HAPPENINGS on the HILL

Presidential Hopeful Visits—OSC Seal Gets Good Scrubbing by Duck—College Receives Another Grant For Oceanography

OREGON STATE's plans for expansion of oceanography research off the Oregon coast have received a \$50,000 assist from the National Science Foundation.

The \$50,000 will be used to purchase special equipment for the \$250,000 ocean research vessel approved under a \$319,555 grant made to OSC in July by the Office of Naval Research.

Architects are now preparing plans for the special research vessel with construction scheduled to begin sometime next spring and completion expected in the fall of 1960. The boat will be a specially-designed "floating laboratory" that will permit OSC oceanographers to probe the depths of the ocean and explore the ocean floor off Oregon for the first time.

Part of the \$50,000 grant from NSF will go for purchase of deep sea winches that will let the OSC scientists take ocean floor samples of sediment and marine life and collect water samples at depths down to more than two miles. Latest electronic devices for measuring temperature and salinity and navigation equipment, including radar, also will be purchased with the grant.

Dr. Wayne V. Burt, head of the oceanography department, calls the boat "the key to unlocking the unknown of Oregon's ocean area."

Burt himself started the first extensive studies of Oregon's 350 miles of coastal water—fourth longest coastline of any state—when he joined the OSC staff in 1954. Aside from his work, almost no research has been made on the ocean immediately off the Oregon coast.

Burt's studies to date have included research on tides, inlets, water temperature, salinity, and oxygen content. The new grants will permit the research efforts to be tripled during 1960 with great advances seen during the next decade by Burt.

The \$319,555 grant to OSC is part of a vast new 10-year national program of research in waters surrounding the United States. OSC is one of 10 institutions proposed to conduct the studies and to assist in training vitally needed oceanographers. The 10 schools are strategically located along the East and West Coasts and the Gulf of Mexico.

NEW YORK GOVERNOR Nelson Rockefeller whipped into Corvallis for a few hours November 14, saw the Oregon State-Stanford football game, made a brief off-the-cuff speech in the coliseum after the game and then whirled off to Salem for the evening. The New York state chief executive was on a fast tour of the West Coast to sound out support for the presidential post. He was accompanied by his wife and a bus load of reporters.

The day was beautiful but nippy enough for a good overcoat. Just the same Rockefeller received a warm reception to the Beaver city. Oregon Governor and Mrs. Mark Hatfield helped make the Rockefellers feel at home and President Strand welcomed the dark horse presidential hopeful to the

OSC student body president Will Post offers advice to the University of Oregon student body president on how to clean the OSC seal. This was the result of the annual bet made between the two student leaders on the outcome of the OSC-Oregon football game. Besides a thorough scrubbing the Duck student had to paddle his canoe down the Willamette's 70 miles taking 12 hours and sing the OSC fight song plus wear a Beaver football uniform the next day.

stadium while the Beaver band played *The Sidewalks of New York*.

A 19-gun cannonade fired by the army ROTC cadets preceded the halftime review of an honor guard of representatives of all OSC ROTC units by the two governors and President Strand.

Receives Award

Glenn W. Holcomb, head of the civil engineering department, has been chosen as engineer of the year for 1959 by Professional Engineers of Oregon. He was recommended by the awards committee of PEO and then elected by the board of directors. Holcomb has been at OSC since 1920. He has been active in the American Society of Civil Engineering affairs. Professor Holcomb was national director of ASCE from January 1953 to October 1955. For two years he was national vice president for ASCE. He is now a member of the State Board of Engineering Examiners for Oregon.

Open House

Open house at Snell and Waldo dormitories was held November 15 and approximately 1,000 people took the opportunity to see how a women's dorm can be made over into a man's establishment. Also the new Snell hall, women's dormitory, and the joining coeducational cafeteria was the object of admiring glances. After 50 years Waldo is now the residence for OSC men.

Work of Art?

Well attended was the panel review of the controversial book *Lady Chatterley's Lover* by two OSC professors. Professor J. A. Haislip of the English department discussed

the novel as a work of art and a major contribution to author D. H. Lawrence's life. Dr. Lester Kirkendall of the family life department viewed the book from the viewpoint of a serious presentation of a meaningful problem in human relations.

Smoking

The problem of smokers in the Kerr library is plaguing the library staff these days. According to Rodney Waldron, assistant director of libraries, the "perennial problem of smoking in the library is back again. Cigarettes are being smoked around the building in the areas where the fire marshal has posted **No Smoking—Hazardous Area** signs. It is not enough," Waldron commented, "that the smoking goes on, but the students are throwing the butts into wastebaskets containing paper and other inflammable material."

The east wing of the building is highly inflammable. It was built in 1918 of wood construction. The floors are cork, but have been impregnated for years with non-fire-proof lacquer.

New Champs

Beta Theta Pi fraternity became the 1959 all-school intramural football champions in November when they defeated Reed Lodge 27-0.

All-Out Effort

An all-out effort should be made to get the "brighter, upper-echelon" high school graduates who now don't go to college, according to Dr. Vernon Cheldelin, director of OSC's Science Research Institute. The Oregon State scientist said that "this waste of

human talent" could be partially stopped by an expansion of the national merit scholarship program and by teacher placement. These students could prepare themselves for careers in research, where there will be a glaring personnel shortage. Dr. Cheldelin also commented on the teachers who themselves have been inadequately prepared in the subjects they teach. Basic and long-range research expenditures need to be doubled from the present annual \$500 million spent by industry and government, Dr. Cheldelin said.

M.U. Construction

Concrete beams weighing 13 tons each have recently been set in the construction of the Memorial Union's new west wing addition. The 65 foot beams served as ceiling supports over the future MU bowling alley while providing a base for the commons room floor. The pre-cast, pre-stressed beams were manufactured in Portland and transported by trucks to Corvallis.

Construction of the MU additions is proceeding ahead of schedule and the twin-wing additions should be ready by the time school starts next fall. The A. V. Petersen Construction Company of Portland has been doing the work. Alfred Petersen is an Oregon Stater, class of 1935.

Grad School Up

The graduate school this year has an increase of 23 percent over last year's total. A recent comparison of the two years from 58 land grant universities shows an increase of 24 percent. A total of 73,421 graduate students—14,440 women and 58,866 men—are enrolled in these institutions. OSC, with a total of 754 graduate students, ranks 28th in the listing. Of this total, 112 women and 642 men are registered.

New Directory

The "all new look" student directory went on sale November 17. In past years it was called the Fussers Guide. The 1959-60 edition is telephone book size and has a four color picture of the Memorial Union on the cover. Also a new price is being asked. Up 15 cents from last year's 85 cent price.

Chain Letter

In the **What Won't They Think of Next Dept.** we find that a liquor chain letter spread quickly through the campus in late November. College authorities and Benton county district attorney John Fenner worked to nip the business in the bud. The letter, which is not sent through the mail, is called a *Seasons Cheer Letter* and presents a plan whereby a great deal of alcoholic spirits can be received by simply purchasing one pint of a desired brand and presenting it to the person whose name appears at the top of a list. Authorities found the idea died a natural death within a short time.

Civil War

Student pranks generally were of a subdued nature prior to the big Civil War football game in Eugene between the Ducks and Beavers. The Lemon and Yellow had been enjoying one of their finest football seasons in years while the Orange and Black's banner had dipped quite low as far as a season's record was concerned. Perhaps therefore, both student bodies were complacent and content to let the teams battle it out on the gridiron.

Oregon Governor Mark Hatfield, New York Governor Rockefeller, and President Strand watched the ROTC review in November.

On the OSC campus Coach Tommy Prothro was hung in effigy in the M. U. quad by Oregon students with a sign indicating that his season's record after the Duck game would be two wins and eight losses. Also the Class of '57 seal in the quad was piled high with manure.

Down at Oregon the Webfoot students painted their Skinner's Butte O with a nice yellow paint job on Friday and then awoke on Saturday to find the big O magically covered with bright Orange paint.

The Beaver football team didn't help Oregon any in that school's Homecoming celebration by knocking off the high-flying Ducks 15-7. After the game some disgruntled U of O students pelted the OSC students section with mud. Some of the Beaver rally squad girls were captured during the game

and this could have brought on a riot but the OSC yell king and his crew helped avert this. The Barometer newspaper came out heavily with reports of the bad treatment OSC students received on the Eugene campus.

A few new gimmicks were introduced this year for the OSC-Oregon Civil War celebration. Whether they will become "traditions" remain to be seen. However, approximately 50 eager-beaver Rooks started at 7 a.m. from Parker Stadium the day of the game carrying an Olympic torch. A Rook was placed each half mile along the old highway to Eugene and the torch sped by Rook power averaged 10 miles per hour. The group then assembled at the University of Oregon stadium prior to the game and carried the torch to the field. One Rook, Carl Huber, was even chosen as the most inspirational half-miler. The Oregon Frosh are supposed to return the favor next year.

Another idea new to the ancient rivalry is the platypus award. The symbol of the Beaver-Duck rivalry was chosen because it is a mammal with a duck bill and a beaver tail. The base of the trophy is stainless steel and the figure is carved in wood. The University of Oregon originated the trophy and it will rest with the winning school for each year.

In one final wrap-up of the Civil War festivities the Oregon student body president in early December paid off the annual bet between the two student leaders. He had to paddle down the Willamette river in a canoe, polish the OSC seal, sing the OSC fight song, and then the next day on his own campus wear an OSC football uniform.

New President

Dick Seideman, '61, president of Oregon State's Memorial Union, was elected president. (Continued on page 17)

This is part of the record breaking turnout of close to 700 children of faculty and students who attended the 11th annual Christmas party sponsored by the Memorial Union in early December. The event has mushroomed so much that it will take the new M.U. additions next year to handle the expected throng.

RELATIONS with our sister university at Eugene just don't seem to improve. This fall term has been particularly trying . . . with the touchy liberal arts question in the forefront. But add to that the hue and cry coming from the Beaver students over the shoddy treatment they received down at Oregon for the OSC-Oregon football game in late November.

