TO MIRROR faithfully the life of O. A. C.—its work and its play, its physical beauty and its serious endeavor—is our aim in presenting this book. To those now on the campus, may it prove in years to come a happy reminder of their college days, and to the people of the state a vivid and truthful report of the progress of their state college in the year 1923-24

*Like two cathedral towers these stately pines  
uplift their fretted summits tipped with  
cones,  
The arch beneath them is not built with stone  
Not art but nature carved these lovely lines  
and made the graceful arabesque of vine.*

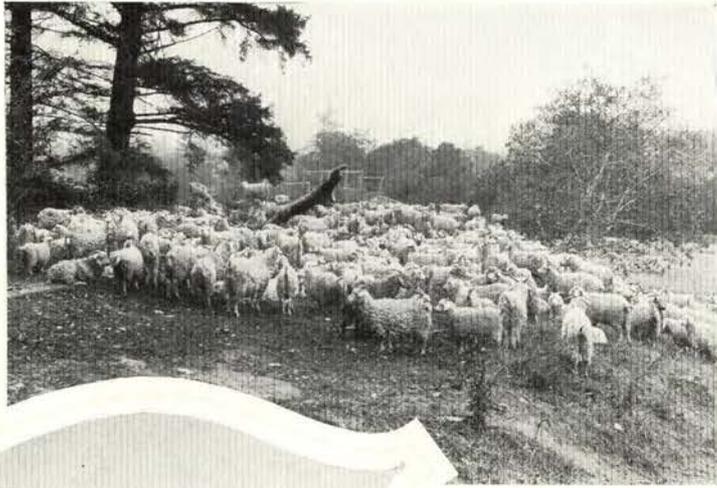

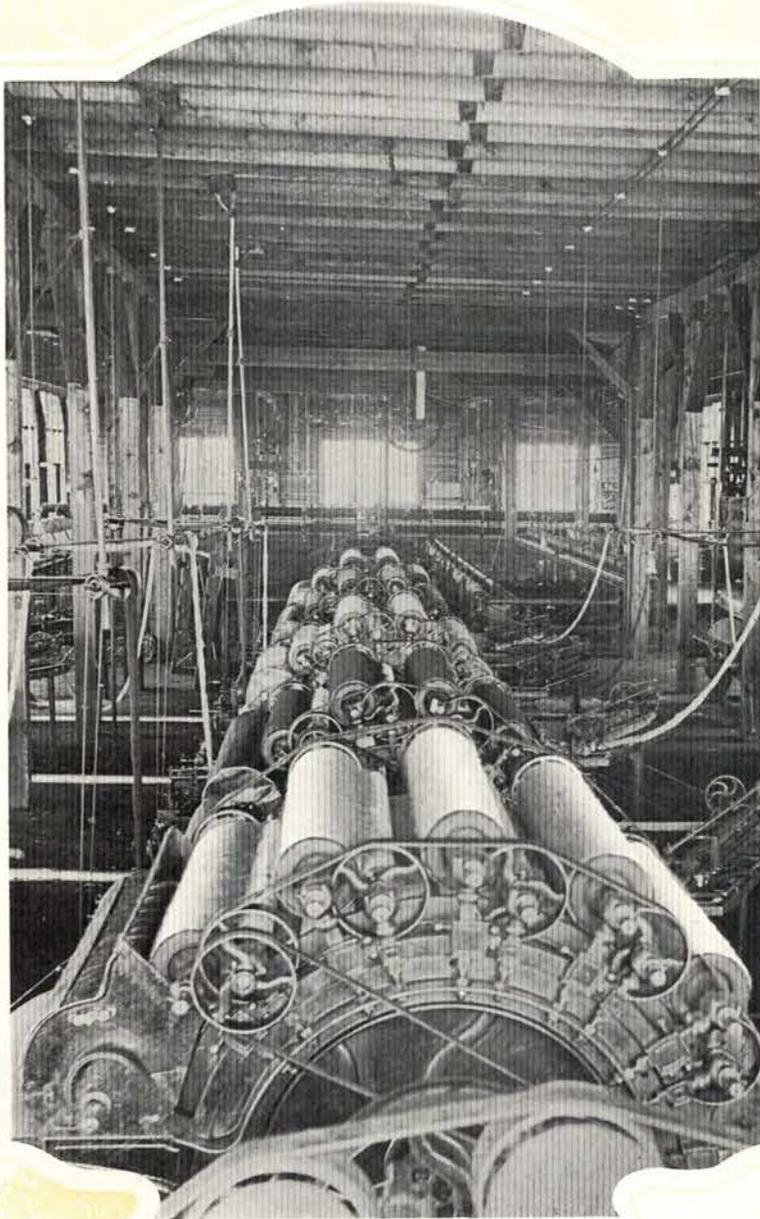

*There's not a ship that sails the ocean  
But every climate, every soil,  
Must bring its tribute, great or small  
And help to build the wooden wall.*

—LONGFELLOW.

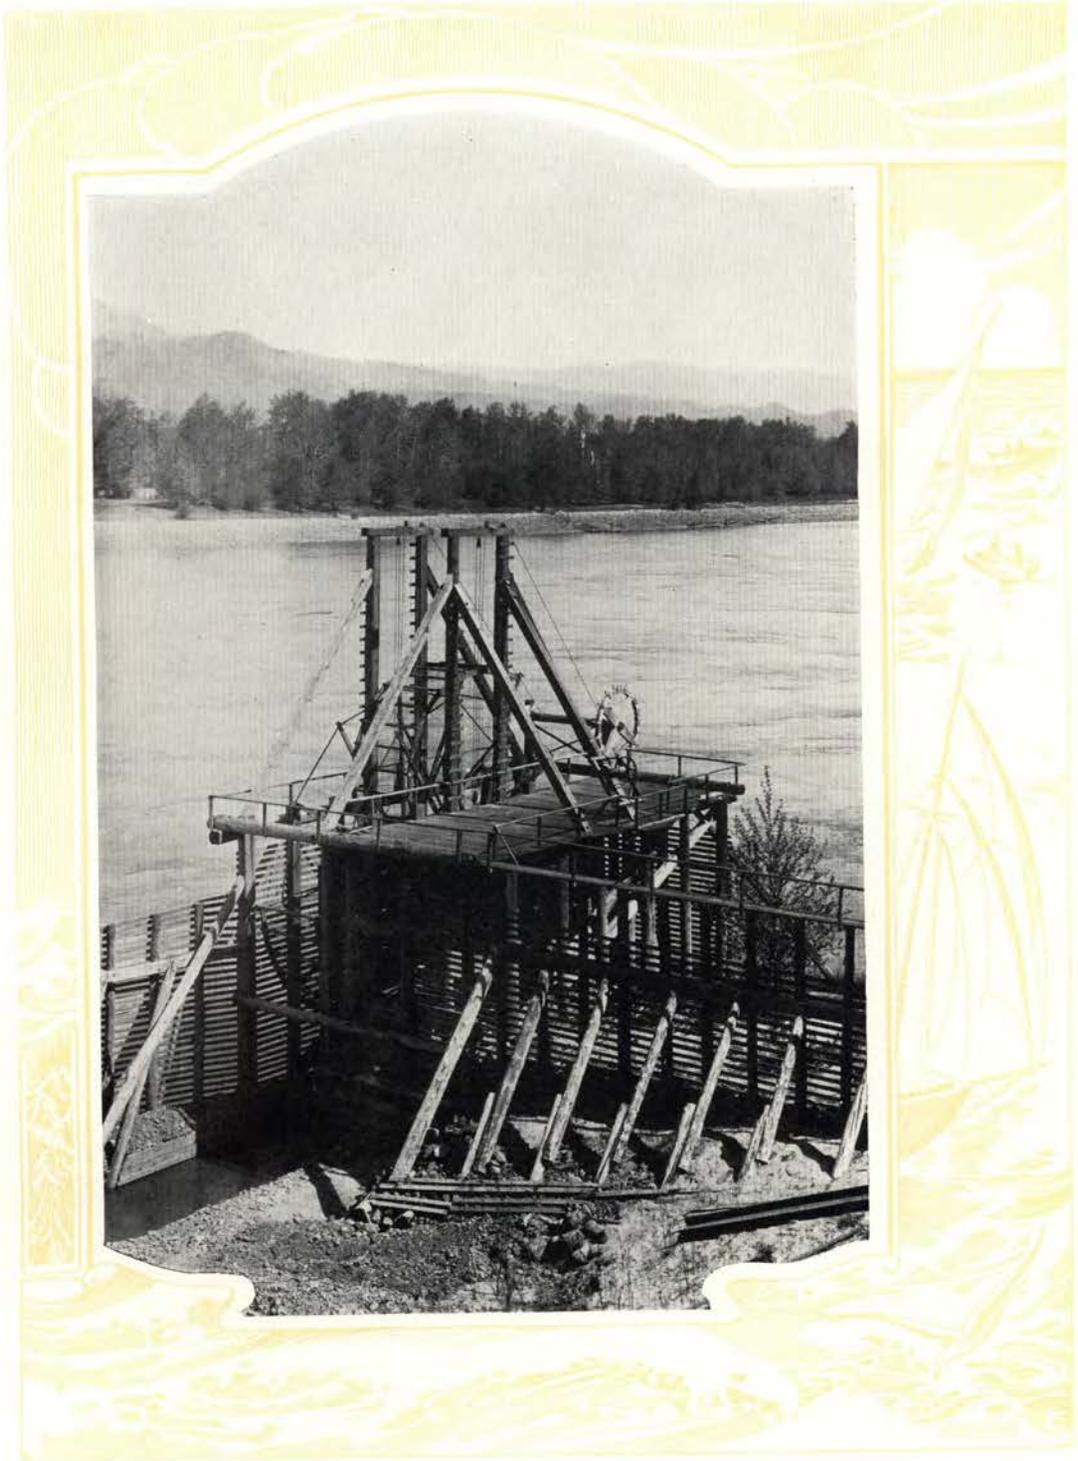

*On your left, the sheep cropping  
The slant grass and daisies pale  
And fine apple-trees stand dropping  
Separate shadows toward the vale.*

*There will drop our lines and gather  
Old ocean's treasures in  
Where'er the mottled mackerel  
Turns up a steel dark fin  
The seas are field of harvest  
Its scaly tribes our grain  
We'll reap them in.*

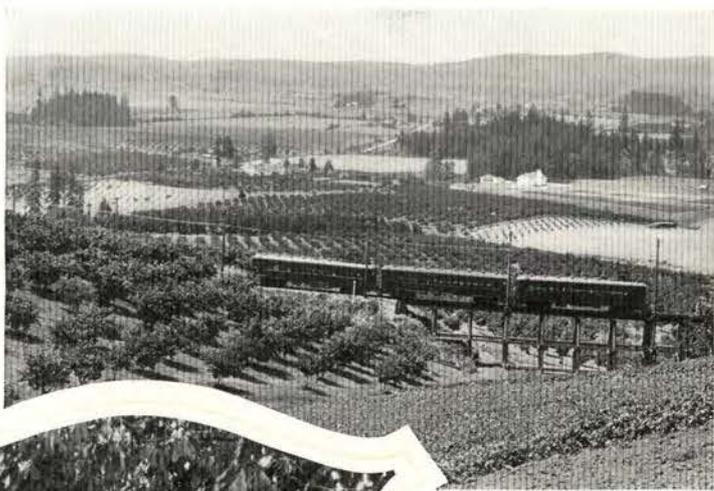

—WHITTIER.

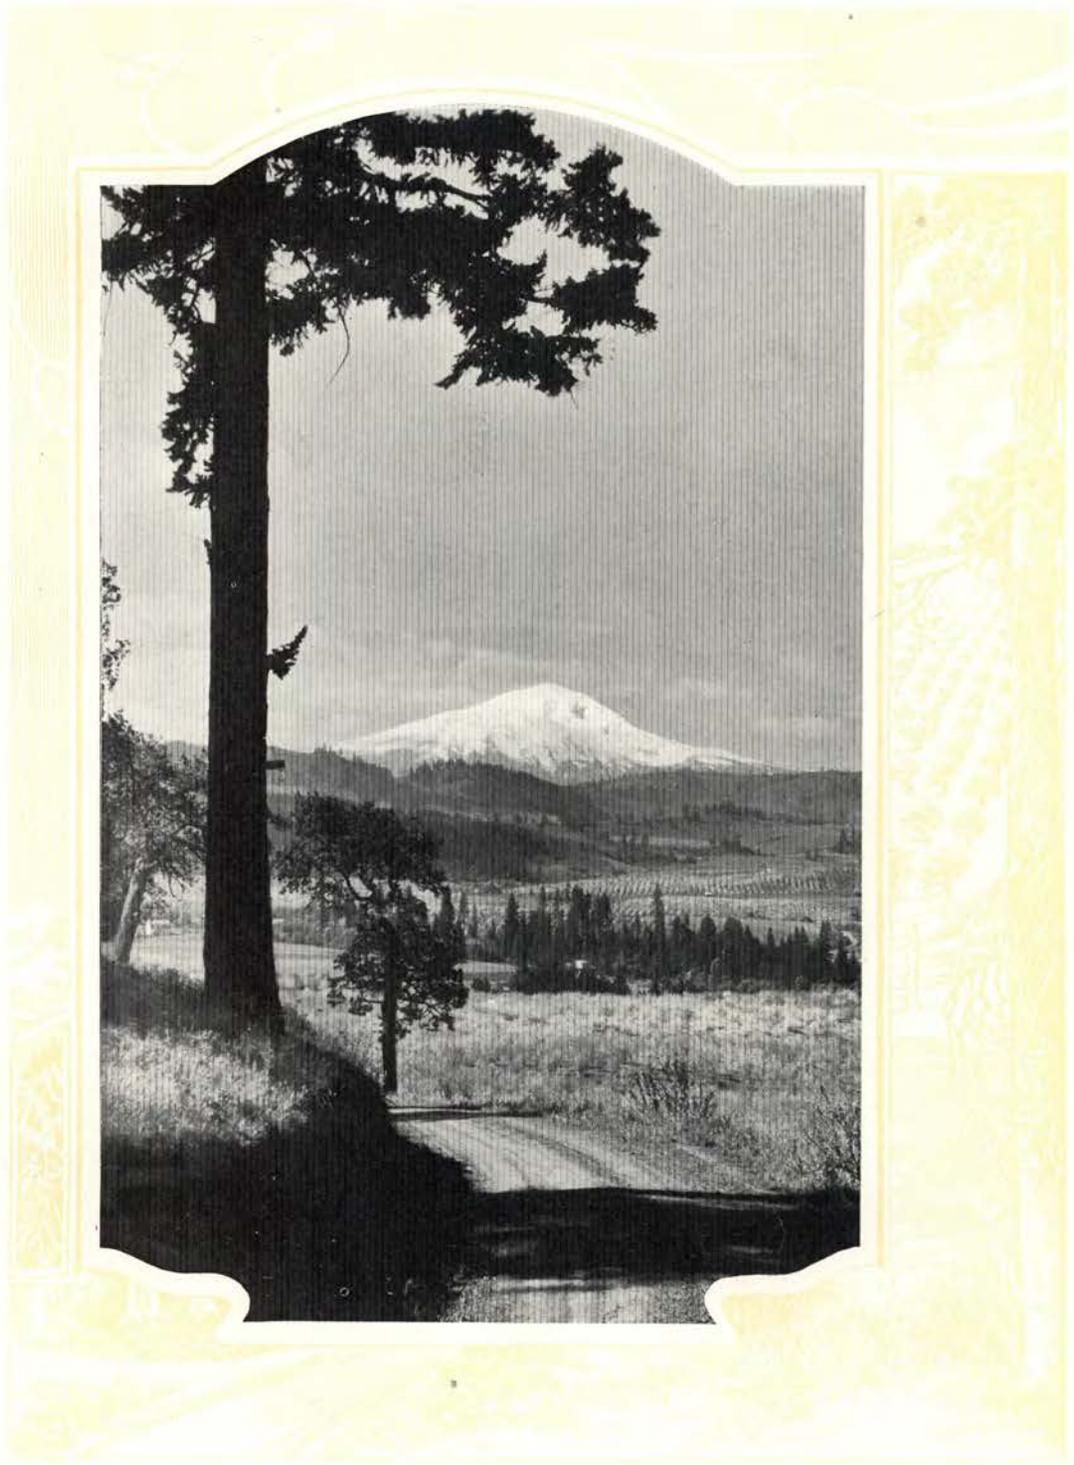

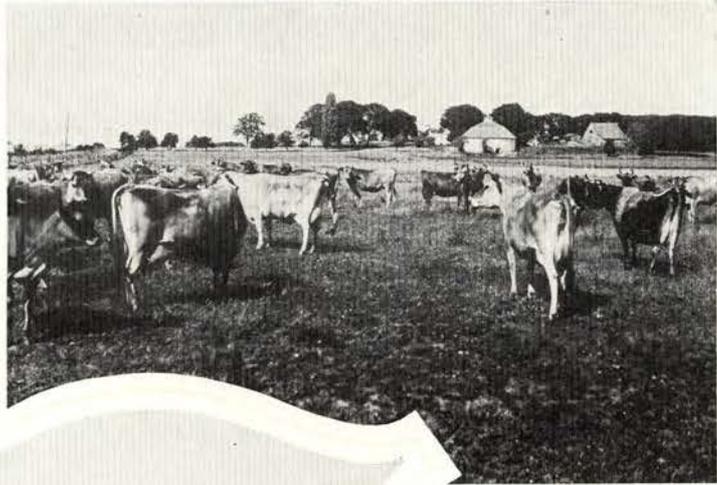

*Down mid tangled roots of things  
That coil about the central fire  
I seek for that which giveth wings  
To stoop not soar to my desire.*  
—J. R. LOWELL.

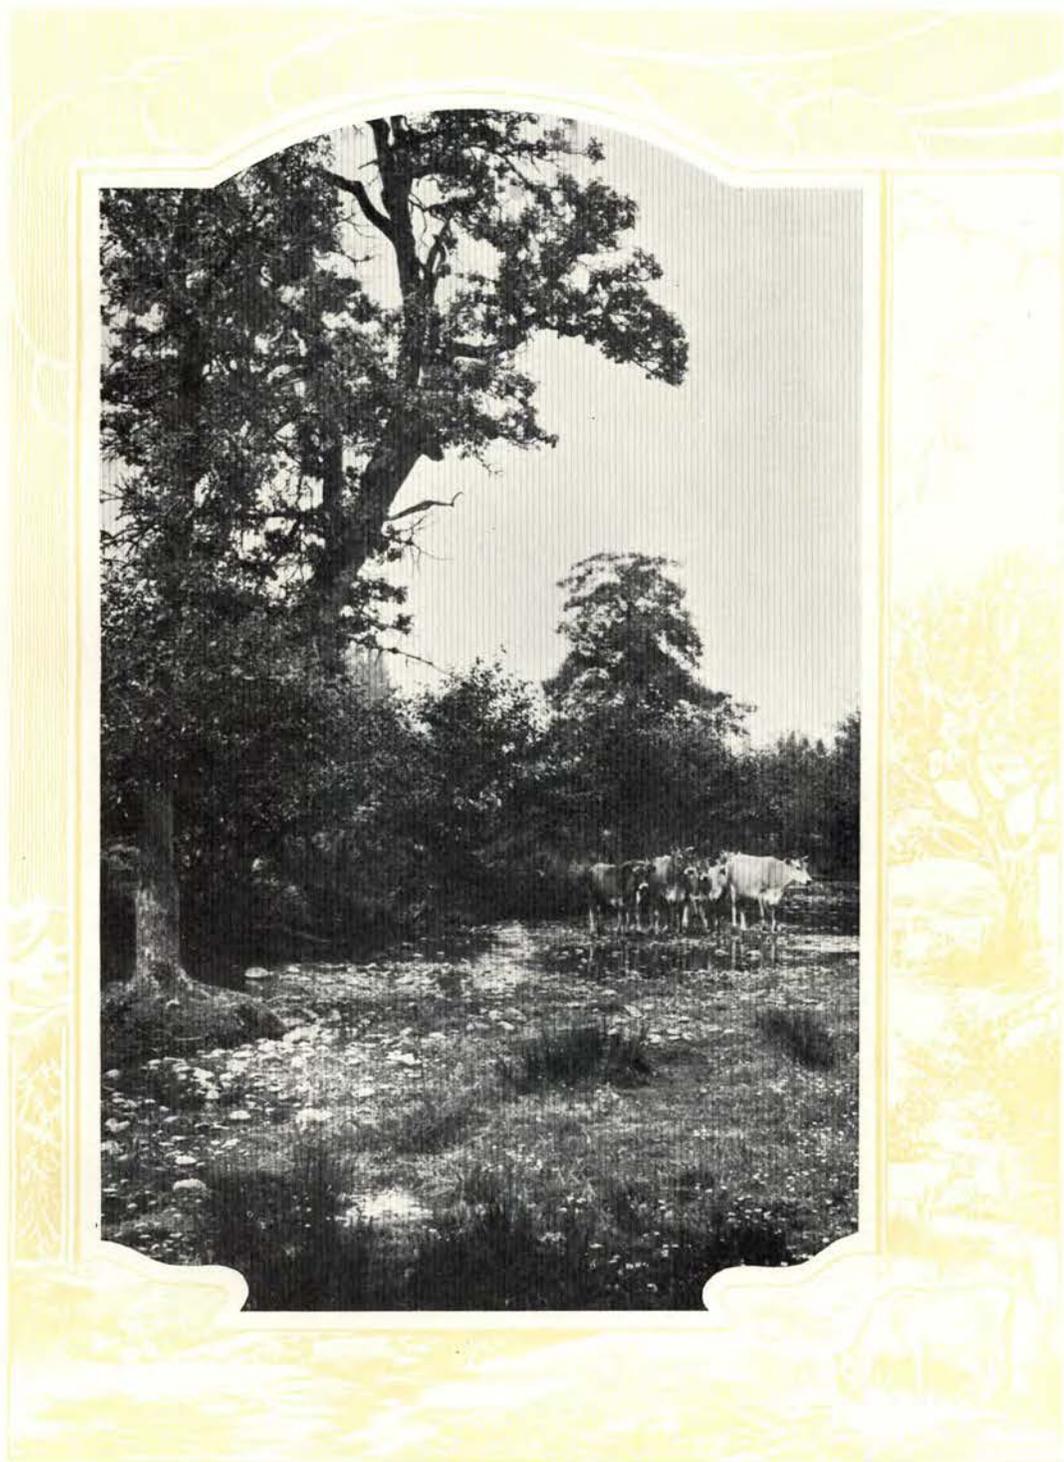

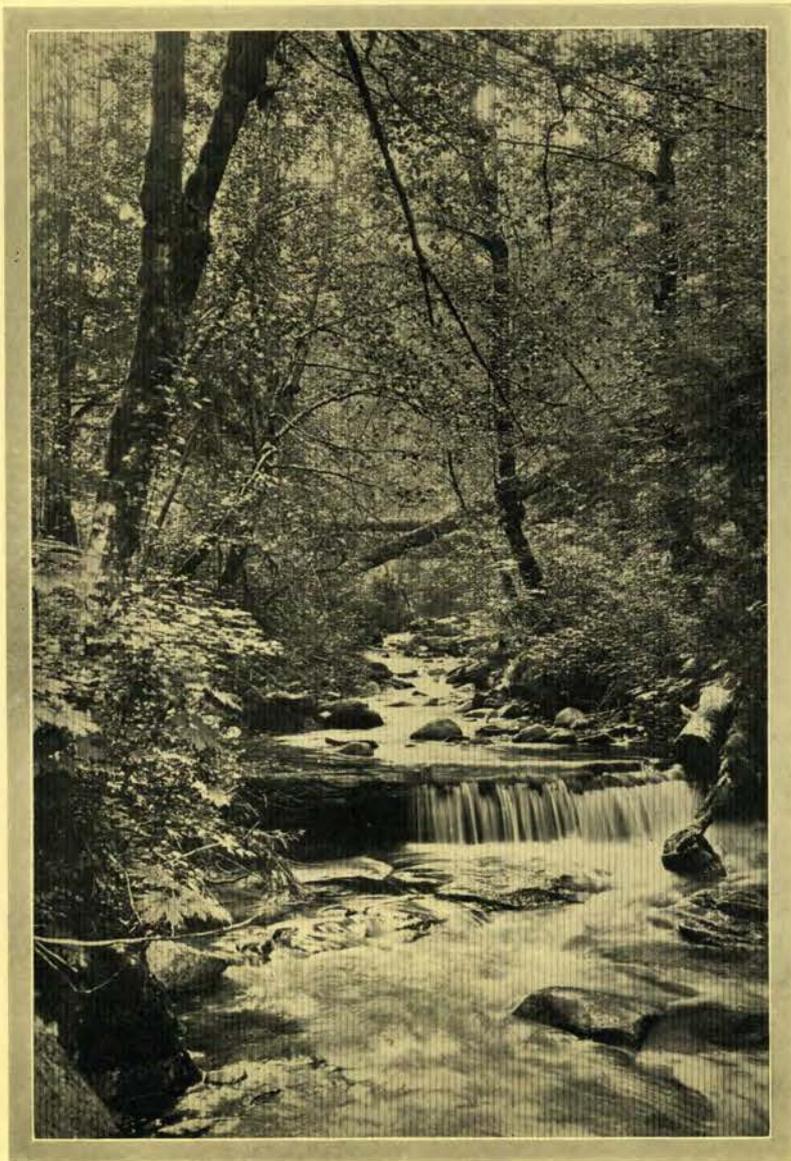

*Higher than that wall a circling row,  
Of goodliest trees, laden with  
Blossoms, and fruits at once of golden hue  
Appeared with enamel'd colors mixed.*  
—MILTON.

