

family, Russell McCully of Newport, Fred McHenry and family, George Nelson with son and daughter, Evaline Newkirk-Riebhoff of Redmond, Grandma (think of it!), Cleve Peery-Rooper, Ralph Pierce and wife of Eugene, Lois Pratt of Corvallis, Nettie Currin-Cox and husband of Oregon City, Neil "Obie" Smith and wife of Burns, Helen Sprague—young and sweet as ever, Cedric Stone and wife of Troutdale, John Strebin and wife of Troutdale, Capt. Jesse Tiffany with his bolos from the Islands, Pearl Williams-Davolt with her husband and two daughters, Elmer Williamson and family of Albany, Robert Verne Williamson with wife and daughter from McCloud, Calif., Peter Zimmerman who is running for governor, Ralph Keiser and family of Corvallis, Georgia Ewing of Portland, Linnie Currin-Lindseth of Monroe, and some more that we do not list, not having the registration book at hand.

Mother Horner was on hand to register the old group, and General McAlexander welcomed them back.

Perhaps the two most enjoyable events were the breakfast Sunday morning with Harvey Currin as toast master. Ed Callaway and Russell McCully were found guilty of slandering Helen Sprague and sentenced for life on the recommendation of District Attorney McHenry. The other was the interesting talk by Captain Jesse Tiffany on his experiences in the Philippine Islands. It made the blood of the old boys chill when Capt. Jesse exhibited a bolo that had slit a hundred humans and was still as keen of edge as a razor.

More later in this column. E. C. C.

The youngest son of Mulkh Raj Soi, electrical engineer of Delhi, India, is a student at Columbia university, New York City.

Georgia Ewing, DSA, has changed her residence in Portland to 1431 Northeast 21st avenue, Castle Manor apartments No. 107. Miss Ewing teaches in the Woodmere school.

1910

Dr. Ray H. Roberts, A, Mary Davis Roberts, C, and their children visited Oregon relatives in July, returning to their home in Madison, Wis., August first. Dr. Roberts is a member of the horticultural staff of the University of Wisconsin.

Leland Howey, C, credit manager for the Standard Oil company at Singapore, S. S., with his wife, Marguerite Carley, Class of '18, and 8-year-old son Jim was in Corvallis in July at the beginning of his six-months leave from his business. He is manager for an area nearly as large as the United States. Son Jim will be left here to go to school although there are excellent schools in Singapore, both public and private. Jim wants to be an "American" so its an American school he wishes to attend.

"I left Corvallis in 1910 to get adventure," said Mr. Howey, "and after 20 years found I could get just as much right here as in far away countries. From a job with the Philippine constabulary, Singapore and the oil companies was a natural step."

1911

Maurice Smead, C, has been appointed Oregon state manager of the Occidental Life Insurance company succeeding George J. Hartman who was transferred to the east due to the company's expansion program in the north-central division.

1912

Robert C. Day, EE, is in charge of the Terminal Substation of the Utah Power and Light

company at Provo, Utah. Two Oregon State men, Calvert Lovegren, '25, EE, and Kenneth Kuster, Class of '27, are in his employ.

Alice Pimm, DSA, her husband, Dr. Edward M. Clark and their children, Edward, Jr., John Eugene and Jessie, in June spent two weeks with relatives and friends in Corvallis and Philomath before returning to Kobe, Japan, from their year's furlough. Dr. Clark is professor of New Testament Exegesis and Rural Evangelistic problems in the Chuoh Theological seminary at Kobe.

Mrs. Clark arrived in Corvallis in time to visit with classmates assembled for their reunion.

Alfred G. Lunn, P, professor of poultry husbandry at Oregon State, left Corvallis August 15 for an absence of a year during which time he will study poultry conditions in the leading poultry centers of the United States.

Between August 15 and October 1 Lunn will visit government, college and commercial poultry farms in the east. From then until April 1935 he will stay at the Mount Hope farm, Williamstown, Mass., to study. The Mount Hope farm, one of the largest in the United States, is owned by E. P. Prentiss, son-in-law of John D. Rockefeller, and specializes in breeding production Leghorns and Guernsey cattle. In April Professor Lunn will continue inspection of poultry businesses on his way home by the southern route.

Malo Cady, Opt, now Mrs. H. J. Pfandhoefer of Chicago, and her small daughter, Sally, visited her mother in Corvallis in July and was entertained by a number of Corvallis classmates.

William R. Varner, EE, last year an instructor at the University of Oregon, has been transferred back to Oregon State college for the coming year.

1913

Thirteeners received this long and interesting letter from the class secretary, Royal B. Thompson, Stillwater, Okla., but as their friends in other classes did not have this opportunity a part of it is given here and will continue next month.