What happened was that many students went down to the game from OSC. They got pelted by dirt clods, the rally girls were roughed up a bit, and the OSC band had to hang onto their hats. By some miracle the Oregon State students acted quite good (perhaps they were outnumbered?) Soon thereafter stories appeared in the Barometer newspaper with screaming headlines which proclaimed *Mud Thrown, Girls Molested* and *Oregon Students Show Rudeness*, etc. OSC student journalists demanded an apology and letters were sent to Oregon asking what kind

of students do they have down there anyway.

President Strand also got into the act and he sent a torrid letter to President Wilson of the University of Oregon. When the Duck student body president paddled down the river to Beaverville to pay off the game bet he apologized to the OSC students and said . . . *"it's hard to lose and we have poor losers at the University of Oregon."*

Well, this column has always maintained that college students were pretty much the same all over the country and that at times OSC students were hell raisers too. We've also sort of by-passed the feeling of some of our alumni and faculty members who claim they won't go to Eugene for an athletic contest. But last year the Beavers were favorites to win and got waxed 20-0 by the Ducks and although the students were disappointed at losing we had no near riots at Parker Stadium. Our students have acted

very grown up the past few years and it must be a combination of fine student leaders plus strong administrative control. We hope the situation gets real attention by both schools because this whole thing is shaping up in future years to explode into a real donnybrook.

Sportsmanship is a real fine thing but many OSC students are getting sick and tired of going to the University of Oregon for athletic events and running into the same situation everytime.

Barometer Editor Chuck Wenstrom mentioned in his column that the U. of O's "childish action" has been going on for years and that *"for years Oregon has been praised by the state's newspapers for their 'cute and original' vandalism."*

Well, it wasn't long before an editorial from the Medford newspaper reached the Barometer's attention. The Medford editorial pooh-poohed the situation and figured it really wasn't so bad after all. The writer was naturally a University of Oregon alumnus.

Our liberal arts program seems to be going up or down according to the day. A more complete report is featured elsewhere in The Oregon Stater. The State Board of Higher Education had the December meeting on the Beaver campus and the liberal arts issue was clarified somewhat. The OSC faculty had been wondering just what kind of a liberal arts program we would get with the restrictions which seemed to have been placed on Oregon State. The Chancellor's report had stated that our program must require completion of a strong minor of at least 27 hours in an approved scientific or professional field (but not including teacher education). The section which specifically points out that it can't include teacher education has been a real stickler. President Strand pointed out that the School of Education would really suffer and that it would seriously hamper OSC's education of teachers . . . this at a time when teachers are so desperately needed.

In all this liberal arts hubbub there has evolved a curious development which should at least be noted here. That is the obvious

Weatherford, '30, President OSC Foundation, Arlington; Urel Narver, '28, President OSC Federation, Portland; Mrs. Charles Forrest, President OSC Mothers Club, Ashland; Virgil Dunkin, '31, President OSC Dads Club, Portland; Bob Swan, '50, Beaver Huddle President, Portland; Don Anderson, '35, Portland Council President. Karen Andrews, '60, Student; Will Post, '60, Student.

The Cover

The wide-eyed wonder of visiting Santa Claus was evident at the 11th annual Memorial Union Christmas party December 6. Undoubtedly the little girl on Santa's knee asked for a doll but she had to hurry because there were some little boys who evidently wanted to get Santa's ear and ask for a wagon or bicycle or soldiers. This scene was repeated hundreds of times as more than 600 youngsters of faculty and students jammed the M.U. to get candy canes and cookies and follow the theme of "Why The Chimes Rang." Santa has another job too. He's a student with the name of Jim Gordon and he volunteered for the backbreaking job of talking with all the kids.

HOW ABOUT MAKING IT KERR UNIVERSITY?

AT THE NEXT SESSION of the Oregon legislature the name of Oregon State College will be changed. Maybe to Oregon State University. Maybe to Oregon State University of Agriculture and Mechanic Arts (heaven forbid!) or perhaps to Oregon State University of Science and Technology.

Anyway, everyone knows that the word university will be included in the official title of the Beaver school.

Perhaps this is the time to range far and wide for new ideas and explore new avenues of thought about our name.

Since the 1860's when the name of the institution was Corvallis College there have been many names used both officially and unofficially.

After Corvallis College became a state institution the name used was *State Agricultural College of Oregon*. It was in 1885 when the board of regents was created and a corporation formed that the act read: *The State Agricultural College of the State of Oregon*. This is the name that was used in deeds and most legal papers.

By popular usage this name was shortened to *State Agricultural College, S.A.C.*

In 1892 new president J. M. Bloss came to the college and brought his son who introduced the game of football to the campus and everyone from faculty to professional bruisers were recruited to fill the ranks of the squads.

In 1893 football interest was gaining momentum and Coach Bill Bloss assured the students that the proper procedure in the best Midwest football circles was to have yells for the spectators.

It was then that the famous *Zip Boom Bee, Zip Boom Bee, S.A., S.A., S.A.C.* yell was originated. After the students tried it out it was thought that the yell sounded too much like someone hissing. After much study someone came up with the happy idea of substituting the word *Oregon* for *State* thus making the initials suit the purpose better. Thus it became *OAC* in common usage and later the *Oregon Agricultural College* was used on catalogs and stationery, etc.

Later, in the 1920's, the word agriculture was dropped and it became *Oregon State College* unofficially. It wasn't until 1953 that the legislature officially changed our name to *Oregon State College*. So alumni before that time were graduated from *Oregon Agricultural College*.

Then came the trend over the nation from college connotation to university. And this is where a new suggestion comes in.

Everyone realizes that perhaps there will be some confusion as to the University of Oregon and Oregon State University when our name is changed in 1960. So we propose a new name for our institution. A name which will have much distinction, historical background, and practical use.

This name is **Kerr University**.

Now **Kerr University** (or old KU) would fit in very nicely with the whole scheme of things. It would take the name of our former president of 25 years (1907 to 1932), William Jasper Kerr, who then became the first chancellor of Oregon's State System of Higher Education.

There is much precedent for the use of a

man's name for a state supported land-grant university.

Cornell University, the land-grant university of New York, was named for Ezra Cornell. Purdue University, the state land-grant school of Indiana, was named after John Purdue. Rutgers University, the state land-grant school of New Jersey, was named after Col. Henry Rutgers, an old benefactor. Auburn, the state school of Alabama, and Clemson, the state school of South Carolina, are two universities not named after men but after the towns in which the school is situated.

So **Kerr University** wouldn't be radically new. It would be a great tribute to the man who probably did the most to shape our institution. It would be snappy in newspaper headlines and yells at athletic events (from which our name was originally shaped) and would open up new horizons for eager rally squads.

Of course there would have to be changes in school songs, etc. but this is an era of change and improvement. Also, there might be other names which might fit equally well as **Kerr University**. How about Finley University? (named for our first president) or Strand University (after our present President) or even Benton University (for Benton County).

The very idea of a new name leaves us with whirling thoughts. Since the legislature will be changing our name soon, it is time a committee is formed to look into the whole, complex situation.

Kerr University . . . sounds great!

NEW LIBERAL ARTS SCHOOL TAKES SHAPE. DECISION EXPECTED JANUARY

Inside OSC

(Continued from page 4)

move to compare and channel Oregon State to a Massachusetts Institute of Technology type of school. Undoubtedly this is a pacifying movement to opponents of OSC's liberal arts expansion. Publicity for this "Image of OSC" idea has been pushed by the Portland Oregonian newspaper.

To be compared with MIT is indeed flattering but there are so many differences between OSC, a state supported school, and MIT, an independent institution, that one wonders why the very idea has even been brought up.

The Corvallis Gazette-Times summarized OSC's feeling when it said: "if the Oregonian or even the state board wants to find an 'image' on which to model OSC they should look to similar institutions in many other states—Washington State University, Iowa State University, Michigan State University, to name a few."

IT SEEMS OBVIOUS from the State Board of Higher Education meeting held on the Oregon State campus December 7-8 that unless the faculty is unwavering in the original liberal arts viewpoint that OSC will be able to offer liberal arts degrees in the humanities and social science starting next year.

The lower division faculty curriculum committee had worked up a liberal arts program and had suggested 27 hours of combined lower and upper division minor work instead of the 27 hours of upper division minor work as seemed to have been suggested in the original report of the Chancellor.

Undoubtedly the compromise solution will be accepted by Oregon State and the new liberal arts plan which is weighted with a strong scientific-technical minor will be tried.

Final approval should come at the January meeting of the state board. From then on it will be interesting to watch the development of OSC's newest school, the **School of Humanities and Social Sciences**.

And let us say too that the faithful old friend, Lower Division of Liberal Arts will be no more but will be incorporated into the new School. Lower Division has served Oregon State well.

Beaver Football Ends on Happy Note. Young Basketball Team Should Be Fair But Strength Still Seems a Year Away

by Johnny Eggers
Athletic Publicity Director

WELL, another football season is now history, and generally speaking it is one Tommy Prothro and his hard-working staff would like to forget. In all Tommy's years in athletics, either as player or coach, he never previously had been with a team that lost more than it won. Maybe it's an experience every coach should undergo somewhere along the way, but you would have a hard time convincing Prothro of that. And the ironic part is, things could have been so different with just a bit of luck here and there and a few less mistakes.

The Beavers won three, beating Idaho, California and Oregon, while losing to Southern California, Texas Tech, Nebraska, Michigan, Washington State, Washington and Stanford. They should have—or at least could have—whipped Texas Tech, Nebraska and Michigan. Oregon State certainly had the opportunity to win those three and we'll never understand how they lost to Stanford, either, though on the day the two teams met Stanford had the upper hand.

Because not all the Oregon Stater readers reside where they can get up-to-date accounts of games, let's recap briefly each game:

The Season

OSC 6, USC 27, at Portland—After scoreless first period, Trojan depth began to pay off. USC scored twice in second quarter, twice more in third, and Beavers' lone TD was result of sophomore Earl Harbin's passing.

OSC 14, Texas Tech 15, at Lubbock—Beavers couldn't hold 14-0 halftime lead and Tech pulled ahead only in last 41 seconds of play. Tech ran for one PAT, passed for the other. OSC had failed on its second PAT attempt via run.

