# Take a Ride

## . . . across this page and then across town in the NEW 1936 CHEVROLET

### NO DRAFT VENTILATION

Take a ride in the new Chevrolet for 1936. Notice, first of all, the greater beauty, luxury and more healthful comfort of its *Turret Top Body with Fisher No Draft Ventilation*. It's the smarter, safer body and, of course, it's exclusive to Chevrolet in its price range.

### KNEE-ACTION RIDE\*

Give particular attention to the unmatched smoothness of the gliding *Knee-Action Ride\**. The safest, steadiest, most comfortable ride ever developed. It's obtainable *only with Knee-Action*, and Knee-Action is also exclusive to the Master De Luxe Chevrolet in its field.

### TURRET TOP

Next, examine the *Solid Steel one-piece Turret Top*. This top puts the safety of solid seamless steel over your head . . . stiffens and reinforces the entire body structure . . . beautifies and identifies the modern car . . . and it, too, is exclusive to Chevrolet in its field.

### SHOCKPROOF STEERING\*

Notice, too, how perfectly steady and vibrationless the steering wheel is at all times. How much simpler and easier it is to drive and park this car. That's due to *Shockproof Steering\**, a direct result of Knee-Action, and another exclusive Chevrolet advantage.

### HIGH-COMPRESSION ENGINE

Now start Chevrolet's *High-Compression Valve-in-Head Engine*. The most economical of all fine power plants. Notice how much quicker this new Chevrolet is on the getaway, how much livelier in traffic, how much smoother and more satisfying in all ways on the open road.

### PERFECTED HYDRAULIC BRAKES

Now step on Chevrolet's *New Perfected Hydraulic Brakes*, as lightly or firmly as you please, and bring the car to a smooth, quick, even stop. You've never felt such super-safe brakes before, and won't today anywhere else, for they're exclusive to Chevrolet in its price range.

CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN

\*Available in Master De Luxe models only. *Knee-Action*, \$20 additional

# COMMENTS BY THE SECRETARY

## THE CLASS OF 1911

Twenty-five years ago 122 seniors graduated from Oregon State college. They are coming back May 30 to get together again and recall the happy years spent at the college. Whatever their circumstances are at present, they will undoubtedly agree that the best days of their lives were the carefree college days. Attending college might have been a hardship but no matter how hard their courses were or how hard it was to make tuition money and get three square meals a day, they surely will admit now that their hardships were pleasant hardships, if it is at all possible to consider hardships in that light.

We all hope that the Class of 1911 will be here intact for their reunion. Members of the class, you need this get together. Come on back to greet the old gang again!

The school has changed with time, but it is still *your school* and one of which you can be proud, too. It will be easy for some to be here, for others it will require a sacrifice, but whatever it costs you, your visit here will be worthwhile. Make your plans now and urge others to come back too. We are making ready to welcome you.

## CONFIDENCE BUILDERS

If you want to see some high class boxing and wrestling and at the same time be convinced that the bouts are absolutely on the level, then you should attend one of the all-school boxing and wrestling shows staged by Jim Dixon. This event is becoming a tradition at Oregon State and to win a championship at any weight is a real honor.

The fur flies and the blood spurts as the collegians tear into each other. Although most of the fellows are beginners, they really show rare ability, which is a fine tribute to the exceptional coaching of big Jim Dixon. His course in boxing and wrestling is attended by hundreds of boys and when they finish the course they know how to defend themselves, which is a splendid way of building confidence.

Dr. U. G. Dubach gave the Salem Alumni club an excellent talk on Thursday, February 20. He praised the system of higher education in Oregon and urged that alumni support the program. There was a very fine turn-out for the luncheon, a tribute to Dr. Dubach who has been at Oregon State 23 years. William Merriott, '22, was in charge of the program. Short speeches were made by Douglas McKay, '17, and Carle Abrams, '00.

The Salem club meets once each month for lunch though on no definite day. Officers of the club are Chick Feike, '27, president; Marion Horton, '30, treasurer, and Kenneth Perry, '25, secretary.

## BOISE HAS ANOTHER MEETING

The regular monthly meeting of the Boise Alumni club took place February 20 at the home of Mr. and Mrs. Herschel Cummins, (Ruth Pettigrew, '21), at 104 North Eighth street. The business meeting was presided over by past president Cummins, '19, in the absence of President Westerman Whillock, '25, and Vice-President Marion Cady, '32.

At bridge, which followed the business meeting, prizes were won by Mrs. Ben Schubert (Dorothy Turner, '25), Mrs. Herschel Davidson, Clyde Bridger and Herschel Davidson, '16. The hosts and hostesses were Mr. ('21) and Mrs. David Tate and Mr. ('16) and Mrs. Ivan Loughary (Maude Stenson, '15).

## SEATTLE ALUMNI MEET

Renne Koelblen, Class of '35, called the Oregon State alumni of Seattle together for a meeting March 6. This was a particularly good time for organizing an alumni club, as the Beaver basketball team was in town to battle the Washington Huskies for the northern division championship.

## HUMPHREYS IS ASSISTANT

Lester W. "Les" Humphreys, '29, has just received an appointment as assistant to Mayor Joseph Carson of Portland. The mayor used good judgment in selecting a capable young man for the position. Les graduated from the School of Commerce, later taking law and being admitted to the bar in 1933.

In case any one of our 38,000 fellow Oregon Staters gets a ticket for parking in the wrong place at the right time, we hope you will be able to fix it up. How about it, Les?

## REYNOLDS IN THE LEAD

Below are a few of the families that have increased enrollment figures at Oregon State. So far the Reynolds family from La Grande has a substantial lead. Perhaps there are other families who should enter the race. We have more in mind for next month.

Reynolds	Crouters
Ralph, '08	Leo, '15
Jay, '10	Paul, '16
Charlie, '13	Mary, '22
Lee, '15	Junia, '29
Earl, '20	Alfred, '32
Joe, '21	Robert, ex-'35, 5 terms
Marjorie, ex-'33, 8 terms	Dan, ex-'32, 1 term
Everett, sophomore, 5 terms	
Lenore, sophomore, 5 terms	
Total—30 Years	Total—22 Years
Hesslers	Laughlins
George, '25	Chester, '02
Victor, '26	Sibyl Cummings
Margaret, '27	Laughlin, '03
Fred, '29	Irwin, ex-'33, 2 terms
Mina, '32	Dora, '29
LaVerne, '34	Gordon, '30
Lenore, sophomore, 5 terms	Lyle, senior, 11 terms
Total—25½ years	Total—20½ years

Note: The two last-mentioned Reynolds are the second generation; Everett is the son of Charles and Lenore the daughter of Ralph.

The following have finished paying their Alumni Life Memberships during the present school year:

Henrietta Eckstein Fulkerth, '25  
Wilbur T. Pentzer, '23  
Louis G. O. Gentner, '15  
Winfield Norton, '19  
Robert Leep, '24  
Porter Martin, '17  
James P. Langley, '27  
Carl Lodell, '21  
James McCaustland, '00  
Angie Kyle Howard, '11  
Leland Corl, '15  
Robert Theiring, '25  
Edith Weed, '23  
Malcolm Crawford, '22

## ALUMNI DIRECTORS MEET

Eight of the 11 alumni directors attended a special meeting in the Memorial Union building after the Oregon-Oregon State basketball game February 28. Those present were John Plankinton, Allan Rinehart and George Knutsen, Portland; Ross Cady, Boise; David Wright, Salem; Percy Murray, Klamath Falls; Arthur Fertig, Astoria, and Kenneth Denman, Medford.

*Robert W. Ruhl, editor of the Medford Mail Tribune, is the newest member of the state board of education. Mr. Ruhl was appointed March 2 by Governor Charles H. Martin to replace Leif Finseth whose term expired at that date.*

*He attained national fame in 1933 when he was awarded the Pulitzer prize for his outstanding journalistic work as editor of the Mail Tribune. Last year he served as president of the Oregon press conference which meets at the school of journalism at the University of Oregon.*

*Mr. Ruhl is a graduate of Harvard University. He came to Oregon 25 years ago and has since become one of the most prominent and well-known men of this state.*

*This appointment of Mr. Ruhl brings to the state board a second noted journalist. B. F. Irvine, editor of the Oregon Journal, has been on the board since its inception in 1929.*

*Leif Finseth of Dallas whose term as a member of the state board of higher education expired March 2. During his term from February, 1934 to the date of expiration, Mr. Finseth gave faithful and intelligent attention to the business of the board, served as chairman of the insurance committee and on other important committees including rules and by-laws, library, buildings, grounds, and capital outlay.*

*In a resolution adopted by the board at its meeting here the members expressed thanks to Mr. Finseth for "his earnest study of matters before the board, his independent thinking and courageous action and his grasp of educational and business affairs" so beneficial to the board.*

*The resolution quoted in part "Resolved, That this board express its deep appreciation for the effective service rendered to higher education by Mr. Finseth and that the board extend to him its best wishes for continued success and happiness."*

# State Board Meets at OSC

## College Makes First Meeting of Members On This Campus a Special Occasion Military Training, Main Topic

FOR the first time since the single state board of higher education was formed in 1929, the board held a regular meeting on the Oregon State College campus Monday, March 11. Having decided that the early critical, formative period is past and that the business necessity of holding meetings in Portland is no longer so pressing, the board has now adopted the policy of meeting at least once a year on each campus. A special November meeting was held at the University, the regular January meeting at the Eastern Oregon Normal and now the latest here at Oregon State. The plans are to hold the next one at Ashland and probably the one after that at the medical school in Portland.

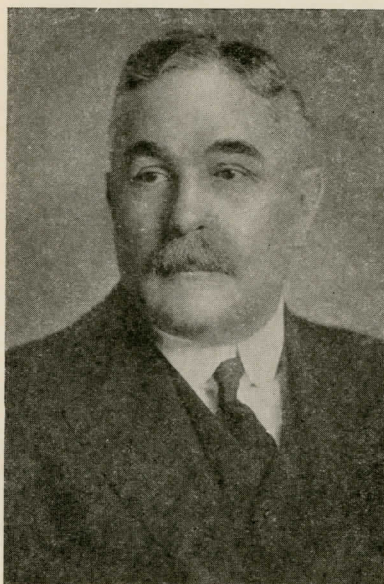

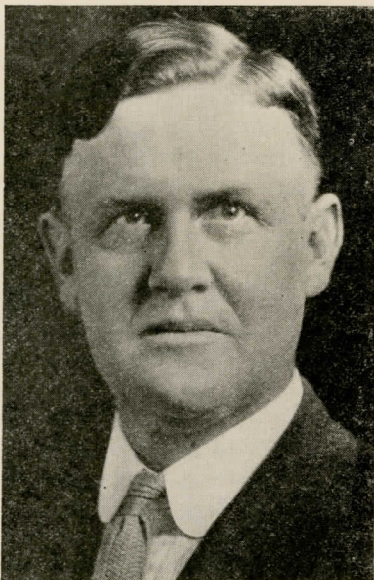

Although only six of the nine members were able to attend the session here, it was a notable meeting in respect to the opportunity it gave for the board members to inspect the campus and see the college in operation and to be greeted by the entire faculty and student body at the special convocation. Their coming was made a matter of major importance on the campus and the day before they arrived the Daily Barometer devoted much space to pictures and stories about the members of the board including some of the history of the board and its membership.

The newly appointed member, Robert W. Ruhl of Medford, who succeeded Leif S. Finseth of Dallas was unable to be present, having gone to California shortly before he was appointed by Governor Martin. The only other absentees were E. C. Sammons who was ill, and Herman Oliver who was unexpectedly detained just before leaving for Corvallis.

As usual most of Sunday was devoted to committee meetings and executive session to give preliminary consideration to the more important business matters. After these the regular session, held in the Memorial Union building on Monday, was carried throughout with little delay.