"The first reply received was from whom? Well you guess it right—Ralph Blanchard, Public Service building, Portland, Oregon, and here is his reply: 'Address correct. Occupation—county agent 4 years, banker 3 years, this business (investment securities) up to date. Married Bertha Gilliland, '13, two sons, Bill (named for Bill Dunham) 19 years and Bob, 16 years.'

"The next mail brought a letter from Leon (Irish) Bernstein. Here is part of his letter, I am reserving some of it: 'My correct address is 410 Oregon Building, Portland, Oregon. I am in the general insurance business and have been for the last nine years. Previously I followed agriculture, being superintendent of orchards in both Mosier and Hood River. Later had a brokerage business. Am not married. Lesser R. Solis Cohen died of cerebral meningitis following an operation for sinus which he had contracted in the Navy. Was an ensign and was assigned to the Azores when Byrd made his first flight across the Atlantic.'

"Then along came Francis Willard Smith with this: '1913-14, Oregon Highway commission. 1914-19, U. S. Interstate Commerce commission, except for brief time in Army as first lieutenant of engineers, 1919 to date, U. S. Bureau of Public Roads, highway engineer. In 1920, married Gertrude Manary, ex '18. Children: Carolyn Jane, age 13, and Joanne Mere-

dith, age 9. Residence, 726 29th street, Ogden, Utah.

"Arthur Chase added this: 'I have been in county agent work at Wenatchee for nine years July 1, 1934. I have been in extension work most of the time since leaving Oregon State college.

"I have been contributing some material to the Northwest Fruit Grower, also the American Fruit Grower, published in Cleveland, Ohio. My picture will be in the January issue (1934). I have also contributed to the program of the Washington State Horticultural association at several different meetings and three years ago made an address at the Michigan and Illinois State associations.

"In October of 1933 I took an airplane trip to Washington, D. C., to sell the Relief Administration some of our low grade apples. I was successful in this endeavor and we were able to secure aid for about 1400 fruit growers in North Central Washington. At the Extension Conference at Pullman last week I gave a talk at the President's banquet on the "C" grade deal and my experiences at Washington.

"I am living on a ten-acre fruit farm just on the outskirts of Wenatchee and if any of the Class of '13 should happen to come through Wenatchee I should be glad to have them make us a visit.

"We are distributing 24 carloads of dried apples for the unemployed in other states. Applesauce will cure the depression by widening and improving the diet, strengthening the morale, sweetening the disposition and toning up the morale.

"With the enclosed detailed personal information and a few high lights which I have suggested, this may be my share of contributions for the Class of 1913. 1913-1916 (January) rural school supervisor; 1916-1919 (April) county agent, The Dalles, Oregon; 1919-1920 operating wheat and livestock farm; 1921-1922 state club leader, Wasco county, Wyoming; 1923-1925 (July) county agent, Grant County, Washington; 1925-1934 county agent, Chelsee County, Wenatchee, Washington (the apple capitol of the world). Married October 12, 1919, Emma Wendt of Jacksonville, Oregon. Why? We are still married. Children, Janette, 10, Helen, 8, Joanne, 6, as sweet and bright as their mother.

"Then this from good old 'Liz' E. W. Curtis: 'Correct mail address, Route 1, Box 3, Vista, California. Business, raising avocados and citrus fruits. Occupation for last 20 years: 4 years with U. S. D. A. as assistant superintendent of the Truckee, Carson Experiment station, Fallon, Nevada. Five years with the agricultural extension service of the University of California. Four years as ranch manager and orchard foreman at private ranches at Davis, California, and San Jose, California. Six years operating my own place in San Diego county. Raised truck crops for two years and now have my four acres planted to avocados and lemons. Married Helen Loraine Miller, O. S. C., 1914—one girl, Patricia Loraine Curtis, junior in high school.'

"It is a shame to separate the next one from the writer of the first letter—sure you are right again, Frank Harrington: 'Present address, Bozeman, Montana, Department of Horticulture. Present occupation, head, Department of Horticulture, M. S. C. Have been here since 1921. Went to Ames, Iowa, in fall of 1913 and stayed there until 1931 in teaching work in department of horticulture. In the Army for a brief time (5 months) in 1918. Married Rosa Meyer, ex '12. Two youngsters, Corinne and Rhoda, 14 and 8.'

"And next the first of the girls, and what a girl, one of the old maids, and what a crop of old maids this class produced. It is hard to understand but true. This young lady has given splendid help with addresses and information to help with this letter: 'Dorothea Steusloff, 1285 Court street, Salem, Oregon. I taught in McMinnville, Oregon, for the first four years after college. Then worked in the Automobile department of the Secretary of State's office for eight years. Then my mother passed away and I quit work to keep house for my father and help him look after his personal business affairs. It keeps me out of mischief trying to be my father's cook, companion and secretary and play a little bridge besides.'