OSC 6, Nebraska 7, at Lincoln—Corvallis club fumbled seven times as offense bogged down. Beavers had chance to win when they scored in third quarter, but Jim Stinnette was stopped short on the PAT plunge attempt.

OSC 7, Michigan 18, at Ann Arbor—Second largest throng in OSC history, 74,693, saw Wolverines score 15 points in last 10 minutes of game to overcome 7-3 Beaver lead. When Michigan rally began, Wolverines were on own four-yard line.

OSC 66, Idaho 18, at Corvallis—After trailing 10-0 in first five minutes as result of their own miscues, Beavers bombed back with avalanche of touchdowns. Every healthy Beaver saw action in first Corvallis encounter of 1959.

OSC 24, California 20, at Berkeley—Soph tailback Don Kasso, a native of Berk-

eley, pulled this one out for OSC in closing moments with brilliant passing. OSC had led, 13-0, in first quarter. Was Prothro's fifth straight over Cal without a loss.

OSC 0, Wash. State 14, at Corvallis—Disappointed homecoming crowd watched Beavers turn in their most inept performance of season. Keith Lincoln ran wild for Cougars and offensively Oregon State did nothing.

OSC 6, Washington 13, at Seattle—In one of their best games, Beaver line outplayed the Rose Bowlers, but 10 OSC fumbles ruined chances of upset. Largest crowd ever to watch OSC-Washington play, 48,000, cheered on the Huskies.

OSC 22, Stanford 39, at Corvallis—Beavers looked completely "flat" as Skip Face scored 27 points for winners. OSC highlight was 85-yard TD gallop by Ron Miller on kickoff return. Kasso tallied 14 points for Beavers.

OSC 15, Oregon 7, at Eugene—Beavers completely dominated in this great upset, despite two early fumbles that set up only Oregon TD. Difference was 30-yard field goal by Amos Marsh and two spectacular runs by Kasso. A fine comeback.

So there you have it—Oregon State's 1959 grid campaign that was so disappointing at times yet so encouraging as the Beavers blasted Oregon in the finale. Despite that 3-7 won and lost mark, Prothro still has one of the really fine overall records in the country. It now stands at 30-18-1, after five years at the helm here. Few can beat that.

Karl Anderson grew an inch and is now 6-10. He's a junior letterman who could become top center.

Good Attendance

From an attendance standpoint, the season wasn't bad at all. A grand total of 298,217 fans watched the Beavers play, and that's the second largest season total in the school's history. Only the 1957 record (not including Rose Bowl game) of 304,955 has been better. Our team this fall drew about 100,000 more fans than neighbor Oregon, and the Ducks posted that fine 8-2 record.

There's naturally a lot of interest in freshman football, so we'll discuss the Rooks briefly, too. They won two and lost two. The game at Portland against the Oregon frosh was a scorcher, and the Ducklings finally won it, 38-34, after the Rooks had led most of the way. OSC fumbled seven times to set up three Frosh scores, but still made a game battle of it. Could have gone either way.

The Rooks earlier had whipped the Washington State Frosh, 30-16. That could have been a lot worse, too, and the Couababes later trounced both Washington and Oregon first-year units. The roof really caved in when the Rooks journeyed to Seattle to meet the Husky Pups. They dropped that one, 34-0, even though Washington had lost to both Oregon and WSU. This freshman football is something!

Just the day before the OSC varsity trimmed Oregon, the Rooks looked good in downing the Webfoot Frosh, 7-0, in a tight defensive game at Corvallis. For once, they held onto the football too, and that can make quite a difference. In any event, it was a 2-2 season. Prothro has long said that, while it's nice to win freshman games, the important point is the number of Rooks who show promise of helping the varsity in the future. And some of these Rooks are sure to help a great deal.

Generally, it was a good freshman crop—far better than last year's, not quite as good as one three years ago. You'll be hearing a lot more about some of these lads such as Gary Casey, Ladd Horn, Felix Mazzacco, Ernie Thomsen, Bob Lazark, Dick Brooks, John Farrell, Phil Raglen, Bill Stupin, Fred Miller, George Gnos, Ben Gasatis, John Thies, Roy Jones, Ken Haack, Cliff Howery, Fred Jones, Bill Helming and others.

Basketball

BASKETBALL is right upon us—in fact, as this was written the Beaver varsity was winging its way towards Hawaii. The Beavers were to open the season with a three-game stand in sunny Honolulu, then get ready for home openers against Montana State university on December 11-12. A nice way to launch a campaign, we would say, especially that jaunt to the Islands.

Slats Gill, now in his 32nd year as Orange headman, seems pretty encouraged about prospects this winter. Not that he expects to have a championship club or anything close to that, but he does feel it will be a good, colorful team, and one of the youngest he has ever coached, by the way. Only senior on the 13-man roster is Ron Critchfield, 5-8 guard, so that speaks well of what to expect in another year. We have a hunch Gill is grouping his forces together for another of those great machines he produces ever so often, but that's still a year away.

As we went to press, Slats was operating with a starting unit composed of Critchfield, three juniors and one sophomore. The neophyte is sharpshooting Jay Carty, a big 6-7 lad just 18 years old. He led the Rooks in scoring last winter and rates as a real comer. Steve Flynn, one of the juniors, is at the other forward spot. He's 6-5, and looked mighty good in spots as a sophomore. The center? Who else but Karl Anderson, who has grown an inch the past year and now stands at 6-10. Although only a junior, Karl should have a fine season and you'll see a vastly-improved player. That goes for Ernie Johnson, too.

Critchfield's running mate likely will be Jim Woodland, second only to Lee Harman as an OSC point-producer last season. Woodland is only 6-1 and a junior, but this lad can shoot. He's fairly quick, too. Actually, Woodland will probably be playing more out of the corner than in the back-court, but we still call him a guard.

Sophomores Strong

Several sophomores other than Carty will make strong bids for starting positions. One name that stands out is Bob Jacobsen, a 6-6 scrapper from North Bend. He's sure to keep Flynn on his toes. Other best sophs are Bob Niles, Tim Campbell and Stan Stafford, though the latter is a 6-6 husky from Centralia JC. They're all destined for a lot of duty, and you can bet Gill will have some potent bench strength—certainly better than last year.

Another transfer who could help is Bill Wold, a sharpshooting guard from Valley JC in Los Angeles. He's finding the step up to higher competition a tough nut to crack, but knows where that basket is. Bill is fairly quick, too. Slats lost a lot when Harman and Jimmy Anderson departed. Either was always ready for that individual defensive assignment on the opposition's best "little man," and we may not have anybody ready for that job this season. For balance, though, it doesn't look too bad.

With the breakup of the Pacific Coast conference in basketball as well as football, there's no longer any "pre-season" feeling about the early games. Formerly those December tilts were played with the thought of developing men for the conference race later. That's out now. Every game counts, and the teams that wind up with the best overall won and lost records will be reaching the post-season tournaments next March. The newly-formed Athletic Association of Western Universities (Big Five) isn't recognized as a basketball league by the NCAA. Five teams aren't enough to rate that distinction. So any of the coast independents, such as OSC, WSU and Idaho have just as much chance at one of those at-large berths later. None of us qualify automatically, ex-

Southpaw Steve Flynn, 6-5 forward from Mountain View, Calif. is expected to show improvement over fine record last year. He's a junior.

cept for the winner of the Far West Athletic conference (USF, Santa Clara, St. Marys, etc.).

Actually, Oregon State's schedule is much the same as in past years of the PCC. We're facing every old PCC opponent except UCLA, and on a home-and-home basis, too. Cal's Pete Newell and USC's Forrest Two-good, among others, have been quite outspoken in their praise of the old PCC in basketball, and they want to continue playing the northwest schools. If Johnny Wooden at UCLA had any say in the matter, he probably would like to keep relations going, too.

Those in the know feel that USC, Cal and Oregon have the best chances of going

places this winter. The Trojans obviously have great material, Newell has proven himself to be one of America's premier coaches and Steve Belko down at Eugene admits to the best nucleus for talent since he took the job there. Washington State is sure to be improved, too, for the Cougars had their best frosh club in years last winter.

It all stacks up as another interesting basketball season ahead. When Slats Gill is around, it is seldom anything otherwise. He's turned out some grand teams in those past 31 years and he'll have some more, too. Latest figures show that Slats is the eighth-winningest college mentor in the nation,

(Continued on page 9)

A fleet runner kept Levant supplied with coffee while Educational Activities manager worried in wings.

Anything Can Happen (And Does) In OSC's Educational Activities

by Irwin Harris

Educational Activities Manager

SEVERAL YEARS AGO we had Oscar Levant on the campus for a concert. Three or four thousand dollars worth of tickets had been sold in advance and a great deal of time had been spent in promoting the event. We had been forewarned that Levant was highly temperamental and not to be surprised at anything. About four or five days before the concert his booking agent called from Hollywood to say that the Columbia management had dropped him because he had missed several dates in Canada. Furthermore, Columbia was going to ask the union to drop him and they were not at all sure he would carry out his commitment in Corvallis. The agent suggested I call Levant himself and see what he planned to do.

By a stroke of luck I reached Levant himself at his Beverly Hills home and the first thing he said to me was that I had interrupted his dinner. He went on to say that he was a sick man and wasn't sure he could carry out his dates in the Northwest. I told him that thousands of people in this area had

already purchased their tickets and would be deeply disappointed if he didn't show up. Over the phone he couldn't see me shuddering at the thought of refunding money on tickets all over the Willamette valley. At any rate, he wound up by saying he would try to make his Oregon dates since he didn't want to disappoint all his fans. I heaved a sigh of relief, thanked him profusely and hung up.

On the day of the concert Phil Hart, a Portland concert manager, called me to say that he would personally drive Levant down to Corvallis since the great pianist was a sick man and he hoped that he would make it through our concert OK. So I was sweating it out again.