*The curfew tolls the knell of parting day  
The lowing herd wind slowly o'er the lea  
The ploughman homeward plods his weary way  
And leaves the world to darkness and to me.*

IN ACCORDANCE with Acts of Congress under which it is maintained, the Oregon State Agricultural College provides a liberal, thorough and practical education. It is organized into three divisions that characterize the work of the land grant colleges throughout the country, namely; resident instruction, experiment station and extension service. For the purpose of administration there is organized within the college staff under the general direction of the Board of Regents, the administrative council, the college council and various school faculties.

**I**N OREGON 65 per cent of the industrial payroll is met by the lumber industry. The value of timber products manufactured each year amounts to one hundred million dollars. The state has 20 per cent of all the standing timber in the United States. It is the business of the School of Forestry to serve this great industry and to aid in the best use and in the perpetuation of this great natural resource.

**T**HE SCHOOL OF PHARMACY has been prominent among the schools in the Northwest in raising the standards of the profession throughout the United States. Two curricula are offered, a four-year curriculum, upon the completion of which the candidate is graduated with the degree of Bachelor of Science; and a three-year curriculum, for which the degree of Pharmaceutical Chemist is conferred. More recently a third course has been added to the curricula, an accredited premedical course of three years, which course prepares a student for admission into standard medical and dental schools.

THE SCHOOL OF HOME ECONOMICS ranks third in size in the United States, and is unexcelled in the quality of the training given in its five big divisions of work—Foods and Nutrition, Textiles and Clothing, Home Management, Institutional Management, and Home Economics Education. While training for professional efficiency in many fields of work it never loses sight of its ultimate goal—the preparation of young women for successful home and community life.

Its graduates are holding important positions today in twenty-six different states and three foreign countries.

**M**INING with its allied branches is one of the largest commercial activities in the United States. Each year our advances in civilization call for new types of mechanical equipment. The demands of the designers of these improved mechanisms call for new materials to withstand the increased strains of the different parts of the machines. It becomes the duty of the producers of metals to make them in increased quantities, in increased degrees of purity and increased strength. The students of the School of Mines are so trained that when graduated they may be of service to the mining industry, the parent of the products that enable us to have our present day conveniences.

### *Extension Service*

PAUL VESTAL MARIS, B.Sc.,  
 Director of Extension Service; State Leader of County Agents

**T**HE EXTENSION SERVICE includes the instructional work given outside the institution. In addition to lecture work, the instruction and methods used are unique in education and consist of highly developed plans of field, farm and home demonstrations. The Extension Service is actively directing its efforts toward the development of an agricultural program in Oregon based on a thorough analysis of production and marketing possibilities in this state.

Experiment Station

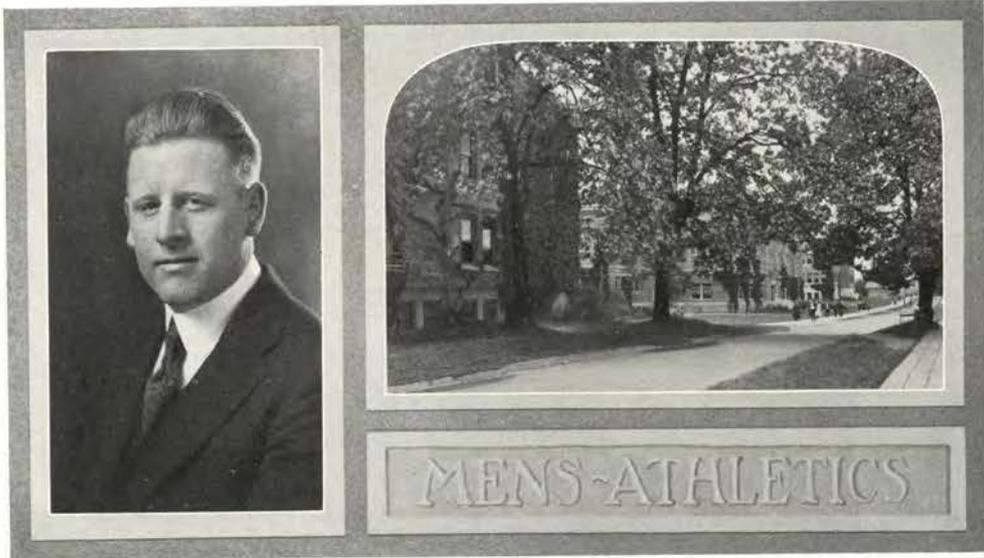

Director Jardine

### *Experiment Station*

JAMES TERTIUS JARDINE, B.Sc.,  
Director of the Experiment Station

**R**ESearch AND EXPERIMENTATION are the main functions of the Agricultural Experiment Station. The Oregon station includes the Central station with its fields and laboratories at Corvallis and seven branch stations throughout the state located to represent the main agricultural regions.

If an improved grain, forage crop, fruit or other crop is discovered anywhere in the world the station gets samples for trial in Oregon. If a plant or animal disease, or an insect pest is giving trouble; if some kind of fruit is not producing as it should or is self-sterile; if land does not produce as it should the experiment station takes steps to solve the difficulty.

### *Physical Education for Men*

RICHARD BURR RUTHERFORD, A.B., B.P.E., Professor

PHYSICAL HEALTH determines the capacity for efficiency in carrying out the work which a student prepares for in college. For this reason Physical Education in modern educational institutions is being emphasized more and more each year.

Physical Education for men at O. A. C. is divided into two groups, Intercollegiate Athletics and the regular Physical Education work. Physical Education is divided into the following classes, individual and class instruction, intramural, corrective work, hygiene and a teacher's course in the theory of Physical Education.

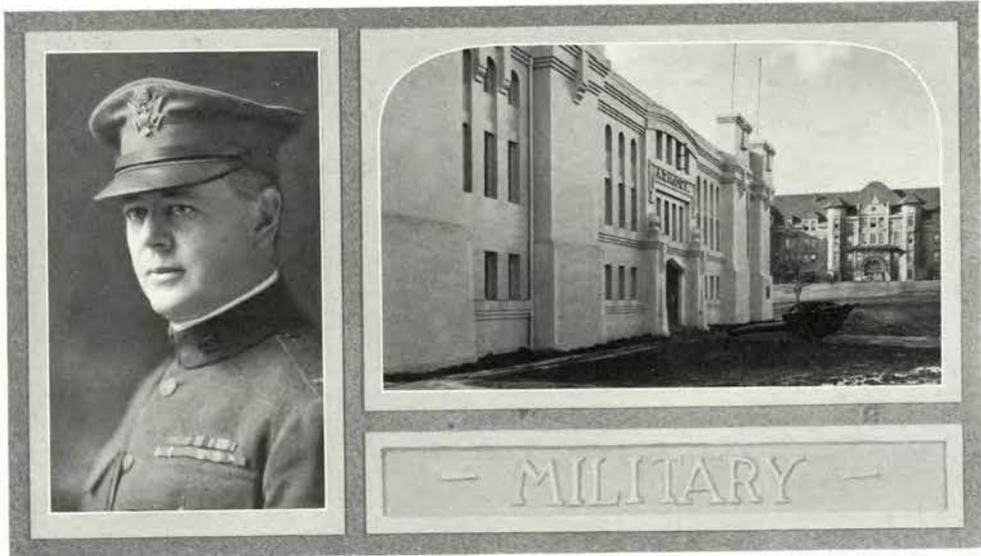

Women's Gymnasium

Miss Cocks

### *Physical Education for Women*

EDNA AGNES COCKS, A.M., Professor

"HEALTH is the greatest of all possessions." Without health, education is nil. The work in Physical Education for Women is varied according to the needs. Regular work for the normally well student, and individual exercises for students needing such. Athletics including various sports, such as Basket Ball, Volley Ball, Tennis, Base Ball, Hockey and Swimming are provided for all women students interested in this phase of Physical Education.

THE MISSION OF THE SCHOOL OF MUSIC is to maintain the highest standard of instruction in practical musicianship combined properly with essential theoretical training. Since the founding of the School in 1908, that policy has been consistently maintained. Students and friends of the College have long realized that such musicianship is fully the equal of that to be obtained elsewhere.

*College Year*

*The President's reception is an annual formal event given in honor of the President, and is attended by all faculty people. The seniors assemble for their first scheduled social event of the year.*

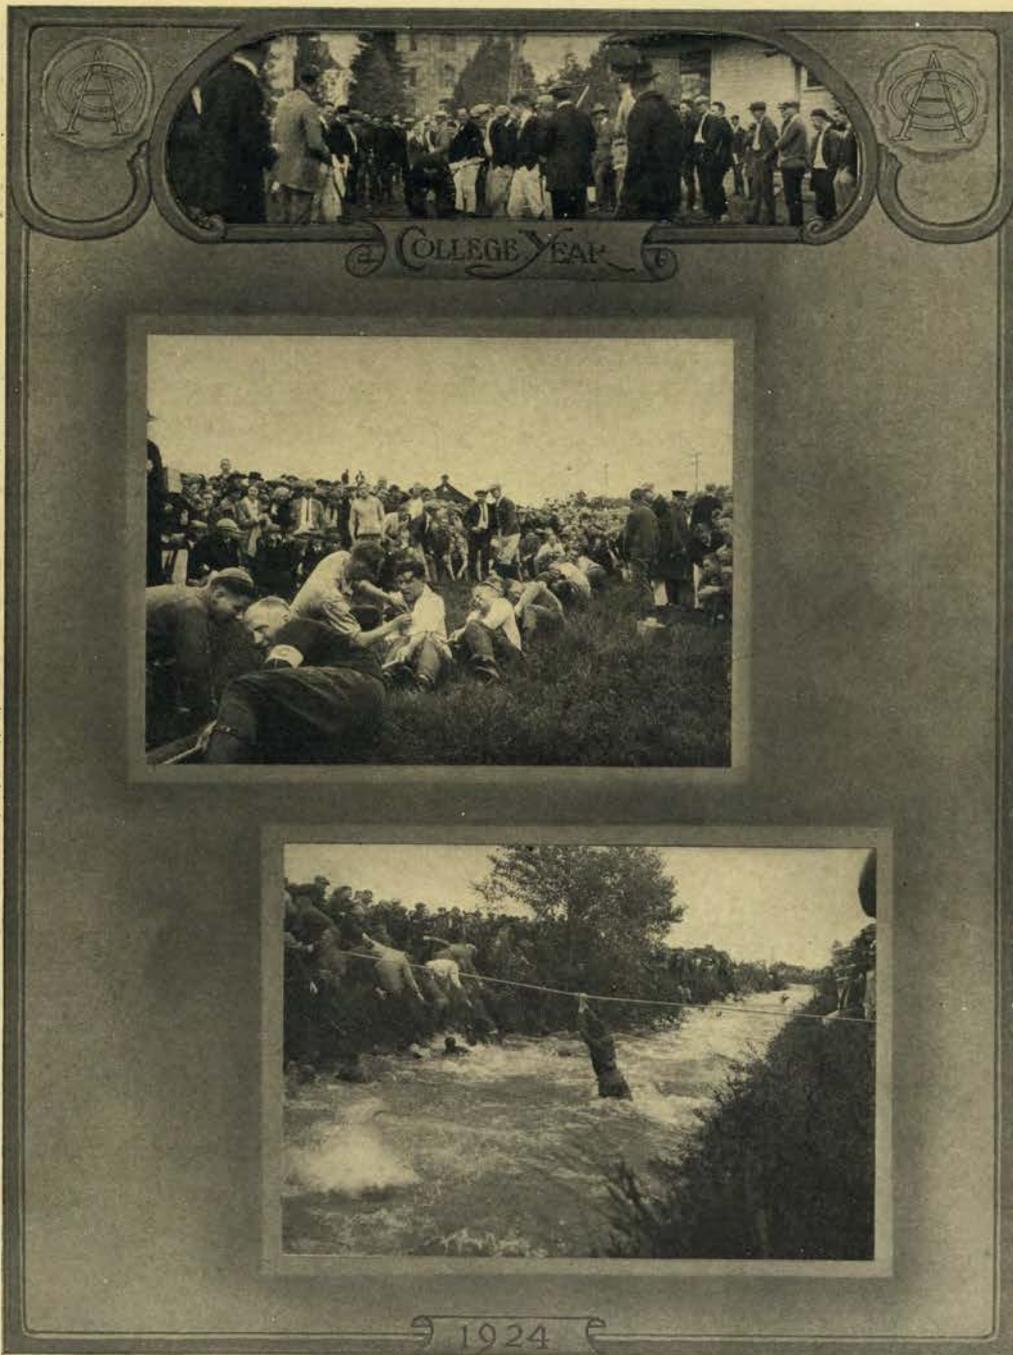

*Loyal Beaver rooters enjoy pep holiday given the student body for the Oregon football victory. The annual sophomore cotillion and the Agricultural-Home Economics dance, are two well attended social events.*

*The attractive decorations of the Junior Prom, depicting "Hades," drew favorable comment from all who attended. The elaborate flag array of the Military Ball and the original costumes of the Co-ed Ball made these events outstanding.*

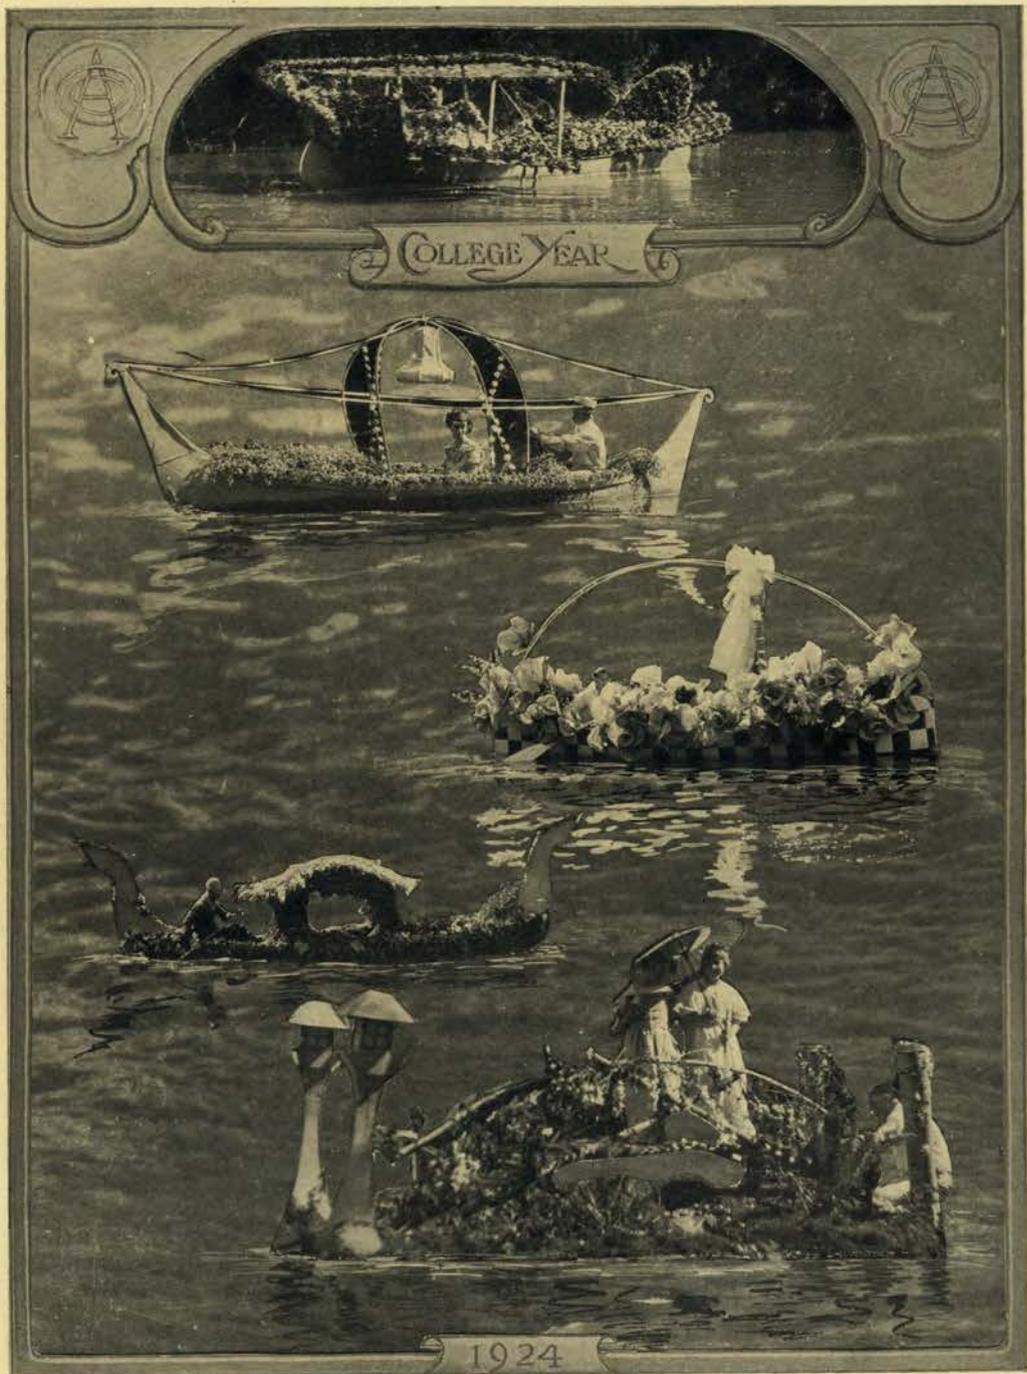

The work of the campus politicians that is done on the corner of the co-op book store, later materializes at time of student body election. Semi-monthly convocation gives students an opportunity to forsake books for an hour of entertainment.

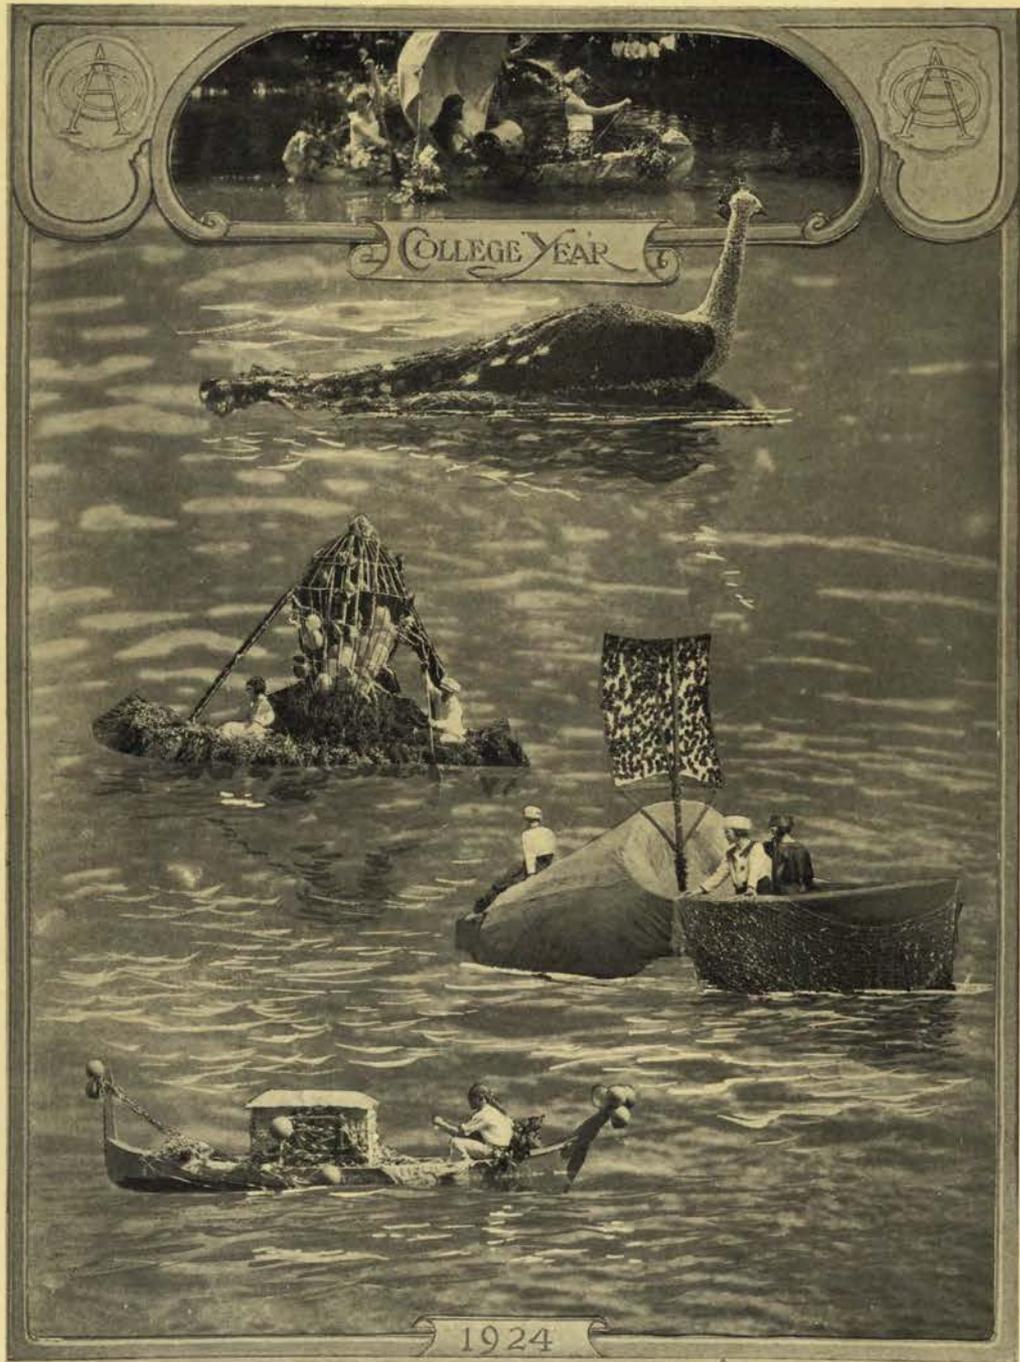

*Corrective measures for errant rooks are administered periodically by Varsity "O" men. The freshman tug-of-war team of ten huskies try to hold their own in their battle with the sophomores over the mill race.*

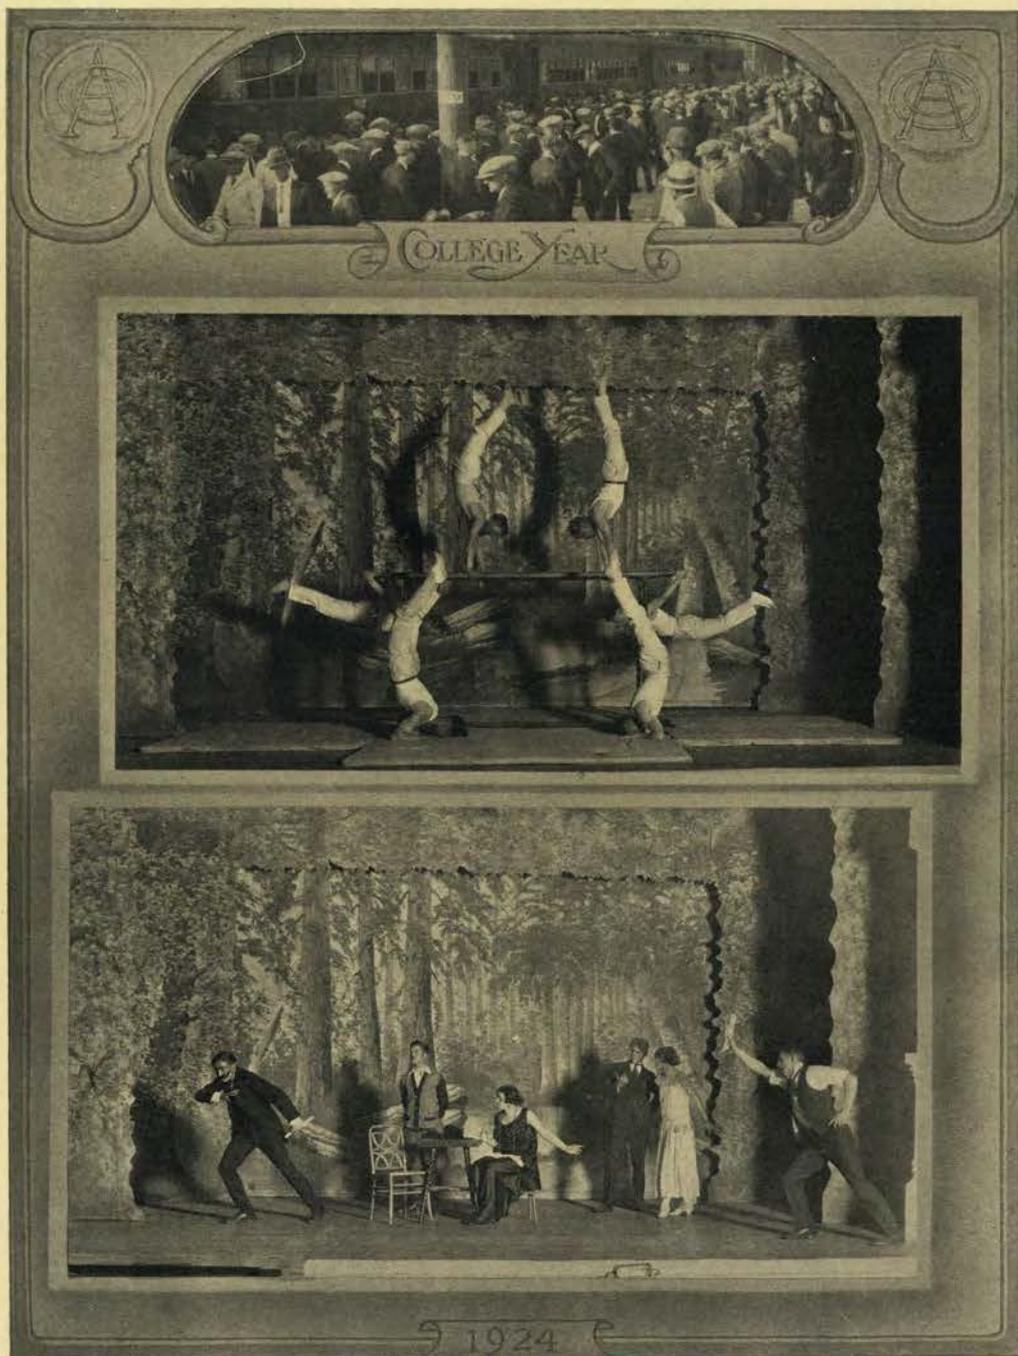

*Talented rooks vocalize on prominent campus corners between classes.  
 The culmination of the freshman's period of training comes when they burn their rook lids and green ribbons, the last  
 day of Junior Week-end.*