1914

Nola Payne, DSA, now Mrs. Sloan, came to Corvallis for the summer session this year.

Sara Vineyard Case, HE, home demonstration agent in Columbia county, recently assumed the duties of state supervisor of emergency nursery schools.

Julia McFadden, DSA, graduate nurse, has been transferred from the U. S. Veterans' hospital at Hines, Ill., to the Veterans' hospital in Portland.

1915

I. F. Totten, A, office manager for the Rasmussen Paint company of Portland, brought his wife and daughter to the college campus in August. His daughter expects to enter some western college this fall.

1916

County Agent Ray Goble, A, of Contra Costa county, Martinez, Calif., stopped at the Alumni office to visit with his classmate, the Alumni Secretary. Goble reports that he is still playing baseball.

Another Oregon State campus visitor here in August was Captain John M. Hamilton, A, of the U. S. Army. Captain Hamilton is now stationed at Schofield Barracks, T. H.

1917

Captain John B. "Sap" Wilson, A, who has been in command of the marine contingent on the U. S. S. Colorado, has been sent to Quantico, Va., for a three-year training course. He and Mrs. Wilson (Beatrice Lamoreux, Class of '19) were Corvallis callers in May.

Ina Wattenburger, HE, attended the Oregon State summer session. She teaches home economics in Oakland, Calif.

Earl Lee, C, manager of the Miller Mercantile company in Corvallis, left for Yakima, Wash., August 15 to assume duties there as manager of the new Miller store to be opened in September. The new store in Yakima is one of the largest department stores in the city and construction is now under way, remodeling the interior into one of the most modern design.

Lee has been in Corvallis as manager of the Miller store for nine years and during that time has been active in business and civic affairs. He is a past president of the Corvallis Chamber of Commerce and a member of the local Rotary club. To pay their respects to the Corvallis merchant, 100 business men met at a farewell and goodwill banquet in his honor the night before his departure.

Mrs. Lee will be remembered as Iva Stokes, '15, HE.

Captain Donald P. Spalding, F, notified us in May that he is now stationed with the 13th Infantry at Fort Devens, Mass.

Charles "Chuck" Stidd, C, vice-president of the Benefit Savings and Loan association and member of the Portland Ad Club, was one of the two convention hosts appointed for the annual convention of the Pacific Advertising Clubs association held in Portland in July.

Mac Van Buskirk, A, has a dairy farm at Route 1, Jefferson.

1918

Glen Corey, A, utility manager for the Pacific Power and Light company at The Dalles, called on the Alumni Secretary early in August. Mrs. Corey was Opal Hart, Class of '21.

Beulah Morgan, HE, formerly an instructor in clothing in the Eugene schools and for the past year and a half in charge of the pattern department at the McMorran and Washburn store there, recently went to San Francisco to accept a position with O'Connor, Moffatt and company, one of San Francisco's largest houses. She is directing the service center, including a dressmaking school.

Gladys Legg, HE, now Mrs. F. C. Old, of Memphis, Tenn., paid a visit to Oregon State friends in Corvallis July 19. Her Memphis address is 1511 Vinton avenue.

1919

Amy Armitstead, HE, came to the Oregon State campus for the 1934 summer session. She teaches in San Francisco.

1920

Glenn Banta, A, attended the summer session at Oregon State college this summer. He has been located at Selah, Wash.

Margaret Morcom Watkins, HE, this year will teach in the high school at Rainier.

Donald W. Ritchie, A, has a general medical practice at Hondo, Calif.

1921

Rodney M. Whitmore, C, opened a feed and seed business in Corvallis in August, operating in the same location as he had previously for four and a half years.

Harold Robinson, C, with the West Coast Engraving company and member of the Portland Ad Club, was program chairman for the annual convention of the Pacific Advertising Clubs association held in Portland July 10 to 15.

1922

Leonard Davis, Voc, dentist at Tigard, Or., registered at the Alumni headquarters in August. The Davis family now includes two children.

Pearl Horning, A, and her friend, Luella Carlson, left Corvallis early in July for New York, to sail from that city July 14 on the Italian liner, Vulcania, on a tour of Europe. They planned to travel through Spain, Italy, Greece, Algiers, Switzerland, Germany, France and England. In Germany they expected to see the celebrated Passion play at Oberammergau. Before sailing they had a short visit with Louise Horning Ford, Stanley Ford, and family in Wilmington, Del.

Julia Green, HE, now Mrs. P. B. Harris, and her husband and two girls live at Cedarville, Calif. Harris is a contractor there.

1923

Jesse C. Kimmel, ChE, '29, P, formerly instructor in chemistry in the Oregon Institute of Technology, Portland, recently became manager of the drug department in the general merchandise store owned by the Hammond Lumber company at Mill City.