Levant Dropped

About mid-afternoon I received a call from one of the press associations asking for Levant. I explained he hadn't arrived here yet and why did they want him. The press man said that the union had just booted

Levant and they wanted to interview Oscar on what he thought of this action caused by him skipping the Canadian dates. With a shaky voice I told the man I would have Levant contact him when he arrived here. By this time Levant was on his way here by car and I prayed that Phil didn't happen to tune his car radio to a newscast because I felt certain that Levant would cancel his concert here if he knew the union had suspended him. Our only hope was that he didn't find out until after the concert.

An hour or so before the concert Hart arrived with Levant in tow. The great pianist obviously was not well. He said that he would try to get through his appearance here but would need hot coffee back stage between each series of numbers. Since the concession stand was upstairs and at the opposite side of the coliseum from the stage, I hired a fleet-footed athlete to run hot coffee to the stage at 10-minute intervals throughout the concert. Meanwhile, the phones in the athletic office were ringing constantly and I knew they were calls from the various press associations and newspapers trying to reach Levant for a statement on his suspension. He must not learn of this ruling or we would have no concert, so I issued strict orders to my crew that the phones were not to be answered under any circumstances until after the concert.

Well, Levant made it through the concert although he looked as if he might collapse any minute. After he was back in his dressing room, we broke the news to him that the union had suspended him. His first words were, "If I had known that, I wouldn't have played this concert tonight." At that point I practically collapsed myself!

Public Wonders

As you can see the Department of Education Activities doesn't have too many dull moments. I have been manager since 1947 and I believe that the general public and many of the students don't seem to understand just what the department is or what it does. The "educational" part of the title apparently scares off some of the students.

Actually, Educational Activities are no more than co-curricular all-school student activities financed largely from a tuition allocation of \$2.50 per student per term. These activities are grouped into four main headings or divisions—1. Publications which include the Barometer, Beaver and Student Directory; 2. Concerts and lectures; 3. Music

(Continued on next page)

A piano leg fall off as Templeton bravely played.

groups—band, orchestra, glee clubs and Chor-
alaires; and Forensics which includes the
various speech teams. In addition, the de-
partment acts as a bookkeeping agency for
the Associated Students of OSC; the As-
sociated Women Students (AWS), and the
four classes.

Most of the real problems and also the
humorous situations come from two activi-
ties—concerts and lectures and publications.
When you become involved with concert ar-
tists, you are dealing with the most temper-
mental people on earth. Some of the things
that happen are almost unbelievable.

No Broken Bones

And then there was the time the director
of a children's choir stepped off the three-
foot high coliseum stage backwards right
in the middle of directing a number. Mirac-
ulously, he didn't break a bone, pulled him-
self together, climbed back on stage and con-
tinued to direct the number. As far as I
could see, the well trained children in the
choir didn't bat an eye.

Another time, Alec Templeton, the fa-
mous blind pianist, was in the middle of a
very difficult movement when one of the legs
of the grand piano dropped off! The audi-
ence gasped, but Mr. Templeton, of course,
didn't even realize what had happened. One
of our crew came to the stage quickly, re-
placed the leg and the concert went on.

Every once-in-awhile a storm causes us
to sweat out the arrival of a concert artist
or lecturer, but in my 12 years in the office
we have never had a performer fail to make
it for his date here. It's been real close a
couple of times and we have had to start
concerts late.

The problems are just as numerous on the
student publications and a typical example
will show what I mean.

It was about 1:30 on a Thursday after-
noon when the phone rang.

"Mr. Harris, this is Floyd Cobb, the Bar-
ometer downtown office manager. I have

One step too far and the conductor crashed.

*just discovered we have 456 inches of ads
for tomorrow's Barometer and Art Lowe
won't let us go six pages. What shall I do?"*

To the uninitiated in newspaper layout it
might be well to explain that the Barometer
normally runs four pages with 189 inches
to the page. The average ad load is 200 in-
ches. This meant that the Barometer for this
particular day had more than twice as many
ads as it should have and a "shopper" would
result if all of them were run.

This was surely a crisis for the Barom-
eter, so as adviser for the business side of
the publication, I dropped everything else and
hurried down to the Gazette-Times office to
see what might be done to solve the prob-
lem. After going over the ad orders with
Floyd, I found that nothing could be held
until another day and that running 456
inches would make an impossible situation.

Next order of business, then, was to con-
vince Art Lowe, GT business manager, that
we should be allowed to go six pages. After
a great deal of discussion and signing my
name in blood, Art agreed to let us add two

pages so the problem was solved.

The other major all-school publication un-
der the direction of this office, the Beaver
yearbook, also has its problems although
they usually do not come as frequently as
those of the Barometer. On more than one
occasion the Portland printer of the book
has called to say that if certain sections of
the book are not in his hands within a week,
it will be impossible to meet the May 15
delivery date. Then it's necessary to build a
fire under the editor. One year the editor had
to drop out of school spring term so that
he might go to Portland and get the book
out on time.

A third student publication, the Student
Directory, has proved over the years to be
the biggest headache of all. The book, popu-
larly known as the Fussers Guide, is spon-
sored jointly by the three journalism frater-
nities on the campus and Educational Activi-
ties. A student editor and a manager are
selected to handle the directory. But, unfortu-
nately, one or the other seems to fluff
off every year, making it a race to the wire
each time to get the book off the press by
mid-November. This year, for example, the
printer called me on the Sunday evening be-
fore the book was to go on the press, to
report that a full page ad from the Coop
book store and another one from Ball and
Hise studios were missing. Rather than try
to chase down the manager, bright and early
Monday morning I got together with Pete
Smith at The Coop and we laid out his ad.
Then the process was repeated with the
photo studios.

Mrs. Ruth Herndon, our department sec-
retary and bookkeeper, and her assistant,
Mrs. Paul, have their share of amusing and
frustrating experiences with the students,
mostly in handling of budgets and requis-
itions for ASOSC, AWS and the four
classes. They could undoubtedly add another
chapter to this article. But, all in all, I think
all three of us would be quick to admit the
work is always interesting.

Sports

(Continued from page 7)

with a record of 505-359. All told, his clubs
have figured in 10 championships.

SHORT NOTES: E. J. Holub, Texas
Tech's great football center, was quoted as
saying he thought OSC "hit harder" than
any club the Red Raiders faced all season.
Ditto **Bob Schloredt** of Washington . . .
Dave Gambee has been going great guns
with the St. Louis Hawks of the NBA.
Not a regular, he nonetheless has been a
first-line replacement and scored a lot of
points . . . the fourth annual **Far West
Classic** on December 26-28-29 shapes up as
quite an affair, with eight teams entered for
the first time. OSC and Oregon will share
the role of host, and have invited Washing-
ton State, Idaho, U. of Portland, New Mex-
ico State, Hawaii and Denver U. Don't for-
get those dates, and games will be played in
both the afternoons and evenings.

Wrestling and swimming, from a competi-
tion standpoint, don't get underway full-
blast until January, so we'll hold off on men-
tioning prospects there. Coach **Dale Thomas**

has been wearing a broad smile, however,
and this ex-wrestling great isn't one who
likes to lose . . . **Stanford** finally broke
Tommy Prothro's record of never having
lost to a Bay area football team in five
years . . . **Bob Swan**, well-known public
relations man in Portland and one of OSC's
most rabid boosters, served as president of
The Linebackers this fall. That's a group
composed of men who like to see football
promoted properly in Portland—regardless
of school affiliation.

When we saw **Bump Elliott** at Michi-
gan this fall, he said to be sure and send
greetings to "all my friends out at Oregon
State." Bump and Barbara have three chil-
dren now, and two are boys who of course
want to play football someday.

The 4th Annual Far West Classic will be held
December 26-28-29 in Corvallis. On December 26
OSC plays New Mexico State at 2 p.m. At 4 p.m.
Portland plays Idaho and at 7:30 p.m. Washing-
ton State goes against Hawaii. At 9:30 p.m. Ore-
gon and Denver will meet. Winners and losers
of these games will meet on December 28-29 for
consolation and championship brackets.

ALUMNI 'ROUND THE WORLD

Deaths

Mrs. **Maud Hoover Edwards**, '01, of Fossil, Oregon is reported deceased as of October 28, 1959.

James A. Sewell, '03, died October 10 in a Hillsboro hospital following an extended illness. He was 78 years old. Mr. Sewell was born in 1881 in Hillsboro and spent his entire lifetime in the area. He was honored last year as being one of the Century farmers in Oregon. During and following World War II he worked 14 years for the Produce Marketing Administration. Survivors are his widow, Mrs. Charlotte Sewell, and a sister.

Walter A. (Shorty) Foster, '08, died October 29 in Portland. He was born August 28, 1887 in Prineville. At Oregon State Mr. Foster was a member of OSC's championship basketball team during those years. He served with the Oregon State police department from 1931 until his retirement in 1950. Before that he was employed by the state highway department at Bend from 1925 until 1931. Mr. Foster is survived by the widow, two sons, two daughters, one brother, and seven grandchildren.

Jesse R. Fleming, '13, of The Dalles has been reported to The Oregon Stater as deceased. No other information was available.

Other deaths of alumni reported include **Robert Stewart**, '22, of Seattle; **Kenneth Ochsner**, '31, on August 24, 1957; **Harvey Swift**, '33, of Lincoln, Nebraska; **Wallace Marsden**, '34, of Eugene on June 23; **Frank Thomlinson**, '49. No other information was available.

Dean William Schoenfeld

William A. Schoenfeld died in Washington, D. C. in November following an operation. He was 71 years old. Mr. Schoenfeld retired in 1950 as dean of the School of Agriculture. He came to Oregon State in 1931. Dean Schoenfeld was a native of Saxony, Germany and was graduated from Wisconsin College of Agriculture in 1914. He was chief of the Bureau of Agricultural Economics in the agriculture department in Washington, D. C. in 1922-24. He later served two years as U. S. agricultural commissioner for northern Europe and in 1926 was a member of the American delegation

to the International Institute of Agriculture in Rome. Before going to OSC he was Pacific Northwest representative of the Federal Farm Board from 1926 to 1930. Mrs. Schoenfeld died in Corvallis a few weeks before the dean's death. He leaves two sons and a daughter.