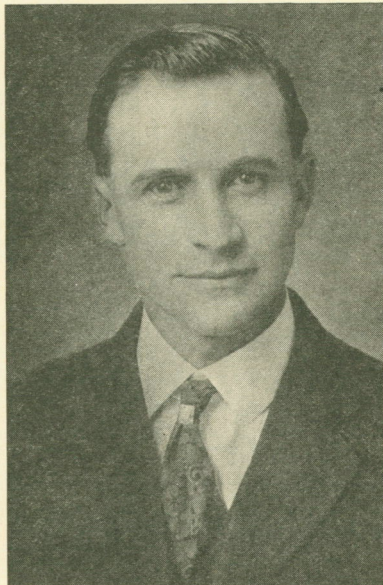

Considerable disappointment was felt by many when the board failed to take expected action in connection with a proposed raising of fees as there had been considerable advocacy of such a course both because the millage income was known to be still decreasing and because it was felt some help for general activities directly related to instructional work would be necessary under the optional payment plan. The board evidently frowned on this idea in its private meeting, however, as the question of fees for the coming year was settled without comment in the open

*Much of the responsibility for the functioning of the state board of higher education rests on these three men, members of the executive committee. WILLARD MARKS of Albany (left) is president, E. C. PEASE of The Dalles (center) is vice-president, and E. C. SAMMONS of Portland (right) is the third executive committeeman and chairman of the important finance committee.*

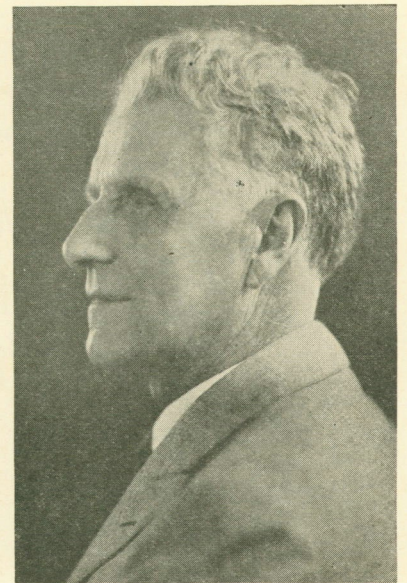

F. E. CALLISTER, Albany

HERMAN OLIVER, Canyon City

B. F. IRVINE, Portland

meeting, with the unanimous vote to have them remain as before.

Discussion of the military training question arose with the reading of a letter from Senator Peter Zimmerman of Yamhill to President Marks in which the former independent candidate for governor suggested that the board make military training voluntary at both institutions before the issue is taken to the people by the initiative.

"Student petitions on this subject have been in circulation already," said B. F. Irvine, Portland board member, "and if we are going to have to act on it we should have a definite investigation of our own as to the issues involved, the educational effect of the present system, the effect on youth, and the like."

The board passed his motion that a special committee of the board be appointed to handle the matter, with President Marks as ex-officio member. Marks in turn appointed Irvine as chairman with Mrs. Beatrice Walton Sackett and Herman Oliver to serve with them.

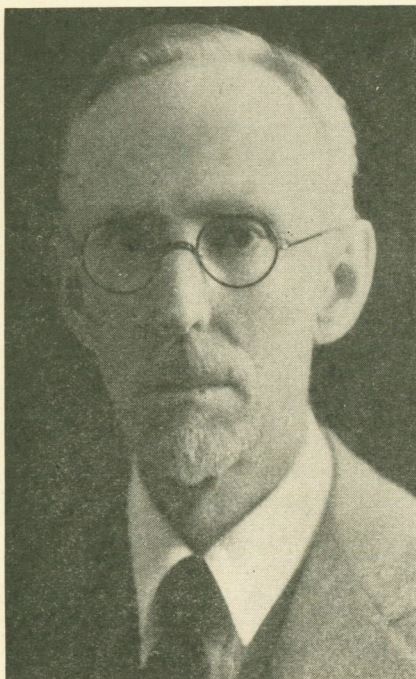

It was recalled that the board held hearings on this question some three years ago and after that investigation voted unanimously to continue the existing system of training for the first two years with exceptions allowed for religious conscientious scruples.

The finance committee of the board reported that it will cost approximately \$8000 a year to comply with the recent laws calling for uniform inventory, monthly budget reports and other fiscal regulations. Expressing full desire to cooperate with other state agencies and officials, the board then appointed a committee to continue contact with the board of control to keep extra costs to a minimum.

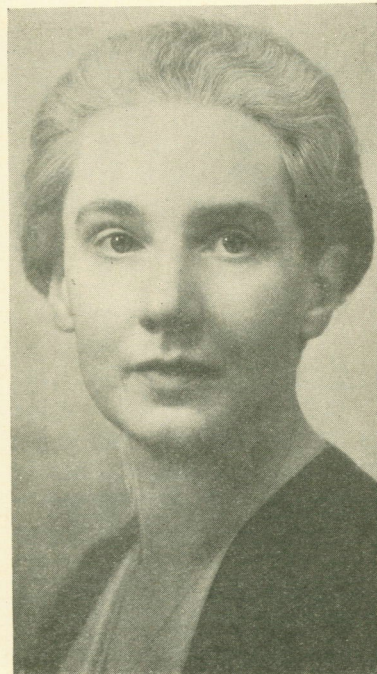

Immediate repair to add to the safety of the old science hall now used as a chemistry building, was ordered by the state board, and a new fire-proof chemistry building was designated as the next essential in buildings for the state system.

Alarmed at reports of structural dangers in the old building constructed in 1902, the board ordered a complete investigation last month. Though of good sandstone exterior construction, the building has old mill work interior for the 55 rooms on four floors. Twice it has been damaged by fire, resulting from its use as a chemical laboratory building.

The immediate repair program, estimated to cost \$3656 includes installation of eight steel tie rods both

C. A. BRANDE, Roseburg

BEATRICE WALTON SACKETT, Salem

directions through the building, repair of cracked lintels and caps on stone walls, addition of interior timber supports, and construction of a third fire escape on the west side.

The board also gave attention to the need of moving and reconstructing the dairy barn group, built in 1907, and now in close proximity to the west side of the main campus.

The board also acknowledged receipt of a resolution from the Oregon Butter and Ice Cream Makers association urging additional funds as soon as practicable to provide new equipment and eventually new quarters for the college dairy manufacturing department, through the work of which, the resolution said, butter quality has been raised in Oregon with a monetary gain to the industry in excess of \$500,000.

The building fee income constitutes a resource far from pledged to its capacity at Oregon State, the board was told by the building committee, headed by F. E. Callister. At present it is obligated for Memorial Union bond retirement in such a manner as to make it difficult to use it to full capacity, but it is hoped that some new arrangement can be reached which will fully protect the Memorial Union bond holders and still permit use of part of the fee for other purposes.

A special convocation arranged for the board proved a most enthusiastic meeting at which the glee and madrigal clubs and the cadet band furnished a special program of music. Jack Graham, president of the Associated Students, extended greetings on behalf of the student body and President Willard L. Marks responded for the board. Graham assured the board member that Oregon State students are endeavoring to keep their feet on the ground and avoid actions that would add to the burdens of the board members.

"We, as a board of higher education, are proud of the work of this institution—the work in scientific research, the work in various lines of activity promoting the wealth and progress of the state," stated President Marks in response. "We see you students here and we then feel that in our work we are performing a function most important in this state from a viewpoint of future citizenship."

Commenting further about Oregon State, Marks cited the architecture and arrangement of the campus, the Memorial Union building and the value of activities as band, glee and madrigal clubs, and athletic teams.

In speaking of the Oregon State Daily Barometer, Mr. Marks said, "It never loses an opportunity to advance the interests of the institution which it represents." He congratulated Marvin Wilbur, editor, and the staff members for the spirit of Americanism and loyalty evidenced in the daily publication.

Personnel changes were effected as follows:

Resignation of D. Clyde Smith, '28 MS, assistant professor of farm crops, to accept a federal position; advancement of H. E. Cosby, extension specialist in poultry husbandry, to head of that department, succeeding Alfred G. Lunn, '12, resigned, with no change in salary; release of two-thirds time of LeRoy Breithaupt, '10, extension economist, to federal resettlement administration; increased time and salary for Henry Hartman, pomologist of the experiment station, offered a position at high salary elsewhere. Hartman was placed in charge of all horticultural research.

All presidents of institutions in the system were present at the meeting in addition to the board members, and had places on the platform together with Chancellor Hunter and C. D. Byrne during the special convocation.

## Economy in Education

The Oregon State System of Higher education is operated on a basis of economy found almost nowhere else in the United States, and if left free from political and financial attack, can achieve even higher standards of efficiency, Dr. Frederick M. Hunter, chancellor of the system, reported to the State Board of Higher education at its March meeting here.

Having just returned from the convention of the department of superintendence of the National Education association, where unified administration of higher education was under discussion, Chancellor Hunter said he was able to view the Oregon situation in better perspective. He was impressed by the unusually high quality in organization, personnel and service which characterizes the Oregon institutions. Both the teaching program, including a single, unified graduate school, and the research facilities, which have been centralized and unified, are outstanding in many respects in comparison with other states, the Chancellor reported.

"No other state is able to secure such advantageous results at so low a cost," he said. "The unification of administrative control, the elimination of duplications and wastes, the reduction of total expenditure for

### Chancellor Hunter Reports to State Board

higher education amounting to almost a million dollars, the decrease in academic positions amounting to nearly 100 staff members, all have placed the Oregon state system upon a basis of economy found almost nowhere else in the United States.

"The unified administration under the state board of higher education represents the forward point in the national movement for more economic administration. The administrative machinery in Oregon is decidedly in advance of that of other states representing this trend."

In concluding his report, Chancellor Hunter pointed out what he sees as the two principal needs of the Oregon system at present. First, he said, is freedom to develop the system under authoritative and responsible expert guidance without molestation from political attack and continued interference from irresponsible groups with the administration of the detail of the system. Second is sufficient financial support to maintain and gradually advance the present high standards and to retain for services of the state the ablest and most scholarly of our staff members.

## Suggested Reading Material

Technical books for professional men and housewives, and books of amusement and general information are reviewed briefly in this column. This is the first attempt of the Oregon State Monthly to suggest reading matter in book form to our readers, but the column will be continued if it is approved.

The books listed are not available at the college library and must be obtained from the state library or purchased privately. Although the reviews were secured through the cooperation of the library staff here, it is not possible for them to provide the literature.

Brandel, John Hodgdon.

**Autobiography of earth.** 1935. Coward-McCann.  
\$3.00.

Dr. Bradley is an experienced geologist and professor in the University of Southern California and has written this fascinating autobiography of the earth which is popular science at its best. The general reader will find much to interest him no doubt, in the description of the earth's beginning, the atmosphere and ocean depths, etc. which are often so casually accepted.

Drew, Elizabeth A. (Mrs. B. W. Downs).  
**Enjoyment of literature.** 1935. Norton.  
\$2.50.

The sophisticated reader may not be greatly helped by this series of essays, but those of us who consider ourselves "common readers" will greatly enjoy this analysis and commentary on literature. Miss Drew has written a thoroughly enjoyable book devoted to biography, the essay, the novel, poetry and drama.

Borgert, Lotta Jean.

**Nutrition and physical fitness.** 1935. Saunders.  
\$3.00.

An excellent and practical presentation of the fundamental facts of nutrition and their application, written in non-technical style which commends its use to the intelligent lay reader. One section is devoted to the now popular subject of food consumption and costs.

Westveld, R. H.

**Applied silviculture in the United States.** 1935. Edwards brothers.  
\$4.00.

A lithoprinted book of 415 pages which deals with the latest silvicultural practices in the eighteen regions of the United States and Alaska. A study in regional forestry.

Collins, Archie Frederick.

**How to ride your hobby.** 1935. Appleton-Century.  
\$2.00.

This is an inspiring survey by an author of ex-

perience who is discreetly brief in his description of such hobbies as photography, carpentry, coin, stamp, and mineral collecting, weaving and many others. The text is enlivened by some line drawings and there is an index.

**Journal of Engineering Education** 26: Nov. 1935.

This issue of the Journal of Engineering Education contains several articles which may interest engineers who are already in the field, or who may feel called upon to give information to those who may be contemplating entering it. The first article is by Ralph M. Barnes, Professor of Industrial Engineering at the University of Iowa, entitled "Professional status and employment of graduates." In it is set forth the work of the committee appointed to study the professional status and employment of engineering graduates. A questionnaire was sent out to the dean of each of the 110 engineering colleges in the United States having institutional membership in the S.P.E.E. The results are tabulated and there is a vast amount of illuminating material brought to the attention of engineers including a list of recommended readings.

Mason, Bernard S. and Mitchell, Elmer D.  
**Social games for recreation.** 1935. Barnes.  
\$2.50.

Directions are clearly given in this excellent book for playing over 1,200 games which are suitable for parties, clubs, playgrounds, camps, picnics and social times at home. There is a good index.

Duveen, James Henry.

**Art treasures and intrigue.** 1936. Doubleday.  
\$3.50.

The author is a member of a family famous as art dealers in Europe for more than a century. This is a volume of reminiscences and anecdotes related with gusto of a search for art treasures.

Perry, Bliss.

**And gladly teach; reminiscences.** 1935.  
Houghton.  
\$3.00.

This book with an individual flavor was written in the author's seventy-fifth year. Bliss Perry began teaching at Williams College before he was twenty-one, going on to teach at Princeton and Harvard, with interludes of study and traveling abroad, and was for a decade editor of the Atlantic Monthly. "These reminiscences emphasizing his joy in teaching are written in genial, intimate fashion with anecdotes and thumb-nail sketches of famous men and women."