Edward Conley, A, has a half interest in the Ideal Dairy in Portland. It has three dairy stores in the city, the one at 713 Southwest Third street is directly in charge of Mr. Conley. He directs the manufacture of ice cream and butter for the stores.

Last spring the Oregon Ice Cream and Buttermakers elected Conley treasurer of their association.

Mrs. Conley was Margaret Jones, '21, HE. Dr. Howard Watenpaugh, A, with his father came to Corvallis in June to purchase a farm in the vicinity. Harold Watenpaugh, Junction City commission man, has charge of the farm. Dr. Watenpaugh is an agronomist with the extension service of the University of Arizona.

Lowell Paget, C, Portland attorney and member of Governor Meier's Century of Progress commission which planned the Oregon exhibit for the World's fair, was named chairman of the commission's executive committee.

Fred Merryfield, CE, assistant professor of civil engineering at Oregon State college, and Mrs. Merryfield left Corvallis in June enroute to Europe. They planned to disembark at Venice, travel through Italy, Switzerland, Germany, France to England to visit at Berylanshire for five weeks with Merryfield's people, returning to Oregon in September for the opening college term.

1924

Edith Whitelock Bell, HE, high school teacher at Compton, Calif., visited Oregon State friends in Corvallis in July, seeing Edith Wilkinson, C, Agnes Behrens, HE, Eva Blackwell. While in Portland she had a pleasant reunion with Ruth Wilson, A, and her husband, Harry Rounsefell, '28, F, and saw their two healthy young sons. The Rounsefells operate a farm at Route 3, Boring.

Agnes Behrens, HE, teacher in the San Diego city schools, came to Corvallis for the summer session and for a visit with Edith Wilkinson, C, classmate, and other friends in and near Corvallis.

Harry Cleaver, A, surprised us with a new address—he wrote us this nice letter from 348 Marion avenue, Clarendon, Va.

"You will notice that the Cleavers have moved again. I am now working in the general crops section of the A. A. A. of the U. S. D. A. as associate agricultural economist.

"When not at work I take the family for sightseeing trips in and around Washington. The term family now includes four people—Muriel Ann came to live with us January 5 of this year.

"I have been renewing many old acquaintances here for there are, as you know, many Oregon State people in this section. In fact I found two within a block of where I live."

Harry's wife was Pearl Fegley, HE.

Madeline Brumbaugh, HE, teacher in the high school at Evanston, Ill., spent the summer in Corvallis with her parents.

Harold Tubbs, EE, has charge of the Diesel engineering department of the General Electric company, 5201 Santa Fe avenue, Los Angeles. His wife is Bernice Moss, HE.

Willet Griffie, F, has been transferred from Albuquerque, N. M., where he was manager of the district of the Western Pine association, to the association's office in Portland. He is to be assistant secretary for the whole organization.

Candid Cameraman Sterrett of the Oregonian caught T. Griffith Cowgill, CE, Lebanon, "day-dreaming". He is secretary-treasurer of the National Farm Loan association.

According to the alumni register, Harold Chrisman, C, U. S. Army officer, and Cecile Case Chrisman, VE, called at the Memorial Union while on their way to Presidio of San Francisco. The Chrismans have two children.

Robert Leep, CE, Baker county engineer, paid his yearly visit to the Alumni Office in August. He and Helen Andrews Leep, Class of '24, and the three children were in Corvallis visiting Mr. Leep's parents.

1925

Dear Friends:

Since writing last May several classmates have had time and money to travel this way and did stop in Corvallis for short visits. Agnes Brightman Pentzer, HE, from Fresno, Calif., was the first to appear in Corvallis, coming at Commencement time when Husband Bill's brother graduated from Oregon State. The Pentzer family including the two-year-old son, Bill's mother, father and sister came from California for the event.

Of course we took advantage of this opportunity to get news of George Hellerich, M, who married Agnes' sister Ruth, secretary to Dean Newton of the School of Mines. George, as mining engineer for the Hamman Consolidated Goldfields, Inc., at Nome, Alaska, was so busy this year that he had to quit the territorial legislature to which he was representative from the Nome district. Joan, 3, and Janet, 1, are daughters of the Hellerichs.

From Agnes came the first news we had heard in some time of George Laird, '24, and Dolly McDowell Laird, '22, C. Until the depression took effect George was happily situated as a bridge engineer with the City of Los Angeles and had progressed to the state of designing bridges himself, then, included in the wholesale lay-off of city employees, he started to work as a regular laborer with one of the building contractors that once built a bridge for him. He is stationed now by that company at San Bernardino where he and Dolly and their small son live on Orange street. The Lairds were in Oregon for a short time last year.