Kent Sieberts Allworth, '56, son of Major and Mrs. E. C. Allworth of Corvallis, was killed in an auto accident in October at Palo Alto, Calif. Allworth and a passenger were struck by a car fleeing from police. The two halted for a red light, then proceeded on green when the fleeing car, coming from right angles, ran the red light and smashed into the Allworth car at high speed in the intersection. Kent had attended OSC for two years and had graduated from the University of Washington. He is survived by his parents, a brother, two sisters.

Other notices of deaths of Oregon Staters received in the alumni office include: **Sydney Hawson**, '12, of Portland; **Mrs. John Reiff** (Elsie Hackett, '33) on July 13, 1958; **Mrs. Edward Douglass** (Geraldine Vinton, '30) July, 1955; **Virgil Calavan**, '14, May 8, 1959.

Mrs. Steven T. Joaquin, '58, (Yvonne Hanebut) was killed December 3 and her husband seriously injured in an auto accident in Sutter County near Marysville, Calif. She was 23 years old. The accident occurred when two cars collided. Mr. and Mrs. Joaquin were rushed by ambulance to Fremont hospital in Yuba City and Mrs. Joaquin died a few minutes after arrival. For the past two years she had taught home economics at Marysville union high school. Besides her husband she is survived by her parents of Walla Walla, Wash.

Class News

Rose Chipman Wilcox
5531 S.E. Gladstone
Portland, Oregon

James Sewell died October 10 in Hillsboro following an extended illness. He was 78 years old. Survivors are his widow, Mrs. Charlotte Sewell, and a sister. (More information included on page 10).

'05

Mr. and Mrs. A. B. Bower (Georgia Herbert) celebrated their 50th wedding anniversary last June 9. They have two daughters and a son. Mr. and Mrs. Bower reside at route 2, box 291, Crescent City, Calif.

Floyd (Bush) Davis wrote that Mrs. Davis suffered a mild stroke in September and is now recovering. They have been living temporarily at 825 Ohi avenue in Long Beach.

Mrs. Orval Gilstrap (Lura Flett) has the new address of 829 S.E. 15th avenue in Portland.

Mrs. N. Handsaeme (Nellie Skelton) now

has the new address of 1339-36th street E.E., Forest Lawn, Alberta, Canada.

'06

William Fry is living at 795 Stanley avenue Long Beach. He had been in the hospital recently because of a heart condition.

Dr. and Mrs. Herman Tartar (Stella Parsons) live at 1893 Hamlin street in Seattle. They have eight grandchildren and two great grandchildren.

'08

Mrs. J. A. Cooper
212 S. 8th
Corvallis, Oregon

Mrs. James Cooper (Grace Starr) is living at 212 S. 8th street in Corvallis. She has a son with the San Francisco Chamber of Commerce and two grandchildren.

Mrs. Del Groves (Mildred Dyer) is living at 903 Waverly Drive in Albany. She is living with her son, his wife and three children.

Mrs. Mabel Bergholz (Mabel Cady) has the new address of 2 Jordan, San Anselmo, Calif.

William Davolt's new address is 2010 N.

Pacific in Kelso, Wash.

The golden wedding anniversary of Mr. and Mrs. Ernest Woods (Winnie Logan, '06) was celebrated September 20 in their home at Kings Valley. Over 150 guests called at the home to honor the couple. They were married September 23, 1909. They lived first in Marion, Oregon. Since then they have lived in Corvallis, Fossil, and Kings Valley. Mr. Woods was an attorney in Corvallis from 1929 to 1955.

Mr. and Mrs. Clyde Williamson of Albany are also celebrating 50 years of marriage. They were married on December 30. Mr. Williamson resigned last March as co-manager of the Albany Community branch of the United States National Bank of Portland. He has been in the banking business for 50 years. After graduation from OSC Mr. Williamson went into the banking business. He was instrumental in forming the Bank of Albany in 1933. He became president of the bank until its merger with the U. S. National. Mr. Williamson is a past president of the OSC alumni association and is now a member of the board of directors. He is a past state senator from Linn county and has been active in many civic and banking or-

ganizations. Mr. and Mrs. Williamson live at 329 South Main.

'09

Mrs. Bruce Hull (Velma Edwards) writes that she has two children—one boy and one girl—and seven grandchildren. She taught in the elementary grades 11 years. Mr. Hull is a cherry orchardist now but was in school work as principal for a number of years. Their address is route 2, box 60, The Dalles.

'10

C. Howard Schartow has the address of 1406 N. Union in Tacoma, Wash.

Mrs. Roy Berry (Agnes Goodrich) has the address of 819 Birch street, McMinnville. Mrs. Berry has one daughter who is married and has three sons. Mr. Berry died in 1945.

Robert Nelson has the address change of 384 Cliff Drive, Laguna Beach, Calif.

Hedwig Blegg retired as a teacher in 1952. Her address is 3934 N.E. Hoyt street in Portland.

Ruth Hess Bollons writes that her husband passed away several years ago. Her eldest son died in July of 1958. She is working at Meier and Franks as a saleslady. She hopes the Class of 1910 has a reunion soon. Her address is 2123 N.E. 37, Portland.

'11

Stanley Tripp writes that he retired after 40 years with the City of Corvallis and he is enjoying lots of fishing and other recreation. His address is 602 N. 19th.

Mr. and Mrs. Sherman Cook (Carrie Pimm) have retired. Their address is route 1, Plano, Illinois.

The address of Harry Hobson is now 5762 Portland Road, N.E., Salem.

'12

Mrs. Alice Leedy Young
P.O. Box 235
Sherwood, Oregon

Mr. and Mrs. Edward Clark (Alice Pimm) have retired after spending many years in Japan. Their address is 1686 Russell Pl., Pomona, Calif.

Glenn Pexson writes that he has been with the Oregon State highway department for 40 years.

Mrs. Alfred Lunn (Isabella Ackerman) has the address of 21 Hillcrest Drive in Painted Post, New York. She has three children—two sons and a daughter. She wrote: "my husband, Alfred, died in 1953 and since then I have lived near daughter, Ellen. Son, John, is regional manager for Wayne Feed company in Indiana and lives in Scottsburg. Alfred Jr. has gone into transportation, tractor trailer hauling of hatching eggs from middle western states to Eastern hatcheries. Ellen (Mrs. John Mochel) went to MIT where she received her masters in chemistry and her doctorate later at the University of Louisville. I now have a beautiful apartment in her lovely new home on a hill top in Painted Post near Corning, N. Y. where Ellen and John are both employed at Corning glass as research chemists."

Two well known educators met together recently in Portland to honor former Dean U. G. Dubach who is retiring after 34 years at OSC and 12 at Lewis and Clark. From left are President Morgan O'Dell of Lewis and Clark, Dean Dubach, and President Strand. The banquet honoring Dean Dubach was attended by 80 old friends at the Benson hotel.

'13

Francis Smith retired in 1958 from the position of division engineer for the U. S. bureau of public roads.

'14

Mrs. Hiram Pratt (Maribel Cheney) has the address of 5416 East Avlon Drive in Phoenix, Arizona. She writes: "have two boys and one girl, 10 grandchildren. Husband retired in 1950 of 33 years teaching. I retired in 1954 after 2½ years of social work in Arizona. After my marriage in 1914 we lived in Alaska 4 years, Washington, 31 years, Mexico City, 1 year, Florida, 1 year, and Arizona, 8 years.

Mrs. Ethel Kranick (Ethel Metzler) has been teaching home economics and art in Powers high school. Her husband is a retired cranberry grower in Bandon. A son, Martin, '40, was in World War II as a navigator in the 8th air force and is now taking over his father's business.

'15

Mrs. M. W. Ricker (Edna Mills) has the address of 4613 N.E. Hoyt in Portland. Mr. Ricker is retired as bank manager for the Madras branch of the U. S. National Bank. They have two children and four grandchildren.

Mrs. Herbert Howell (Margaret Wiest) has the address of route 1, box 921, Astoria. Mr. Howell is superintendent of the J. J. Astor experiment station, Astoria. They have three daughters and 10 grandchildren.

Inez Bozorth is living at 12260 S.W. Douglas street, Portland. From 1915 to 1918 she was secretary in the School of Home Economics at OSC and instructor in foods. From 1918 to 1919 she was army dietitian at Camp Taylor, Kentucky and Fort McHenry, Baltimore. From 1919 to 1920 she worked at Meier and Frank and from 1920 to 1924 was director of dormitories and instructor at Montana State University. Then from 1924 until 1954 she was director of several clubs at the University of Michigan. In 1954 she retired and in 1955 spent several months traveling about Europe. She re-

CAREER WITH A FUTURE

- Excellent Income Opportunity
- Generous Welfare Benefits

For full information about a Sun Life sales career, write to W. G. ATTRIDGE, Director of Agencies, Sun Life of Canada, Montreal.

SUN LIFE ASSURANCE COMPANY OF CANADA

COAST TO COAST IN THE UNITED STATES

turned to live in Cedar Hills just outside Portland.

Mrs. C. W. Meyers (Margaret Davisson) died August 8, 1954. Her husband is Cornelius Meyers, '17. The Meyers had two sons and a daughter, all graduates of Oregon State.

Mrs. Lewis Sloan (Nola Payne) retired from teaching in 1953. Mr. Sloan is a disabled veteran of World War I. They have two daughters. The Sloans live in Troy, Mont.

'16

Mrs. Dorothy Johnston
1431 S.W. Park
Portland, Oregon

Mr. and Mrs. James Shaw (K. Irene Brandes) live at 335 N. 25th in Corvallis. They have two sons, James Jr., and Tom. Mr. Shaw is professor of veterinary medicine at OSC and was head of the veterinary department for 17 years. He will retire this June 30.

Mrs. W. R. Dallas (Olive Behnke) is living at 1668 Center street, N.E., Salem. She writes: "my husband, Willis, having been commissioned at graduation in 1915 entered the service in August, 1917 attending officers training school at The Presidio in San Francisco. Following graduating there we joined him and spent several months at Douglas, Arizona where he joined the 15th cavalry. He was sent to Europe in the spring of 1918 and we returned to Oregon. He received his permanent commission at Fort Russell but due to disability incurred in war was retired in 1923 and we returned to Oregon and have lived in Salem ever since. Mr. Dallas passed away in 1945. I have a daughter, Catherine, class of 1940, and a son, Robert, '52."