# \$77,000 Project Is Now Under Way

## WPA Work Will Provide Landscaping, Tennis Courts on Oregon State Campus

STARTING a week ahead of the time college authorities expected construction to begin, work on the \$77,000 WPA landscaping and recreational project on the campus got well under way the latter part of February. Funds for the project, which includes sidewalk construction landscaping and building of recreational facilities on the campus were approved by district and state WPA heads in December and by Washington, D. C. officials on February 9. Although college authorities had not planned to get the work started before March 1, the district WPA office recently reported the funds were available and the men ready to go to work immediately.

This project will provide for improvements on the campus at a cash outlay by the state board of higher education of less than 10 per cent of the total value. The project consists of two main parts. The west quadrangle north of the Memorial Union will be planted in lawn, prepared for irrigation, fitted with connecting cement walks and finally landscaped by formal treatment through the use of thousands of boxwood shrubs and other plants.

New cement walks around the west and south sides of the quadrangle, with connecting service walks on the south and east sides of the Memorial Union will be

included. Present board walks on the front terrace of the building will be replaced by red tile set in cement to harmonize with the present main north entrance terrace of the building.

Cement walks will also be laid at the rear of the dairy and agricultural buildings, with connected service entrances. All of the present board walks surrounding the men's dormitory will be replaced by permanent cement construction. The present rough lawn on the east quadrangle in front of the agriculture building will be replanted.

A recreational division of the project provides for the construction of 12 hard-surfaced tennis courts, to be placed along the south side of the men's dormitory, together with the necessary backstops, gates, partitions and other facilities. The four courts now on the Memorial Union quadrangle, which were planned and built before the building was located, will be removed following the completion of the new ones. Removal of these will be necessary to complete the landscaping plan and the system of connecting walks across this area.

Improvement of the crew house located near the Willamette river is provided for as a minor part of the

*(Continued on page 12)*

*The Memorial Union building, center of student activity on the Oregon State campus, will soon be surrounded by a more beautiful setting. Landscaping will provide more trees to grace the quadrangle in front and thousands of box wood shrubs will add to the new beauty. Cement side walks will replace the old wooden ones and tile laid in front of the building will greatly beautify the appearance. The tennis courts will be removed allowing a larger area to become subject to this "dress up" work now in progress.*

# OREGON STATE WOMEN

In writing about the doings of the "Kappas," the new "Kappa Kastle," as it is called on the campus, would be a good point to start from, as it is the center of interest. It is with much pleasure that we can report of the contribution of a plain-colored rug and figured draperies from the Portland Alumnae Association. The Mothers' Club, which has done so much, has given three full-length mirrors, and the Gamma Mu alums in Portland gave a splendid fire screen for the fireplace. One of the mothers in Portland, Mrs. Alice Rasmussen, also donated a lovely table for the hall. A new built-in dressing table and mirror have been built in the president's room and others are planned in the near future.

Christmas was a splendid and suitable time for "get-togethers." A pleasant coincidence happened in Portland was the meeting of what we might call two "generations" of Gamma Mus at lunch—the list included Gladys Kinear Hughes, Catherine Caldwell, Marian Conklin Thornton, Winifred Hardy LaDow, Barbara Reed, Margaret Zimmerman, and Isabel Van Waning. The annual Christmas party was given at the home of Justine Peake with pledges, active members and alumnae in attendance.

Everyone should be interested to hear that Helen Wilder Mack, a Kappa of 1934-35, has just had a son. She is now living in Blaine, Washington.

The girls in the house are up-holding the record of the house in activities and are daily working toward furnishing the house comfortably and in good taste.

Many alums and ex-students visited the local chapter of **Kappa Alpha Theta** last month. Mr. and Mrs. Harold Joslin stopped on their return to Spokane from a trip through California. Mrs. Joslin is the former Helen Schroder. Florence Peters, ex-'35, came down from Portland for one of the Oregon-Oregon State basketball games. Enid Clifford, ex-'38, and Model Hystead, ex-'37, stayed at the house the week-end of February 29. Miss Clifford plans to return to school spring term.

Several girls are now working. Carmen Case, ex-'36, is employed in the offices of the city of Molalla. Miss Case spent several days at the chapter house at the time of the winter formal, January 31. Louise Cook, ex-'34, is working as a window decorator in Portland since her return from Europe last summer. Isobel Slade, '35, is employed on a newspaper staff in Seattle.

Dorothy Woodside, ex-'38, is spending the winter in San Francisco with relatives. Margaret Warner, ex-'37, has announced her engagement to Norton Forsythe, '32, and a member of the Phi Delta Theta fraternity. Mrs. Donald Anderson, formerly Maxine White, ex-'37, and her husband, '35, and a

member of the Delta Upsilon fraternity, are now living in Ketchikan, Alaska.

Recently, at the **Pi Beta Phi** chapter house, as well as to her circle of friends in Portland, Miss Peggy Jones ex-'36 announced her engagement to Mr. Al Bergh, ex-'36, a Sigma Nu on this campus.

Of interest to others is the announcement of the date of the marriage of Miss Virginia Cooper, '34, to Mr. Rowland Rose, '33, on Easter Sunday, April the twelfth.

The arrival of a daughter, Judy Louise, to Mr. and Mrs. Victor Miller,

(Lila Wagner) was announced recently.

Valentine's day Vera Weber, '34, announced her wedding to Oren Swain which is to take place in the West Point chapel June 13. Miss Weber spent the day in Corvallis assisting with the Meier and Frank Company's part in the fashion show presented for the Home Interests Conference. The wedding date was on a card found in the box of candy which she passed during luncheon at the **Alpha Chi Omega** chapter house.

The same day, February 14, James Wallace Long was born to Mr. and Mrs. Merle Long of Corvallis. Mrs. Long, formerly Dorothy Moore, ex-'34, was president of Chi chapter in 1933.

(Continued on page 11)

## Co-Eds Have Big Hand In Student Affairs at OSC

Leading ladies on the Oregon State campus play many important roles in the numerous activities of organizations and classes. The women are not relinquishing their power to the male sex readily, and hold several high offices with men as superiors and entirely govern all women's organizations.

**Charlotte Redfield** is president of the Associated Women Students of Oregon State and is prominent in publications. She is a leader of marked ability and has attained membership in honor societies at OSC. She is affiliated with the **Alpha Chi Omega** social sorority.

**Helen Maaranen**, president of Mortar Board, national honor society for senior women, and secretary of the Associated students of Oregon State college, holds all present records for high grades. Last term was her fourth straight A campaign. She predicts a little variation this term because of the many activities in which she is doing so well. Chairmanship of the Women's Ball and publication work among other duties keeps her busy. She is a member of **Kappa Kappa Gamma** sorority.

**Janet Millard**, noted **Pi Beta Phi** busybody, just completed a term on the board of control, a group of powerful persons who have the say over most major problems concerning the students.

**Janet Fenner**, **Kappa Kappa Gamma**, replaced Miss Millard at the recent election of members of the board.

**Eunice Cottrell** from the **Kappa Alpha Theta** mansion now holds the ruling reins in the Talons organization. Talons is a local service honorary for sophomore women.

**Ruth Hallmark**, **Alpha Xi Delta** journalist, fills the editor's chair and exercises the blue pencil in behalf of the *Lanplighter*, literary magazine written, edited, and published by the English department with the students in charge.

**Eleanor Geisler**, **Sigma Kappa** socialite and newspaperwoman, proves herself worthy of the office of assistant editor of the *Oregon State Daily Barometer*.

**Doris Shaver**, reputedly **Gamma Phi Beta**'s prominent example of the best dressed woman in college, is assistant editor of the *Beaver*. She also does the duties of executive news editor of the *Barometer*. She has been outstanding in publications work for some time.

**Jean Ross**, another **Kappa Alpha Theta** leading lady, is secretary of the senior class. She has other activities which combined with her social life and studies make a full program.

**Shirley Wheeler** is the **Pi Beta Phi** representative in the official ranks of the Associated Students. She occupies the second vice-president's chair.

**Marion Hennessy**, **Delta Delta Delta** queen, carried her popular title to the throne at the Junior Prom. She was elected by a popularity vote to rule over the annual Junior formal this year.

**Ruth Reed**, brings the **Sigma Kappa** average up as vice-president of the senior class. She is prominent on the campus and is working in various activities.

**Betty Feigenson**, **Chi Omega**'s claim, relinquished the presidency of the Pan Hellenic Council to **Dorothy Willis**, **Kappa Alpha Theta**, early this month. The Council is an organization of representatives from all sororities.

The fair population of this campus take no back seats when it comes to politics. They have their meetings, leaders and all that goes to make a political party. They are doing right well by themselves, as is evident by the various positions prominent and capable women hold in organizations and student government here. Things run smoothly under their jurisdiction and they show all indications of going further with their campaigns.

**Sigma Chi** went places in intramural competition this term by adding to their mantled collection of trophies the bridge championship award. Bob Rushing and Tom Hoover, the Sig card sharks, have the honors. Ed Creider and Joe Gray were beaten by a strong Phi Sigma Kappa team for the fraternity championship in handball. An even split—they lost the bridge to us. The Sigma Chi's went under in the volleyball finals.

The "little man," Rodney Shultis, is the 135 pound champion wrestler. Rodney is making tryouts for the Olympics in Berlin. Don Nance, our singing fighter entered the boxing tournament but lost his second bout. He fought two bouts the same evening because several men were in his division. He battled six good rounds but the long arms of his opponent were too much for him.

Ed Creider, beforementioned champ, was recently elected to the board of control as Junior man.

The chapter held a formal dance at the house March 7.

Initiation of six new men, increased participation in campus activities, and renewed efforts to keep the grade average climbing has kept **Phi Gamma Delta** busy during the past weeks.

Three sophomores and a like number of promising men from the rook class were initiated soon after the opening of winter term.

Fiji teams have enjoyed a successful season in intramural sports. The house was represented by at least one entry in all regularly scheduled intramural activities on the campus. **Phi Gamma Delta** is a leading contender for the all-school intramural trophy. In the all-college boxing tournament, two fierce Fiji fighters scrapped their way into the semi-finals. When the final gong rang, the house acclaimed a new all-school champion.

Recent pledging activities swelled the number of men affiliated with the house to 61. Forty two men, house capacity, are living in the Phi Gam Shanty.

Despite the fact that the majority of men in the house are busily engaged in campus activities, the Fiji grade average is rising in fraternity standings.

The house being in excellent condition, plans are being made for the redecoration of the rough-house room, center of after-dinner relaxation. The new ping pong table has been installed, while other details are being pushed.

Several parents have visited the house this term. The "out of state" boys have been honored by visits from their parents, representing various parts of the country. In many cases it was the first time the "folks" have seen the college or the fraternity.

Still maintaining its position in campus activities, **Pi Kappa Phi** holds fourth place in the fraternity ranks for Fall term grades with a 2.73 average. Local Pi Kaps found many outside

# OREGON STATE MEN

activities to keep them busy, all but a few of the men finding one field or another of activity.

Marvin Wilbur, editor of the *Barometer*, received the Pi Kappa Phi Scholarship Penant as one of the nine outstanding members of the national. Wilbur also edited the Oregon State Rook Bible, besides finding time to be chairman of the publications board; and a member of several campus committees and boards.

Sumner Alldredge kept busy with his task of being President of the Memorial Union and chairman of the student body social committee. Chairmanship of the Military Ball will use up a lot of Alldredge's spare time for Spring Term.

Jerome Fluke is manager of the "Agricultural Journal," being assisted by Bob Weir, the assistant manager. Weir was recently initiated into Scabbard and Blade as was James Marsh. Marsh spends part of his time on the rifle range being a member of the O. S. C. rifle team.

Howard Conkle is one of the singing foresters, and Vance Kelsey is a member of the Glee Club. Ward Anderson rows on the O.S.C. crew and was one of the Sophomore Cotillion decoration chairmen. Fred Zitzer is a member of the Tech Record staff as is Clyde Dean, who is also on the O.S.C. swimming team. Joe Dillow swims on the Rook swimming team, and Carl Burtch earned his Rook Numerals in basketball. Charles Bogner is assistant collection manager of the *Barometer*. Harold Gerking is a member of the cadet band and is trying for a place on the crew. Gerking is a "ham" as is Joe Dillow, who garnered his experience as Radio Operator of a government dredge operating around the Hawaiian Islands before he came to school. Marion Sigovich was the proud receiver of a Phi Kappa Phi freshman award for outstanding scholastic work.

At the present much "festing" is in progress on the house formal to be held Spring Term. Quite a number of the alumni from the newly formed Portland Alumni Chapter are expected down to the dance.