Ruth Laird (not George Laird's sister), HE, with her husband, Leslie Oliver, was the next '25er to make her presence known. The Oliveres were in Oregon for the first time in a number of years, having since attended Syracuse university at Buffalo, and lived at Annapolis while Leslie taught English to Academy recruits. The last year Leslie has been English instructor at the Colorado School of Mines at Golden.

Another classmate who brought along her husband and young "native son" was Alice McCool Mercer, HE. The Mercers were in the north most of July. Glen is instructor and basketball coach at Sacramento Junior college and this year took his master's degree at U. S. C. Alice reports that Sister Lois McCool Worthy, '26, Walter Worthy, A, and daughter are living at Azusa, Calif., and doing well. Walter is still district agricultural instructor there.

Calvert Lovegren, EE, spent most of his vacation here in Oregon. He and Kenneth Kuster, Class of '27, work at the terminal sub-station of the Utah Power and Light company in Salt Lake City.

You can figure the percentage of classmates able to travel this summer that are Californians. They must have something they use for cash down there. One who makes it a point to come

every year to the cool state up north is Howard Shriber, power house operator for the City of Los Angeles, stationed at Big Pines, Inyo county. Shriber visited relatives in Philomath then drove on into Washington and British Columbia to find other Oregon State electrical engineering graduates.

Among Dean Zieffle's pharmacy news squibs I find that Leone Twidwell Jensen is trying her hand at managing other than household duties. She has charge of the Stevenson drug store at Harrisburg while the owner spends the summer managing a CCC camp at Cathlamet, Wash.

Maybe you noticed in the paper that Garnet Best is continuing on his way up—soon after he was here on the campus for 4-H summer session he went to Enterprise to assume the duties of county agent for Walla walla county. He has been assistant agent in Umatilla county several years and while he lived at Hermiston was commander of the Legion Post. Lois Beard is his wife; they have four children.

David Dunavan, A, was a classmate I was not here to greet when he came here from Clemson College, S. C., during his vacation; he is an instructor there in the entomology department. On the alumni register we noted that he has a wife and one child.

This summer Tessie Durgin Baird of Spokane took time to visit friends in Corvallis while taking two weeks vacation from her business college duties—Tessie and another girl, I believe I told you, bought a business college there last year and are doing very well even in these rather bad times. Phil Baird, Tessie's husband, teaches English in the Lewis and Clark high school there and plays golf in his spare time.

And best news of all is that Class Secretary Don Hill expects to return to Corvallis in September following a year's work at Cornell. By this time he should have accumulated quite a supply of news for our edification, anyway here's hoping.

With best regards from the campus,

EUNICE C.

1927

Dr. William B. Handford, P, graduate of the University of Oregon medical school, and Jane Elkins Handford, Class of '33, left Portland in July to go to Caldwell, Idaho, to live. Dr. Handford is associated there with the firm of Cole and Kaley, who have been partners in the medical practice there for 25 years.

Kenneth Atkinson, A, came to Corvallis this summer to visit friends. He and his brother Roger Atkinson, Class of '29, have the Ford agency at Rodeo, Calif., near San Francisco.

Richard Dixon, M, mining engineer, is stationed at Des Cabezas, Sonora, northern Mexico, where he is rehabilitating a mine.

Kermit Brandeberry, F, and Irene Griggs Brandeberry, '31, HE, were Corvallis visitors this summer. Brandeberry, formerly instructor in the Oregon State school of forestry, is junior forester with the U. S. forest service. He is working in the regional office in San Francisco.

Burton Hutton, C, with the Corvallis Gazette-Times, is treasurer of the Oregon Republican club.

Fred Bracher, C, was awarded the degree of doctor of philosophy at the University of California commencement exercises in June. From 1927 to 1930 Bracher was a teaching fellow in English at the University of California, taking his master of arts degree in 1928.

Earl Peck, Ed, shop instructor at Twin Falls, Idaho, attended the Oregon State summer session this year. His wife and son accompanied him to Corvallis.

1928

Thurlow Weed, C, graduate from Northwestern College of Law, Portland, with the June class. He held the office of class treasurer his senior year.

Walter Nolan, PhC, recently purchased the Colonial Heights Drug store at 2027 Southeast Division street, Portland.

John Henderson, F, who attended the cavalry school at Fort Riley, Kansas, last year, is in charge of a C. C. C. camp near Prairie City, Or., this summer.

Dr. Edna T. Hawley, MS, is now director of federal transient service for the state of Montana. Previous to her appointment to Montana Dr. Hawley was special field representative in the transient service of the Washington emergency administration at Olympia.

Henry Taube, A, shipping port inspector at Portland, was recently appointed assistant state supervisor of standardization of fruits and vegetables.

Mabel Mack, HE, home demonstration agent in Jackson county, is acting state leader of home economics extension during the three-months absence of Claribel Nye, who has been called to Washington, D. C. Alice Malin, '34, HE, assumes the duties of home demonstration agent in Jackson county while Mrs. Mack is away.