*Thousands of visitors and students have annually lined the banks of Mary's river to observe the canoe fete which has been abolished this year. The airplane float, entered by Sigma Kappa sorority won first place.*

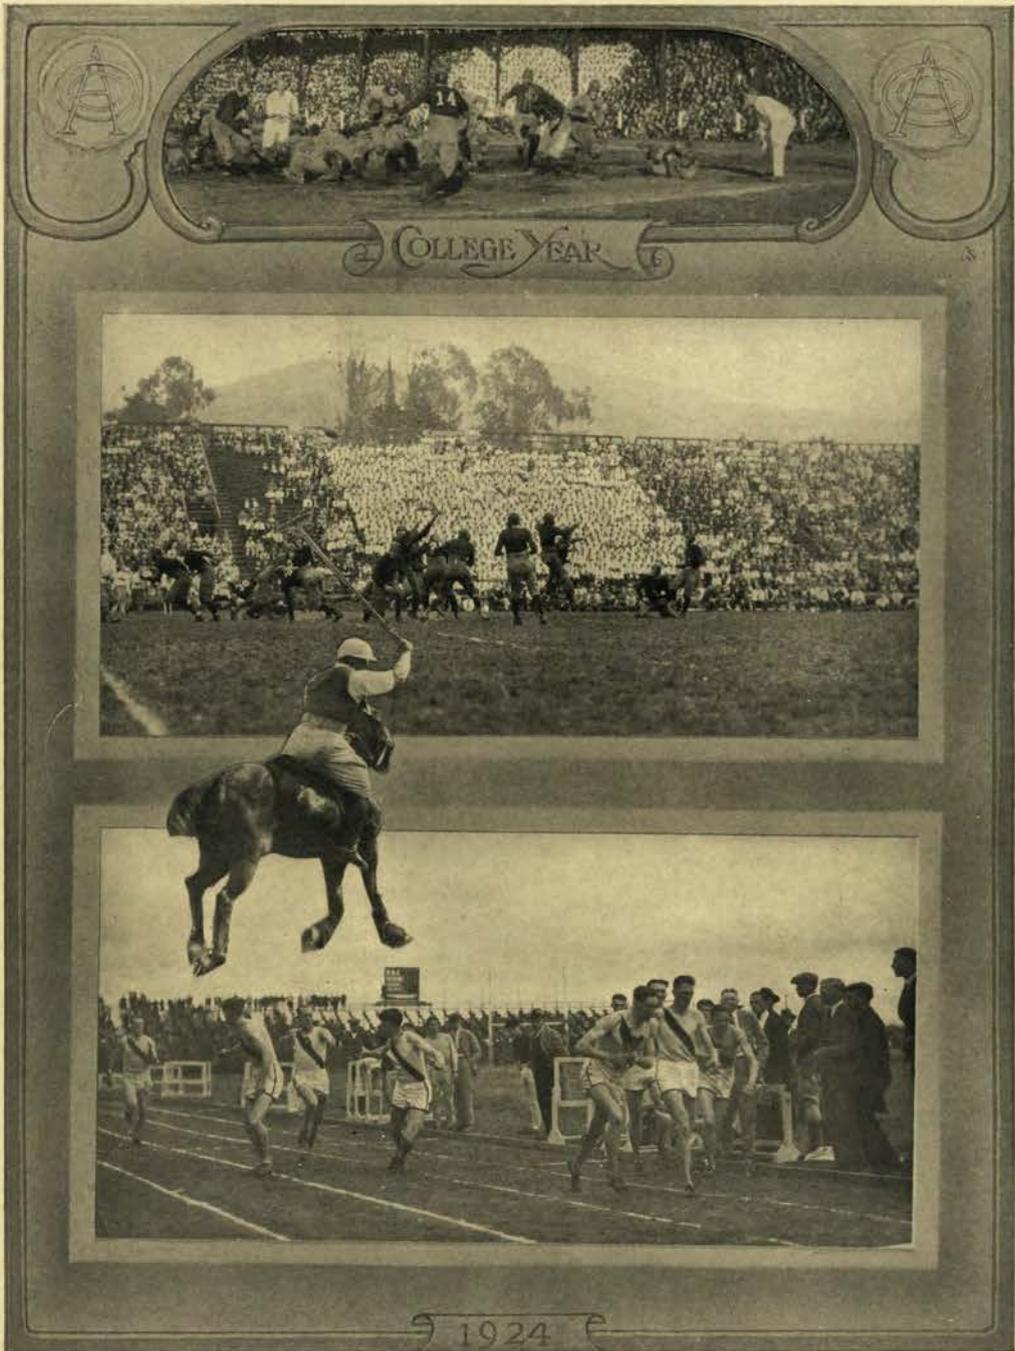

Thirty-five floats of various sizes and designs were entered in the 1923 canoe fete. The huge peacock float designed by Sigma Phi Epsilon fraternity won second place in the competitive contest.

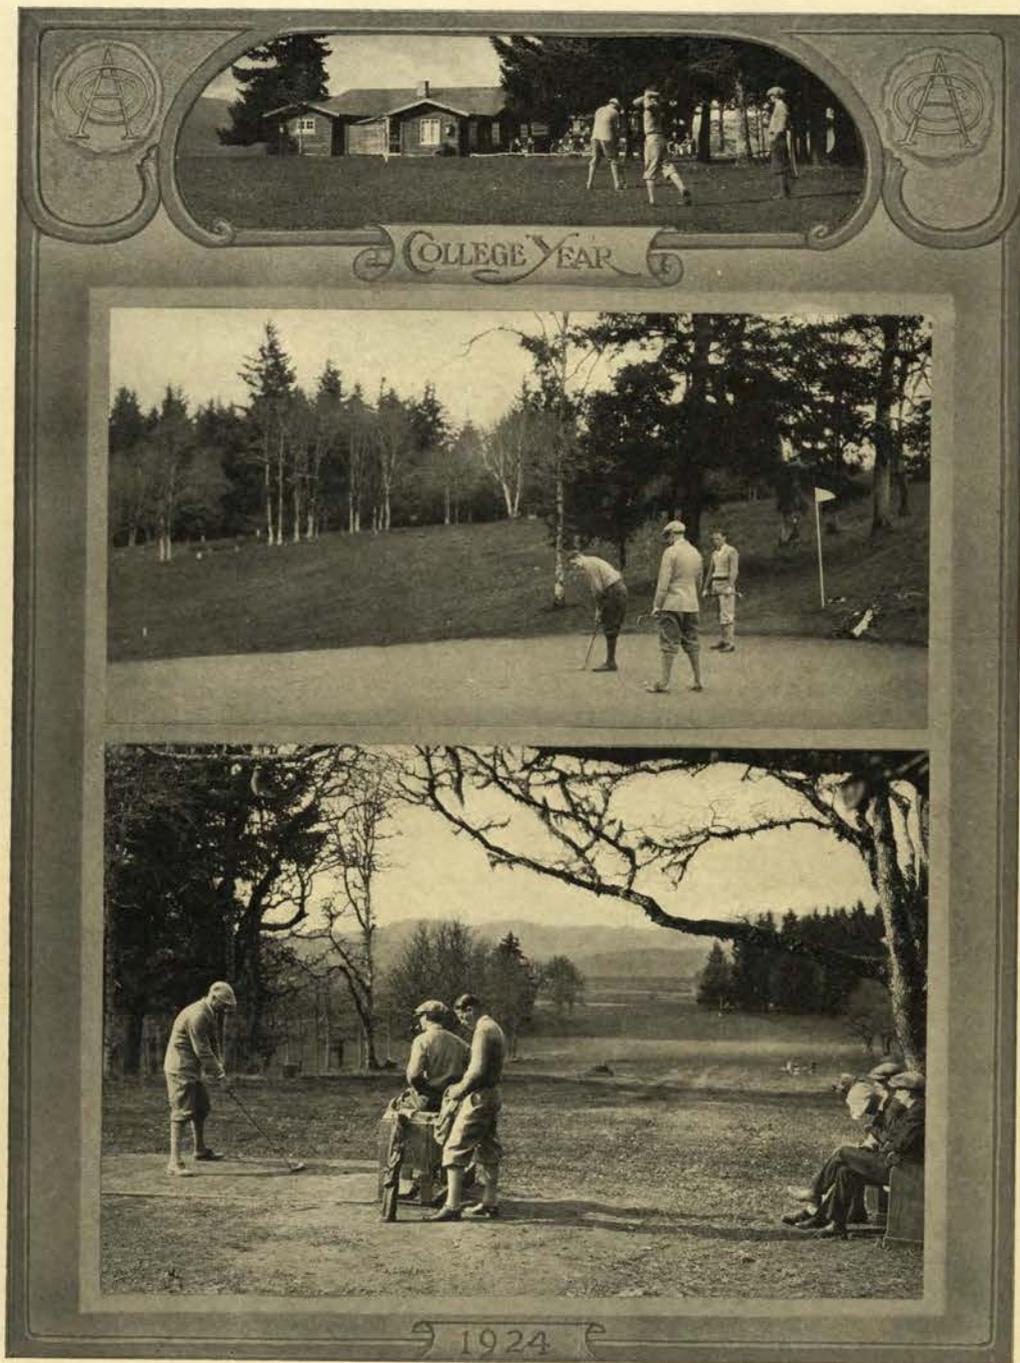

*Throngs of alumni and visitors return to attend the festivities of Junior Week-end. The tumblers under Coach Hager's supervision entertain the vaudeville audience with a thrilling act. The freshman skit won first place in the inter-class competition.*

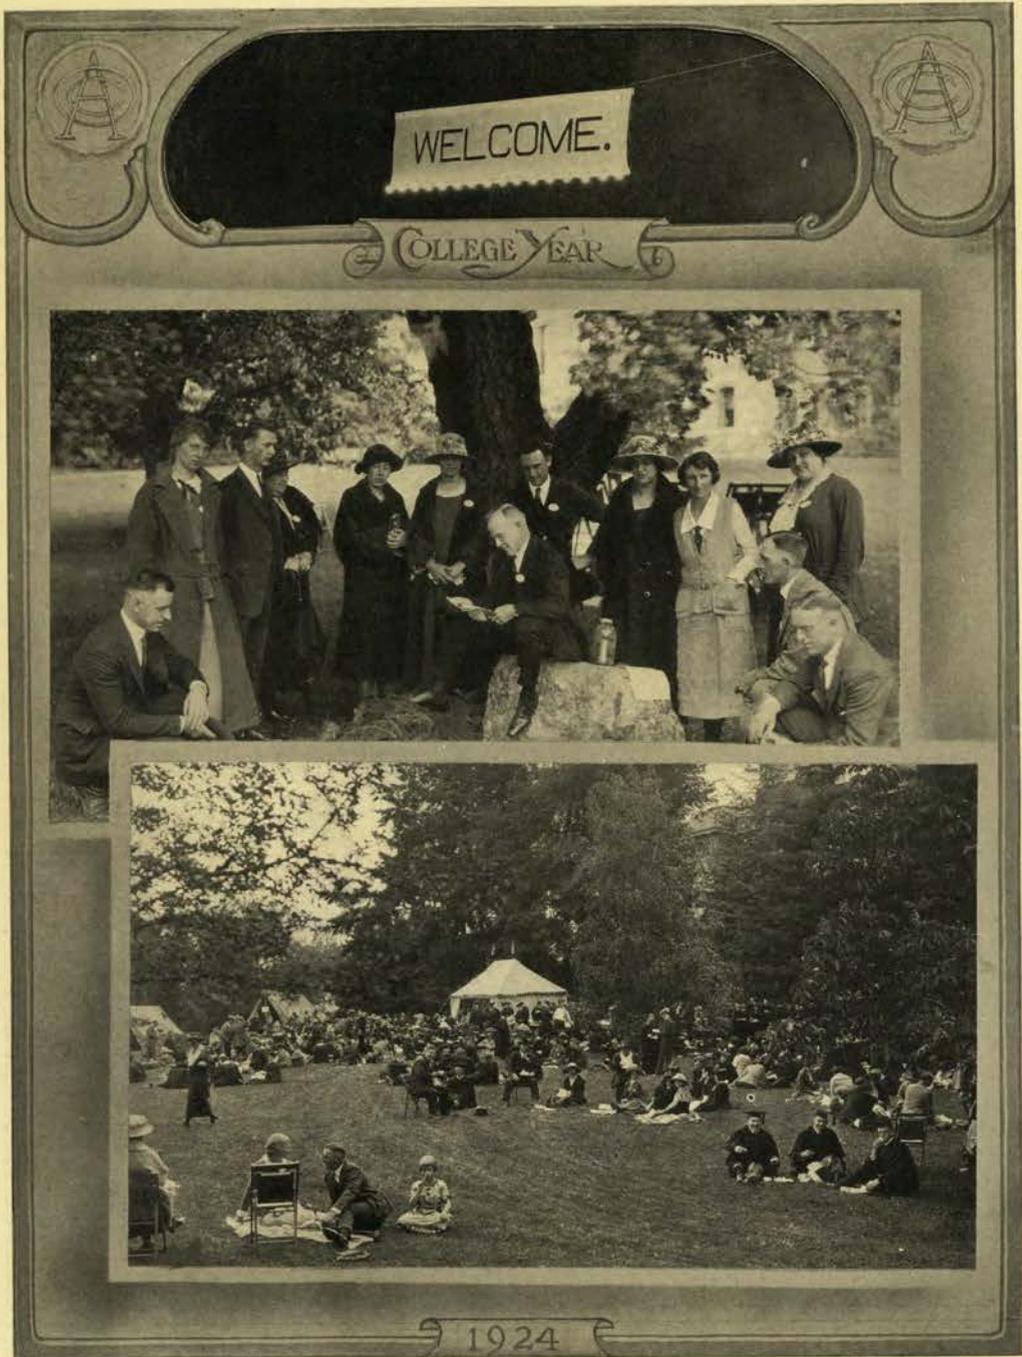

*Social functions of the year include the Newman Club breakfast and the Y. M. C. A.-Y. W. C. A. mix. These organizations have taken an active part in student welfare work on the campus.*

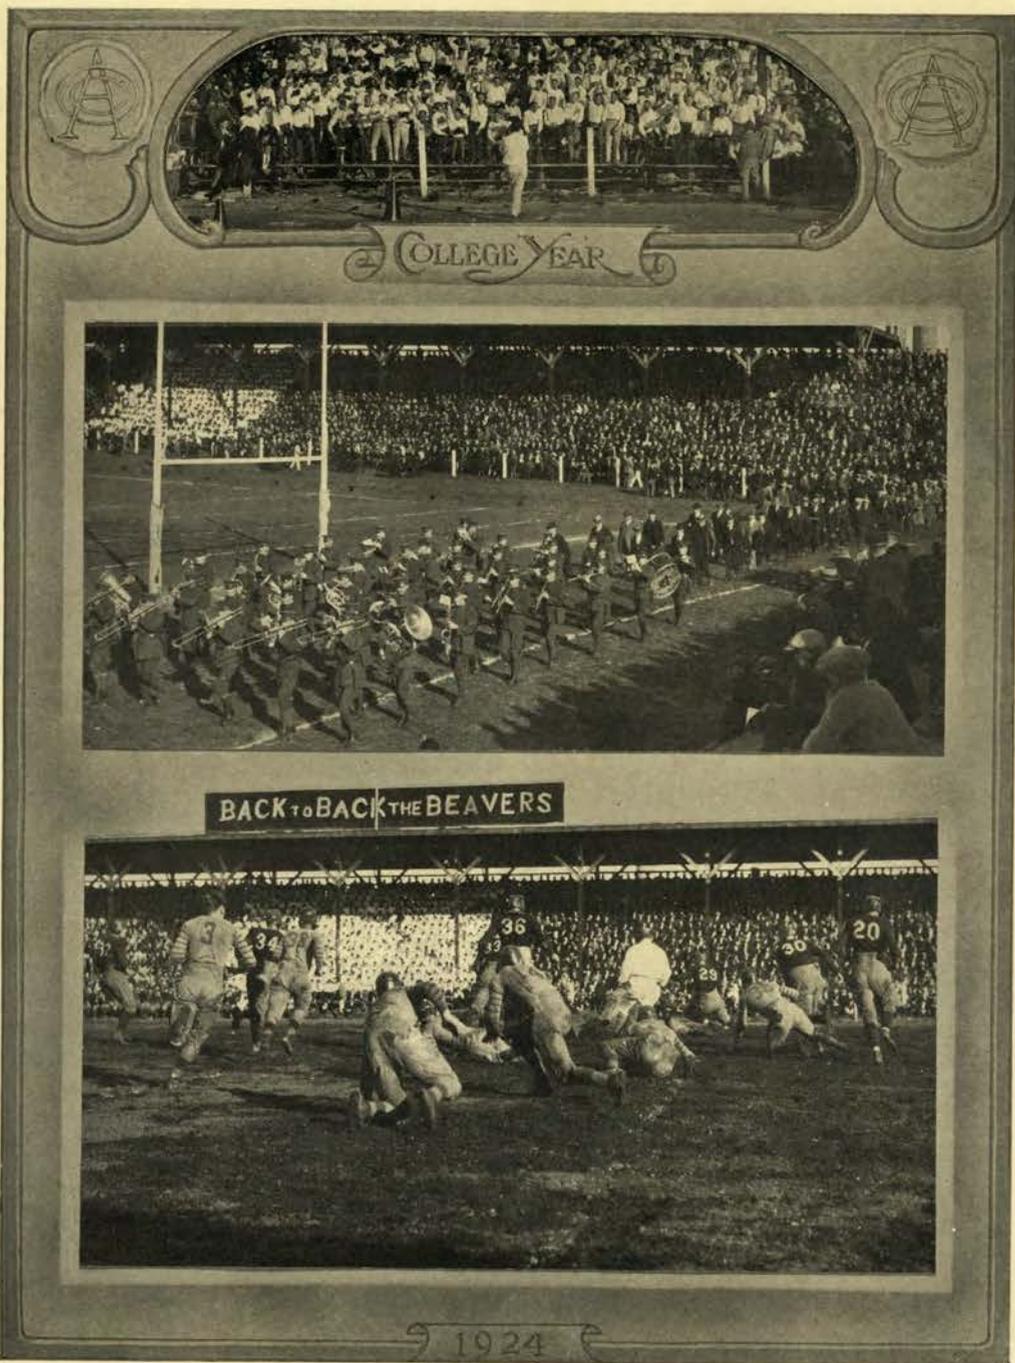

*Athletics contributes both to the school spirit and liberal education at O. A. C. The college is represented in practically every branch of athletics on the coast. The system of "every student in some form of athletics" is the aim of the director of athletics.*

*Golf fans are no longer conspicuous on the campus. This popular game has grown with such leaps and bounds that a golf club was organized this year. The course at the Corvallis Country Club is at the disposal of the college fans.*

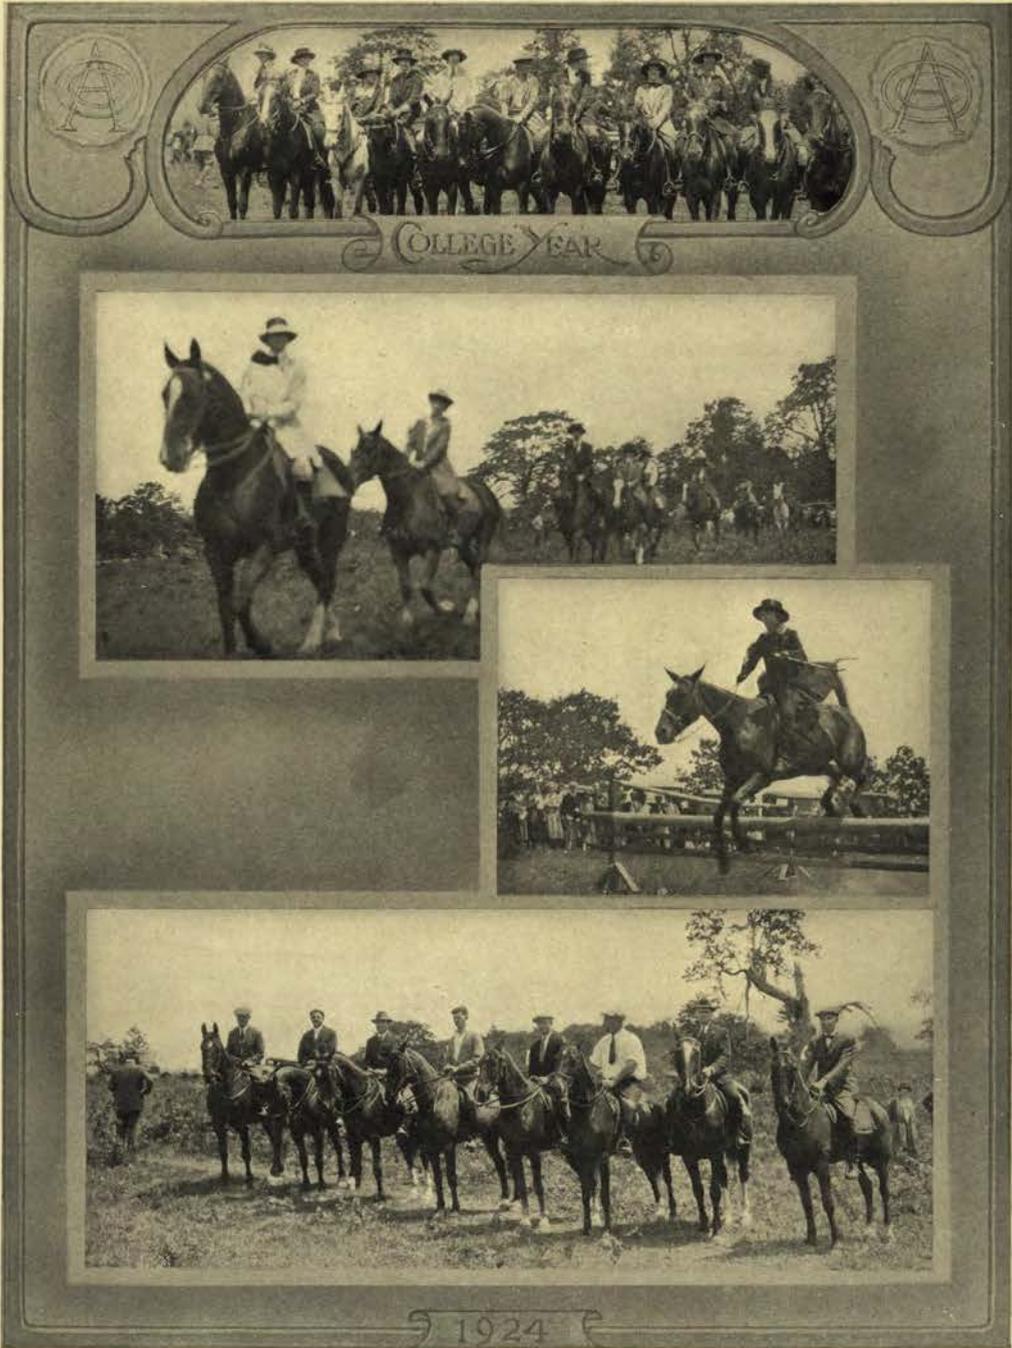

*Welcome alumni! Old grads unearth class relics buried beneath the trysting tree at the time of their graduation. Graduates of a score of classes join in the picnic reunion on the grassy slopes of the college on the hill.*