Horace Granger of Seattle, District Archon of the fraternity visited the local chapter on the week-end of February 22. Granger was making his annual inspection of the chapter, and he brought news of the present plans for the national convention of the fraternity to be held in Seattle next August. Because of its nearness to the convention city, the local house expects to be well represented at the convention.

Joe Dillow, Marion Sigovich, and Vance Kelsey, all of Portland, received the Diamond at the formal initiation held on February 22.

January 25 **Kappa Delta Rho** had its annual winter informal dance at the

chapter house. Brother Onsdorgg and wife and Earl G. Mason and wife were patrons and patronesses. The dance was a big success, due primarily to the novel broadcasting system which was inaugurated that evening.

In athletics this term KDR has been quite prominent. Gus Krause and Dick Sutherland exhibited unusual skill and ability in reaching the quarter finals in the handball tournament where they were eliminated in two hotly contested matches. Ping pong also provided plenty of opportunities for the trick shot artists of KDR. Lee Port reached the semi-finals of his bracket where he was defeated by the bracket winner. The bridge "Sharps" Stub Stewart and Sax Ruppe trod mercilessly on their opponents for four consecutive games, then fell by the wayside at the hands of the strong Cauthorn Club team. Bob Walker made quite a name for himself as a hard scrapping welterweight but was eliminated in the semi-finals by last year's champ.

In other activities the men affiliated with KDR have also been very prominent. Howard Collins, house prexy, was general chairman of the Junior Prom and Bob Rinehart was co-chairman of the same staff on the decorations committee. Bill Marshall was co-chairman of the Ag Club dance held January 11th and is a prominent member of the ticket sales committee for the Ag Club banquet. Marshall was also initiated into Alpha Zeta, national honorary in agriculture. Karl Dehlinger is chairman of the Ag Club banquet which is one of the major activities of the year for that club. Art Wirch has made a name for himself as a member of the Forestry Club publication, as well as numerous other activities. Mel Breese was very prominent in the campaign in support of the Student Fee Bill.

One of the big social events of the year was the pledge dinner which was held February 16 with Woodrow Damerell and Bob Walker in charge. The members acted as waiters and butlers.

**Sigma Nu** initiated four pledges at the beginning of this term. They were John Hanson, Lakeview; George Peeke, Astoria; Bob Trouton, Portland, and Bob Conyers, Clatskanie.

The winter formal dance was held in the chapter house, February 21. Fifty-five couples attended, including the patrons and patronesses, Dr. and Mrs. Sigurd H. Peterson and Mr. and Mrs. Robert Reichart. Kenny Allen's orchestra furnished the music.

Our four members of the varsity football squad received letters at the close of the football season. They were Woody Joslin, end; Harold "Tub" Brown, tackle; Ray Scott, fullback; and Glen Moody, tackle. Brown, Jos-

Oregon .....	7	9	.438	573	601
Idaho .....	2	14	.125	488	675

#### Southern Division

	W.	L.	Pct.	Points— For	Ag.
Stanford .....	9	4	.692	515	502
Southern California	8	5	.615	510	439
California .....	6	6	.500	408	423
U.C.L.A. ....	2	10	.167	384	453

(At the close of the regular season Stanford and Southern California were tied for the championship. In the one-game playoff Stanford won, 39 to 36.)

Another successful conference season has ended for the Orange varsity basketball players coached by the affable, Slats Gill.

In conference competition the Orangemen won ten games and lost six

and finished the season runnersup to University of Washington for the championship of the northern division of the Pacific coast conference.

The Orangemen opened their conference season by taking two games from University of Idaho on the local floor. They then took a trip to Eugene where they lost the initial contest of the annual four-game series with the Webfoots by the score of 29 to 27.

With their standings two wins and one loss the Orangemen set out on the tough road trip to the Inland Empire where they played four games in five days. They broke even in two games with Washington State college at Pullman, winning the first by the score of 27 to 26 and dropping the second, 32 to 31.

They completed their road trip by downing Idaho twice.

Washington was the next opponent

on the local floor. The Huskies won the opening game without much trouble by the score of 51 to 33 and took the second in a hard fought battle by the score of 35 to 31.

This left the Orangemen with a conference rating of five wins and four losses and the season half over. No team has won the northern division championship and lost more than four games in a season since the 16-game schedule was adopted in 1930. So with this tradition staring them in the face the Orangemen were well aware of the fact that one more loss would put them out of the running for the championship.

In the mean time Washington had run up a string of eight victories to go well into the lead in the conference race with the Orangemen in second place.

Oregon State's next game was with the traditional rivals, the Oregon Webfoots. The Orangemen, still somewhat irritated over the early season 29 to 27 defeat at the hands of the Webfoots, had sweet revenge by bowling over Howard Hobson's team by the score of 49 to 23. The game was played here before a capictiy crowd.

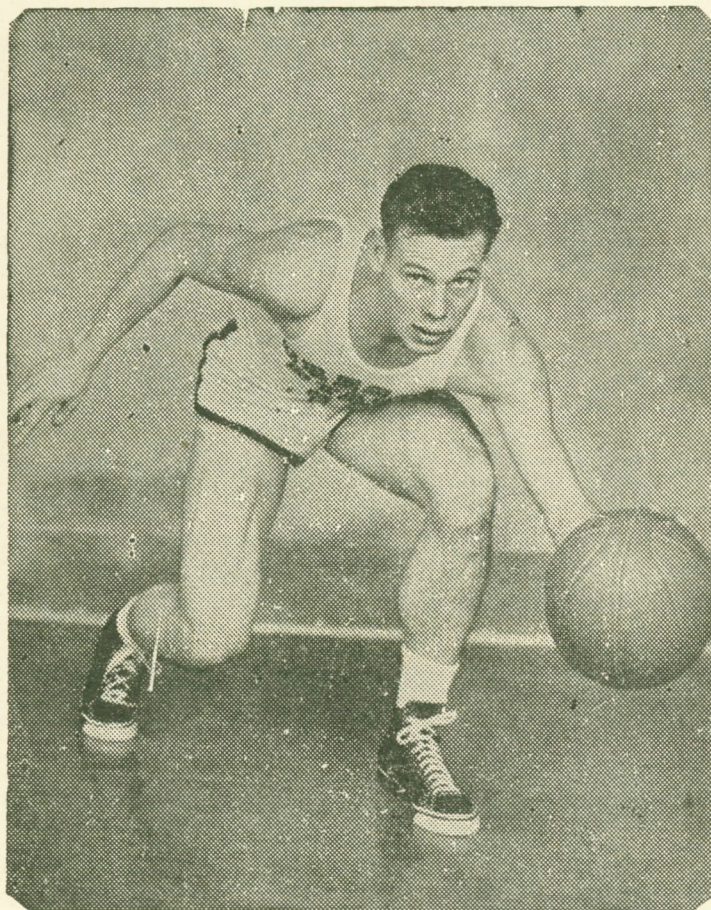

Washington State was the next opponent and the Orange quintet took both games by scores of 33 to 26 and 41 to 26. This double victory and the one-sided win over Oregon gave the Orangemen a standing of eight wins and four losses with four more games to be played—two against Oregon and two against Washington.

Washington at this time had increased her string of victories to ten and had not lost a game with the result many close observers of the game were willing to concede the championship to the Huskies right there and then.

The Orangemen, however, refused to be considered out of the race. They took the next two games from the Webfoots; the first at Eugene by the score of 28 to 26 and the second here by the score of 35 to 29. This gave the Staters the series with Oregon 3 to 1 and the Orangemen a conference standing of ten wins and four losses.

While Oregon State was trimming the Webfoots the Washington Huskies were on the road trip to the Inland Empire where, to the great surprise of everybody, they broke even in the two games with Idaho and lost both contests to Washington State college.

This disasterous trip of the Huskies now hinged on the two games at Seat-

Wally Palmberg, all-coast and all-American nominee of Oregon State's runner-up division championship basketball team, who set a new individual high scoring mark of 187 points.

tle between the Huskies and Orangemen.

To win the pennant all Washington needed was one game while the Orangemen had to win both to raise the flag. All other teams were out of the race.

In one of the greatest games ever played on the coast the Huskies took the opening contest by the score of 39 to 30. The score was tied and the lead changed many times in the 40 torrid minutes. With the victory went the championship of the northern division to the Huskies.

A crowd of more than 10,000, the largest crowd ever to see a basketball game on the coast, jammed the Washington stadium to capacity. Several hundred eager fans were turned away half an hour before game time.

Washington won the second and final game of the regular conference schedule by the score of 25 to 19.

While the Huskies were winning the championship and a new attendance record was established, another record also went by the boards when Wally Palmberg, Oregon State's great forward, ran up a total of 187 points in 16 conference games to break the record of 176 points set by Bobby Galer of Washington in 1934.

## OSC MEN

(Continued from page 9)

lin and Scott are seniors and Moody is a sophomore.

Wally Palmberg and Art Merryman represent Sigma Nu on the varsity basketball squad while Jim Kerns, vice-president of the chapter, is, at the present time, rowing stroke oar on the lightweight varsity crew.

Erwin Bahlburg, freshman pledge from Salem, lost the individual tennis championship in the finals as did Sigurd H. Peterson, Jr., who lost his 125-pound wrestling title in the semi-finals.

Ray Siegenthaler, a member of the oratory squad, won fourth place in the Linfield college tournament last month. Sigma Nu tied Phi Delta Theta for the B team intramural basketball championship but lost the A team championship to Beta Kappa.

Sigma Alpha Epsilon has, during the last term amassed a number of points, to put them in the lead for the all school intramural athletic trophy. In all college wrestling, although they failed to place a man in the finals, 32 matches and the intramural wrestling trophy were won by SAE. SEA lost in the finals in volleyball against Cauthorn Hall.

Lauren Foreman, supreme recorder of Sigma Alpha Epsilon, was a guest at the house February 26 and 27. This was the 105th chapter visited in his tour of the 110 chapters of SAE throughout the country.

Conditions at the Chi Phi house are very good, and there is a good outlook

Palmberg, who is considered by many the greatest basketball player ever to attend Oregon State, is the second Orangemen to hold the individual high scoring record for the northern division conference since the 16-game schedule was adopted in 1930.

Ed Lewis, all-American center for Oregon State in 1933, established a new record of 173 points that year.

Palmberg, who is a former Astoria high school player, was the unanimous choice of coaches in their selection of an all-northern division team this year. He received a similar honor last season.

This is Palmberg's last season with Oregon State. Other lettermen lost are Cliff Folen, guard; Wilbur Kidder, center and guard, and Bob Bergstrom, guard.

Following are the complete results for the season.

### Pre-season Games

Oregon State 35	Union Oil 32
Oregon State 30	Willamette 29
Oregon State 39	Multnomah club 19
Oregon State 36	Union Oil 27
Oregon State 36	Union Oil 25
Oregon State 45	Southern California 40

for the remainder of the school year. During this term three men have been initiated and four more have been pledged. Bob Layfield was initiated into Scabbard and Blade, military honor society. Louis Eade, an alum, was initiated into Alpha Delta Sigma, national and professional advertising fraternity for men.

A number of alums have been dropping in on us from time to time. Jim Newberry, who is now working with the U. S. Engineers at Eugene, has made a number of visits. Elwood McKnight, who is working in Bend, visited a few days. Marshall Gray and Bill Purdin drove down from Portland for dinner recently. Ken Madden drove down to see the Oregon-Oregon State basketball game and stayed over the weekend. We hope to have more of them visit us next term.

We are looking forward to a successful and busy spring term.

Oregon State 36 Southern California 50

## OSC WOMEN

(Continued from page 8)

Members of Alpha Chi Omega on the Oregon State campus entertained with a formal dinner before the Women's Ball. Charlotte Redfield was chairman of decorations for the ball and Lillian Holm in charge of orchestra and feature.

February 6, Chi chapter held formal initiation for Lois Brown, Virginia Carlson, Dorothy Cook, Doris Jean Gillaspie, Janet Hinkle, Marjorie Kibbe, Betty Kimmel and Jeanne Mayo. Sunday, February 9, the old members entertained the Corvallis alumnae at tea honoring the new initiates.

Lillian Holm was chairman of the lyceum concert of March two given by Jan Kubelik, world-famous violinist. Virginia Conn was chairman of publicity.

Eta Alpha of Chi Omega entertained with its annual formal faculty bridge party Friday, February 21. Acting as hostesses in the receiving line were Mrs. Clara Stewart, housemother, and Miss Edith Somppi, president.

# State Board of Control Approves Armory Fund

Immediate repair of the college armory damaged by fire February 18 has been authorized by the state board of control, the funds to come from the regular state restoration fund carried as insurance on state buildings. Detailed estimates fixed the cost of rebuilding and renovating at \$16,159.91.