Mrs. J. M. Smith (Pearl Gates) writes that her husband, Mitchell, '16, died February 14, 1954. She has three daughters and nine grandchildren. Her address in Corvallis is 206 N. 30th.

Mr. and Mrs. Jesse Dickerson (Esther Plank) live at 818 N. Arlington avenue in Indianapolis, Indiana. She writes: "we had four children; one boy killed in World War II. We have seven grandchildren. I am president of the Gold Star Mothers here and also treasurer of the Homemakers Club. My husband is a horticulturist at Purdue and the U. S. department of agriculture. We recently had a wonderful trip to Hawaii."

Harold Taylor has the address of 3043 28th West, Seattle, Wash.

Arthur Logan has an address change to 346 W. Palm street, Compton, Calif.

Mrs. M. A. Schreiber (Helen Horning) has the address of 106 Normal avenue, Fresno, Calif. She writes: "my husband taught school for 40 years and is now retired. We have three children—two girls and one son—and 11 grandchildren. We are looking ahead to a European trip in 1960 to attend the 1000th anniversary of the city my husband's people came from in West Germany."

Mrs. John Clelen (Marion Mateer) has the address of box 535, Meridian, Idaho. Her husband died in January of 1945. She retired from teaching in May, 1958. A son and four grandchildren are living in Portland.

Oregon Stater Takes President's Post

ARTHUR PROUDFIT, '21, recently accepted the presidency of Creole Petroleum Corporation, a Venezuelan affiliate of Standard Oil Company (New Jersey). He had been president of the Corporation for nine years but had resigned in 1954 when he was elected a member of the board of directors of Standard Oil.

More than three decades of Mr. Proudfit's life have been spent working in the petroleum industry in Latin America. His technical and managerial abilities gave him increasingly responsible posts in the petroleum industry. Mr. Proudfit speaks fluent Spanish and has made many friends in Latin America.

He was born in Los Angeles in 1898. He attended Oregon State and then joined Huasteca Petroleum Company as a tool dresser in Tampico, Mexico. He remained with that company until 1928 working up to the position of superintendent of drilling in Mexico.

In January, 1928 Mr. Proudfit joined Lago Petroleum Company as assistant field superintendent in Maracaibo, Venezuela. He remained with Lago as field superintendent and assistant at various locations until 1936 when he transferred to Standard Oil Company of Argentina as the supervisor of producing fields in Argentina.

In September, 1938 he transferred to Standard Oil Company of Venezuela as assistant manager at Caripito. In 1939 he was appointed general manager of Standard Oil

Arthur Proudfit, '21, named Creole president.

of Venezuela. When Creole Petroleum took over the operations of Standard Oil in Venezuela, Mr. Proudfit joined Creole as general manager of the company's Venezuelan operations. In 1944 he was elected Creole's vice president and in February, 1945 he was elected president.

As president of Creole Corporation Mr. Proudfit has offices in Caracas, Venezuela.

'17

Mrs. Paul Doty
6691 S.W. Capitol Hwy.
Portland, Oregon

Mrs. G. A. Robinson (Blanche Morris) writes that "Mr. Robinson was a farmer. We retired in 1944. Since then have spent one winter in California, one in Texas and the past 10 years we live for six months of the year in a trailer park on Florida's west coast. We have two children and six grandchildren. The daughter is married to a navy man and we visited them in Honolulu a year ago last September. Son, Keith, is in construction work in northeastern Iowa. Our home address is Shelby, Iowa."

Mrs. Ralph Bayley (Hallie Carter) has the address of 216 Glenn Ridge, Los Gatos, Calif. She taught school for seven years after graduation and then was a homemaker for 40 years.

Genevieve Tillery Williamson has the address of 621 Parkside Drive, Santa Rosa, Calif. She was married in 1927, lived in Hawaii and taught school there until 1956 when she moved to Santa Rosa. She has one daughter, Ann, who was graduated from Oregon State in 1955. Now she has a grandson too.

Lloyd Yates writes: "I was called Dad by my classmates because I was, I believe the first student father at OSC and one of two married students on campus at that time. Now widowed. To be retired from Lockheed Aircraft on December 31."

Mrs. Albert Anderson (Genevieve Frazier) is house mother for Phi Gamma Delta fraternity at OSC.

W. James O'Neil has the new address of 15 Aldeah avenue, Columbia, Missouri.

'18

Mrs. Henrietta Brockett
1715 Adams avenue
San Diego, California

Mrs. A. E. Brandt (Lulu May) is living at 2009 N.W. 14th avenue, Gainesville, Fla. She writes: "my husband is now retired from the government and is setting up a new section of statistics in the agricultural experiment station at the University of Florida. Have been here since November 1, 1958 after a summer spent in Geneva, Switzerland taking an active part in the exhibit and conference for the Peaceful Uses of Atomic Energy. We found Geneva and vicinity very fascinating. We returned to the U. S. in October and moved to Florida. We love it here. While in Europe we visited our daughter and family in England."

'19

Ernest Willer writes that "we have sold Willer's motor hotel and apartments in Newport and have moved to Oswego and now own Oswego North Shore apartments. Hope to get in a little more fishing now." His address is 50 N. Shore Road, Oswego.

Frank Moser has a change of address from 860 Madison in Corvallis to route 4, box 4208, Mesa, Arizona.

From New York Life's yearbook of successful insurance career men!

HOWARD J. RICHARD— dialed his way to a million-dollar career!

It is Howard Richard's theory that contacting prospects by telephone is the most productive, least wasteful selling technique. A look at his annual multimillion-dollar sales record as a New York Life representative does much to prove his theory. In addition to being well known in his chosen profession, his spectacular success had already provided him with a very substantial lifetime income under New York Life's rewarding compensation plan when he was only forty-one years of age.

Howard Richard, like many other college alumni, is well established in a career as a New York Life representative. In business for himself, his own talents and ambitions are the only limitations on his potential income. In addition, he has the deep satisfaction of helping others. If you or someone you know would like more information on such a career with one of the world's leading life insurance companies, write:

**HOWARD J.
RICHARD, C.L.U.**
New York Life

Two daughters are married and a son, Ted Jr., is a 1959 OSC graduate in electrical engineering. Lois is teaching the fifth grade in Tillamook after seven years in the junior high. This is their 12th year in the U. S. after 18 years in Costa Rica and Nicaragua.

Mrs. E. M. Hornbrook (Clara Adams) has the address of 737 Spruce street in Berkeley, Calif.

Mrs. George Plumb (Marian Walter) is living at 321 West 34th street in Vancouver, Wash. She writes that *"In 1954 I started and am still operating, The City Welcoming Service in Vancouver, Wash. and the surrounding area. This service is entirely local and is run on more of a civic basis than most Newcomer services. If the newcomer has belonged to any fraternal organization, club or hobby group and wishes to affiliate with our Vancouver group, we notify the organization, which in turn gets in touch with the newcomer and sees that he is taken to the next meeting. I also organized the Vancouver Newcomers' Club, which has prospered and grown until now it is a strong group with many interclub activities. Mine is a most stimulating and interesting occupation."*

Mrs. Ralph Goodale (Helen Griffie) has the address of 1723 Russell Place, Pomona, Calif. She writes: *"I do so enjoy hearing about all the exciting things The School of Home Economics and its alumnae are doing. We have three girls and a boy. I am so happy for the teacher shortage. After rearing the girls and getting the boy through Cub Scouts I started teaching first grade. Have taught first grade for five years and am having a ball. Use everything I have ever learned, especially all that science I had in home ec. And it makes me such a nice grandmother . . . eight grandchildren to date. Ralph has been in the insurance business in Pomona since 1926."*

Mrs. Homer Carson (Dorothy McGauhey) writes that *"at present I am teaching homemaking at Willamette high school. My husband was a forester, Homer (Kit) Carson, also a graduate of Oregon State. He is now deceased. We have no children. We moved around a great deal so I have taught in several states. I own my home in Eugene and expect to stay in Eugene for some time."* Her address is 3895 Bell avenue, Eugene.

Dr. Leslie J. Roll, '27, was recently named superintendent of the synthetic chemical division of the Kodak research laboratories. He has been with the division since joining Kodak in 1931. Dr. and Mrs. Roll, (Nina Murdick, '30) reside at 4413 St. Paul Blvd., Irondequoit, N. Y.

'27

Helen Kay Critchlow
1975 N.W. Everst St.
Portland 9, Oregon

Almyra Jacobson Aton is teaching home economics at Erik Ramstad junior high school in Minot, North Dakota. She lives at No. 4 Kietly apt., Minot. Almyra writes: *"I have one child, Mara Ellen Aton, born in 1939. She is a junior at the University of North Dakota taking home economics. My husband, Rex, died in prison camp in the Philippines in World War II. I enjoy teaching very much. I took my masters degree in 1931 at Kansas State."*

CAREER BULLETIN FROM **BOEING**

BOMARC, backed by one of the largest production orders in the field of missiles, and other rapidly expanding missile and space-age projects at Boeing offer exceptional career opportunities. Openings also available with Minuteman solid-propellant ICBM, and with other challenging projects in such advanced areas as orbital systems, lunar systems and interplanetary systems.

BOEING RESEARCH facilities, most extensive and complete in the industry, give you the solid backup you need to grow in professional stature and get ahead faster. Precision microwave interferometer, above, developed at Boeing, typifies creative assignments open now in Research, Design, Production and Service.

ENGINEERS working in radar and communications are supported by self-sufficient Boeing laboratories, housing equipment such as nation's first automatically recording, precision boresight error range, above. Other openings in infrared techniques, electronic circuitry, and in radar, beacon, guidance and control systems.

BOEING-DEVELOPED 3-axis, all-analog piloted flight simulator. With the rapid growth in importance of electronic installations in both manned and unmanned aircraft, Boeing has greatly expanded research and development work in this area. Openings at all levels in mathematics, physics, electrical, electronic engineering.