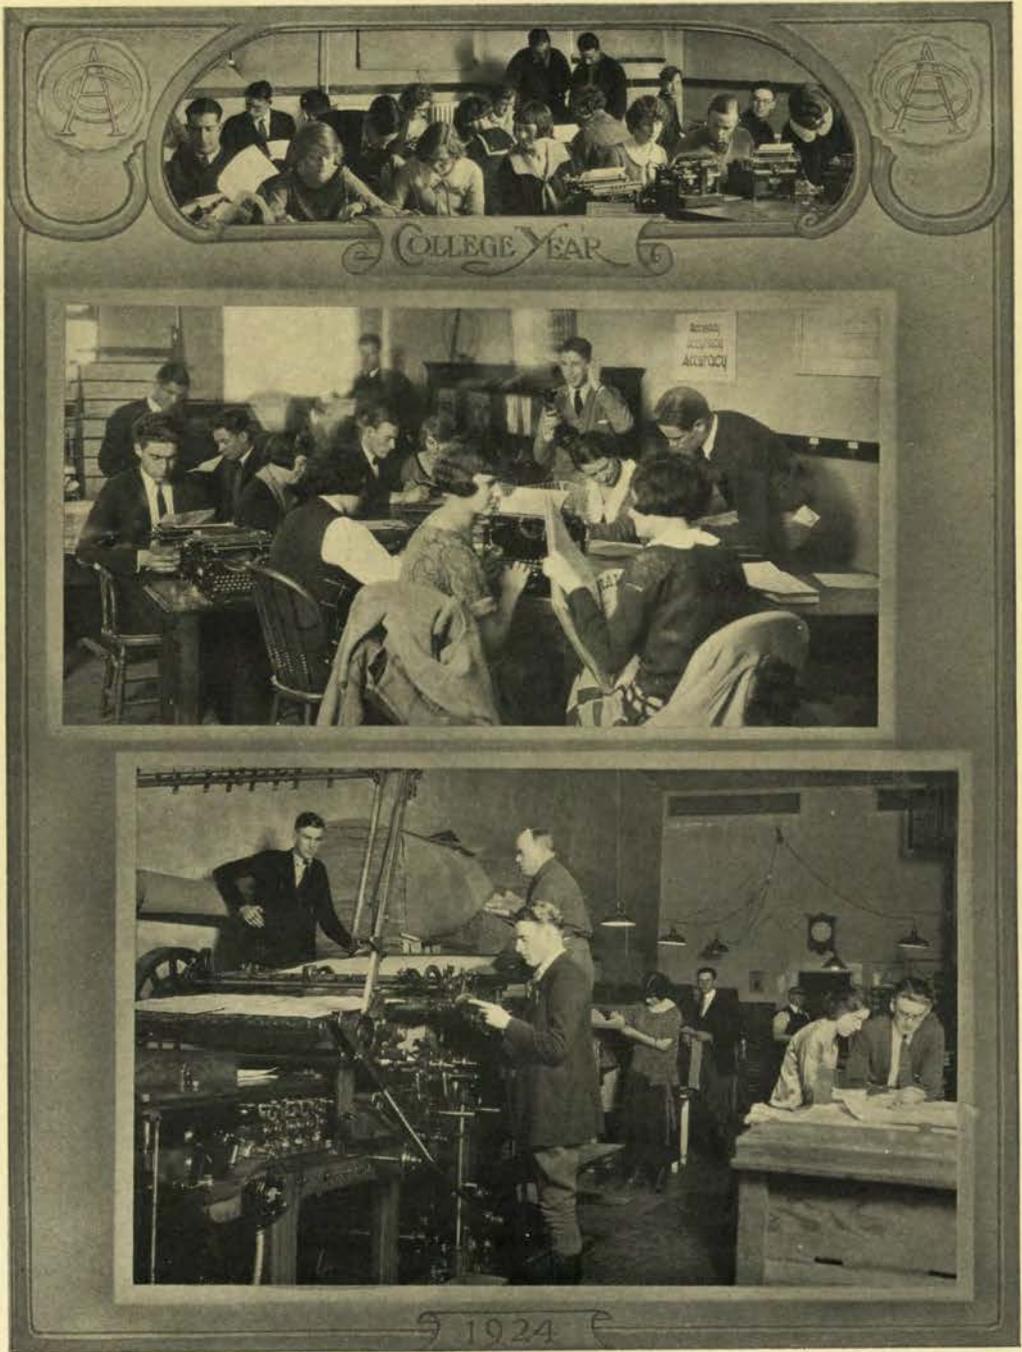

*The numerous activities of Homecoming week-end are heralded annually by the student body. The Yell King's trained body of Beaver rooters present a unique display. Old Varsity "O" men march before the Homecoming crowds.*

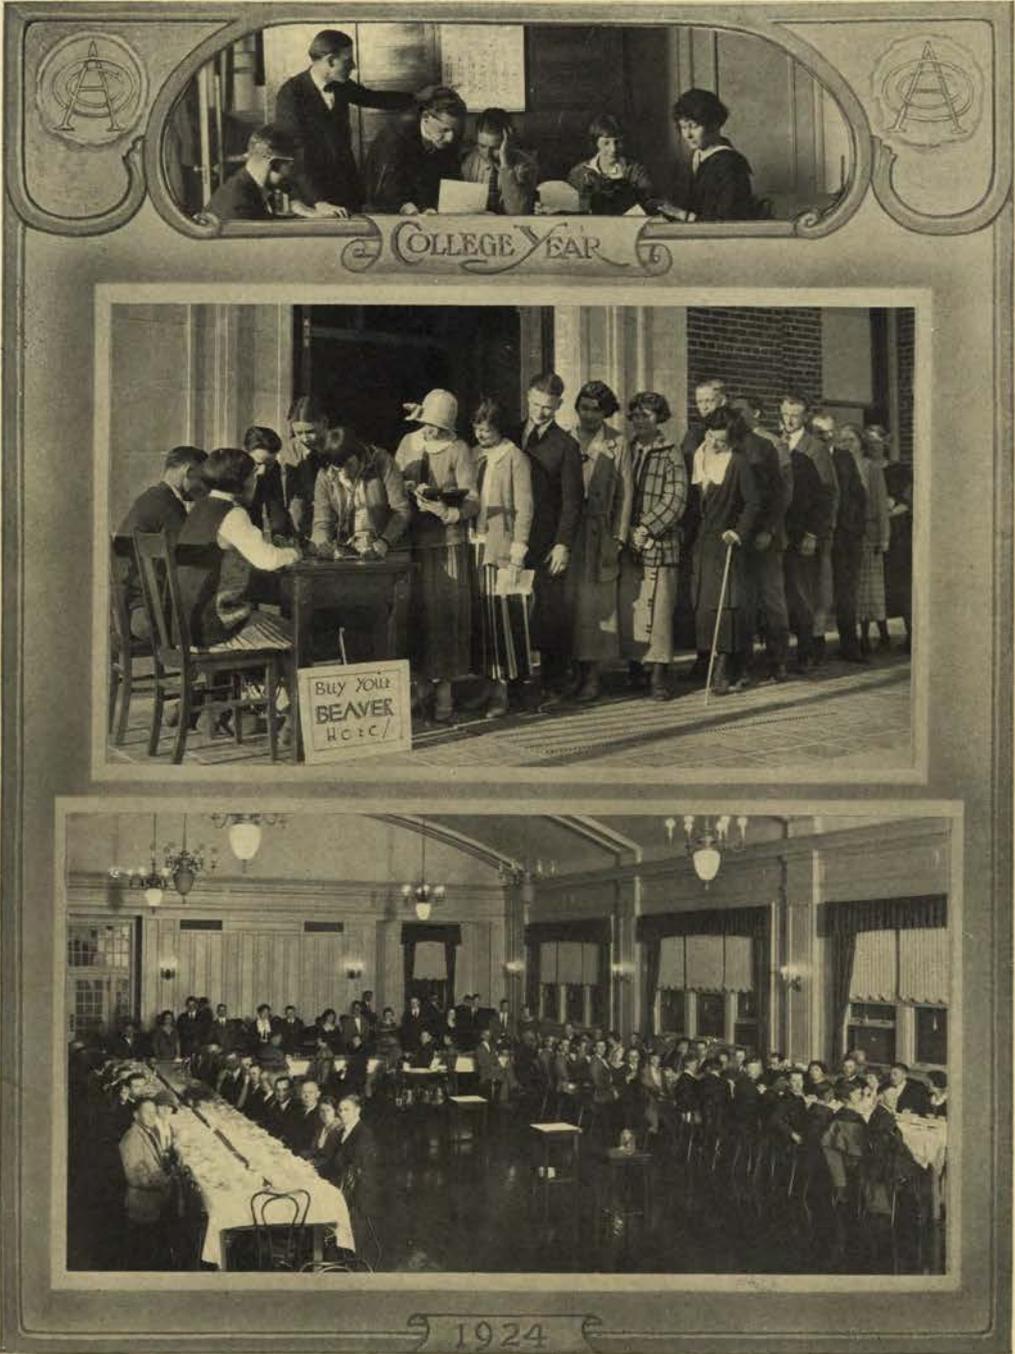

*Ancient trunks and dusty garrets are rifled for co-ed ball costumes. This event is attended by sorority house mothers and prizes are offered for the most original costumes.*

The faculty riding contest is an outstanding feature of the annual Gymkana. The paper chase and difficult "jumps" provided exciting moments for the spectators. The Gymkana is sponsored by the cavalry unit of the military department.

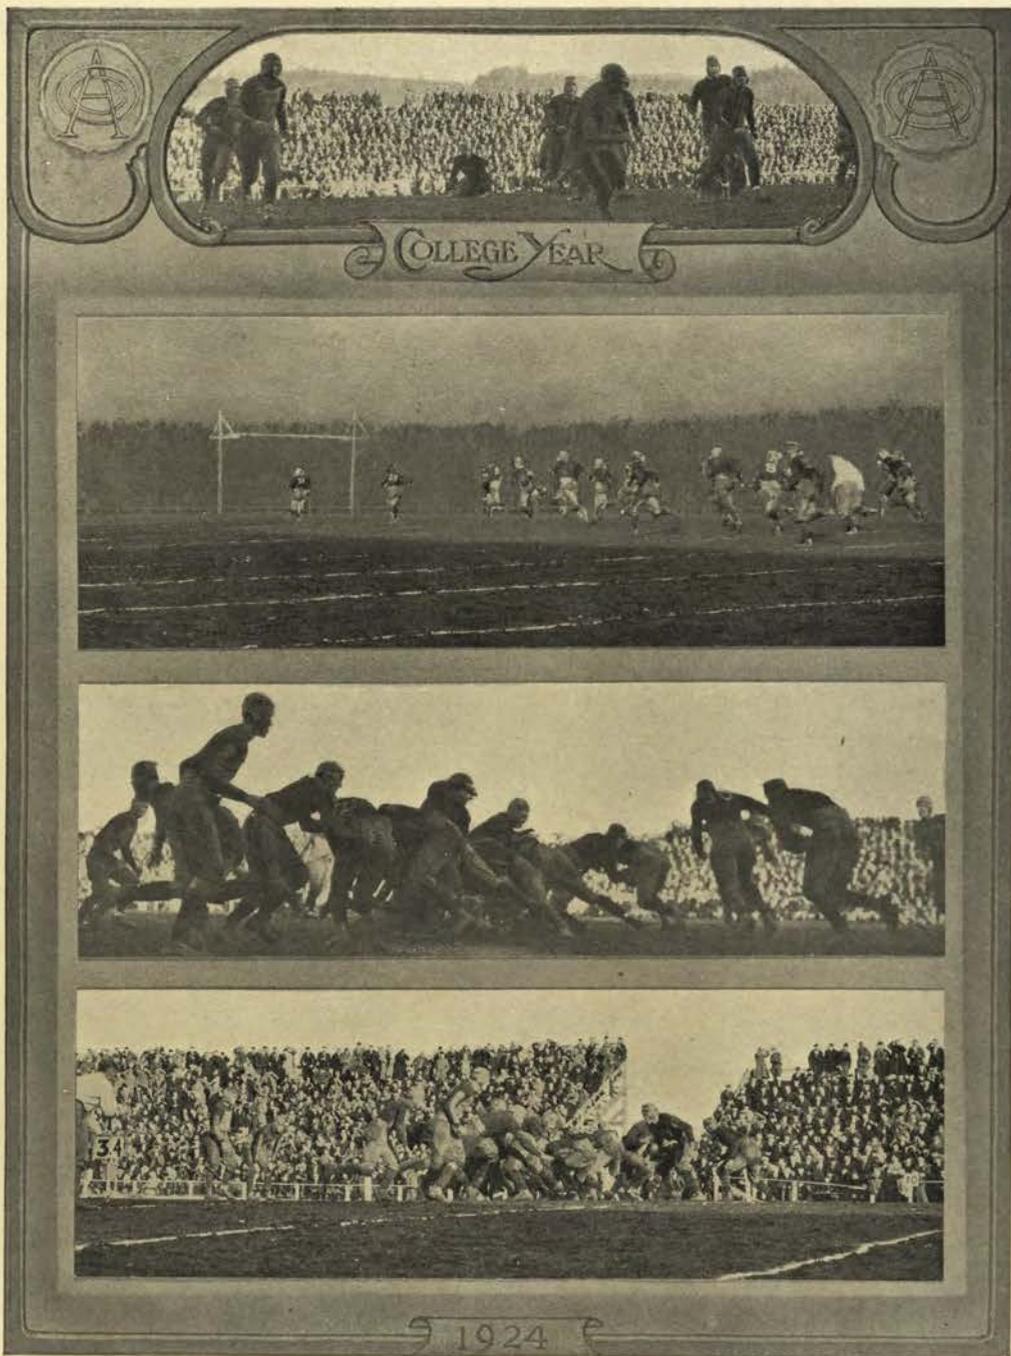

*The stories for each issue of the Daily Barometer are prepared by staff members in the industrial journalism work room and around the huge horseshoe copy desk, and are later assembled in the printed edition in the office of the Corvallis Printing Co.*

*Working Beavers! Eating Beavers! Selling Beavers! The routine work of publishing the annual year book is enlivened by the annual banquet in the college tea room.*

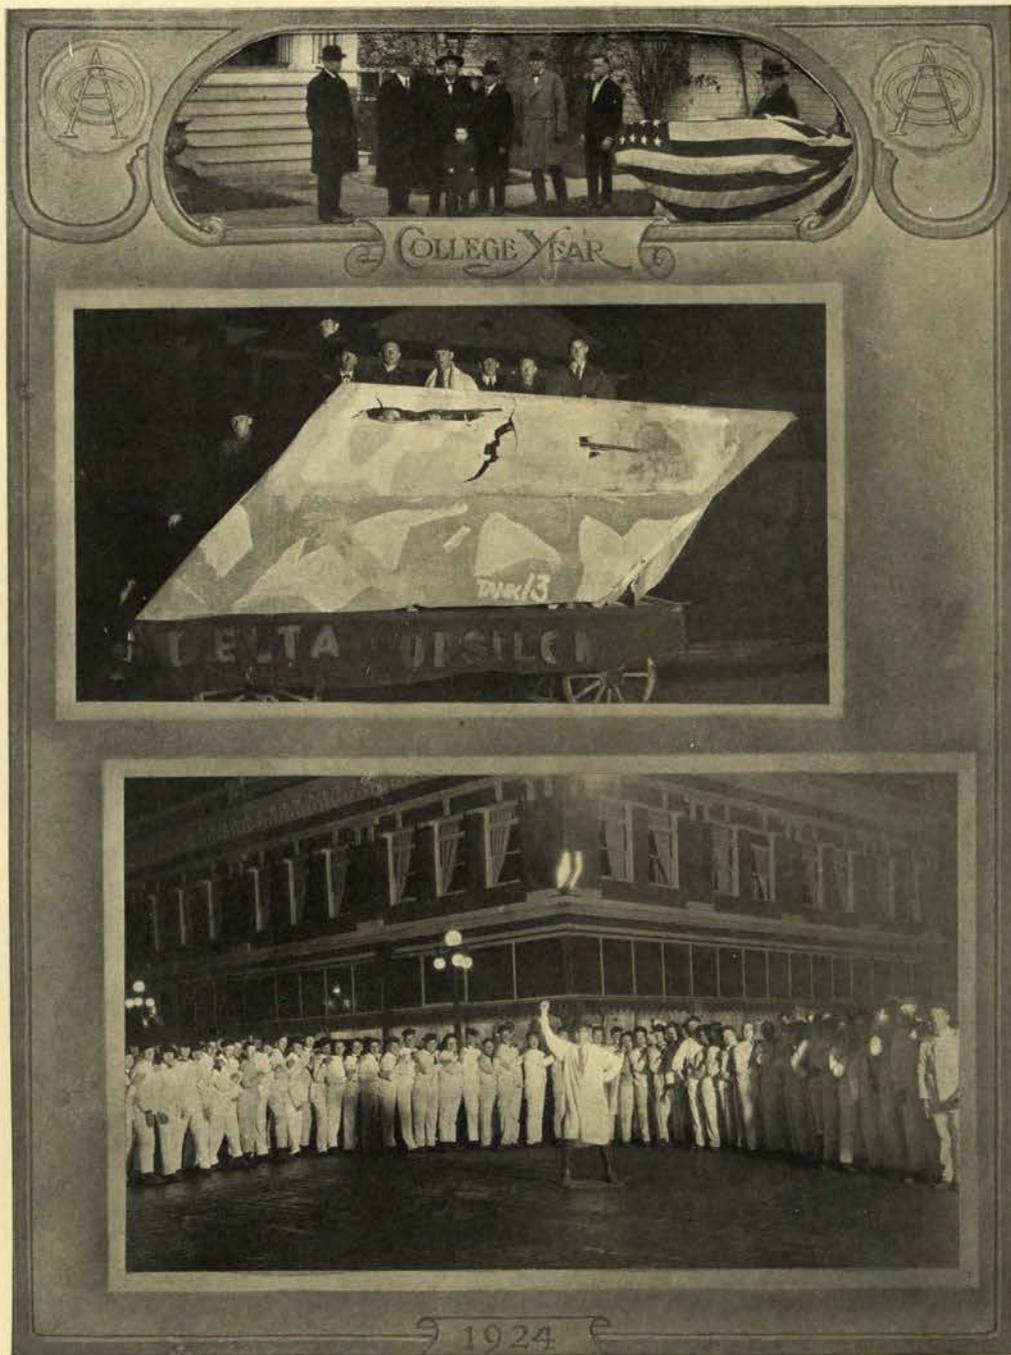

*The traditional Homecoming funeral pyre built by the freshmen is said to be the cause of breaking the Oregon "jinx." Dr. J. N. R. Bell, before a student audience, celebrated the 6 to 0 victory over Oregon by throwing his hat in the river.*

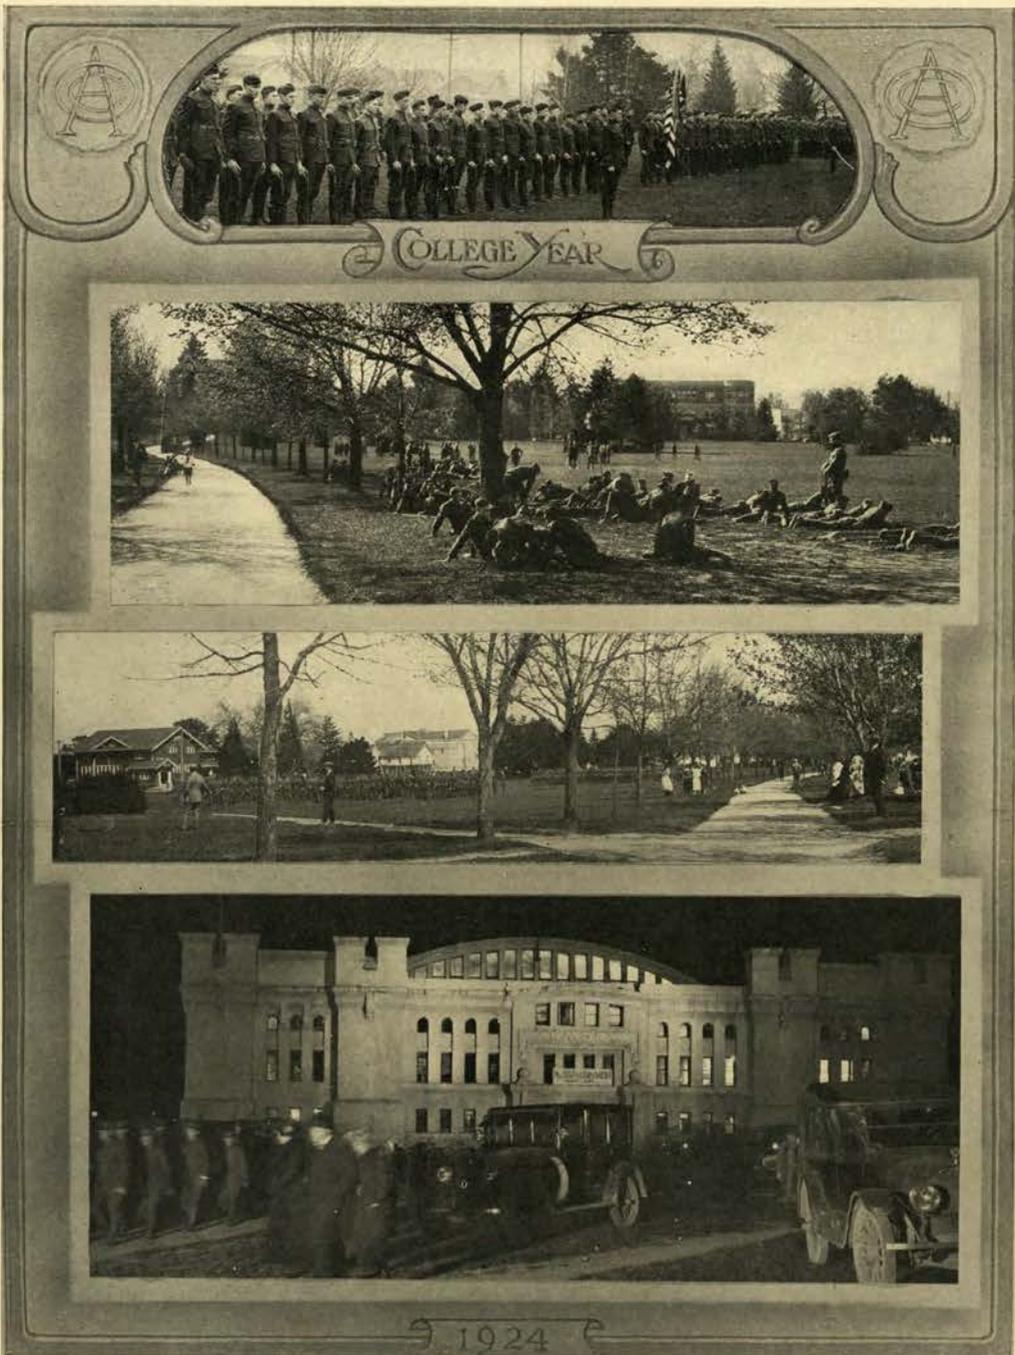

Every Orange and Black rooter and fan remembers the Oregon game—yes, and even some of our sister college rooters. Price, quarterback, cinched the score with a 74-yard run. The second picture shows him crossing the line between the goal posts.