Bjarne Byberg, Engr., engineer with the Southern California Telephone company, registered at the Alumni Office while on the campus in June. Mr. and Mrs. Byberg live at 3881 1/2 Denker avenue, Los Angeles.

Orile Robbins, VE, who graduated from Linfield college after leaving Oregon State, will be athletic coach again this year at Amity.

1929

Albert Bates, C, has resigned his position as secretary of Sigma Delta Chi to accept a position in the Public Relations department of Swift and Company and now is stationed at the Swift and Company exhibit on the Century of Progress grounds in Chicago.

Bates' wife, Helen Rostvold, '28, VE, has gone into radio work and has charge of a portion of the A & P Minute Parade over WBBM, the CBS key station in Chicago. She operates a period in that program called "The Adventures of Jimmy and Sue in Story-Book Land".

Evelyn Jacobs, HE, in September will resume her position as physical education instructor in the high school at Pendleton after a year's leave of absence for advanced work at Columbia university, New York City.

Vivian Shriver, HE, after several years spent in Honolulu as a dietitian at the Queen's hospital, is now dietitian at St. Luke's International Medical center in Tokyo, Japan.

Mildred Williams, C, assistant registrar at Sacramento Junior college, brought news from Sacramento to the Alumni Office when she called July 12.

John Schick, EE, stopped at the Alumni Office while in Corvallis July 10. He has a position with the Radio Corporation of America at Bolinas, Calif.

Wilfred Robinson, EE, technical man for the Pacific Telephone and Telegraph company in Portland, spent part of his vacation in Corvallis. His wife is Lenore Meade, '33, Ed.

Roy R. Brown, P, and Dan M. Brown, '31, P, purchased the Lednicki drug store at Junction City in July. Roy Brown has been with a drug store in Clarkston, Wash., for the past five years.

1930

Amelia Sansom, HE, recently came to Portland to become assistant to Jeannette Cramer, '22, HE, home economics editor of the Oregonian. Previous to this Miss Sansom has been associated with the Safeway Homemaking Bureau at Oakland, Calif.

Ferrin Moreland, ChE, returned to the Marine Biological laboratory at Woods Hole, Mass., this summer. After his arrival there he wrote us:

"Nashville is much too hot for comfort this time of year (he has a assistantship at Vanderbilt University in the biochemistry department). On the way up this year I stopped at Philadelphia and visited with Lloyd Covert, '29, ChE, who is still with Rhon and Haas there and seems to be doing very well. His wife (Leone Elliott, '31, HE) was on a trip to Canada with her folks so I missed seeing her. Lloyd says Melvin Allen, '30, A, who just got his Ph.D. from Rutgers, has a position as bacteriologist with the National Biscuit company in New York city. He and his wife (Junia Crouter, '29, C) will probably move into the city at the end of the summer.

"At the American Chemical Society meeting in St. Petersburg last March I met Ed Salsstrom, '23, ChE, who is now on the chemistry staff at Rollins college (Winter Park, Fla.), and also Dr. F. H. Thurber under whom I took organic when at Oregon State. He is now doing research with the chemical bureau of the department of agriculture in Washington.

"Mort Mason, '25, got his Ph.D. at Duke University medical school this month (June) in biochemistry, and is coming to our depart-

ment at Vandy as instructor. Mrs. Mason (Miriam Duncan, '28, C) is to be our secretary."

Dr. Austin Matthis, P, graduate of a Texas medical school, has started a general medical practice at Monroe. The Matthis family now includes a young son.

Alius Feves, P, is now with the Sunset Drug company at McMinnville.

Henry Moreland, EE, is employed by the Westinghouse X-Ray company in Portland.

Dr. Albert Stout, ChE, has been named assistant in biology and chemistry at Linfield college, McMinnville, for the coming year. This summer Dr. Stout completed work for his doctor's degree at the University of Wisconsin.

Mrs. Stout was formerly Julia Jackson, Class of '33.

1931

Jean Ingle, HE, awarded a scholarship in the school of retailing at New York university, will be leaving for New York soon to attend the university. Miss Ingle is said to be the first home economics graduate of the college to receive such a scholarship. She is the daughter of Calvin A. Ingle, '07, P, and Hallie Barzee Ingle, Class of '10, of Corvallis.

Ruth Hudson, HE, now Mrs. Robert "Red" MacCloskey, of Santa Monica, Calif., was a guest of Marian Conklin Thornton in Portland in July. During her brief stay in Oregon Mrs. MacCloskey visited in Eugene, Portland and Newport, where she has friends and relatives.

Richard Wright, ME, employee of the Iron Fireman Manufacturing company, was recently transferred from Cleveland to Boston.