In addition to the actual fire damage confined to the north end, the entire ceiling of the big drill room and steel trusses were smoked so badly they will require recleaning and repainting.

The reconstruction will be handled by the college physical plant management under the direction of E. P. Jackson, superintendent of buildings, making it possible to begin work immediately and to employ the maximum amount of student labor. Plans are being made to have as much work available of an unskilled nature ready during spring vacation so that students with badly depleted finances may be assisted in remaining through the spring term.

The amount allowed by the board is just the sum needed to restore the building to its former condition. In addition the college plans to make a few minor betterments as strengthening the safeguards around the stores, arms and ammunition.

## OSC Summer School Plans Announced by Dean

Oregon State college summer session will be held from June 22 to July 31, inclusive, with a post session from August 3 to 28, M. Ellwood Smith, director of summer session has announced. Availability of nationally known specialists in different fields is reflected in the list of visiting instructors supplementing the regular staff of the summer session, Smith said.

The convention of the National Education association in Portland, June 28 to July 3 and the national convention of the American Home Economics association in Seattle, July 6 to 11 will bring to the northwest educational leaders from all parts of the country. Catalogs giving lists of courses for the coming summer session are now available in Dean Smith's office. There are 182 courses offered in the regular session and 27 in the post-session.

Suggestions intended to be helpful to students in selecting their summer courses are given on the front of the catalog. Pre-medics, pharmacy, and other students may fulfill their required chemistry course, Ch 201, 202, 203, or organic chemistry, Ch 226 and 227. Engineers deficient in mathematics may clear their schedule by completing necessary terms of Mth 121, 122, 123. Similarly in many fields students may make up deficiencies or round out their programs.

## Construction Project Under Way on OSC Campus

*(Continued from page 7)*

project. A workshop will be added to the present quarters which will permit the construction of rowing shells and other equipment on the premises. Landscaping of the area around the crew house will also be carried out.

Installation of the irrigation system on the east quadrangle, just south of the library, was the first job undertaken. Later, when weather permits, concrete sidewalk construction and erection of the tennis courts will get under way. Landscaping of the west quadrangle will also be started when weather permits.

Announcement of the final approval of these projects was welcomed by heads on the campus. The presence of President George W. Peavy in Washington at the time of final consideration of the projects is considered exceedingly fortunate, making possible personal attention to the matter.

The approval is not only of tremendous importance in the development and appearance of the campus, according to college officials, but will also insure enough projects to care for the major unemployment requirements of the county for the remainder of the winter and early spring months, district WPA leaders commented.

Rooks 37	Oregon frosh 41

## MEMORIAL UNION BOARD VOTES CHANGE

A decision to partition off room 211 of the Memorial Union from 212 was made at the joint meeting of the Memorial Union board of directors and governors here March 8. The new arrangement will provide for an extra room to be used for a club or faculty room, according to E. C. Allworth, manager of the Memorial Union building.

The budget committee for the year 1936-37 was appointed. The members are as follows: E. E. Wilson, F. E. Price, J. F. Porter and G. V. Copson.

The "Union Quadrangle" was the name suggested to the board of higher education in place of the present one for the section of the campus just north of the Memorial Union building, now known as the west quadrangle.

Moving the flagpole from its present position just east of the bandstand in the east quadrangle to a place near the center of student activity was discussed. A committee was appointed to look into the question of doing away with the cement boxes around the floodlights in front of the building.

# THIS IS ALASKA

## WHERE YOU VAGABOND SHELTERED SEAS

THIS is where you'll find plenty of real adventure to satisfy that wandering heart of yours. The weirdness of the Midnight Sun. The longest, most scenic mountain-guarded sea lane in the world. Deep-walled fjords. Mightiest of roaring glaciers. Myriads of wild flowers. Greatest mountains on the continent. This is the sort of spectacular adventure Alaska holds for you.

One day you call at huge glaciers, other days you sail into fascinating ports...totem-guarded villages, historic Russian trading posts, gold-rush towns. There are days for fun or for being just lazy, when you throw off the cloak of routine on these comfortable Alaska Line ships, and on interesting tours to fascinating Interior Alaska where you see Mt. McKinley, Matanuska, and gold mining. Truly, Alaska offers a really "big" vacation, and for so moderate an amount.

May to September is the time to pick-up, pack-up and bring the family to Alaska. Sheltered Seas begin at Pier Two in Seattle. See your Travel Agent and mail the coupon below for Alaska vacation literature.

## REUNION SCHEDULE FOR 1936 and 1937

Classes having reunions next June are '86 (Golden Jubilee), '02, '03, '04 and '05; '11 (Silver Jubilee); '21, '22, '23 and '24, and those Oregon Staters who have already celebrated their Golden Jubilees.

For 1937 those returning are the classes of '87, '98, '99, '00, '01, '12, '17, '18, '19 and '20.

## VITAL STATISTICS

### BIRTHS

**Acklen**—To Mr. and Mrs. J. W. Acklen (Jessie McDonald, '24), 902 Fowler St., Raymond, Wash., a daughter, Jill, was born January 21.

**Poore**—To Mr. and Mrs. Ernest Poore, 3957 Northeast 41st avenue, Portland, a daughter, Carolyn Hester, was born December 29. Poore, '28, is a state auditor.

**Riches**—To Mr. and Mrs. Harry Riches, Salem, Or., a son was born January 20. Riches, '24, is the Marion county agricultural agent.

**Rampton**—To Mr. and Mrs. Henry Rampton (Doratheia Henningsen, '31), Pullman, Wash., a daughter, Jean Doratheia, was born January 22. Rampton, '33 MS, has a Soil Conservation service position.

**Yunker**—To Mr. and Mrs. Edwin A. Yunker (Gertrude Harry, '27), 210 North 25th street, Corvallis, a son was born January 8. They have a three-year-old daughter as well. Yunker, '23, is assistant professor of physics at Oregon State.

**Rueppell**—To Mr. and Mrs. W. Lewis Rueppell (Crystal Rath, '31), 3501 Northeast Union avenue, Portland, a son, Donald, was born January 31. Rueppell, '31, is a druggist.

**Hardie**—To Mr. and Mrs. James A. Hardie, Salem, Or., a son was born January 5. Hardie is a '28 graduate.

**Chapman**—To Mr. and Mrs. Fred Chapman, Roseburg, Or., a son was born January 8. Chapman, '34, is associated with his father, W. F. Chapman, '07, in a drug store at Roseburg. The baby's grandmother is an Oregon Stater also—Alice Knerr Chapman, '05.

**Saling**—To Mr. and Mrs. Neil Saling (Irene Hazlett, '30), 1840 Onyx street, Eugene, a son, Neil Edmund, Jr., was born recently. Saling, '30, is teaching industrial arts in one of the Eugene schools and is taking graduate work at the University of Oregon.

**Weber**—To Mr. and Mrs. Harold K. Weber, Gresham, Or., a son, Stanley, was born January 30. Weber, '29, is a teacher in the Gresham high school.

**Hammond**—To Mr. and Mrs. Sinclair Hammond (Marian Elliott, '31), 4611 Southeast Francis, Portland, a son, Sinclair Elliott, was born February 8. This is their second son. Hammond, '31, is with the Shipping News, Portland.

**Long**—To Mr. and Mrs. Merle Long (Dorothy Moore, '34), 969 Polk street, Corvallis, a son, James Wallace, was born February 14.

**Goldblatt**—To Mr. and Mrs. Arthur Goldblatt (Mary McFadden, '24), Los Angeles, Calif., a daughter was born February 25 in Portland. This is their third child and first daughter.

**Cliff**—To Mr. and Mrs. Kenneth Cliff (Thelma Drake, '31), Vernonia, Or., a daughter was born February 17.

**Fish**—To Mr. and Mrs. Edward H. Fish (Lois Johnston, '29), Houlton, Or., a daughter, Clara, was born February 8. Fish is a member of the '24 class.

### MARRIAGES

**Storgard-Durbin**—Thelma Durbin, '24, and A. Eric Storgard, '24, were married in Eugene January 11. The Storgards are now at The Dalles, Or., where he has a position with the U. S. Engineers.

**Finlay-Petersen**—Thelma Petersen and Gordon Finlay, '35, were married in Shelton, Nebraska, January 1 and are now at home at 1078 North Capitol street, Salem. Finlay is director of the Salem high school band.

**Morrison-Stimson**—Marjorie Stimson and Bruce Morrison, '34, were married in Portland December 29. Morrison is a student engineer with the General Electric company at Bloomfield, N. J. Their street address is 45 Morse avenue.

**Shonts-Clinton**—Kathryn Clinton, '34, and James J. Shonts of Seattle were married January 17 at San Jose, Calif. Mrs. Shonts transferred in 1932 to the University of Washington where she graduated in vocational education last year.

**Arnsberg-Levin**—Adrienne Levin and Ace I. Arnsberg, '32, were married in Seattle January 1 and are now on a six-months' cruise on the steamer Monterey which left San Francisco January 7 for Honolulu, the south sea islands and Sydney, Australia. They plan to reside in Portland when they complete the voyage.

**Fox-Bash**—Elizabeth Bash, '36, and Henry Fox, '35, were married in Grants Pass January 2. They are living at Vacaville, Calif., where Fox is employed by the Soil Conservation service.

**Martin-Scruggs**—Helen Scruggs and Bruce Martin, '34 were married in Corvallis January 1. They are making their home in Marshfield where Martin is a member of the high school staff. Mrs. Martin recently passed the state examination and is now a registered nurse.

**Corlett-Alf**—Mildred Alf and Donald Corlett, '23, were married January 25 and are now living in Kobe, Japan, where Corlett has a position with the State Steamship company. Mrs. Corlett had been a mission teacher near Canton, China. They were in Corvallis in February.

**Galloway-Shaw**—Clara Shaw, '37, and Torrence Galloway, '35, were married in Nevada recently and are now in Northern California where Galloway has a position with a mining company.

**Cook-Larson**—Chloe Larson, senior, and J. William Cook, '35, were married in Corvallis February 14. Both are continuing their college work. Cook expects to receive his master of science degree in June.

**Weiss-Brooten**—Ernest Weiss and Dorothy Brooten, '35, were married in Salem February 19. Weiss, a former student at Linfield college, is employed in Tillamook.

**Barrett-Ward**—Madelyn E. Ward and Edward L. Barrett, Notre Dame graduates, were married in Albany in February.

**Friesen-Abbott**—Esther May Abbott, and Willard Friesen were married February 22 in Seaside Or., where they will make their home.

**Burnaugh-Conyers**—Gladys Conyers and S. Lyle Burnaugh, '26, were married in Portland recently.

**Bronson-Hill**—Mary Estelle Hill, '37, and Dave Bronson, '35, were married in Portland February 1 and are now at home in Warrenton.

**Schomp-Wyllie**—Imogene Wyllie and Ralph Schomp were married in Eugene February 2. Their home is on College Crest, Eugene.

**Olsen-Irvine**—Jessie May Irvine, '30, and Alfred Olsen, '31, were married February 21 in Portland. They are living in Portland.

### DEATHS

**Pimentel**—Mrs. Merrill Pimentel, wife of Merrill Pimentel, '27, of Yakima, Wash., died in Portland February 17. Surviving her is her husband, a son, Jack and her parents, Mr. and Mrs. Charles Haller of Monmouth.

Pimentel is one of the officers in charge of Company 2942 CCC, Route 5, Yakima.

**Mapes**—Clifford A. Mapes, '37, was killed in an automobile accident at Weed, Calif. January 27. This year he had been a student at the Oakland Polytechnical school of engineering and was on his way home for a short vacation. He is survived by his mother.

**Walker**—Guy G. Walker, Class of '06, died February 22 at Independence, Or. He is survived by his parents and two brothers.

Walker was associated with George Conkey in an Independence mercantile business as well as having part ownership in a hopyard. He had been a member of the local city council for nearly 20 years.

**Bishop**—Lionel Bishop, '26 graduate in electrical engineering, died in Portland January 31. He is survived by his widow, Dorothy Lamb, '28, and a daughter, Vera, also his mother and two sisters, one of whom is Vera Bishop, '27, now Mrs. Charles G. Beggs of Santa Cruz, Calif.

**Huffaker**—Neal Huffaker, '21, died in Texas in December following an operation, according to word received from Albert S. Murray, '22, of Pocatello, Idaho.

### 1878

**Laura Thompson**, now Mrs. Booth, is confined to her Corvallis home this winter by a heart ailment. Her sister, Miss Emma Thompson of Portland, is caring for her. Mrs. Booth's Corvallis address is 318 South Ninth street.