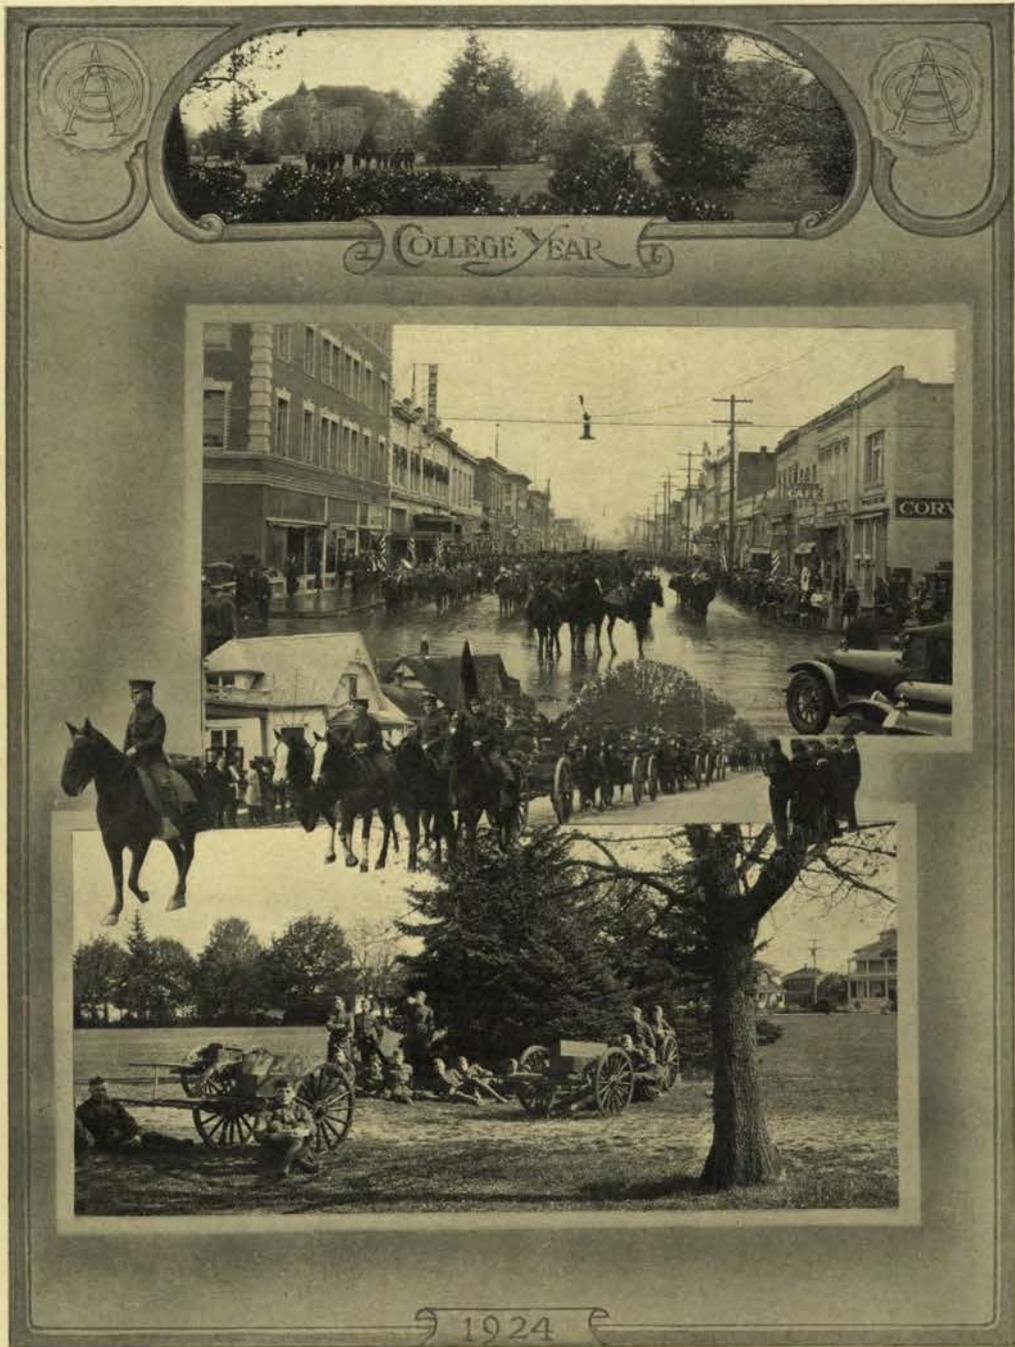

*The entire student body assembles around the bandstand for a typical Beaver pep rally. The coaches and the victorious football warriors lead the parade of rooters to the banks of Mary's river for the celebration of the victory over Oregon.*

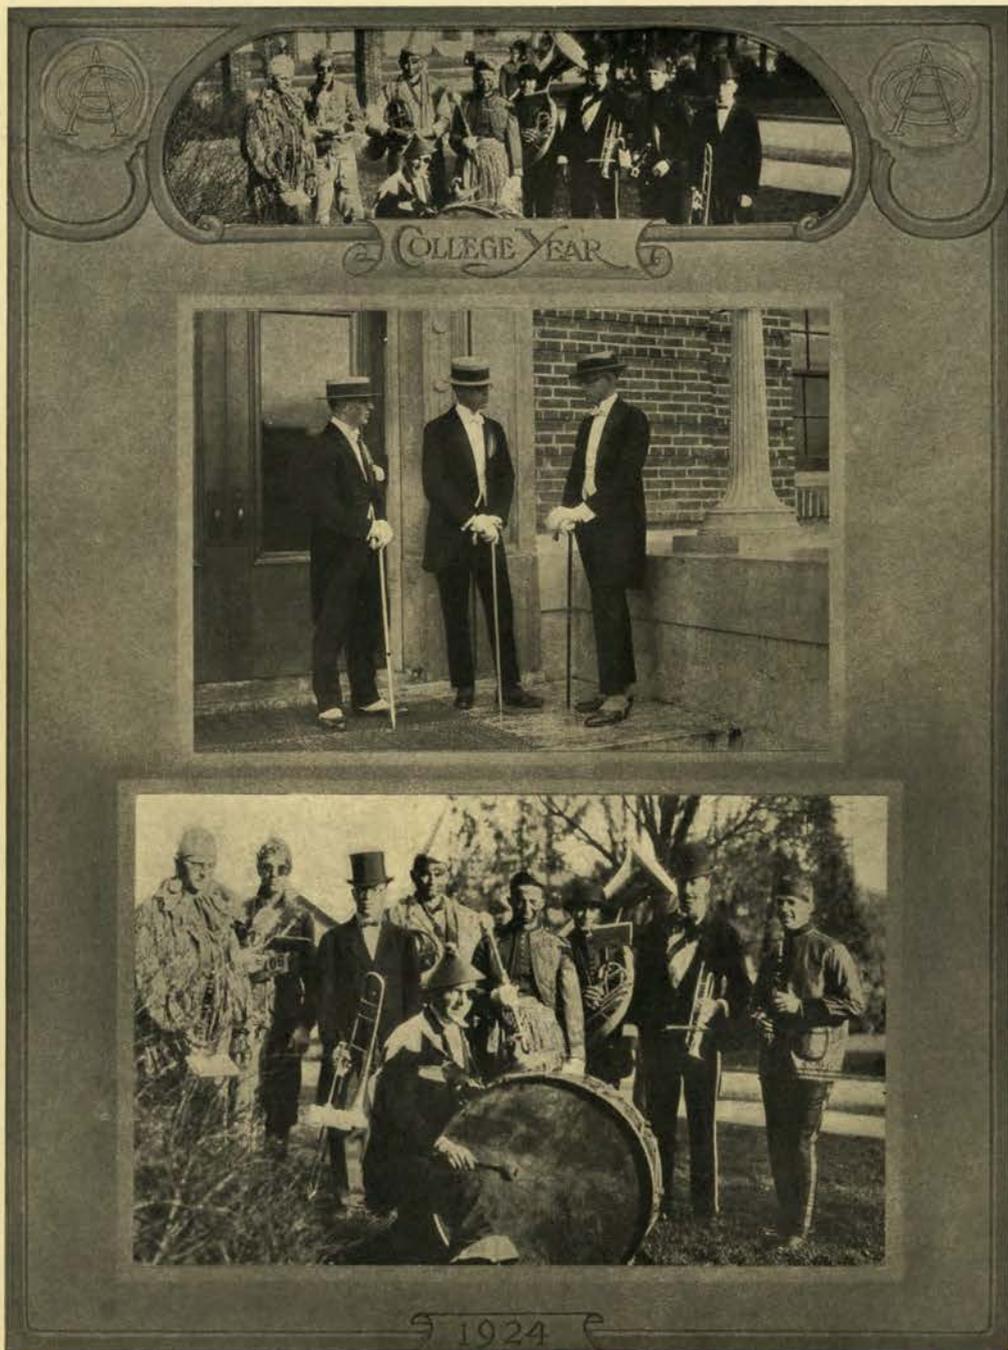

*All available devices for producing noise in copious quantities were used in the noise parade the night before the Homecoming game. The pajama parade was one phase of the Oregon football victory that is not to be forgotten.*

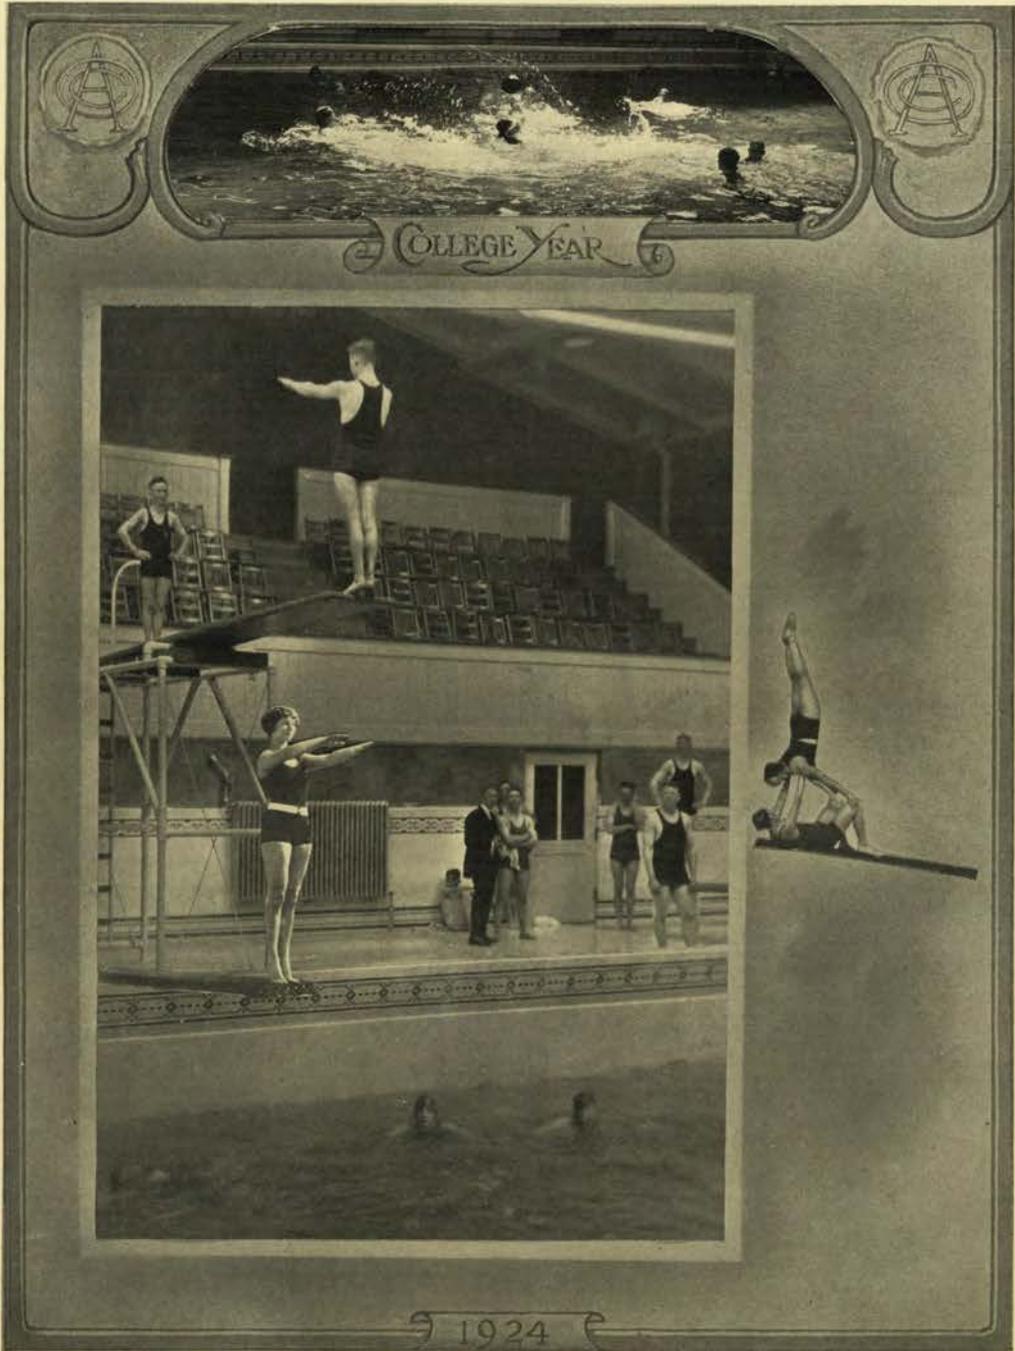

*The cadet corps at the time of the annual military inspection parade has succeeded in winning the distinguished star rating during the past five seasons—the entire equipment of all units of the R. O. T. C. is used for this parade.*

*Each unit in full array and in marching formation wends its way down Jefferson street, through the city, up Monroe street, and finally assembles on the lower campus drill field to undergo a rigid inspection.*

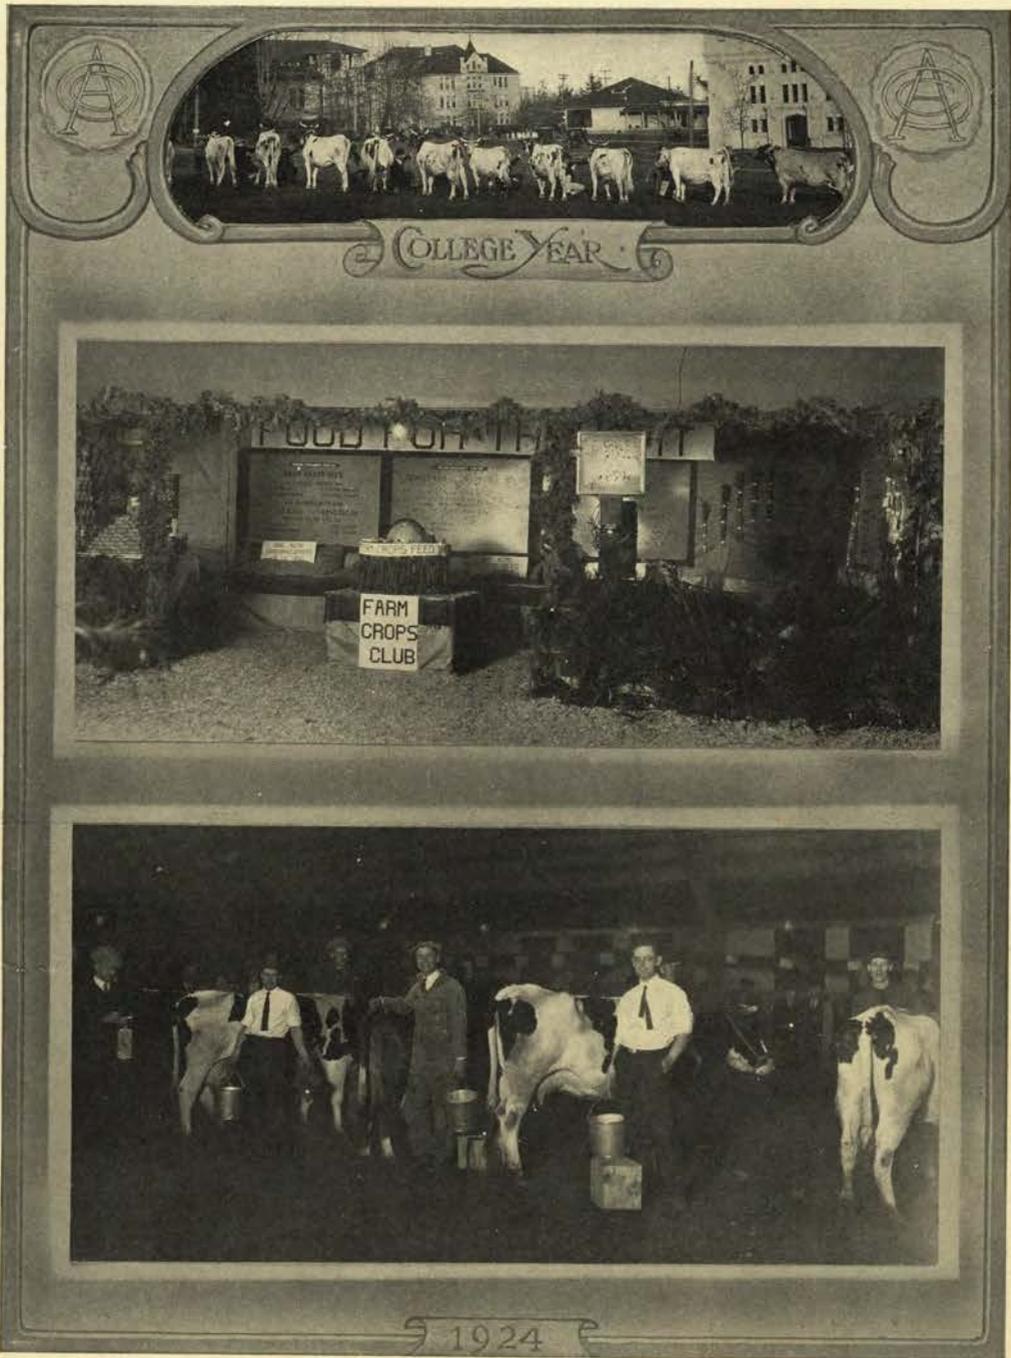

*Sigma Delta Chi, professional journalistic fraternity, and Kappa Kappa Psi, band society initiates, before they are admitted to full membership are required to weather a day of conspicuous pre-initiation tasks on the campus.*

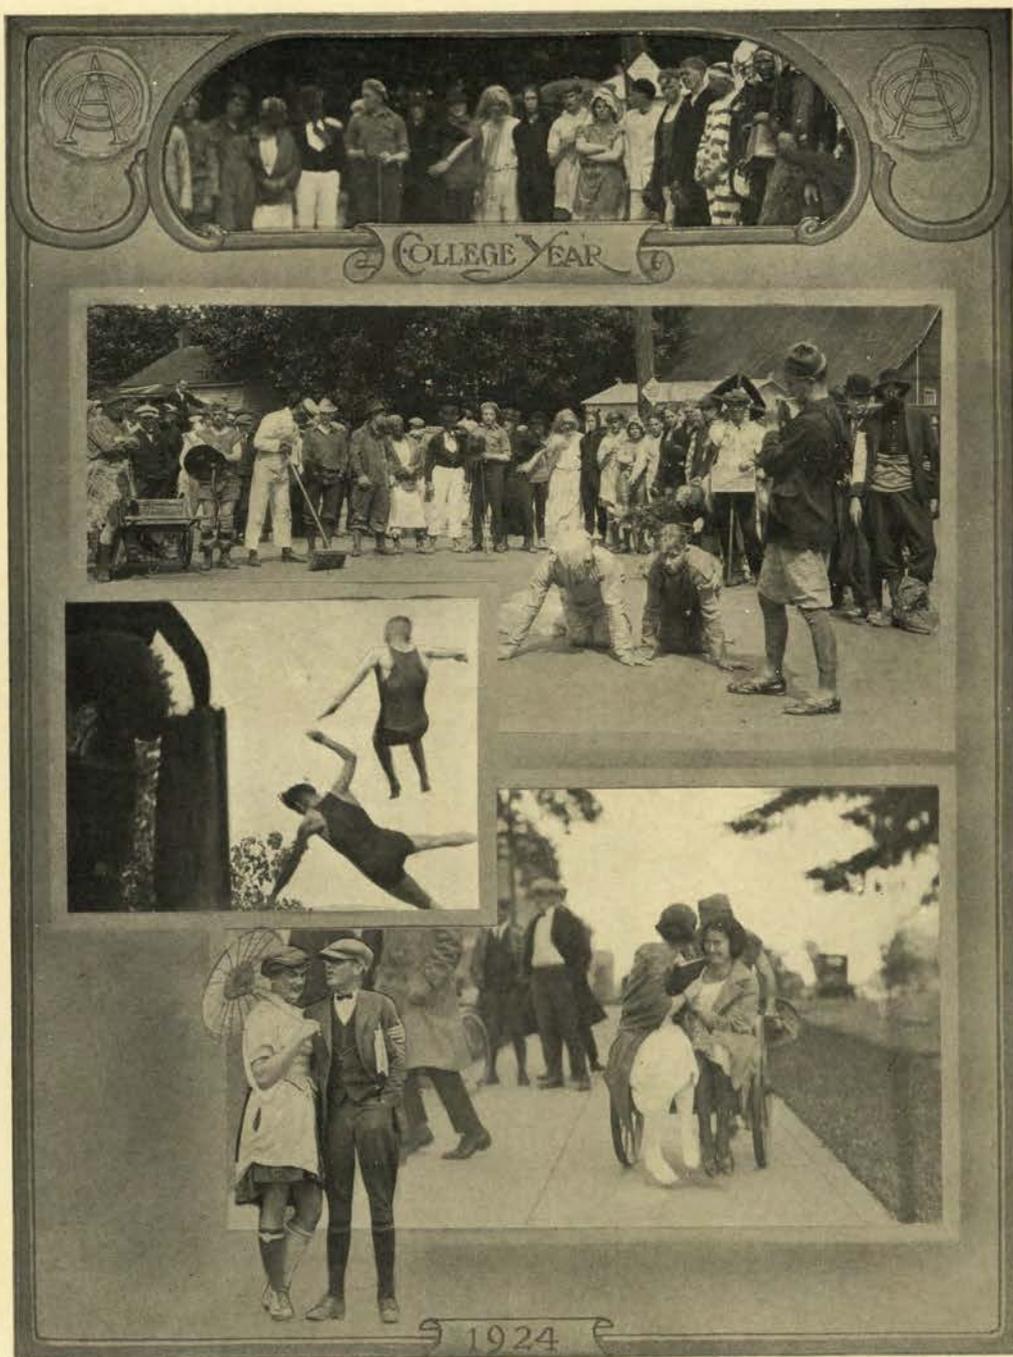

*The huge swimming tank in the men's gymnasium provides recreation for students and faculty. Coast, national, and world's champion divers and swimmers have been trained in the Beaver tank!*

The Educational Exposition was a great success. Representatives from practically every high school in the state attended. The winners of the public speaking contest were awarded banners for the first three places. Independence won first prize for best booth entered.

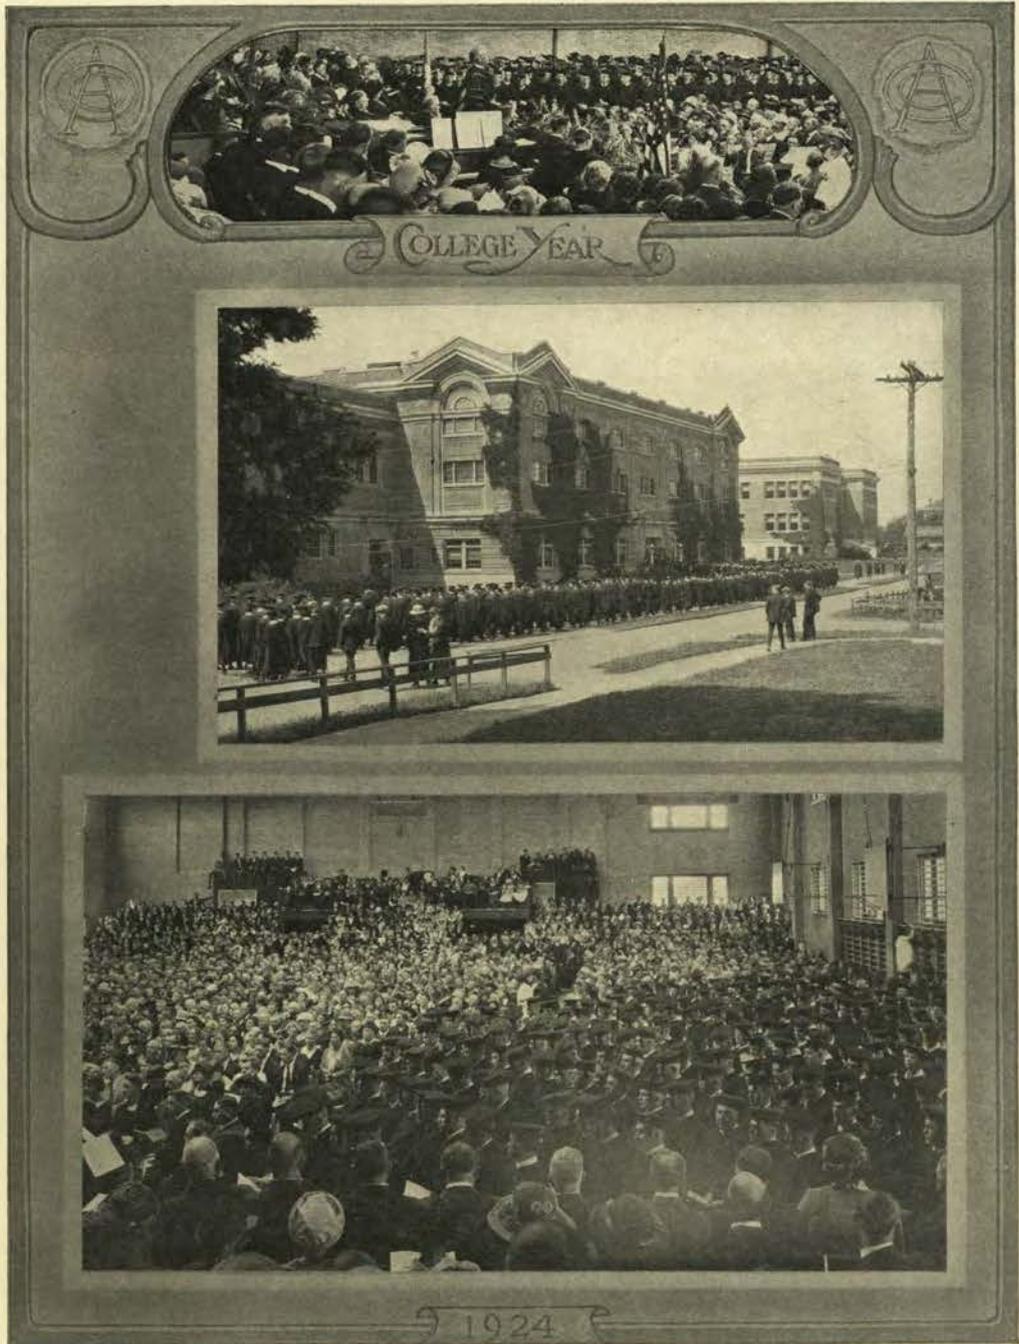

*The Ag Show was one of the features of the Exposition. The Dairy Club, Farm Crops Club, Farm Motions department and various other organizations entered booths which contributed to the festivities in the armory. The faculty milking contest was one of the many stunts for the entertainment of the visitors.*