Howard Van Cleave, CE, who has been at Nyssa working at the Owyhee dam, has been transferred to the Bonneville project.

Donald Anderson, C, is traveling representative of the promotion department of the California Fruit Growers Exchange, with headquarters at 99 Hudson street, New York City. He and his wife, Elsie Johnson Anderson, HE, cover the East from Maine to Florida and from the east coast to the Mississippi.

Norton Peck, ME, and Barbara Burtis Peck, '32, HE, are located at 3727 Southeast Kelly, Portland. Peck, who received his master's degree from Oregon State in '32, is employed by the Columbia Steel company.

Verna Bolton, P, who taught last year in the high school at Spray, Or., will be one of the high school staff in her home town, Antelope.

Luther Cramer, EE and ME, is representative of Cramer and Company at The Dalles.

Henry Risley, ChE, who received his master's degree from the Massachusetts Institute of Technology last year, has a chemist's position with the Weyerhaeuser Lumber company at Longview, Wash.

Lauri Pernu, IA, is stationed at Camp Mist, Or., as educational advisor of the C. C. C. camp.

Roy Dahlin, EE, is a lieutenant at the CCC Camp F-27, Big Bar, Calif. Dahlin was employed in the campus electrical department until recently.

1932

Alice Ingalls, VE, Corvallis high school instructor, went to Northwestern university Evanston, Ill., to study debate and speech on a summer scholarship.

Hazel Packer, HE, 3104 34th South, Seattle, accounts for herself:

"I have been enjoying the different interesting issues of the Oregon State Monthly very much. I have been working in the home economics department of the Post-Intelligencer here in Seattle for a short time. I have assisted with the cooking school conducted by the Safety Bureau which was held in Tacoma. Last week I had complete charge of a General Electric Cook-with-Cold school held in Rhodes department store, Tacoma. I like the work very much and next month may conduct a Frigidaire school in Seattle.

"I have seen a good many Oregon Staters here in Seattle. Among them are my sister, Beth Underdown, '28, HE, and her husband, Freeman Fike, '27, EE. Also I frequently see Gerry Watzling, Class of '32 (Mrs. Lloyd Porter). The other day I met Cozette Henry, Class of '34, downtown. Dorothy Tostevin, Class of '29, has recently been married and is now Mrs. Frank Vanderpool of Olympia. Her brother, Jack Tostevin, Class of '33, and his wife, Isabel

Breck, Class of '32, live just a short distance from me."

Betty Bell, HE, now Mrs. Jack McDowell, wrote the office that her new address in Seattle is 1711 Thirty-Seventh street. She also added a note that the third member of the McDowell family arrived February 18 of this year. His name is James Edgar.

Robert Luehrs, P, expects to enter the University of Oregon Medical school in September. Since graduation he has been employed in the Nau Pharmacy, Portland.

James Rice, PhC, for the past year employed in the Carson Pharmacy at Salem, now has a position in the Steelhammer Pharmacy at Silverton.

Frank Gardinier, P, is employed in the Crosby pharmacy at The Dalles.

Lieutenant George A. A. Jones, VE, was transferred from military service at Oregon State college this summer to the Philippine Islands. He is to be stationed at Manila with the 24th Field Artillery. Jones received his bachelor of science and master of arts degree from Oregon State during his period of service here.

Frank Miller, C, operator of Miller's Charcoal Broiler near Palo Alto, Calif., called at the Memorial Union this summer while on a visit north.

Eugene Gross, A, has been an assistant in the soils department at Oregon State college since early in the year.

Lawrence Francis, A, in July was selected as assistant county agent in Washington county with headquarters at Hillsboro. Francis was assigned to Polk county in March by the AAA to assist in the wheat and corn-hog program and to take an active part in the boys and girls 4-H club work. In Washington county he is working with William F. Cyrus, county agent, in the regular extension program.

John Parker, F, and his wife, Martha Smith, '29, VE, went to Susanville, Calif., following Commencement at Oregon State to take a position with the United States forest experiment station there. Parker received his master's degree at Oregon State in June.

1933

Herbert Van Valin, C, purchased a half interest in the H. E. Walter insurance agency, Corvallis, the Benton county representative of the Oregon Mutual Fire Insurance company of McMinnville.

Carroll Saunders, P, recently purchased a drug store at Fossil, Or., from H. S. Johnson. The store now operates under the name of Fossil Drug Store.

Paul Brunskill, PhC, went to Portland in July to work in the A. W. Allen Drug store. For the past year he had been with the Olsen Pharmacy at Silverton.

Edmund Meola, A, formerly at Niles, Calif., came to Crater Lake National park recently as a park naturalist, stationed at Anna Springs Camp 1555, Fort Klamath.