Write today, for your free copy of 24-page booklet, "Environment for Dynamic Career Growth." It pictures the career areas and advantages that could assure you a brighter future.

Mr. Stanley M. Little,
Boeing Airplane Company,
P. O. Box 3822 - UOS, Seattle 24, Wash.

Send me the Boeing career booklet by return mail.

Mrs. Roy Carlon (Lora Bradley) writes that "we own and operate a cattle ranch at Summer Lake, Oregon. Have two grown married sons and three grand-daughters. I taught home economics and other subjects at Paisley high school in 1953-57 but am happy to work in my home. I enjoy learning where my classmates of OSC are and what they are doing."

Margaret Zimmerman Hansen writes that: "I am divorced, living in Carmel, own my own home, have my two children living with me—David, 17, and Carolyn, 20, in her senior year at Oregon State, majoring in education. I have been employed for the past five years in a specialty shop in Carmel, The Harriet Duncan Shop." Her address is P.O. box 3167, Carmel.

Mrs. Nita E. Murphy is teaching at Teacher Training College and senior high school at Vancouver, British Columbia. She wrote recently that "the years have slipped away since I left Oregon State and yet it lives in my memory as a very vital part of my life. I went there shortly after the tragic

Happenings on Hill

(Continued from page 3)

dent of Region 11 of the Association of College Unions at the 1959 region conference held at the University of Idaho in November. The conference represented 34 colleges from Oregon, Washington, California, Idaho, Nevada, Montana, British Columbia and Hawaii.

Students had a *Tell it to Your Senator Week* in November. The purpose was to find out the true feeling of the students toward student government. Students were encouraged to make comments and ask questions from the senate floor and to give suggestions to the OSC senate.

Blast Felt

A blast that blew out windows and rocked residences in Corvallis November 7 was traced to a few OSC men and women. The explosion was set off on college property east of the river and the Linn county district attorney said a case of ditching dynamite was set off with 24 feet of fuse. The group left the scene after lighting the hour-and-12 minute fuse, driving to a safe distance awaiting the explosion. The explosion was heard at Albany police headquarters and in Philomath. One woman in her home was knocked out of the chair in which she was sitting. Considerable damage was done to

windows and houses and restitution was being made by the students.

This and That

PLaza 2-4211 is Oregon State's new telephone number. The old 3-4481 was discontinued to facilitate the large amount of calls going through the campus switchboard.

Open house was held November 22 at the new Sigma Alpha Epsilon fraternity. Nearly 400 visitors toured the structure.

OSC's dormitory number five, now under construction, is approximately one-third completed. The five-story structure is scheduled for completion early next September. A cafeteria for 700 persons is also being built in the area just south of Sackett hall on part of the old intramural field. The project of dorm and cafeteria is costing \$1,760,000.

Handel's "Messiah" was sung by the college choruses at the annual Christmas concert on December 9.

The last week of November was the Memorial Union's 31st anniversary.

Big music production of the year was "Annie Get Your Gun" held the first week in December by the Music and Speech departments.

OREGON STATE ALUMS were victorious over their University of Oregon counterparts in a two-day series of television quiz competition, November 17-18, on the "Better

Half" show over Portland's KPTV (channel 12).

The Oregon Staters won three of five rounds in the quiz with one round ending in a tie. The winning Stater alumni team included Virg Cavagnaro, '49, Nancy (Hopkins) Fletcher, '50, Eleanor (Abplanalp) Strowbridge, Pat (Kelly) Swan and Marcella (McLean) Othus, all '51, Lois (Conachan) Steinseifer and Don Zarosinski, both '52, and Cece (Broome) Bryant, '58.

A NEW LITERARY MAGAZINE *Spindrift* made its appearance on the campus in December. It is the first time since 1946 when the *Lamplighter* magazine ceased publication that Oregon State has had a literary publication.

Spindrift is being published twice this year and sells for 35 cents. It exists to encourage and recognize literary and artistic effort among the OSC students. The magazine is a recognized college effort sponsored by Educational Activities and the English department. It is printed at the college press.

Ruth Marshall, sophomore from Corvallis, is editor. Short stories, poetry, and drawings are featured in the 35 page first edition. *Spindrift* magazine may be purchased from the English department for 35 cents plus 10 cents for mailing. Other places it can be purchased are Corl's, Corvallis; Combs Market, McMinnville; Dell's, Salem; Rich's News Stand; Gill's, Portland.

death, by drowning, of my husband and even if my fellow students did not know of my loss they helped very much by just being themselves. I have taught in senior high school in North Vancouver; technical high school and commercial high in Vancouver. Six years in the Provincial Normal School in Victoria, one year on leave which I spent in relief of a fellow teacher, department of household administration, University of Saskatchewan, one summer session in the clothing department, University of Alberta, one summer as instructor in teaching methods at the summer school of education, Victoria, B. C. and three summers as director of the cafeteria, summer school of education Victoria. At present I am instructing in clothing and foods at the Fairview high school of Commerce, Vancouver. This is my last year as I reach retiring age." Her address is 2617 Ontario street, Vancouver, B. C.

Mary Applebe Moser is in the transportation and storage business. Her address is 1303 N.E. 7th street, Grants Pass. "My husband and I operated Isham's Transfer and Storage from 1949 until his death in 1957. Since that time I have operated the business alone and believe that I am the only woman in the state of Oregon to do so. My son, Mike, is taking civil engineering at OSC and my 13 year old Steve is in the 9th grade and lives with me."

Mr. and Mrs. Robert Griffin (Marguerite Welch) have the address of 1390 Mallory Lane in Reno. They are constructing a new home.

Addresses: Merritt Truax, 3135 Mulberry S., Salem; Gordon Minear, 3238 Highway 20, Sweet Home; Leon Perry, 345 Washington St., S., Salem; Mrs. Albert Voll (Dorothea Leist) 68 Turrini Drive, Danville, Calif.; Lloyd Millhollen Jr., 1265 East 29th Place, Eugene; Alvin Kester, 922 E. 4th, McMinnville; W. Bruce Morrison, 2007 S.E. Ash street, Portland.

Mrs. George Gose (Helen Ralston) box 183, Palos Verdes Estates, Calif.; Ruth Rawson, 5243 S.E. Milwaukie avenue, Portland; Mrs. A. C. Vincent (Margaret Irons) 308 S.E. 29th in Portland; Edwood Lape Jr., route 3, box 1061, Hood River.

'35

Mr. and Mrs. Boyd Rasmussen are living at 4515 31 S., apt. 12, Arlington, Va. Boyd wrote: "Last July we moved to Arlington from Ogden, Utah. Since graduation I have worked for the forest service. My new job as deputy assistant chief keeps me roaming the U. S. We have two children, John, 19, at the University of Idaho and Mari Pat, 16, who is with us in Virginia."

Virginia Carlson Dulin is living at 6901 N. Astor in Portland. She has been teaching homemaking and English at Madison high school. She completed work for a masters degree in education at OSC last summer and for the past eight years has been teaching. Prior to that time Virginia worked for the Multnomah county public welfare department as a caseworker. She has two sons,

... a hand in things to come

Moving mountains across the world

Following rugged paths through lonely African bush country . . . dredging a river bed to carry heavily-laden barges out of the steaming jungles of British Guiana . . . crossing 6,000 miles of ocean to reach a remote island in the South Pacific. This is all part of the job faced by the geologists and mining engineers of Union Carbide as they seek out the ores of chromium, manganese, columbium and other essential alloying metals.

These are the metals that make today's many special steels what they are—sinewy, for the cables of a great suspension bridge . . . sturdy, to support the tallest skyscraper . . . glistening with beauty in stainless steel tableware . . . and suitable for the hundreds of complex parts that make up your automobile. And now the demands of the space age make alloying metals more vital than ever.

Union Carbide moves mountains of ore halfway around the world to assure a dependable supply—almost two million tons a year. And the people of Union Carbide will continue their world-wide mining and refining operations to provide the metals so necessary for the products of today and tomorrow.

Learn about the exciting work going on now in metals, carbons, chemicals, gases, plastics, and nuclear energy. Write for "Products and Processes" Booklet G, Union Carbide Corporation, 30 East 42nd St., New York 17, N.Y. In Canada, Union Carbide Canada Limited, Toronto.

S.E. Clark street in Portland. Her husband, Delbert Walter Burke, died in 1944. June received her MBA at the University of Chicago in 1946. She attended the Executive Development Program in September of 1958 conducted by the National Restaurant Association. She is now employed at Ireland's Inc. in the Equitable building in Portland.

Mrs. John Drummond (Laverna Bennett) and family are living at 5916 N. Omaha avenue in Portland. She wrote: "we moved to Portland in September, 1955 when my husband became assistant area forester for the Bureau of Indian Affairs. We have three children: Ellen was graduated from Jefferson high school, John Alan is a sophomore at Jefferson, and Lois is an eighth grader at Ockley Green grade school where I was president of the PTA last year. In addition, we have been the foster parents of Carmen Del Llano, International Christian Youth Exchange student from Juiz de Fora, Brazil, who has been attending Jefferson with our own children."

Mrs. Oscar Payne (Harriet Fullenwider) has the address of 557 S. 9th in Coos Bay. She recently wrote: "I taught four years in Dallas, Oregon before marrying a Presbyterian minister and moving to Coos Bay where we have been for 16 years in the same church. We have two daughters, Nancy, 15, and JoAnn, 12. I have taught adult home-making classes but now am doing substitute teaching."

Mrs. Walter Collins (Marjorie Lewis) is living in Blaine, Wash. Mr. Collins is Immigrant Inspector at Port of Blaine. They have two daughters, 16 and 10 years old. Mrs. Collins has been active in civic affairs. She was past president of Immigration Ladies Club, past secretary of Blaine PTA, volunteer air observer during World War II, menu planner for Blaine school for two years, neighborhood chairman for Girl Scouts for six years, and chairman in charge of advanced ticket sales and queen contest for Blaine's 75th anniversary jubilee last August.