*Beaver Knight initiation is one of the high lights of the college year. This national organization instructs the rooks on campus traditions and "helps" them to weather through the first lap of their college career.*

*The annual Women's Stunt Show presented a varied assortment of acts from the Kappa Alpha Theta's prize-winning stunt "The Co-op Hat Shop" to Gamma Iota's act "Bob and Clip" portraying the interior of a hair bobbing establishment. Sigma Kappa won second prize and Gamma Iota third.*

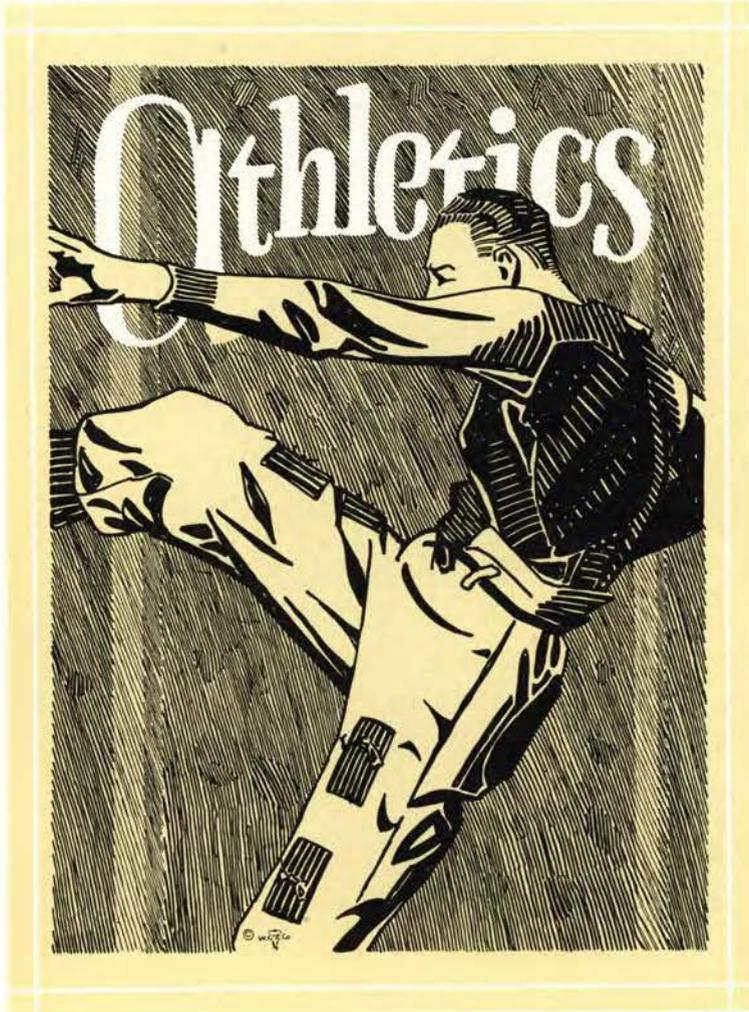

*Graduation, and the parting of the ways, is probably the most stately occasion of the college year. The seniors, garbed in caps and gowns, march to their last student body assembly and depart—a "full fledged graduate."*

### *Coaching Staff*

THE BEAVER COACHING STAFF has made a name for itself in coast and northwest conference athletic circles by the quality of its work. Under the guidance of this group of able trainers and coaches, the Aggies have won two northwest championships in basketball and wrestling, the state championship in football, wrestling, track this year, and baseball last year.

### *M. H. "Dad" Butler*

ONE OF THE MOST if not the most popular man on the campus is the characterization of "Dad" Butler. Track coach and trainer of all athletes is no small job, but his expert knowledge and Irish wit makes the injured "walk again."

### *Varsity Track*

DUAL MEETS were scarce during the 1923 track season. O. A. C. had but one, which we won with University of Oregon. Teams were also entered in the Washington relays at Seattle, the Drake relays at Ames, Iowa, and the Coast Conference meet at Pullman. The four man relay team, composed of Art Walker, George Booth, Darwin Connett, and George "Puss" Graves, established a new record at the Washington meet by clipping 31 seconds from the former record.

VAR-SITY  
TRACK

Captain "Holly" Hollinger closed his career as one of "Dad's" best relay men and as a consistent quarter miler. He was first lap man on the team that took the trip to the Drake relays.

This is Lee Sims' last year of Varsity track and he proved himself a fit running mate for Dodge by winning second place in the 880 at Oregon and first place at the Pacific Coast conference meet at Pullman. He is lost by graduation.

"Art" Walker proved himself to be the best miler and two-miler in the Pacific Coast conference. He was also the star member of the four-mile relay team that clipped 31 seconds off the former record at the Washington relays.

"Ozzy" Osburn was our star pole-vaulter. He is lost by graduation and will be missed as he could go consistently over the twelve-foot level.

VARSI-  
TY  
TRACK

Ray Dodge is the star Aggie middle distance man and holds the Pacific Coast record in the half mile. He won the event in the Oregon meet and ran a beautiful lap at the Drake relays. Ray has one more year's competition.

"Clink" Bennett proved himself to be a consistent point getter and all around field man. This is his second year on the Varsity squad, but he is expected to excel in the shot, discus, pole vault, and high jump this season.

"Hank" Gerhart developed into the best hurdler and sprinter on the team. He won both the high and low hurdles in the Oregon meet and placed in both in the conference. Hank will be back this season.

"Curley" Dalton won the javelin throw in the Oregon meet, and also tied for first place in the pentathlon at the Washington relays. "Curley" was a three-year letterman and will be missed this year.

VARSAITY TRACK

"Puss" Graves won the two-mile race at Eugene and was a member of the championship four-mile relay team. This is his last year of competition for the Aggies.

This was Darwin Connett's last year as a cinder path artist. He ranked well as a distance man, making a place on the four-mile relay team that won at Seattle. He also tied for second place in the mile at Oregon.

Harold Stone finished his last year on the Varsity. He placed third in the 440-yard race at Eugene and ran a lap for the Drake relay team.

George Booth was a member of the record-breaking four-mile relay team that competed at Seattle, and is a consistent miler. He tied for second place in the mile in the Oregon meet.

Walker Winning the Two-Mile

O. A. C. SENT Ray Dodge, Lee Simms, Harold Stone, and Merto Hollinger to compete in the two Drake relays at Ames, Iowa. Although they drew the outside lane, in a field of 14 contestants, they finished in third place.

The Aggies met the University of Oregon at Eugene, May 19, in the dual contest of the season. The result was in doubt up to the running of the two-mile race when first and second places cinched the meet for O. A. C.

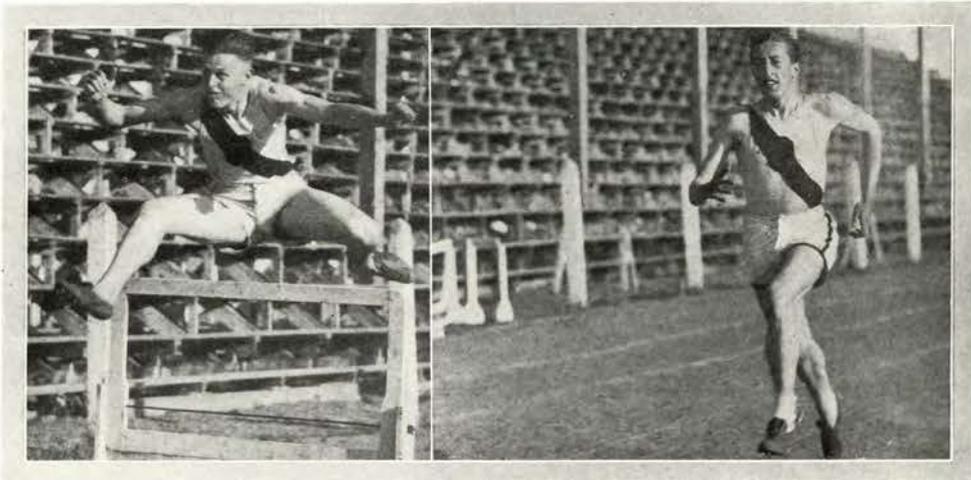

Sims Finishing the 880

Graves      Connett      Walker      Booth

The final score was 72 to 59. This victory keeps O. A. C. records clean with regards to Oregon as the University has never won from the Beavers in track.

The conference meet was held at Pullman, Washington, June 2. California with a team composed mostly of field athletes took first place, Washington finishing a close second. The Beavers were runners-up with third place.

### *Coach Guy L. Rathbun*

COACH GUY L. RATHBUN came to O. A. C. from Indiana University in 1920. He coached the wrestling and baseball teams and was assistant football coach. He left to take a position as Director of Athletics at Willamette University.

### *Rook Track*

COACH GUY L. RATHBUN's yearlings entered three meets last season, winning the first two from Washington High and Corvallis High and losing the last in a close contest with the Oregon freshmen.

Rooks making numerals in track were Ortell (captain), Warner, Walker, Bowman, Mercer, Baker, Smith, Lewis, Wren, Vermilye, Snider, Bell, Blake, Northcutt, Berry, Robertson, Maki, Rhorman, Liebe, Bilyeu, and Hammatt.

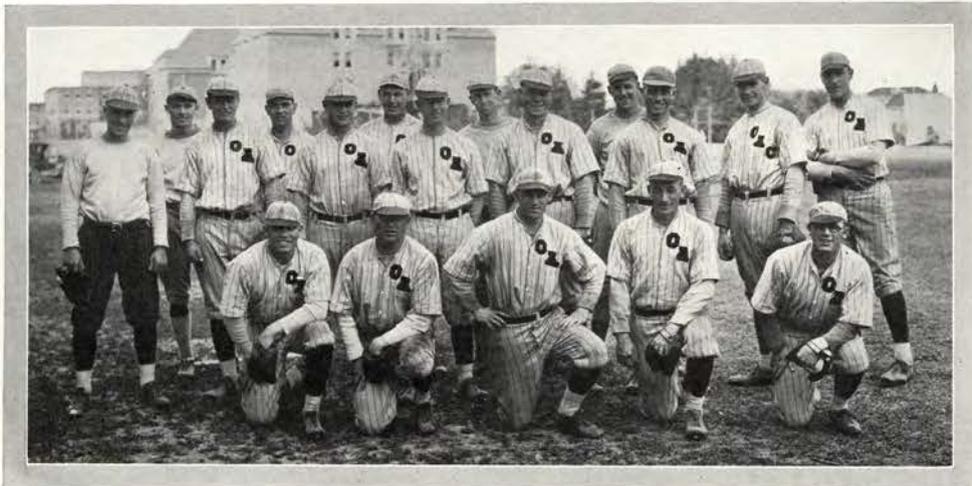

### *Coach "Coley" Coleman*

COACH "COLEY" COLEMAN is a living example of a successful alumni coach. He is well liked on the campus and is building a strong baseball team.

### *Varsity Baseball*

THE 1923 BASEBALL SEASON was one of the best the school has ever had. The squad won eight out of fourteen conference games and finished the season with a percentage of .571, the highest mark ever reached by any of our Varsity baseball teams. The record was all the more noteworthy because of the fact that it was "Coley's" first year as Varsity baseball coach.

VARSAITY  
BASE BALL

Captain "Husky" McKenna played his third and last season for the Aggies. He played fourteen games without an error. "Husky" left with an Orange and Black blanket, his reward for three years' work in baseball.

"Red" Ridings, our home-run hitter, showed us the hardest hitting that any man has shown on the varsity field. He was the heaviest hitter on the team, brought in the most runs, and averaged better than a home-run per game.

"Andy" Street's control and his cross-fire delivery were the two things that made him a clever pitcher. His control made him a great mainstay of the squad. He was lost by graduation.

"Woody" Woodward played his first year on the Varsity last year. His size and speed was enough to scare any one who faced his pitching. He should make a name for himself this spring.

"Mike" Duffy has always been one of the mainstays of the team. His ability as a catcher is well known in the Northwest. His place will be hard to fill this year.

VARJITY  
BASE BALL

"Val" Noonan played a consistent, heady game for the Aggies in center field. His batting was one of his big assets, and as a lead-off man, he was unbeatable.

"Dutch" Tasto is another man who is leaving a gap that will be hard to fill. In his three years of college baseball, "Dutch" was always a steady consistent ball player.

"Tom" Rippey is another boy who hit the ball when we wanted runs. He also played through the entire season without an error. This was his second year with the squad.

"Dick" Garber, the snappy Aggie infielder, was always full of Beaver "pep." This was his second year on the Varsity.

"Art" Boone pitched the squad to several victories. He was a steady boy on the mound.

VARSIITY  
BASE BALL

Dewey Holmquist played his second season in the outfield. Whenever a fly ball went our his way, he could be depended upon to get under it.

"Dick" Young was our "south-paw" pitcher. His best feat of of the season was his 1-0 defeat of Oregon, in which he allowed only two hits. He will be the mainstay on the pitching staff this year.

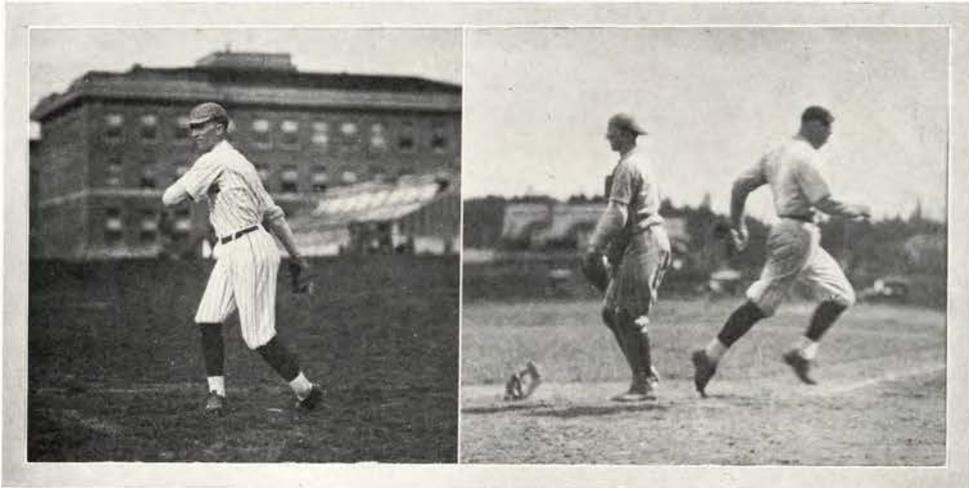

"Johnny" Sullivan, in his first year of Varsity baseball, showed that he is as good a "pinch-hitter" as we have ever had. He was a hard man to pitch to. He will be with us again this year.

Glen Perry, captain-elect, played his second Varsity and made but one error out of ninety chances. His batting will come in handy again this year.

"Parky" Parkinson will always be remembered as the "fightingest," "peppiest" Aggie that ever talked it up on the coaching lines. He was missed when the call came for practice this year.

### *Coach C.W. Hubbard*

"CAC" has finished his first year as assistant coach in a creditable manner. The scrappy mentor does much for the morale of his teams with his pep and unflinching cheerfulness.

### *Rook Baseball*

THE ROOKS enjoyed a very successful season. They won seven out of their ten games and closed the season with a percentage of .700. The following men received numerals for their work on the squad: Six, Coleman, Billsborrow, Kepingner, McCourt, Hughes, Baker, Osburn, Escallier, Olson, Greenwood, Sigrist, Goodrich, Brownjohn, Allen, and Flynn.

Coach R. B. Rutherford

### *Varsity Football*

COACH "DICK" upset the dope when the Beavers trimmed Oregon with a score of 6-0. Quarterback Ray Price's 74-yard run was probably the most thrilling event of the athletic year.

VARSITY  
FOOT BALL

*Locey—Tackle*  
This was Percy's fourth year on the team. He was one of the best tackles on the Pacific Coast.

*Gill—Halfback*  
"Luke," playing his last year on the varsity, was one of the most feared punters and end runners on the Coast.

*Rich—Center—Captain-elect*  
"Herb" lived up to his past records this year by becoming one of the best centers on the Pacific Coast. He is a steady player and excellent tackler.

*Scott—Tackle—Captain*  
"Scottie" set a good example for the rest of the team by his consistent playing and head work.

VARSIITY  
FOOT BALL

*Tousey—Backfield*  
"Reg" Tousey played his last year on the varsity. He was a tower of strength in the back-field.

*Lyman—Guard*  
"Mose" showed up well from the first of the season and held down his position of guard with all honor.

*Price—Quarter*  
"Ray" was the mainstay of the back field. His cool-headed generalship lead the Aggies through the season.

*Carpenter—End*  
"Ben," due to bad luck, did not show up well in the first of the season, but his interference and steady tackling featured him in all of the later games of the season.

VARSITY  
FOOT BALL

Ray McCart—*Halfback*  
Ray played his second year on the Varsity. He is a fast, heady plunger.

Bell—*Halfback*  
"Liberty" Bell was one of the most versatile men on the team. His flashy runs kept the crowd on their feet.

Johnson  
*Substitute Guard and Tackle*  
"Cub" Johnson took Scott's place at tackle and proved almost as formidable.

Garber—*Halfback*  
"Dick" started the season with his usual ardor, but received an injury which kept him off the squad. He was called on, however, several times to place kick.

VARSITY  
FOOT BALL

**Dutcher—Substitute**  
"Dutch" played his first year on the varsity as substitute lineman. When called on he filled the gap like a veteran.

**Olmstead—Tackle**  
Olmstead showed up fine in the pre-season games and in the first conference games, but due to injuries received in the latter, he was unable to play all season.

**Andres—Substitute Center**  
"Swack" was substitute to "Herb" Rich. He made all of the mainland trips and showed lots of fight.

**Christianson—Substitute**  
"Christy" was substitute to "Flash" Price, which made the going uphill for him. While in the fray, "Christy" displayed a world of fight.

VARSIITY  
FOOT BALL

Boyken—*Halfback*  
"Bolly" did not get into the fray till late in the season, and from then on he was a terror on carrying the ball on end runs.

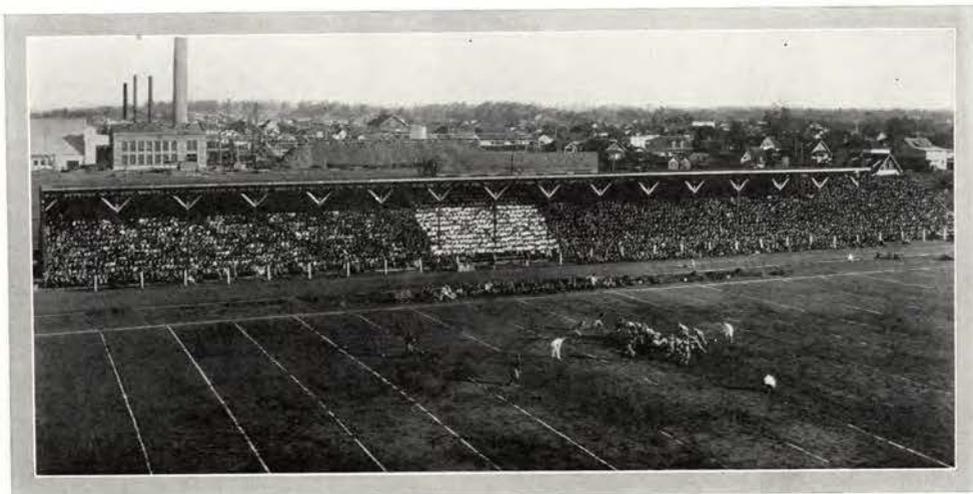

Tebb—*End*  
"Fritz" proved his worth by filling his position well. In his second year at end, he proved his prowess as a football player.

Day—*Guard*  
"Lead" Day filled the gap on the other side of the line and he took up lots of room.

Snider—*End and Halfback*  
Snider playing his first year was one of the sensations of the season. He played right end in several games, but was finally shifted to the backfield.

THE 1923 FOOTBALL SEASON for the Beavers was one of dope-upsets and surprise which ended in their decisive victory over Oregon at Hayward Field, Eugene. The first game of the season was with the light, fast team from Pacific University

Hawaiian Trip

The Aggies showed both a strong offensive and defensive and won from Pacific 12 to 0. Next, Multnomah Athletic club was held to a scoreless tie on Bell Field in a game featured by strong defense on both sides. The following Saturday the Aggies and Alumni met in their annual conflict. The game in which the varsity was opposed by alumni and rooks in alternate quarters, was replete with fumbles and ragged playing, the varsity managing to win 13 to 0.

The Beavers journeyed to Berkeley to meet the Golden Bears October 20. O. A. C. showed a brilliant offensive soon after the start of the game that resulted in their advance to the Bear's 20-yard line causing near heart failure in the O. A. C. women's gym where 2,000 rooters were getting the results play by play. The hot sultry afternoon told and resulted in the Aggie defeat 26 to 0 by California.

A homecoming pep rally was held on the evening of November 2. The parade, called the "big noise," consisted of a noise-making machine from every house.

The spirit ran high for the game with the Huskies the next day. Washington, however, proved too fast and made large gains on end runs with a baffling interference. Except for a short rally before the end of the half, O. A. C. was outplayed the entire game and lost to the heavier and faster team 14 to 0.

O. A. C. traveled to Boise, Idaho, accompanied by the band, and played the University of Idaho, November 10. The game was close, O. A. C. losing her chance to score by fumbling at the critical moment and Idaho making her only score from a pass completed during the closing minutes of play.

Washington State was next on the schedule and although doped to win by two touchdowns was held by the fighting Aggies to a 3 to 3 score. In the final minutes of the game the W. S. C. quarter tried everything to passing from his 20-yard line in an endeavor to raise the Staters' conference percentage by a win over O. A. C., but could not penetrate the Aggies' determined defense.

Grandstand, U. of O.-O. A. C. Football game

Oregon and O. A. C. had battled about even on dope throughout the season and it was with the determination to win the game on marginal points that our team accompanied by the whole Aggie student body journeyed to Eugene November 24. O. A. C. took the offensive from the start keeping the ball in the enemies' territory by end runs and passes. About the middle of the first half Ray Price, O. A. C. quarterback, slipped through the University line on a tackle play. At the same time the two Aggie ends circled the opposing flanks aiding Price to shake off the Oregon tacklers and run 74 yards for a touchdown. During the rest of the game the University tried desperately to score but was held by a team superior in the fine points of the game, the final score remaining 6 to 0.

Thanksgiving day O. A. C. defeated the strong Multnomah Athletic Club on their own field 12 to 0. This game showed the increase in strength of the Aggie team as they were held to a scoreless tie by the clubbers earlier in the season.

December 11 a squad of 14 men accompanied by Coach Rutherford, Trainer Butler, and "Strollers" orchestra sailed for the Hawaiian Islands.

Games were played with the University of Hawaii and the Hawaiian All-Stars at Honolulu, which O. A. C. lost by close scores.

### *The Coming Season*

**T**HIS YEAR has seen a big change in the attitude towards football. It is a known fact that the spirit has grown stronger, the Pep rallies have had more of a punch, and the general turn-out to the games—even with the team doped to lose has shown a marked increase. The spirit must grow even stronger and back the new coach in his efforts to turn out a winning team. With only a few veterans missing, and Herb Rich, the fighting center to lead the gridsters, the prospects are brighter than ever for the "Winning Aggies."

*"Spec" Keene*

"SPEC" KEENE came to us after a highly successful coaching experience at Corvallis High School.

*Rook Football*

ALTHOUGH THE ROOKS played only three games, the season was declared a success. Scores of the games were as follows: Grande Ronde Indians 0, Rooks 83; Columbia University 0, Rooks 14; Frosh 0, Rooks 3.

The men who made their numerals last season are: Clabby, Balcom, Wermark, Craig, Denman, Dickerson, Dixon, Dean, Edwards, Ireland, Keltner, Kingsley, Kenny, Liebe, Peak, Pepoon, Ross, Schulmerich, Ward, Duggan, Tennant, Reader, Hestbrook, Sunstrom.

### Coach "Bob" Hager

"BOB" introduced a new system of basketball this year, and came within an ace of capturing the Conference title. When it comes to getting real basketball out of a squad, "Bob" is the one to do it.

### Varsity Basketball

BY WINNING 11 GAMES and losing but two this season, the Aggie basketball team won the northwest conference championship. Washington finished second with 10 wins and two losses. The fact that the University of Washington team played an extra game with Montana probably cost us the Pacific Coast Conference championship. The University was given the Conference championship of the northern division by a vote of the colleges of that division.

Left to right—Coach Hager, Faurie, Stoddard, Kolkana, Steele, Baker, Gill, Brown, Lyman, Rowley, Ridings, Osburn, Buono, Eilertson, Knifton.

VARSIITY  
BASKET BALL

Carlos Steele was the strong point in our defense. He could always be depended upon to keep his man from scoring baskets.