Sue Hyslop, HE, has a scholarship in the school of retailing at New York university, and will soon be leaving to take advantage of the offer.

Vernon Shipp, MS, this year will teach industrial arts and trade-training in carpentry at Willcox, Ariz.

Emmajean Stephens, HE, leaves for Ithaca, N. Y., soon to take an assistantship in the home management house at Cornell. She will have charge of a group of girls there and in return receives her board, room and tuition while studying for her master's degree in child psychology.

1934

Lloyd Lillie, Engr, will go to New Jersey this fall to attend the Boy Scout executive training school.

Ralph Coleman, Ed, is working for the Portland Printing House, Inc., at 711 Southwest 14 avenue.

The engagement of Edith Smith, C, and Ed Lewis, Ed, was announced in Portland in July.

George Churchill, F, and Beatrice Tefft Churchill, HE, this summer are again at Steamboat, U. S. forest service camp at Glide, Or., as Churchill is assistant ranger there. They report that one of the lieutenants in the CCC camp nearby is Grant "Hap" Edwards, '34.

George Chandler, Engr, is stationed at Nyssa, Or., employed as an engineer with the U. S. Bureau of Reclamation.

Wellington Pollock, P, is working in the Watkins Pharmacy at Athena.

Florence Long, P, is drug clerk in the Flanery Drug store at Springfield.

Ethan Woods, A, went to La Grande in July to become assistant county agent for Union county. He succeeds Henry H. Rampton, MS, who came to Corvallis to accept a federal position at Oregon State college.

VITAL STATISTICS

Births

Scott—To Mr. and Mrs. Delbert Scott (Naomi Coleman, '29, HE), Scappoose, Or., a son, Donald, was born June 17. Scott, '30, C, teaches in the high school at Scappoose.

Blinkhorn—To Mr. and Mrs. George Blinkhorn (Vera Sikes, Class of '25) a second son was born June 5. Blinkhorn, '29, A, is Smith-Hughes agriculture instructor in the local high school.

Kollas—To Mr. and Mrs. Will J. Kollas (Bertha McConnell, '30, C), 3233 Northeast Skidmore, Portland, a daughter, Carolyn, was born June 7. Kollas, '30, ME, is employed by the Montag Stove and Furnace works.

Bedynek—To Mr. and Mrs. Julius L. Bedynek, Redding, Calif., a son was born June 30. Bedynek, '27, IA, is a teacher in the Redding schools.

Leton—To Mr. and Mrs. Morris Leton, 809 Northeast Brazee, Portland, a daughter was born May 30. Leton, '28, P, is proprietor of the Leton Drug store.

Goldblatt—To Mr. and Mrs. Arthur Goldblatt (Mary McFadden, '24, HE), a second son, Arthur Lane, was born April 30.

Hartung—To Mr. and Mrs. Donald Hartung (Anna Stewart, '31, VE), Molalla, Or., a daughter, Carolyn Louise, was born July 21. Hartung, '28, CE, is coach at the Molalla high school.

DeBoest—To Mr. and Mrs. Henry DeBoest, Eugene, Or., a second son was born in June. DeBoest, '30, P, is representative of the Eli Lilly company in the Eugene district.

Venstrom—To Mr. and Mrs. Cruz Venstrom (Delpha Wood, '31, HE), Reno, Nev., a daughter was born April 22. Mr. Venstrom is a member of the faculty at the University of Nevada.

Davies—To Mr. and Mrs. Gaylord Davies (Margaret Dawley, '31, VE), Troutdale, Or., a daughter, Diane Margaret, was born July 14. Davies, '32, VE, teaches at Grass Valley.

Brumbaugh—To Mr. and Mrs. Sheldon Brumbaugh, McCook, Nebr., a daughter was born May 26. Brumbaugh, Class of '26, is an architect. Mrs. Brumbaugh will be remembered as Gertrude Suess who for several years held a position in the Oregon State college library.

Black—To Mr. and Mrs. Donald H. Black (Marjorie Southam, '28, VE), 2729 Orchard street, Corvallis, a son, Gary Hugh, was born July 9. Black, '29, VE, is in charge of the Portland Gas and Coke company branch office in Corvallis.

Parker—To Mr. and Mrs. Franklin O. Parker (Gladys Svensson, '29, C), Grand Junction, Colo., a son was born May 27. Parker, Class of '28, is assistant manager of Martin's funeral home in Grand Junction.

King—To Mr. and Mrs. C. William King, Philadelphia, Pa., a daughter was born August 8. King, '31, C, is a student at the University of Pennsylvania law school.

"I THANK YOU—
I thank you ever so much—but I couldn't
even think about smoking a cigarette."

"WELL, I UNDERSTAND,
but they are so mild and taste so good
that I thought you might not mind trying
one while we are riding along out here."