'40

Mrs. John Kerns
Keno Road
Klamath Falls, Oregon

Mrs. Gordon Saxton (Frances Alexander) has the address of 1607 S. 9th street in Las Vegas, Nevada. She wrote that she was enjoying homemaking, community activities, boating and fishing on Lake Mead, and Las Vegas' gorgeous fall weather. The Saxtons have had recent visits of Lorene Swanson Dickhout and Jean Guyer Godard and families.

Helen Stanbrough is teaching English at Sweet Home union high school.

Katherine Peterson Brendle has the address of 410 Reece in Nyssa, Oregon. She is in the furniture business. Has two children, Henry, 6, and Hal, 4. Katherine was elected to the city council of Nyssa to serve a two year term. She is the first woman to serve in this capacity.

Col. and Mrs. Carl Larsen (Joella Mayer) and family are living in Japan. Col. Larsen is on the staff of the 7th Fleet.

Mrs. Samuel Strebin (June Robertson) wrote that after spending 12 years in different parts of Venezuela their family returned to the U. S. two years ago last June

Bill Bennett, '51, is a television personality in the Philadelphia area over WCAU-TV with his six shows a week farm program. Bill is farm director of the station and recently won the National Milk Producers Federation award for telling the public about the business aspects of dairy farming. For the past five years Bill also has been head of animal husbandry at Philadelphia high school for agriculture. Bill presents his TV program live, outdoors in the area adjoining the studios. His "set" includes a greenhouse, a small barn and several gardens.

and lived in Portland. The Strebins have four children, Linda, 16, Marshall, 10, and Louis, 8, and Julia, 6. Mr. Strebin returned to Venezuela last February. He is an agricultural engineer and has a company that does soil surveys on contract. At the time Mrs. Strebin wrote this information she thought they would be living in Caracas. She said that during the previous time in Venezuela she did catering—especially decorated cakes for which there is a good market. While back in the USA she gave talks and showed slides and movies on the South American country. She said: "I certainly would be delighted to see any former friends who chance to visit Venezuela."

Dr. Ruth Little is a dietitian and is conducting an approved dietetic internship at the College of Medical Evangelists, White Memorial Hospital, Los Angeles. She received her Ph.D. from Iowa State in 1950. Her address is 236 North Bailey street, Los Angeles 33.

Mrs. Donald Reitzer (Helen Trindle) has the address of 6129 S.W. 46th avenue in Portland.

Mrs. Kenneth Johnsrud (Ellen Miller) wrote that since World War II her husband has been in the automotive business—first in

Coeur d' Alene, Idaho and now in San Francisco with the firm of Chanslor and Lyon. He was appointed vice president in charge of sales last spring. The Johnsrud family consists of Carolyn Jane, 12, Sarah Ellen, 9, and Jeffrey Miller, 5. They all live in a new home at 249 Oak Park Drive in San Francisco.

Mrs. Cleve Coppin (Caryl Leehmann) wrote that "my husband and I live on a ranch near Walloze Lake near Joseph, Oregon. We have three children, two boys and a girl—Don, 16, Michall, 13, and Susan, 10." The Coppin address is route 1, Joseph, Oregon.

Mr. and Mrs. R. J. Corruccini (Mildred Witham) and family of two boys, 10 and 15 years old, and one girl, 14, live at Flagstaff Road, Boulder, Colorado. Mr. Corruccini is a physicist for the U. S. Bureau of Standards.

Mr. and Mrs. John Kaputof (Frances Coffey) and family of two girls and a boy reside at 1084 Apple Drive in Concord, Calif. Mr. Kaputof is department chairman of Pleasant Hill high school, Pleasant Hill, Calif. The family moved from Milton-Freewater to Concord about six years ago when the high school opened. Frances is kept busy with her home but might return to teaching later. She has been doing volunteer interviewing on Family Safety for the county health department. It is a two year project and she finds it very interesting.

Mrs. Melvin Cowen (Beverly Beaird) has the address of E 10320 De Smet, Spokane, Wash.

Arthur Ficken's address is 12515 10th N.W. in Seattle. Other addresses of classmates: James Cooper, 824 Standish Road, Pacifica, Calif.; Merle Winn, 3557 N.E. 119th avenue, Portland; John Skibinski, 245 S.W. Birdshill Road, Portland; Dr. Louis Epplert, 1405 Mill in Eugene; Claybourne Dyer, box 2001, Salem; Frank Allhands, 2714 42nd ave., San Francisco.

Married October 2 in Majove, Calif. were Mrs. Virginia White, '52, and Laurence Morrin. Mr. Morrin is a test project engineer at Douglas Aircraft at Edwards air force base. Mrs. Morrin is teaching business education at Mojave high school. They make their home at 3153 Milton Drive in Western Village.

in Portland as industrial agent for Union Pacific. His address is 1707 N.W. 29th ave.

Mrs. Benjamin Goldy (Margaret Brandon) writes that she is a full time homemaker. Her husband is senior engineer with the capacitor division of General Electric company. They have three children—Sharon, 16, Richard, 12, and Robert, 1. The Goldy address is 1 Linden Drive, Hudson Falls, N. Y.

Lucille Robinson Bourgeois has the address of 138 Terrace Drive, Chico, Calif. She wrote: "after teaching high school two years I joined the Waves and was in the navy from 1943 to 1945, then continued teaching in Oregon until 1949 when I came to California and taught at Yuba College the year of '49-'50. The next year I spent at Teachers' College, Columbia university, graduating from there in 1951 with an M.A. in clothing and textiles. Since my marriage in 1952, I taught clothing at Chico high one year and then have had two evenings a week adult clothing classes. My husband is on the branch service staff for Bank of America and we have two lovely adopted children—a little girl of three and a baby boy, nine months old."

Mrs. Vernon Catts (Charlotte Olleman) wrote that another daughter, Naomi, arrived August 20, 1958. That makes four girls and a boy. She said she had the pleasure of designing their new home for the family and had moved in just 10 days before their new daughter arrived. Charlotte taught adult education classes in tailoring at Beaverton high school and South Powellhurst grade school last year. Vernon, '40, is in his 12th year with Campbell Soups as institutional salesman for the Portland district. A brother, Dr. R. D. Olleman, is teaching at OSC in the engineering department.

Mrs. L. Lisle Walker (Muriel Pool McKay) has the address of 2241 N.E. 162 avenue, Portland. She wrote: "after three years

in commercial forestry, three years in Boy Scout executive work, and then 10 years of farming (narcissus and seed potatoes) Lisle has worked three years as draftsman at the Multnomah county courthouse. We have four children. Joy, 17, spent the summer in Sicily, Italy under the Americans Abroad program and had a fine time. Mark, 14, is a radio ham and currently is very interested in building a small car to run around on our five acres. He is in high school this year. Gay, our 11-year-old, is interested in horses. Mirth is our two-year-old and is stretching her chubby legs trying to keep up with the bigger ones."

Mrs. Frank Hicok (Bernice Linklater) wrote recently that her husband, a civil engineer, has been working in Anchorage, Alaska. Bernice and daughter have been spending their summers there with him. Last summer they drove up the Alcan highway and saw much of Canada and Eastern Alaska. The family lived for three years in North Africa and while there were able to tour around the Mediterranean and make several trips to Europe. Bernice is teaching in Sacramento. Her address is 4005 Hancock Drive, Sacramento 21.

Mrs. Ted Nelson (Doris Wohllaib) has the address of 540 S. State street, Oswego. Mr. and Mrs. Nelson have two girls, 6 and 13 years old, for whom they recently purchased horses and consequently moved from Portland to Oswego. Mr. Nelson is in the steel fabricating business.

New addresses for class members: Major Theodore Capka, Hq. 4th Mx/Bn, 71st Arty. Ft. Hancock, New Jersey; Mrs. William Smith (Helen Breeding), 19254 Parkview Road, Castro Valley, Calif.; Al Olson, 6600 Marywood Road, Bethesda 14, Md.; Glenn Morgansen, 1005-36 street, Milwaukie, Ore.; Lyle Specht, Sutton Creek Road, Tillamook; Mrs. Jerry Cason (Jerry Harvey), 2199 N.W. Everett, Portland.

BELL SYSTEM TEAMWORK IS A VITAL FACTOR IN EFFICIENT, ECONOMICAL TELEPHONE SERVICE

Direct Distance Dialing is an example of the
value of unified research, manufacture and operations

There are great advantages to the public and the nation in the way the Bell System is set up to provide telephone service. It is a very simple form of organization, with four essential parts.

Bell Telephone Laboratories does the research.

The Western Electric Company is the Bell System unit which does manufacturing, handles supply, and installs central office equipment.

Twenty-one Bell Telephone operating companies provide service within their respective territories.

The American Telephone and Telegraph Company co-ordinates the whole enterprise and furnishes nationwide service over Long Distance lines.

Each is experienced and efficient in its own field. But the particular value of each is greatly extended because all four parts are in one organization and work together as a team.

Direct Distance Dialing—one of the greatest advances in the speed and convenience of telephone service—is an example of the value of this unified setup.

Already more than 8,000,000 telephone customers in more than 700 localities can dial direct to as many as 46,000,000 telephones throughout the country. Each month there are

EXAMPLE OF TEAMWORK. At left is new fast-moving switch (actual size) used in Direct Distance Dialing. Many of them go into action automatically every time you dial. Enclosed in gas-filled glass tubes to assure perfect contacts. Made to last 40 years. The result of Bell Telephone Laboratories and Western Electric working together to get the best and most economical design. At right is remarkable new machine, designed by Western Electric, which automatically assembles 360 switches an hour at a very small cost.

more. Millions of others can dial direct over shorter out-of-town distances. Calls as far as 3000 miles away go through in seconds.

All of this didn't just happen. It called for years of intensive planning, the invention of wholly new machines and equipment, and the development of new operating and accounting techniques.

Research alone couldn't have done it. Neither manufacturing nor operations separately could have

done it. And just money couldn't have done it, although it takes money and a lot of it for telephone improvement.

The simple truth is that it could never have been done so quickly and so economically without the unified setup of the Bell System.

For many a year it has given dynamic drive and direction to the business and provided the most and the best telephone service in the world.