"Slats" Gill ended his college career in a blaze of glory. As captain of the team, and field general, under Coach Hager's percentage system of basketball he had opposing teams worried throughout the game.

"Pete" Stoddard made up in speed and ability what he lacked in size. Whenever there was a mad scramble for the ball, "Pete" could always be depended upon to come out of the scramble dribbling.

"Mose" Lyman was handicapped at the start of season. Because of the length of the football season, he couldn't get out for basketball until the season had been under way for quite a while.

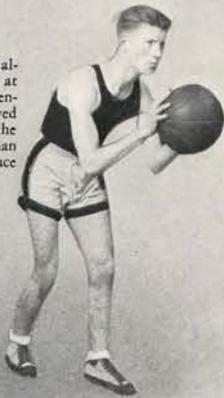

"Red" Ridings was "Slats'" running mate at forward. "Red's" specialty was sneaking through the opposition's defense and dropping the ball through the net. He scored a total of 132 points during the season.

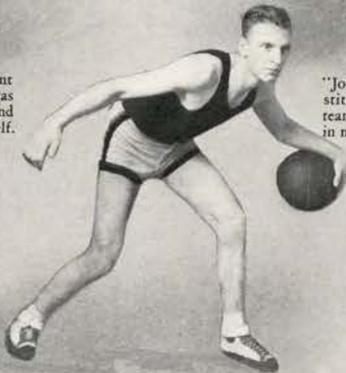

VARSIITY  
BASKET BALL

"Lorry" Baker was always ready to step in at a forward position whenever called. He showed in the last game of the season that he is the man to take "Slat's" place next year.

Ralph Buono played in several games this year, and gave a good account of himself.

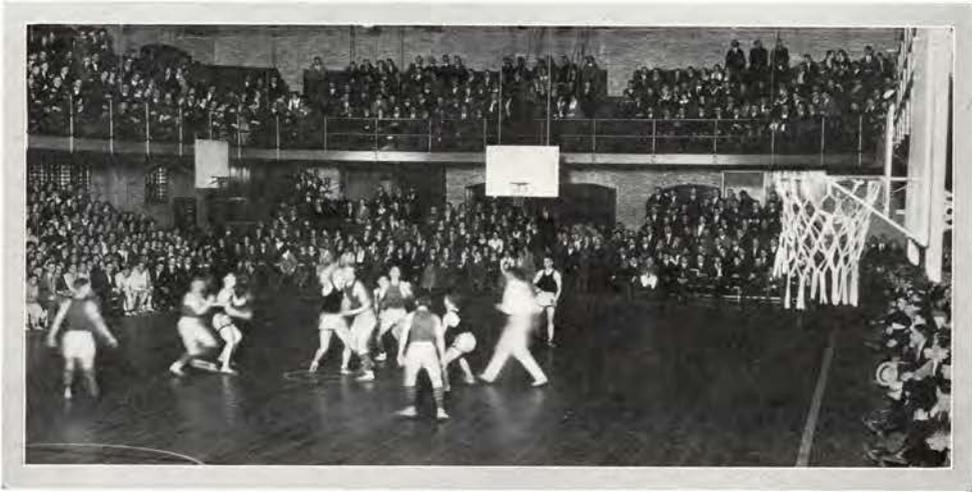

"Hap" Eilertson always gave a good account of himself when he played. His specialty was keeping his man from shooting baskets, and then dropping a few through the hoop himself.

"Johnny" Kolkana played his first year as a substitute at guard. He took all the trips with the team but did not get a chance to show his ware, in many of the games.

"Brownie" Brown, at center, played some great games for O. A. C. Although handicapped throughout the season with a bad elbow and hand, he caused the opposing centers a lot of worry.

O. A. C.-Oregon Game

### *Review of Basketball Season 1923-1924*

PRE-SEASON BASKETBALL PRACTICE was ended with a barnstorming trip through California during the Christmas holidays. The team won 7 out of the 9 games played, scoring 233 points to their opponents' 186. The teams that defeated the Aggies were the St. Ignatius five, and the Livermore Athletic club. Among the Aggies' victims were the Long Beach Y. M. C. A., the Stockton Amblers Club, Fresno College, Alhambra, Orange, Oakland K. of C., and the Y. M. C. A.

Nine days after the team returned from the barnstorming trip they took the northern trip around the circuit. They won 5 of the 6 games played on this journey. They defeated Whitman, Idaho, W. S. C., Gonzaga, and M. A. A. C., but lost to the Washington Huskies. Every game was close and hard fought. The Idaho game ran into overtime play before the winner was decided. In only one game was there more than 10 points difference between the winner's score and the loser's. The Aggies returned home in good condition, and with a determination to win every game that remained on the schedule, started practicing immediately for the games on the home floor.

Our chances for a clean sweep of the remaining games went glimmering when Oregon defeated us in both games played at Eugene. Every team in the league was humbled on the home floor. The defeat of Oregon in the last two games of the season atoned for the double dose handed us by them at Eugene. "Slats" Gill was injured in the first game of the final series, and was not able to play in the last game, but "Lorry" Baker proved his worth as "Slat's" understudy by helping the team to victory in the second game.

"CAC" drilled the rooks in Hager's percentage style of five-man defense. Combinations were developed to aid Hager in picking his next year's team.

### *Rook Basketball*

THE ROOKS played a total of 14 games during the season. They were victorious in 6 of them, and scored 337 points to their opponents' 347.

The men who made their numerals are as follows: Forwards, Banks, Graap, Ward, Mirrasoul, Lursen; Guards, Hartung, Evans, Planting; and Centers, Balcom, Backman, and Whipple.

### *Coach D. O. Farrell*

COACH FARRELL, instructor in wrestling, has turned out a Pacific Coast Championship team. He has unusual ability to stir up interest in wrestling.

### *Wrestling*

THE WRESTLERS are a team of champions. Each man is a Northwest Collegiate Champion. Robin Reed is twice National Champion at 125 and 135 pounds. Selfridge holds the Pacific Northwest Championship for the 155-pound class.

### *Wrestling, 1924*

THE O. A. C. WRESTLERS again captured the Northwest Conference title with a clean slate. The first match was with the University of Oregon at Eugene and resulted in a 44 to 0 victory for O. A. C. The second victims were the University of Washington at Corvallis which turned out 33 to 3 for O. A. C. This bout was more evenly matched than the figures show and several of the bouts were undecided until the time was up. Next the Aggies took a trip to Pullman and defeated the Washington Staters by a score of 66 to 6. On the return trip the squad stopped at the Spokane Amateur Athletic club and staged a closer contest but proved themselves the better by a 32 to 0 victory.

Robin Reed proved to be the outstanding star on the squad. Although his actual weight is 140 pounds he entered the 175-pound class in all meets and won each of them.

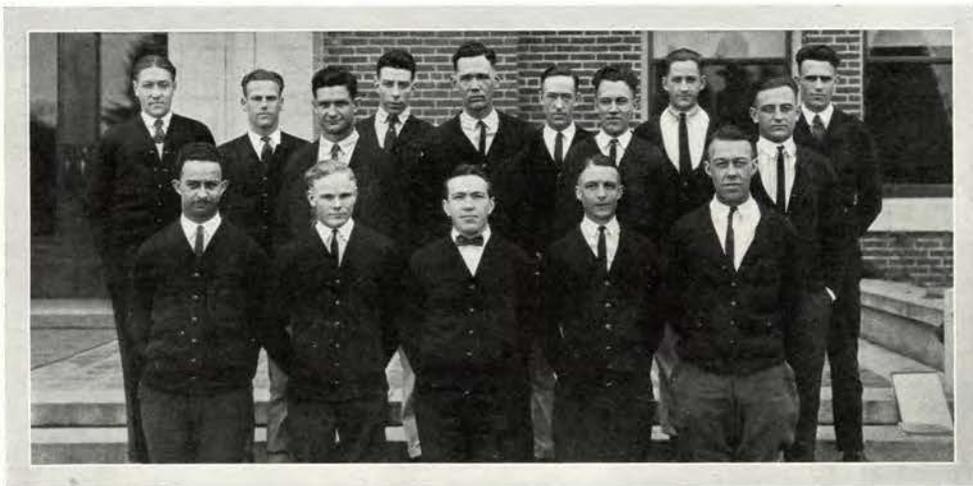

The season so far has undoubtedly been a huge success and if the tentative schedule with California is carried out the team will stand a very good chance of winning the Coast Conference championship.

MODELED ON THE SAME principles and ideals as the Varsity "O" the Circle "O" Association was formed this year. The new organization stands for the promotion of clean sports and the forwarding of minor athletics. To be a member a letter must be earned in Cross-country, Soccer, Swimming or Tennis.

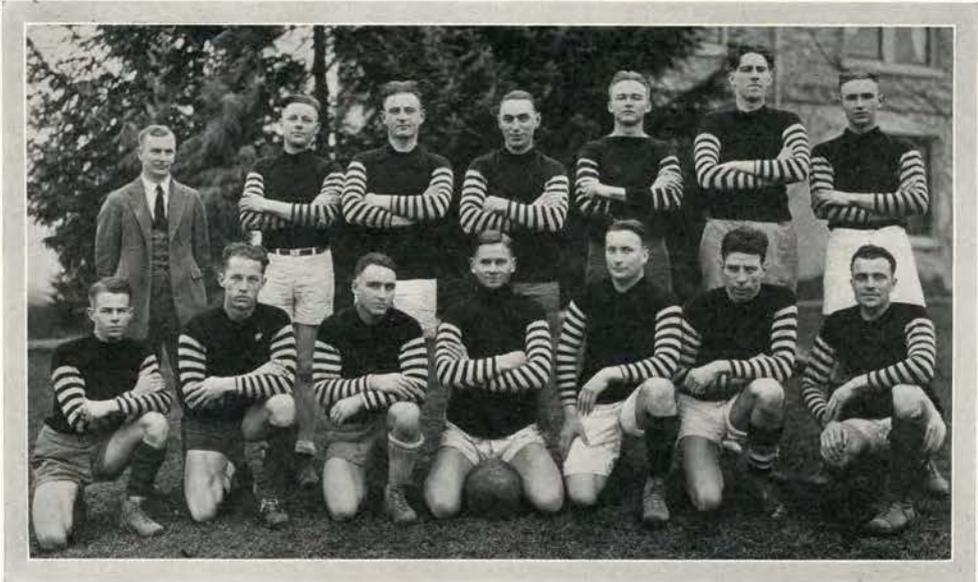

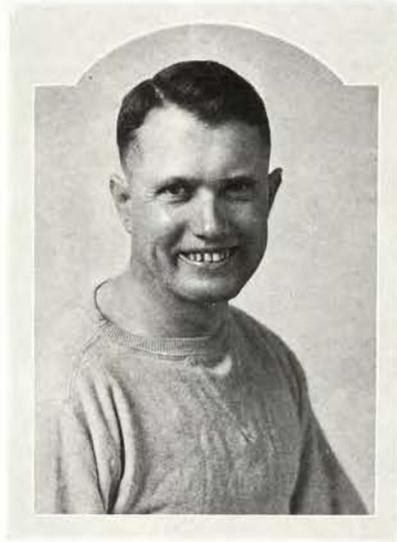

### *Coach Wisdom*

PRESTON WISDOM coached the soccer team to victory. He built a winning team with few veterans and won the last game with Oregon.

### *Soccer*

THE O. A. C. SOCCER SEASON was brought to a successful close with the defeat of the Oregon team on the latter's grounds by the score of 4 to 2. This game gave us a clean sweep of the series of two games with Oregon, since we had defeated them earlier in the season by the score of 4 to 1 on our field. Out of the four games played during the season, the Aggies won the two with Oregon, lost one to the North Pacific Dental college by the score of 2 to 0, and later tied the Dentists in a return game, the final score being 1 to 1.

**D**R. B. T. SIMS, tennis coach, developed a tennis team that met with great success. His team finished with only one defeat.

### *Tennis*

**O**UT OF SEVEN intercollegiate matches the squad emerged victorious in all except one match. The wins were all by decisive scores until the loss to Washington, who won the Pacific Coast Conference title. By suffering only one defeat, O. A. C. finished in second place for Northwestern honors.

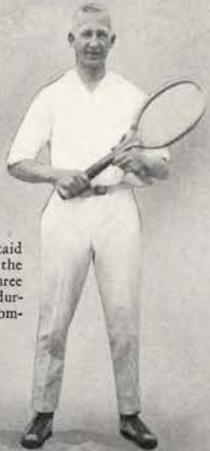

The schedule of 1923 matches was as follows:

Albany College.....	0	O. A. C.....	6
Reed College.....	1	O. A. C.....	5
Willamette.....	1	O. A. C.....	3
Oregon.....	1	O. A. C.....	4

TENNIS

Captain "Pinky" Kincaid was the best bet on the team. He had only three defeats in his record during his three years' competition.

R. G. Johnson, captain-elect, was unbeatable when he was at his best. He has one more year of competition.

"Andy" Eckern played a steady game. He will be available for two more seasons.

Miller played a consistent game and finished with a record of .750 wins.

Farnin will be a strong contender for first place next year.

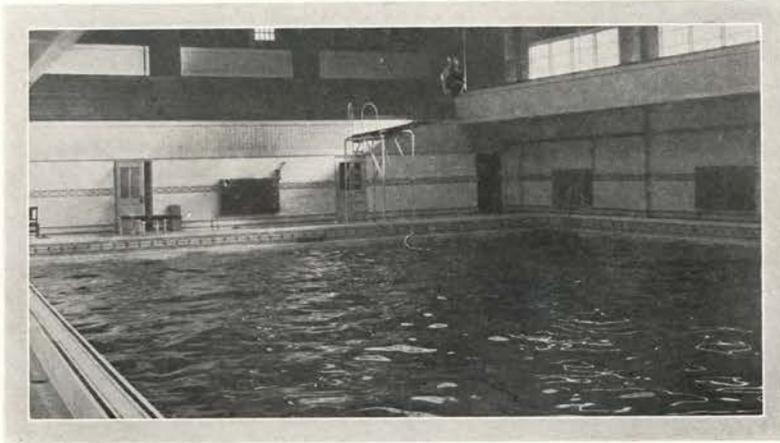

### *Coach D. O. Farrell*

COACH FARRELL came to us from the Y. M. C. A. at Spokane. He made a good start with his swimming squad and we are looking for the championship next year.

### *Swimming*

O. A. C. PLACED SECOND in the Oregon state championships held in the initial meet of the 1924 season. "Hap" Kuehn and Julian Burroughs performed in true championship style. Van Dyke, U. of O., set a new record in the breast stroke event by winning over state champion Sinclair. Time: 1:24.

### *Men's Gymnasium Tank*

SWIMMING is as yet an unrecognized major sport at O. A. C. A Minor-"O" letter is given. With the wealth of material in school and the new coaching staff, the sport will grow in popularity. More teams turned out for intramural swimming this year than in any two former years.

### *Preston Wisdom*

WISDOM's splashers showed good form and speed in the Rook-Frosh meet. His understudies will turn out some good material to the Varsity next year.

### *Rook Swimming*

THE ROOKS lost their only swimming meet to the Oregon Frosh by a very close score. The score was even until the last event was run off. Jack Foyle was high point man for the Rooks. The team turned out good material for next year's Varsity.

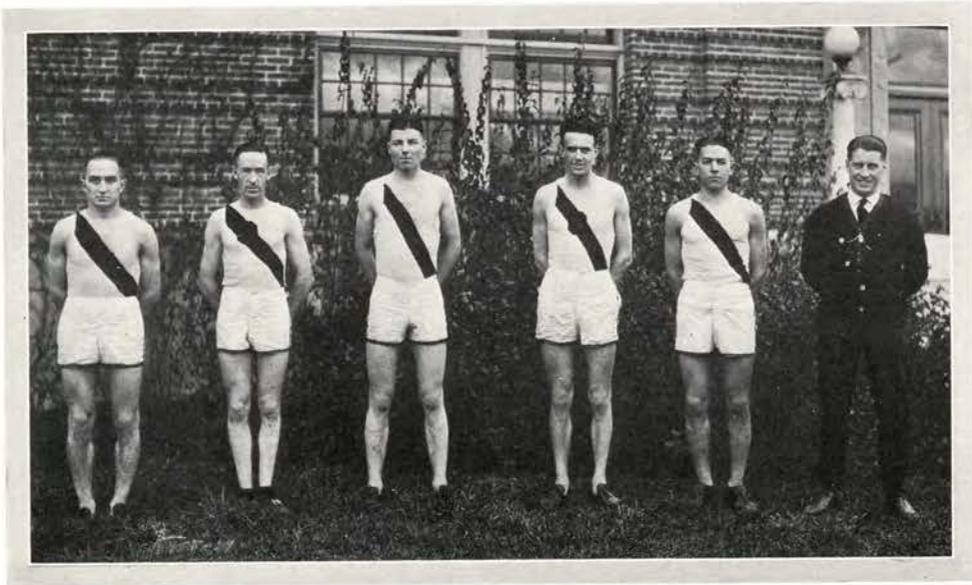

*Coach "Coley" Coleman*

"Coley" has kept up with the traditional cross-country team and defeated Oregon on their own field.

*Cross Country*

THE BEAVER CROSS-COUNTRY QUINTET set the precedent to the outcome of the big football game at Eugene by defeating the Oregon runners for the sixth consecutive season. George Graves, Art Walker, Ted Butts, Mort Mason, and Oliver Bartholomy were the men representing the Aggies.

### *Track*

THE PHI GAMMA DELTA track team won the all-school track meet in an exciting finish with the Sigma Phi Sigma tracksters pressing them. Gordon Cram, Fiji star, set a new record in the discus.

### *Intramural Athletics*

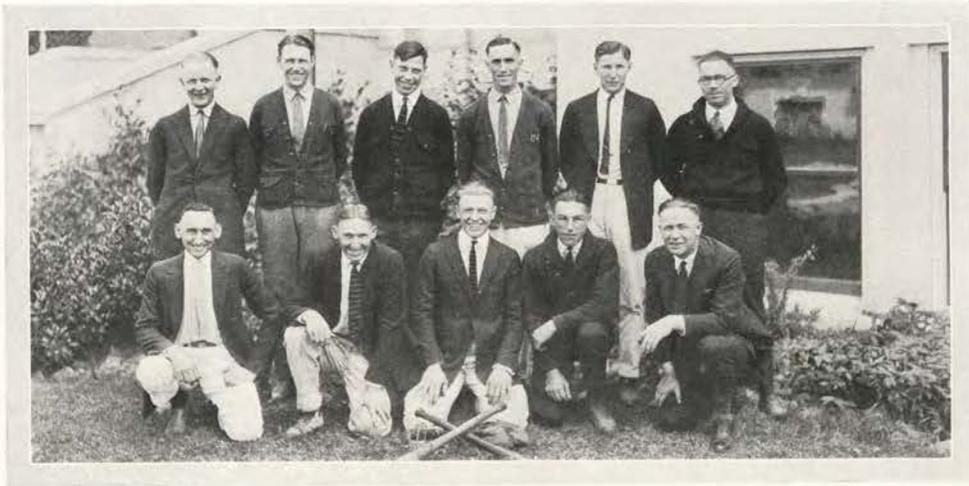

INTRAMURAL ATHLETICS makes it possible for practically every student to enter into some form of athletic competition. Inter-fraternity baseball, basketball, track and swimming give every student an opportunity to participate. Competition for cups and wall plaques serves as an incentive for training and practice before scheduled games. The large swimming tank and basketball floor offer an incentive for exercise during inclement weather. Coach Ralph Coleman has served as director of intramural athletics and has introduced the system of "every man takes part in some form of athletics."

TO MEET THE INCREASE in enrollment in physical education one new instructor was added to the staff. Approximately one thousand women are now taking classes in the gymnasium. The physical education theory classes outgrew the small lecture room in the Women's building and moved to a larger room in the Men's gymnasium.

**H**OCKEY WAS REVIVED this year as an interclass sport. The class work given last spring made many fans of the sport. After a season of good hitting the sophomore women won the college championship.

A LARGER TURN-OUT for volley ball resulted from the interest created by intramural contests. The senior women proved their superiority by winning the championship for their fourth year.

### *Swimming*

THE WOMEN'S SWIMMING MEET was postponed until spring term due to the condition of the tank. In spite of this handicap Eva Schultz, Lenore Preston and Mary McFadden represented O. A. C. in the All-State contest in March. Miss Schultz placed first in fancy diving and the 50-yard free style for women. Miss McFadden placed third in the 100-yard free style for women.

ALL OF THE DOPE for the winning team was upset when the victorious class of '24 was defeated by the freshmen team. With a one-year record of a fast team the class is expected to furnish many exciting games.

### *Baseball*

**B**ASEBALL was heralded with enthusiasm because intramural sports among women were introduced on the campus. Although snappy ball was played on our own campus the only team to win over their Oregon opponents was the junior team. The class of '24 also won their numerals for the sport.

### *Track*

THE JUNIOR WOMEN again responded to the invitation of the cinder track and ran, jumped, and hurdled themselves to school championship. The sophomores were forced to run a hard race to place second in the meet.

Edwards, P. L.

### *Coaching Staff*

O. A. C. HAS ONE of the best forensic records on the Coast. The coaching staff has been the greatest factor in making and maintaining this record.

Professor C. B. Mitchell worked with inexperienced debaters this year, but his teams made enviable records in forensic work. As head of the public speaking department, he has been largely responsible for the increased interest taken in public speaking by the students.

Mr. Earl Wells coached the inter-class and inter-fraternity debate teams. Many of his recruits made the Varsity debate teams.

Mr. P. L. Edwards, oratory coach, has helped bring many honors to this phase of forensic activity. This is his second year on the campus and he is a noted booster for O. A. C.

The quality of work done by Mr. Goudy in these contests has been the subject of discussion among debate coaches throughout the state.

## *Extempore Speaking Contest November 16, 1923*

### *"Criminal Syndicalism"*

ELMER GOUDY, veteran orator, represented O. A. C. in the extempore speaking contest at Eugene. This is the first year a contest of this kind has been held. The general topic of "Criminal Syndicalism" was announced soon after school started. One hour before the contest, Goudy was given the subject "I. W. W. and Criminal Syndicalism" to speak on. He placed fourth among the nine colleges competing.

**M**ASK AND DAGGER DRAMATIC CLUB, the oldest student organization on the campus, was installed as the eleventh chapter of National Collegiate Players on October 31, 1923. It is to be known as the Oregon State Chapter of National Collegiate Players. Miss Elizabeth Barnes of the Public Speaking Department, instructor in dramatics, is director and faculty advisor of the Players.

### *"David Garrick"*

COLORFUL COSTUMES, powdered wigs, and lace frills featured in the presentation of "David Garrick" in the fall term, showed National Collegiate players at their best. The play, a three-act comedy by T. W. Robertson, depicted a personal incident in the life of David Garrick, a foremost actor of the eighteenth century and wove the players into an amusing and fascinating plot. Miss Elizabeth Barnes, Instructor of Dramatics, was producing director.

### *Annual Trip*

NATIONAL COLLEGIATE PLAYERS make an annual forty-mile trip to the logging camp of the Corvallis Lumber company. They present a varied program of skits and one-act plays in a hastily constructed theatre in the cookhouse at the camp. They carry a portable stage, battery unit lighting system, scenery and curtains.

### *Community Drama*

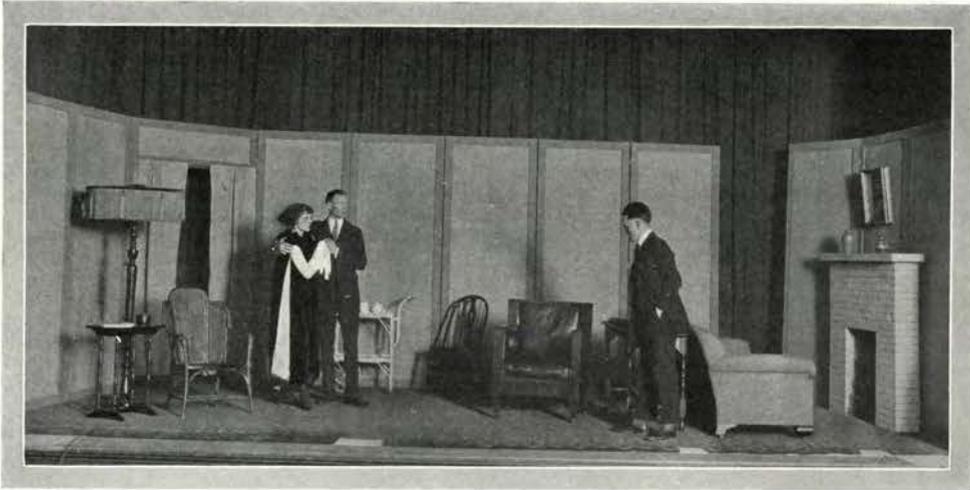

COMMUNITY DRAMA WORK has been developed materially in the last year under the direction of C. B. Mitchell, head of the Public Speaking Department, and Miss Elizabeth Barnes, Instructor in Expression and Dramatics. Training in directing and staging plays in the community and in schools is given students as a major part of the work in Community Drama courses.

Model Stage

### *Model Stage*

A MODEL miniature stage has been constructed this year. On this stage all the problems of the theater are worked out. The study of flood-lights, border-lights, curtains, screens and other settings is taken up. Community Drama department has also a workshop and workshop theater.