### 1888

**Gertrude Davis**, now Mrs. Strange, lives at 1508 Madison street, Oakland, Calif. She has retired from her teaching position.

### 1892

**Nellie Davidson**, now Mrs. R. E. Wattenburg of Kamath Falls, called on Corvallis friends on her return trip from Portland.

### 1893

**Ross Finley** has been seriously ill at his home in Miami, Arizona. Latest word indicates, however, that he is beginning to recover satisfactorily.

Finley was in Benton county last fall to visit various members of his family.

### 1908

**Thomas Sleight** is at the Bonneville dam as government concrete inspector in the Columbia Construction company mixing plant. This is the first time we have had word of Sleight for a number of years; in fact we couldn't find him at the time of the 1908 Silver Jubilee two years ago.

### 1911

**Clarence Eagy** is operating a farm at Route 1, Albany, since discontinuing his teaching activities.

### 1913

**Alma Leibner** is employed in the office of the Mountain States Power company at Albany, Or.

## 1915

Oliver Hayes, Mary McDermott Hayes, and their family are now living at 701 Thirty-Fifth street, Sacramento, Calif.

Leland Corl, owner of Corl's Book store in Corvallis, recently traded his town home for acreage and buildings in east Linn county.

## 1916

Kenneth Fox is a member of the firm of Kenneth L. Fox and Company, located at 400 West Madison street, Chicago.

## 1917

Albert Skelton, state engineer in charge of the coast bridges in Oregon, and his wife, son and daughter live at 1510 North Summer street, Salem.

## 1918

Ronald Jones, Mrs. Jones and their son, Ronald, Jr., of Salem, Or., left there early in February for a loop tour of the United States, going east by the southern route.

Jones is representative in the state legislature from Marion county.

## 1920

George Letellier, his wife and two children aged 13 and 7 live at 1136 Stearns Drive, Los Angeles.

Wallace Smith and Ruth Rondeau Smith, '14, have an avocado orchard of their own at Vista, Calif.

Helen Fulton and her husband, Dr. C. M. Tompkins, live at 1639 Walnut, Berkeley, Calif., Dr. Thompson is associate professor of plant pathology at the University of California.

## 1921

Winifred Hazen is one of the supervisors in the Washington state department of education. Her particular responsibility is for nursery school and parent education. It is her work to promote, develop and supervise any of the work in these two lines that is sponsored by the state department.

## 1922

Arthur Allen and Mrs. Allen of San Francisco were recent visitors in Corvallis. Allen is a member of the wholesale jewelry firm of Morgan and Allen, San Francisco.

Joe Skelton, his wife, Esther Nordstrom, '25, and their two daughters live at 8115 North Clarendon avenue, Portland. Skelton is resident bridge engineer there.

## 1923

Kenneth Hamblen is now superintendent of the cleaning plant at the Oriole mines, located in the Rogue River country near Galice, Or. The re-opening of the Oriole mines after 30 years is the result of improved road conditions.

Jesse Kimmel has established the Mill City pharmacy at Mill City, Or. Kimmel had been manager of the drug department of the Hammond Lumber company until the company closed its business affairs there.

## 1924

Joseph F. Santee is at Stanford this year studying for his doctor's degree. He has a leave of absence from his teaching position at the Oregon Normal school.

Betty Garrett, her husband, Norris Haseltine, and child, are living in the largest city on the western coast of Mexico, Guadalajara, where Haseltine is vice-consul for the United States.

Bill North, vice-president of the Life Underwriters' association of Portland, is in charge of publicity for the All-States Life Underwriters' Sales congress to be held in Portland early in March. North is state agency organizer for the New York Life Insurance company.

## 1925

Robert Bennett was kind enough to remember us with news of a number of Oregon State engineers at Bonneville. Bennett himself has a position with the United States Engineers there. He noted that Harry Dalby, '27, is in charge of all electrical installations of the power house, locks and spillway and that Oregon State grads assisting him are John Pound, Levi Smith and Richard Earnheart, '27s, and Clyde Robinson, Lester Sasser and George Borkowski, '35s.

Pound's particular job is to have charge of the electrical control and conduit work which will be necessary to operate the swing bridge across the west entrance to the locks. Before going to Bonneville he had been employed for a

year in the Portland office of the government engineers.

Mark Clayton and Bob Mylne, '32, are also at Bonneville, as is Thomas Sleight, '08, government concrete inspector in the Columbia Construction company mixing plant. Tom Creacy, '34, is superintendent for the Pacific Coast Steel company. All reinforced steel which is being installed in the power house and the adjacent fish-way is under his supervision.

Connie Knickerbocker, now Mrs. Hugh Amsberry, stopped at the office in February to inform us that she and Mr. Amsberry had purchased a store at Independence, Or., so they would now be close enough to Corvallis to attend campus affairs once in awhile. They have been in Bend and Portland previous to this move. In the Amsberry family circle now are two sons and a daughter.

Mrs. Amsberry's sister, Rae Knickerbocker Clark, and her husband and 10-year-old son live at Bend, on Lee Lane.

Dr. Robert Fulton, government chemist, and Mrs. Fulton (Margaret Blodgett, '28) and their little son live at 73 West Weber Road, Columbus Ohio.

Dorothy Stover, now Mrs. Philip Varney, has been substitute high school teacher in Oregon City for the past month. She is spending the year in Oregon recovering from a recent illness but plans to rejoin her husband in St. Louis later this year.

Westerman "Westy" Whillock opened business in a new and larger location at 9th and Idaho in Boise February 21, to be known as "Whillock's." He has been managing the Buster Brown Shoe store there since 1931 and previous to that had business experience as a salesman for the Munsing Wear company of Chicago.

Lloyd Saling, employed at the Corvallis branch of the Pacific Fruit and Produce company for several years, in February was transferred to Yreka, Calif., as manager of the office there.

## 1926

Howard Sedgwick is employed in the office of the U. S. forest service, Federal Court House, Portland.

## 1927

Mark Busacca was on the campus recently taking moving pictures of campus scenes. He is an employee of the Metropolitan Life Insurance company in San Francisco.

Eleanor Meneilly, who has been teaching in the high school at Sonora, Calif., since 1928, in January became associated with the home economics extension work of the University of California with headquarters at Berkeley.

The new address of Clair Pepperd and Mae Weisner Pepperd, '28, is 41-41 46th street, Sunnyside, L. I., N. Y.

Joe Libby recently transferred from the United States forest service to a position with the Soil Conservation service. His present address is 3700 Campus Boulevard, Albuquerque, N. M.

Marshall Stone is still with the Bureau of Entomology at Alhambra, Calif. Mail will reach him at P. O. Box 297, Alhambra.

John Kerrick, with the operators division of the State Traffic department, was in Corvallis in February to give a talk over KOAC, discussing "Polarized Glass for Use in Windshields."

Arthur Walker, formerly at the Eastern Oregon branch experiment station and at the state station in Corvallis, is farm agent at Crow Agency in Montana.

Mrs. Walker was Edythe Knight, '25.

## 1928

Dr. Ray Pendleton, Davis, Calif., attached this note to his dues:

"Although I frequently meet with some of the old graduates, I somehow or other do not seem to be loaded with anything that might be construed as news. Dr. Harry Goresline, '26, and Lucille Goresline, '26, were through here last summer but since they also stopped in Corvallis you no doubt have later news than I. Occasionally I see Logan Carter, now with the Soil Conservation service; Theodore Merryweather, '28, assistant farm advisor at Ventura Calif.; Harold Drummond coaching at Martinez crosses my path now and then, and I stopped to say "Hello" to Hugh Bates, '27, Ashland, Or., when on a journey to Portland last Christmas. I occasionally see several of the old grads in

Sacramento—Lowell McMillan, '27 (now in S. F.) and Sparky Spurlock, '27.

"My work at present concerns a study of the fertility problems of the peat soil in the delta country of California. Mrs. Pendleton (Verna Peterson, '25) assists me by keeping the home fires burning. We are both in good health and enjoy the climate."

Carl Sanford and Gertrude Skow Sanford left Portland in late February for Hampden, Va., where Sanford is taking a position as junior aeronautical engineer at Langley field. He has been with the U. S. Engineers at the Bonneville dam for the past year.

Mrs. Sanford, extension specialist in community social organization for Oregon, had a three-months leave of absence so that she could accompany her husband east.

Thurlow Weed is practicing law in Beaverton, Or. He passed the Oregon State bar examinations in 1934, after graduating from the Northwestern College of Law in June 1934.

Paul Klev is employed by the Pacific Telephone and Telegraph company in Portland.

Harry K. Roberts, and Ellen Brownell Roberts, '27, are living at 117 West Fourth street, Port Angeles, Wash.

Elizabeth Boyd and her husband, Trygve Kjelland, moved to North Bend, Or., recently.

## 1929

V. Emmet Kerley and his wife and son are living at 718 East 18th street, Eugene, Or.

Marvin Dixon and Beatrice Tubbs Dixon, '27, are living at the Heppner Hotel, Heppner, Or., while Dixon is educational adviser at the CCC camp nearby.

High school teaching positions newly assumed this year are Jens Svinth, teacher of Smith-Hughes agriculture at Albany, Or.; Thelma Stephens at Marshfield, Or.; Wallace Rounds at Marysville, Wash., and Charles Wyman at North Powder, Or.

Mildred Wyrick, now Mrs. Kenneth Ede, and her husband have moved to Napa, Calif., where he has a position with the Berglund Tractor company. He had been employed by a tractor company in Klamath Falls.

Spencer Rice, his wife (Inez Biersdorf) and their daughter have moved from Pasadena to 3415 94th street, Jackson Heights, Long Island, N. Y. Rice has been in the west working with one of the faculty of the California Institute of Technology in the preparation of a book.

Arthro Swingle and his wife and daughter are living at 1875 Oneida street, Schnectady, N. Y. Swingle has been with the General Electric company since graduation from Oregon State.

Mr. and Mrs. C. W. Stubbs have recently announced the engagement of their daughter Dorothy to Herbert Taylor, son of Mr. and Mrs. Frank E. Taylor.

Beryl Catt, with the extension service at Oregon State since graduation, has taken the position of supervisor with the Resettlement administration 422 Mayer building, Portland. Background experience provided by her extension position enabled her to take the advanced position. Miss Catt is living at the Cromwell Hotel apartments at Portland.

Robert Cahill, teacher in one of the Portland schools, is living at 5918 South 62nd street. Cahill has taught industrial arts in the Clatskanie (Or.) high school since graduation.

Delmer Morrison and Wilma Rohrbough Morrison, '28, are living at the Wistaria court, Vancouver, Wash.

Elmer Hicks is living in Portland where he works for the American Can company.

Terry Bell has accepted a position with the Interior Drug company at Canyon City, after having spent several years as a lieutenant in CCC work.

Zennie Stauffer is now pharmacist at the State Tuberculosis hospital at Salem. She had been with the Haynes Drug store at Roseburg since graduation.

Binger Powell is an employee of the U. S. forest service at Portland.

Anna Gracey is now Mrs. O. K. Kelley and lives at Independence, Calif.

## 1930

Erskine Sandys is working for the Pacific Telephone and Telegraph company at San Diego, Calif. He attended New York university after leaving Oregon State.

Lawrence Hamner has accepted a position with the Hellberg Drug store in Astoria. He has been in the Riddell Drug store at Chehalis for several years.

# THE NEWS HOBBY

You see them in the crowded buses, you watch them in the streets. At breakfast, the coffee cools while millions of people read NEWS. Busy, intelligent people cannot get enough of it.

News is a hobby.

But NEWS-WEEK is a habit—and a good one. For NEWS-WEEK saves you time.

NEWS-WEEK keeps over 150,000 American men and women thoroughly informed, up-to-date on everything that is going on in this changing world. Each week it presents the significant developments in every field, completely and concisely for rapid reading and intelligent understanding. NEWS-WEEK's news-presentation is entirely unbiased—thoroughly illustrated with an average of 60 NEWS-WEEK photographs in each issue.

Form the NEWS-WEEK habit—it saves you time for relaxation. Subscribe now.

Dear Mr. Pratt:  
I wish to take advantage of your Special Introductory Offer. Please send me NEWS-WEEK for the next 20 weeks (5 months) and bill me for \$1 after I have received by first copy.

NAME .....  
ADDRESS .....  
..... O

1931

George Duffield has a position with the Farmers' Automobile Inter-Insurance Exchange at 649 South Olive street, Los Angeles. At the same office is Harl Clinton, '25, who worked for the same company in Corvallis until a year ago.

Wesley Coutts wrote campus friends that he is again at Northwestern university and hopes to finish work for his master's degree by next June. His thesis will be a three-act play.

He and Mrs. Coutts are living at 833 Hamlin, Evanston, Ill.

Florence Scott is instructor in secretarial science in the new junior college at Susanville, Calif. Miss Scott last year attended Stanford university as a graduate student, working toward her doctor's degree.

Paul Jones, according to Hal Prindle, assistant in the graduate manager's office, just recently arrived at Pensacola, Florida, to enter the Navy Flying school along with 600 other men. He had taken preliminary examinations in San Francisco and had just to take the final rigorous examination for entry. Jones had already had flying experience with the Marine corps in Seattle. Jones had already seen Sterling Chamberlin, '35, there at Pensacola. At the time Chamberlin was due to go up for his check test in another of the elimination examinations.

Morris Harvey is now teaching mathematics and social science at the Oregon Institute of Technology in Portland. He lives at 5276 Northeast 24th street.

Jack Spong came to Corvallis in February to become manager of the local Buster Brown Shoe store, being transferred from the Albany store.

A recent letter received from Robert Jarmon tells us of his varied experiences since he finished at Oregon State. After graduation Jarmon took a year's course of army flying and dis-

cipline then received a reserve commission in the air corps and was placed on active duty for two years at Luke Field, Hawaii.

In June 1933 Jarmon was married to Kathryn Hiestand of Los Angeles. Kenneth Chapson, '32, who was in Hawaii at the time, was present at the wedding.

From Honolulu, he and his wife traveled to Crissy Field San Francisco, in February 1934. There he participated in the air mail service flying during the time that the air corps was handling the mail. After his two years of active service was completed he enlisted in the air corps in order to get a regular commission, which he received in July 1935. He was stationed at Hamilton Field, at San Rafael, Calif., in the seventh bombardment group, where he is at present.

During November and December of last year his entire group was on a tactical maneuver.

"I left Hamilton Field a week early and went by Dayton, Ohio, to have engines replaced on my plane," writes Jarmon. "While there I saw Ed Wolfe, '30, and Bob Kerley, '31, who are test engineers in the power plant laboratories at the government field.

"We were stationed at Vero Beach, Florida, for three days for the All-American air races where we participated by flying reviews. Saw Cadet Jack DuFrane, '33, there. He is now stationed at Langley Field, Va., and is due to receive his commission this month.

"Our work," writes Jarmon, "consists of bombing machine gun practice and routine flying, in addition to the routine work of the Army. Out time is well taken up with this work, and occasional maneuvers all over the United States for variation."

Jarmon added that he is the father of a year-and-a-half-old boy.

1932

Ace Arnsberg, we find, is a member of the firm of the Northwest Amusement company, Portland. At present he and his bride are on a business and pleasure trip to Melbourne, Australia.

New high school teaching contracts accepted by '29ers are: Wilhma Waters at Lodi, Calif.; Carolyn Thompson, junior high school at Pendleton, Or.; Gladys Shank at Adams, Or.; Davis Ponting at Riverdale, Calif.; George Pope at Wallowa, Or.; Grayce Oliver at Milwaukie, Or., and Prudence Paulsen at Wapinita, Or.

Hazel Packer, who has been on temporary appointment as home demonstration agent at large, has been placed on the permanent staff of the home economics extension service at Oregon State as home demonstration agent in Multnomah county. Her office is in Gresham.

Edwin Albaugh, formerly assistant county agent in Baker county, has recently been appointed 4-H club agent of Jackson county, with headquarters at Medford.

Kenneth Sawyer, assistant county agent in Marion county, has been transferred as assistant to the agent in Jefferson county with headquarters at Madras.

Lois Lutz, formerly in charge of home economics work in Pendleton high school, has been added to the staff of the home economics extension service as home demonstration agent in Lane county. She is located in Eugene.

Dorothy Anderson, formerly employed in the script department of the MGM studios, is now working with the Bard school of dramatic production in Los Angeles.

Eylon Niederfrank, assistant professor of agricultural economics and farm management at the University of Maine, Orono, writes that he is enjoying his work there and hopes to benefit from the opportunities and experience college teaching affords.

"We (he and Helen Kammerer Niederfrank, '34) are enjoying our first New England winter, even though the mercury was down to 30 below one morning and a huge snow drift piled high against the garage door had to be shoveled away before breakfast. The dry climate makes sub-zero weather here in New England much more enjoyable and endurable than the high temperature but penetrating damp cold of Oregon winters."

Millard Rodman, state representative from Crook and Jefferson counties, filed his resignation with the secretary of state February 25. He had accepted a position in the federal department of agriculture and is at present stationed at Camp Heppner, Heppner, Or.

Winifred Humphrys is now employed by the B. P. John Furniture corporation in Portland.

Alexis Nogero is working for the U. S. forest service at Sawbill Camp, Tofte, Minn.

Louise Lerch is index clerk at the Oregon State college business office.

Here is Jimmy Heartwell's letter we received not long ago. It's a first-class one too as he gave definite information wherever possible. We give it to you here as he wrote it:

"Another large turnout of Oregon State alums attended the pre-season basketball series between Oregon State during early January, showing the same spirit that was displayed by those at the Trojan-Beaver football game last fall. Some of those noted in the dressing room

after the games were former football coach Paul J. Schissler, Rod Ballard, Ken Fagans, Russ Striff, Ralph Callahan Eugene O'Bryan, Ken Martin, Spec Keene, Harvey Boultinghouse, Bernie Hafenfeld, Hal Pangle, Lee Hansen, Max Schwartz, Howard Merrill, Bill Burr and Forrest Lindsay, while many others attended the games.

"Ralph Callahan, '31, and wife live at 434 West 31st street, Long Beach. Ralph is in charge of the maintenance department of the City Recreation commission. Callahan reports that Eugene O'Bryan, '30, and wife reside in San Bernardino where Obie works for the Auto Club of Southern California. Winston Tucker, '32, and Dick Wilson, '32, are salesmen for the Eastside Distributing company of Los Angeles; Tucker, however, lives in Long Beach. Herbert Kirkpatrick, '33 and Mrs. Kirkpatrick (Janet Parman, '33) are at home at 826 Termino, Long Beach, Hub being in business there. Fred Just, '30, divides his time between mining in northern California and painting for the Board of Education in Long Beach. Charles Camp, '31, and Ted Drake, '39, are now with the Commercial Credit agency of Los Angeles. Clark Sweet, '33, spends most of his time on the ocean and in the summertime with Rod Mason, '33, at Catalina island, running speedboats. Al Jones, '32, is the superintendent of a mining company in Oroville, Calif.

"Rod Ballard, '31, his wife and their daughter, Barbara, live at 6095 Olive avenue, Long Beach. Rod is employed by the City Recreation commission and this year, for the first time since graduation, is not playing basketball.

"Vincent Enzie, '33, who is studying for his master's degree in the department of horticulture and forestry at Ohio State university, Columbus, visited his brother, Walter Enzie, '29, at Christmas time in New York where Walt is doing research work at Cornell university.

"Noel Guertin, '31, and Mrs. Guertin (Gertrude Ayliffe, '32) reside at 2032 Harcourt, Los Angeles.

"Bill Hatfield, '31, Mrs. Hatfield (Gwendolyn Parshall, '32) and their daughter live at Hatfield House, 525 West First street, Long Beach.

"Mel Masterson, '35, and his wife live at 826½ Los Palmos, Hollywood, not far from where Jack Brande, '37, lives. Mel works in the offices of the Sontag Drug company.

"Hugh Kyle, '21, and his wife (Gertrude East, '20) live at 611 Newport avenue, Long Beach. Hugh is the agent for the Travelers' Insurance company at 700 Ocean Center building. He reports that Hazel Magnuson, '19, is in charge of the cafeteria at the Y. W. C. A., that Lydia Doolittle, '15, teaches at Jefferson Junior High school, that L. F. Lingle, who taught in the Oregon State college chemistry department, and Mrs. Lingle (Irene Ahern, '16) also reside in Long Beach. Mr. Lingle is now with Deeble-Chapman, Realtors.

"Carl Oscar Arnberg, '29, living at 3447 Chester street, Oakland, is continuing his journalistic work. Last year Oscar toured the east on an educational trip.

"Lyle Widdows, '32, is now located at Camp F-14, Bartley, Missouri, where he is employed by the United States forest service.

"Jack Tostevin, '32, and Mrs. Tostevin (Isabel Breck, '30) are now living at 4230 Eighth street, Chico, Calif.

"Ade Schwammell, '34, is playing with the Green Bay Packers, a pro football team, and though this is late in January the game is still being played every Sunday in Los Angeles.

"Forrest Lindsay, '35, is studying for his master's degree at the University of Southern California.

"Joe Mack, '34, now at Albany college, nevertheless was in Los Angeles for the New Year's game, making the trip south with the basketball team to assist Slats. Bernard Young, '29, likewise saw the game, coming south to spend the holidays with Larry French, Chicago Clubs' pitcher.

"A letter from Ed Lewis, '34, reveals that he and Mrs. Lewis (Edith Smith, '34), now live at No. 1 Toledo Way, San Francisco, and that he is playing his second year of basketball with the Olympic Club and is working for the Associated Oil company in San Francisco. Ed reports that Jim Lawson, '31, also works with the Associated there and Jess Yeates, '33, is living in Oakland but working for an advertising firm in San Francisco; that John Gallagher, '31, is working for the Prudential Life Insurance company there, and that Howard Brown, '30, is with Standard Oil in Oakland.

"Ted Hermann, '34, is living at 1028 Loma Vista drive, Long Beach, and has a position with Proctor and Gamble there.

"Karl Kellogg, '31, is in the advertising business in Los Angeles where he lives at the St. Paul hotel.

"Max Schwartz, '32, resides in Los Angeles and is employed by the Associated Telephone company.

"Cal Preston, '31, Mrs. Preston (Emily Webster, '33) and son live in Long Beach at 151 Bay Shore.

"Ronald Johnson, '31, is teaching and coaching at Webb's school for boys in Claremont, Calif.

"Waldo Moore, '29, and his wife live at 2317 Carroll Park South, Long Beach. Waldo is a salesman with the Cavins Boiler Service company.

"Warren Rolph, '28, Mrs. Rolph (Betty Wilson, '30) and their four-year-old son live at 251 Corvina avenue, Long Beach. Warren is now with the Associated Telephone company as is Bob Russell, '28. David Lilly, '27, and wife reside at 1409 East Fifth street. Dave is employed by the Tel-Ad Publishing company. Walter Stokesbary, '32, and wife (Grace Baird, '32) live at 1924 Cedar avenue. Walt is working for the Shell Oil company. All the above addresses are in Long Beach.

"Howard Merrill, '32, is working for Firestone in Huntington Park and living at 2651 East Gage in the same town, and Ken Fagans, '32, works for the same concern in Los Angeles.

"Beverly Smith, '32, and wife live at 2141 Chestnut avenue, Long Beach. Bevo is employed by the Union Oil company.

"Bill Burr, '28, is now the vocational director of the school system at Glendale.

"And as has been previously reported, Gap Powell, '21, and Mrs. Powell (Bernice Haines, '21) and children live in Long Beach. Gap is the district sales manager for the Richfield Oil company, located at the Watson refinery."

Thank you, Jim. All our readers appreciate the news.

## 1933

Luther Wursten, teacher at Dayton, Or., last year, is now in Pullman, Wash., with the Soil Conservation service.

Carroll Brown has charge of CCC workers doing road construction work in the summer, and timber stand improvement in the winter near Medford, Wis.

Sue Hyslop is now a regular copywriter for B. Altman and company in New York city. She received her master's degree from New York university last June.

Harold Thomas, formerly with the United States forest service, has accepted a position with the state board of forestry and will be in charge of the "Showboat." He will be stationed at Roseburg.

The engagement of Hazel Hyatt, daughter of Mr. and Mrs. George Hyatt of Pendleton, to Phil Mahoney, son of Mr. and Mrs. W. P. Mahoney of Heppner, was recently announced at a dinner party in Pendleton.

Norman Spangenberg and his wife are stationed at Breckenridge district ranger post, about 30 miles east of Bakersfield, Cal., where Spangenberg will take up his duties as district ranger. Mrs. Spangenberg was formerly Elizabeth Walters, '32, of Corvallis.

George Williams, who has been with the Fairbanks-Morse company in Portland for one and a half years, was transferred to the Seattle branch December 1 as assistant in the machinery department. Williams attended the nine weeks training school at the factory in Beloit, Wis., during September and October.

Enelse Janzen is employed in the library at the University of Oregon, Eugene. She was a graduate student at the university following graduation from Oregon State.

Herbert Willison, who received his master's degree from Yale and last year was an assistant in the school of forestry at Duke university, is now with the Pacific Northwest Forest experiment station in Portland. Willison and a Southern girl were married last June.

"Cash" Beardsley and Vivien Lora Beardsley, '35, have located at 557 North Liberty, Salem. Beardsley is a landscape architect with the federal park service.

Vernon Eilers and Mrs. Eilers last summer purchased the Schneider fountain at 26th and Monroe streets, Corvallis. January first they also opened for business in the Kampus Kavern in the Memorial Union building.

Raymond Labbe is working for the Willapa Harbor Quarries at South Bend, Wash.

Edmund Meola was on the campus the latter part of October to buy tickets to the Oregon game. He is stationed nearby at Reedsport where he is a landscape architect for the forest service. He was stationed for the summer at Crater Lake.

Kenneth Kutch is president of the Young Democratic league of Benton county. He is a member of the sales force of the Western Auto Supply company in Corvallis.

The engagement of Amy Aldrich and Bud Forrester, '34, was announced last month, the event to take place next fall. Miss Aldrich is a deputy collector with the Internal Revenue service in Portland. Forrester went to Pendleton last summer to take a position on the East Oregonian staff, and is president of the Pendleton Oregon State Alumni club.

Maurice Shepard, educational advisor at Camp Squaw Creek of the Soil Conservation service at Gibbon, Or., near Pendleton, noted for us that also at the same camp are Captain Gordon Hertz, '28, and Lieutenant Warren Gilbert, '32; Montague Easton, '34, project forester, and Robert B. Miller, '35, project engineer. Shepard's wife, Carolyn Blakely, '34, resigned her position in the office of Dean Schoenfeld last Christmas to be with her husband.

Mary McCarthy will start to work in the United States treasury department in Washington, D. C., March 3. Miss McCarthy has been employed by the North Bend Lumber company in North Bend, Or.

John Fenstermacher and Wilma McPherson Fenstermacher, '35, are living at 1524 Willow street, Alameda, Calif.

Lois Irving, employee of the California-Oregon Power company in Roseburg, came to Corvallis for the first Oregon-Oregon State basketball game in February.

## 1934

A letter from Clara Virginia Kauffman, now Mrs. Eldon Lyle, states that she and Mr. Lyle, '30, are living in Norwalk, Conn., where he is completing work for his doctor's degree at Cornell university. He is doing experimental work in a greenhouse covering eight and half acres of roses.

Francis McCabe has notified us that he has been placed in charge of all experimental work at the Wind River branch of the Pacific Northwest Forest experiment station at Carson, Wash. His home address is 6705 Southeast 22nd avenue, Portland.

Everett Davis, assistant county agent at Madras, has been promoted to the position of extension specialist in agricultural engineering, beginning his duties February 1 on the campus.

Marie Peterson, now Mrs. Dwight Claudson, wrote that she and Mr. Claudson have been living at Grants Pass, Or. (Route 2, Box 25) since December.

The engagement of Karene Swennes, former Reed college student, and Sidney Lathrop, was announced in Portland during the recent holidays. Lathrop is an engineer with the Parker-Schram company in Portland.

Class members accepting new teaching contracts are Verna Townsend at Elgin, Or.; Herbert Summers at Philomath, Or.; Helen Spring at Corvallis junior high school; Ruth Smith at Myrtle Point; Aleen Runkle at Echo, and Mary Stevenson at Corvallis.

Lt. Grant "Hap" Edwards is stationed at Camp Heppner, Heppner, Or.

Waldemar Schmidt who obtained his master of science degree at Massachusetts Institute of Technology in '35 has accepted a position as professor of chemical engineering at the University of Virginia at Charlottesville.

Donald Masson is now doing mining engineering work near Chihuahua, Mexico.

Fred Anderson is living near Burns, where he is working on the Malheur national bird refuge.

James Rowan, has been a recent visitor on the campus. Rowan spent a year in Alaska in mining operations and is at present with the Columbia Construction company at Bonneville, Or.

Walter Jones, former professor of aeronautics at Oregon State college, was promoted to chief engineer at the airplane factory of the Autogiro corporation in Philadelphia, Pa.

## GORDON HARRIS MEN'S WEAR ELKS' BUILDING

In Portland stop in at THE HARDEMAN HAT STORE and have Warde Erwin show you the newest SPRING styles in Men's Hats.

\$3.50 and \$5.00

## ART HOLMBOE'S HARDEMAN HAT STORE

712 S. W. Washington St.

Linton Mushen is working with the South Fork irrigation project in Alturas, Calif.

Robert Brown and Trevor Steele are with the soil erosion service near Warrenton, where they are experimenting with Holland Grass in the prevention of shifting sand dunes.

George Burnett who is with the United States forest service in Colorado, visited on the campus in January.

Leslie Richards, who has been a metallurgical test worker for the Sunshine Mining company at Kellogg, Idaho, was in Corvallis long enough to see the last Oregon game before going on to his new mining position at Twisp, Wash. Richards stated that he had been advised that the last 60 miles of his journey would have to be done on skis.

Jack Pearce won a free trip to the Pacific Coast convention of the Farmers Automobile Inter-Insurance Exchange in a recent contest between representatives of the company in Linn, Benton and Lincoln counties. Pearce has an office in Albany. He was accompanied south by his brother, Frank Pearce, '32.

Rudolph Thielemann was notified recently of his appointment as a student engineer with the General Electric company. Thielemann is a graduate student and part-time instructor at Oregon State and expects to receive his master's degree in June.

Lloyd Millhollen and Dorothy Huggins, former University of Oregon student, are to be married March 21 in Hood River. Millhollen is a member of the Hood River high school teaching staff.

**TRITON**  
MOTOR  
OIL

**..STOPS  
CARBON  
KNOCKS**

*say new car dealers*

## KEEPS MOTORS CLEANER..HAS LONGER LUBRICATING LIFE

*Made by the Propane-Solvent Process*

TRITON does everything any fine motor oil can do to protect your motor—and in addition gives you a plus feature found in no other oil.

It keeps your motor cleaner—prevents the accumulation of carbon that causes the motor to knock.

Triton is so pure, due to the Propane-Solvent process by which it is refined, that it forms almost no carbon in the combustion chamber. Previous carbon deposits burn, peel off and blow out the exhaust as you drive.

Tests have proved that a new car run with Triton will never develop enough

carbon to cause knocking with any grade of gasoline that was satisfactory at the start.

No wonder so many new car dealers, fleet operators, mechanics and other experts are enthusiastic about Triton.

Use Triton in your own car. Note how it smooths out your motor in a few thousand miles—improves your gasoline and oil mileage and reduces operating costs. It costs only 30c a quart in sealed cans. (35c in Nevada, Arizona and New Mexico.)

# "It's for You"

**W**HO can estimate the value of the telephone in the daily lives of millions of men and women . . . in time and money saved, in increased efficiency, in security and priceless help in time of need!

Contact, communication, swift interchange of ideas—these benefits the modern world offers you. The telephone is one of the chief instruments by which you can seize them. With it at your elbow you are ready for what may come—for opportunity, for emergency, for

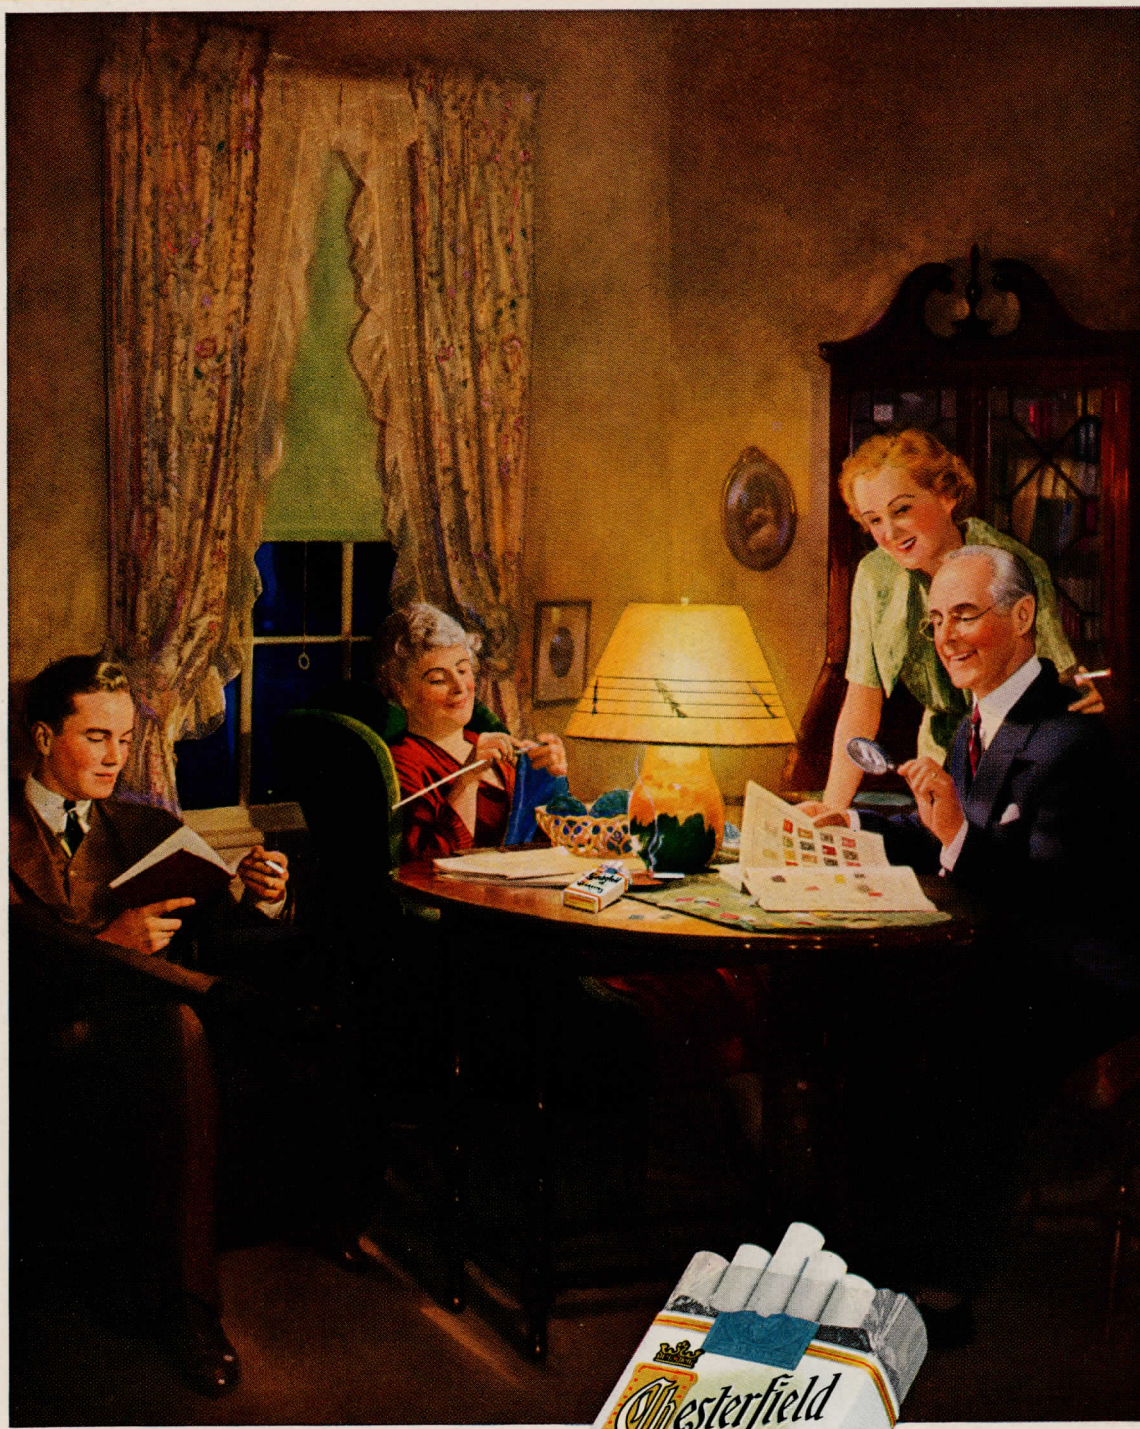

the brief word that may open a fresh chapter in your life.

Within the next twenty-four hours, sixty million telephone calls will be made over Bell System wires—each a separate transaction, complete in itself. Yet your own calls will go through as quickly and efficiently as if the entire system had been built especially for you.

**NOW IN EFFECT**—*Special Sunday Rates* for station-to-station Long Distance telephone calls, and *Reduced Person-to-Person Rates after 7 Every Evening and All Day Sunday*. The reductions apply, in general, to calls on which the day station-to-station rate for three minutes is more than 35 cents.

**BELL TELEPHONE SYSTEM**