"Sham"

### *Community Drama*

THESE PLAYS were staged by the Community Drama class last year. Parts in these productions count as points towards membership in Collegiate Players. Greater interest in the work of the Community Drama department has been shown by the enlarged seat sale to both students and townpeople.

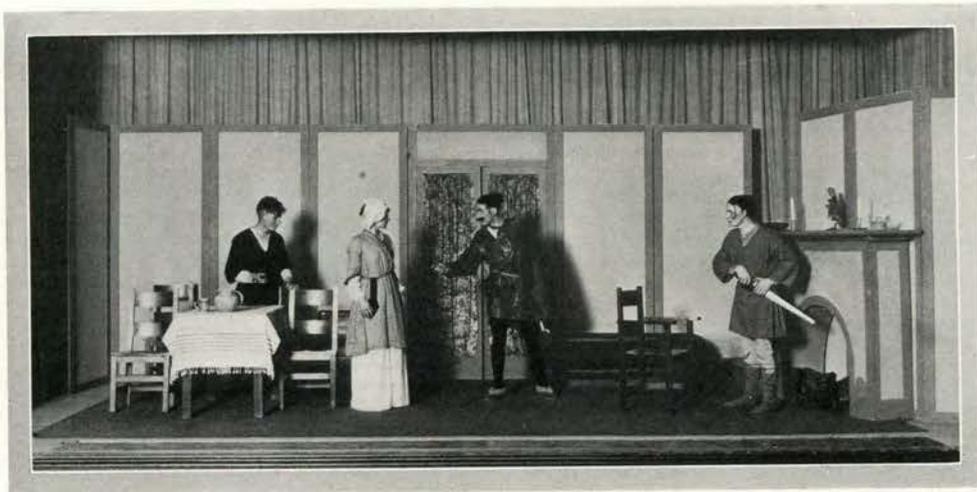

"Six Who Pass While the Lentils Boil" —By Stuart Walker

*"The Trimplet"*

"THE TRIMPLET," a fantasia by Stuart Walker, was one of three one-act plays successfully staged by the Community Drama Class in the winter term of 1924.

*"The Locked Chest"*

"THE LOCKED CHEST," a drama by John Masefield, was staged by the Community Drama Class in the winter term of 1924.

### *Reserve Officers Training Corps*

**R.** O. T. C. units are established in 124 colleges and universities in the country, O. A. C. being one of these. There are five branches or units here from which students, to gain their necessary two years of military training, can choose: Infantry, Cavalry, Field Artillery, Motor Transport, and Engineers. The mission of the R. O. T. C. is "To provide systematic military training at civil educational institutions for the purpose of qualifying selected students of such institutions for appointment as reserve officers in the military forces of the United States." Of the number graduated a few specially selected men are given a chance to accept a commission in the regular army as second lieutenants. Five men were given such opportunities last year.

The quality of military training given at O. A. C. is shown by the fact that the institution has been designated by the War Department as a *Distinguished College* for the years 1917-19-20-21-22-23.

### *The Artillery Unit*

THE UNITED STATES GOVERNMENT has placed a large amount of equipment, such as horses, tractors, motor vehicles, ordnance, and range finders at the disposal of the college for the purpose of training officers of field artillery. The object of the first year's instruction is to train the students as cannoneers; that of the second year, to train them as drivers of both horse-drawn and motor-driven vehicles; that of the advanced course, to round out their training as battery officers. Due to the technical character of instruction in this unit, the enrollment has been restricted to students who have had Trigonometry. The diversity of subjects taught, and the completeness of equipment of the unit have resulted in an interest in the course which extends beyond the basic work.

**I**N ADDITION to the general instruction in military instruction common to all branches, the Cavalry student is afforded sufficient training in horsemanship to enable him to care for a horse in garrison and in field; to ride with boldness over all kinds of terrain, at any gait; to jump all ordinary obstacles; and to use the saber and pistol efficiently, while mounted. He also has the opportunity to play polo under the supervision of experienced instructors. O. A. C. now has the only collegiate polo team in the Northwest. Last fall games were played with Stanford University at Corvallis and at Palo Alto.

### *Engineer Unit*

STUDENTS in the Engineer unit are given courses in military law, tactics, field engineering, demolitions, mapping, bridges, and practical work in the construction of various types of military bridges. A six weeks' summer camp gives the students a thorough knowledge of the duties of the military engineer. This branch of the R. O. T. C. limits its students to the School of Engineering because of the technical nature of the courses.

### *The Motor Transport Unit*

**T**HE MOTOR TRANSPORT unit offers an interesting and instructive course in which a general knowledge of automobile engineering is taught. Thorough courses of instruction are given on all types of motors. Students learn by actual practice how to operate trucks and cars efficiently.

Summer training camp of six weeks duration is held at San Francisco where every facility is available for the successful operation and maintenance of a motor transport command giving the students a practical application of the subjects taught during the school year. Of this period at least three weeks is devoted to a motor truck convoy trip covering several hundred miles inland simulating conditions in the field during war operations.

### *Military Tournament*

THE MILITARY TOURNAMENT is held in the spring of each year when all five branches of the R. O. T. C. participate in competitive drills and games. The regiment parades onto Bell Field and holds a review. Each unit demonstrates some phase of its work. Prizes and

awards are given to the winning units for the best appearance and for the most number of points won in the various competitions. Also, at this time sweaters are awarded to the members of the rifle and pistol teams. Last is the sham battle held on the polo field south of the campus. The military tournament gives a general review of the work during the past year.

MARGARET SNELL HALL is the newest women's dormitory on the campus. The first wing was completed over three years ago, and since then plans have been made for the construction of others. The building will occupy the whole of the lot. Wings will be added extending around the lot, to those that have already been completed. In the center will be a court.

The hall is divided into four clubs: Acticon, Adelpia, Alcestis, and Ariadne. These clubs are under the supervision of Mrs. Katharine Haight, the preceptress.

THE AGRICULTURAL CLUB was organized in 1905 by a few students interested in agricultural work at the college. From that modest beginning the club has grown to be one of the largest and most active technical organization on the campus, and includes in its membership all men and women registered in agriculture. Collaborating with the Agricultural Club are the smaller clubs consisting of students majoring in the various departments.

### *O. A. C. Agricultural Club*

Each year the club puts on an agricultural fair consisting of exhibits by the various departments of the school of agriculture. In addition, *The Oregon Countryman*, a technical magazine favored by a wide circulation among students and farmers of the West, is published by students of the club.

Social activities are confined usually to an annual Home-Economics-Agriculture Hard Times Ball.

THE FEDERATED ENGINEERS was formed last year, and became an active organization the fall term of 1923. Its purpose is to establish unity of action among the several engineering schools of O. A. C. The local organization is affiliated with the National Federated Engineers Society which was founded at the University of Missouri. The St. Pat's Board, which is composed of representatives elected from each school constitutes the executive board.

### *Federated Engineers*

THE FEDERATED ENGINEERS consist of students from the following engineering schools: Electrical, Mechanical, Civil, Mining, Chemical, and Industrial Arts. The organization has an enrollment of over three hundred members. The technical and social activities of the organization include the annual Engineering Show, the Oregon State Technical record, meetings with Portland engineers, smokers, dances, St. Pat's Day, and other functions which help to increase the interest of all students enrolled in the schools of engineering.

THE AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS is a national organization representing the electrical engineering profession. The purpose of the Institute in providing for student enrollment and student branches is to afford opportunity for the student to gain a proper perspective of engineering work by enabling him to become acquainted with the personnel and the problems of those engaged in it. Membership is open to all full-time students registered in electrical engineering. The local student branch of the A. I. E. E. was organized on this campus in 1908. The *Oregon State Technical Record* is a regular monthly publication of the Institute.

### *American Society of Military Engineers*

THE SOCIETY OF MILITARY ENGINEERS is an organization of students in the engineering branch of the Military Department. It is a society for the promotion of interest in military work in the college and to discuss technical military problems. The organization is still young, but is steadily growing, and will soon be one of the foremost organizations in military circles on the campus.

THE AMERICAN SOCIETY OF MECHANICAL ENGINEERS ON the campus is a student branch of the national society. The local organization gives the mechanical engineering students on the campus an opportunity to keep in touch with mechanical engineering throughout the country. During the year regular meetings are held at which time lectures, motion pictures, and discussions of current professional interest are given.

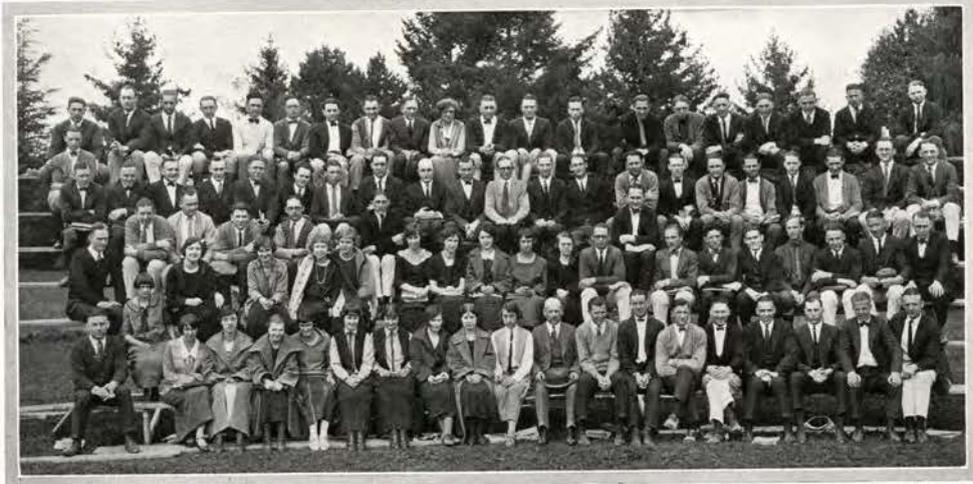

## *Chemical Engineering Society*

### OFFICERS

FREDERICK J. HODECKER . . . . .	<i>President</i>
DARWIN PHILLIPS . . . . .	<i>Vice-President</i>

SIDNEY REICHART . . . . .	<i>Treasurer</i>
HOWARD LEWIS . . . . .	<i>Sergeant-at-Arms</i>

THE CHEMICAL ENGINEERING SOCIETY was formed on this campus several years ago to include the faculty and all students registered in the Department of Chemical Engineering. The purpose of this society is to cooperate with the faculty on all matters which are for the betterment of the department, and also to attract students to the study of chemistry. This society controls the activities of the Chemical Engineers.

Papers are read at the regular meetings and instructive talks with experimental demonstration are presented by men of practical industrial experience.

## *Pharmaceutical Association*

THE PHARMACEUTICAL ASSOCIATION is an organization composed of students and faculty of the School of Pharmacy, which acts as a quorum for the School. Talks are given at regular meetings by visiting Pharmacists and Physicians. The organization took an active part in the department exhibit at the First Annual College Educational Exposition. Once a year the association makes a trip to Portland to visit one of the large wholesale drug houses.

### *Four H. Club*

THE FURTHERING of industrial club work in Benton County, and the promotion of county fairs are the purposes of the organization. During the summer the members have done a great deal of work in forming boys' and girls' clubs over the state. Both men and women that are prominent in industrial arts work are chosen as members. The club does very notable work, and unlike most college clubs carries its work on through the whole of the year.

THE BEAVER KNIGHTS is an organization composed of one Sophomore and one Rook member of every Fraternity and Hall on the campus. The function of the organization is to teach the new students the rules and traditions of the school. The Knights are also given charge of all the traffic and ushering done at the school functions.

The old name of the organization was the Vigilance Committee, but during the week of Homecoming they were installed as the Beaver Knight Chapter of the Inter-Collegiate Knights.

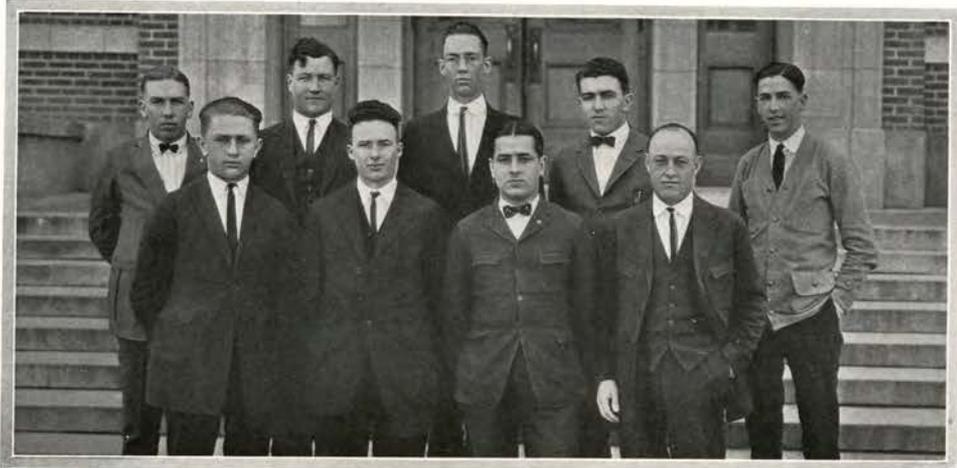

### *Citation Committee*

#### OFFICERS

MARIE PETERS..... *Chairman*  
 AGNES HAROLDSON..... *Secretary-Treasurer*

THE PURPOSE OF THE CITATION COMMITTEE is to teach the Freshmen women the traditions and rules of the campus, to encourage them to attend all meetings, and to have them learn the college songs. New members are freshmen, who are initiated in May, who will be sophomores the coming fall, and who by their character, conduct, and attitude, have shown themselves fitted for the position.

### *Lincolnian Club*

**T**HIS ORGANIZATION has for its purpose the promotion of impromptu debates and other forensic activities on the campus. The society is composed of men trained in elocution, debate, and oratory. The meetings of the organization are divided between the business of the society and oratorical work. The membership is kept down as small as possible so that every member will derive as much benefit from the organization as possible. The candidates have a tryout and are chosen upon their ability.

---------------	--------------------

THE O. A. STUDENT LYCEUM was formed in the fall of 1921 with the help of Professor Mitchell of the Public Speaking Department. The Club was formed with the purpose of establishing a better feeling and closer cooperation among the students possessing talent in the field, and to give them a chance to develop their ability under the supervision of a trained leader.

The membership of the club at the present time is about twenty-five, composed of readers, musicians, dancers, lecturers, magicians, and all branches of lyceum entertaining. From the members, programs are selected and sent to outside communities or local and campus organizations. A tour is being planned for this term in which most of the towns in the valley will be reached.

THE NEWMAN CLUB was formed in 1920, and it has a membership of nearly one hundred and twenty-five college men and women. It is strictly a student organization, and is a local chapter of a national student organization of Catholic students.

The purpose of the club is to bring the members in closer touch in a social and religious way, and thus aid in their welfare.

### *Co-operative Managers' Association*

THIS ORGANIZATION is composed of one member from every Fraternity, Sorority, and Club on the campus, and is for the purpose of furnishing supplies at a low price to all of the organizations represented. It is the only organization of its kind in the country.

THE INDEPENDENT MEN'S ASSOCIATION is an organization the purpose of which is to bring together all independent men so that they may become acquainted and cooperate with each other and be of more benefit to the college as a whole. The organization was formed during the fall term of 1922, and has a membership of over six hundred students. The organization is active both in social and athletic activities. During the past year several smokers and dances have been held which helped to promote the work of the organization.

### *Health Service*

THE HEALTH SERVICE DEPARTMENT is maintained to give medical aid to the student, and is financed by appropriations from the student's registration fee. Practically every student has an occasion to visit the department sometime during the college year. The health service is filled with students having colds during the winter, and during the summer with students having some other sickness. From the time the health service opens in the morning until closing time the attendants are busy constantly.

### *The Rock Crusher*

THE HEART CRUSHER is one of the historical landmarks of the college. One of the first places the young rook becomes acquainted with is the true college spirit, and many a rookess is rushed off her feet at the heart crusher.

"To Bill Gooch the college is greatly indebted for the wonderful display of his powers, and his desires to make the co-eds see the serious part of their college work"—such is the opinion of Dean Peavy.

The rook crusher has come to stay, it will always remain as the final resting place of those that here gave their pins that the co-eds might stay. So let us not say "Hello" on the walks of the campus, but "See you to-night at the rock crusher."

DEAR AB:

AS I AM A MOST PERFECT LOVER, an "Asphalt Arib," I shall tell you of a few loves that I have had. I first awoke to the prick of love in the Gamma Phi house. Mary Lampkin walked across the room, and she let go at me with her Big Bertha. Ab, I thought to myself: she is my meat. But she proved too much for me, we locked in a half-nelson and I went to the mat for the count; owing to her superior weight.

At the Pi Phi house, due to my beauty, I chalked up a killing, and hung the Gamma Nu pin on a blushing co-ed. My old chest inflated like an inner tube, but Claudia Plank gave me my walking papers the following night when I froze my feet on the way to the Theta house. Got to go out and work another claim.

BOB SLINGER.

### *The Cheese Club*

(By BRADY MONTGOMERY, Prexcy)

**B**IGAMY is like buying another cow, when you have only one box-stall available.

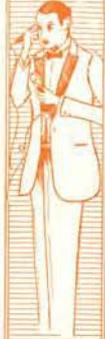

Is golf a game of billiards that has gone to grass?

Never run after a car or a woman for there will be another along in a minute; there are not so many after twelve but they are much faster.

A woman will always forgive an offense from a man who pleads as his excuse his uncontrollable love for her.

Tell a woman she is the most fascinating and irresistible one you have ever met, and she is yours.

# ADMINISTRATION

### *War Department*

SHERMAN said, "War is Hell," one would think that when he said this he was taking war at a college. The staff is composed of five men, most of the students think that it is five too many. Colonel Moses is the gentleman with the cigar, he is the foreman of the gang.

Ab has often wondered how many students would take war if they did not have to, some would probably take infantry practice. Gus Naulty is very prominent in the war department. He majors in war every Thursday, and finds that it is a good outing and affords a chance to snatch a few minutes of relaxation.

### *Ag. Department*

**F**ooling around is about all they do in the agricultural department. The time of the students is taken up in thawing out the innards of the pumps; giving the pigs their seven-course dinner, that is according to Prof. Comish; and tinkering around with the cow's open-work plumbing.

no man be held accountable, for hearing approvable comment on the feature presented. I think this was the one mistake of the whole affair. I do not think that a very scantily clad young woman staging the type of dance which was presented is in harmony with the spirit of our social entertainment. If features are necessary, I believe we can prepare something on the campus which will be every bit as entertaining and which will not offend good taste.

*John Deany*  
Chairman, Committee on  
Affairs.

# ATHLETICS

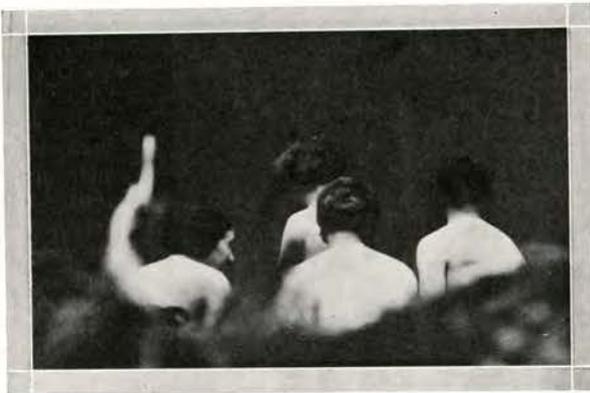

**F**OOTBALL is a game that you play on the ground, the umpire is the only one allowed to be in the air. The game is something like soccer—that is, you play with a ball, and the balls used are made out of leather. In both games you are allowed to kick both at, and with the ball.

Football is played by eleven men, women or children. The eleven players divide equally into two parts which form two lines, seven in front and four bringing up the rear. The players do many peculiar things: as running interference to a punt, getting in the way of the man running with the ball, or after a man has worked so hard to punt a ball they block it.

The team this year was very good. The picture to the right shows four of the players on the team that made All-American Back Field. All of them are very fast.

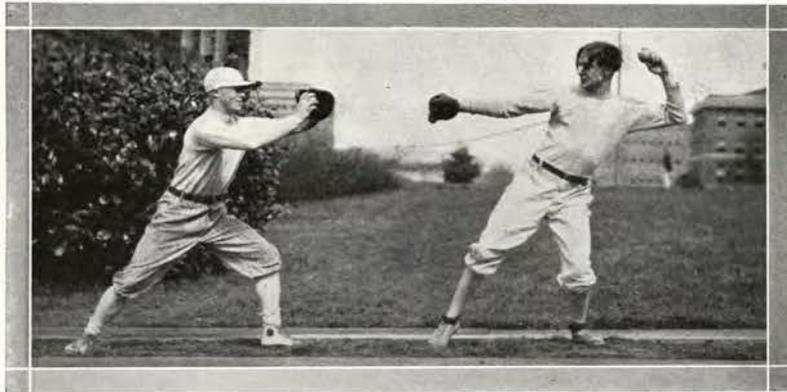

## *Gymnasium*

**T**HE GYM is like the war department—most popular in the school. More people register in the two mentioned courses than in any other. The lady has just won a knock-out. Men win the same sometimes but usually catch a foul-ball, and can't get to first base with her. In gym we learn how to get to first base, that is if we are fast enough.

**T**HERE IS AN ANNUAL CLASH between Delta Upsilon and Alpha Tau Omega for the baseball championship among the fraternities. For the last three years Ridings and Sadler have put up a hard fight in their efforts to defeat each other. The picture was taken right after Sadler bunted, when the ball hit his finger, and Ridings caught him trying to sneak to first base.

### *Sam's*

**T**HIS IS A GOOD CIGAR as it comes from Sam's. Old Sam would have us all saying this if he had his way. Did you ever try any Ever Ready cigars? All you have to do is light them. "We have our cigars fixed," said Sam, "so that they will go out if you don't keep drawing on them. This saves the student a great deal of money." The cigars I have found are excellent: Well preserved before you get them.

## *The Evolution of the Co-op.*

HERE IS A PICTURE of the co-op when all the college consisted of was the Ad building and Dean Mary's light. The three asphalt Arabs sitting on the porch are charter members of S. O. L. This picture was taken after the old boys had decided who they would run for editor of the Barometer. George Couper wishes you to note that one has a junior cane. This building formerly occupied the corner which is now occupied by the modern steel structure of that massive bulwark: the Co-op.

## Chief Remonstrator

OFFICE OF  
REMONSTRANCE COMMITTEE  
O. A. C. Campus

Fellow Students:

By common acclamation, the latest social ruling regarding the necessity of a third party in automobiles, on hikes, at picnics, and canoeing parties, has been relegated from the list of humorous rules to the list of ridiculous. It is the last straw grasped by the drowning camel.

Are you interested in the pursuit of happiness?

Are you interested in student government?

Are you sufficiently interested in action?

Are you moved by tears, laughter, or indignation?

### WILL YOUR FEELINGS BE IN ACTION?

Following student assembly, why will students from your house owning cars be seen in a good-natured protest? This parade will form at 11:00 a. m., in front of the Delta Upsilon house.

Each car will contain a driver, a female passenger, and a conspicuous sign on the top of the car.

The parade will proceed to the closing of student assembly, south on Twenty-sixth, to the gym, turn to the left at Waldo hall, and leave the campus at Johnson hall, where it will disband.

We students, men and women alike, must stick up for our rights!

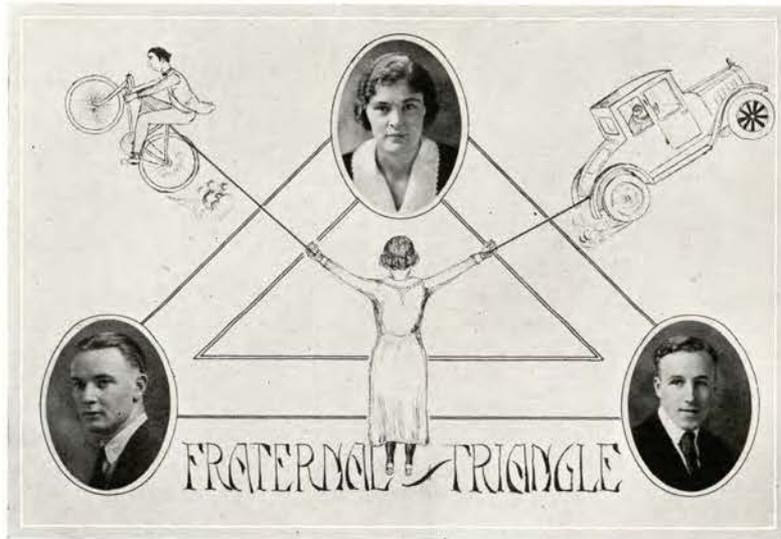

### REMONSTRANCE COMMITTEE

PLEASE POST ON YOUR BULLETIN BOARDS—NOW !!!!

LINDSEY SPIGHT is the new president of the Remonstrance Committee. He asks these following questions: "How would you like to take a third party every time you went on a pick-nick? What will we do, and to think I only have a coupe. What would a fellow do at a dance? Would he have to dance with two at one time, if he did what position would he take, would he put one arm around each lady? How would we — — —? But just think of the cost."

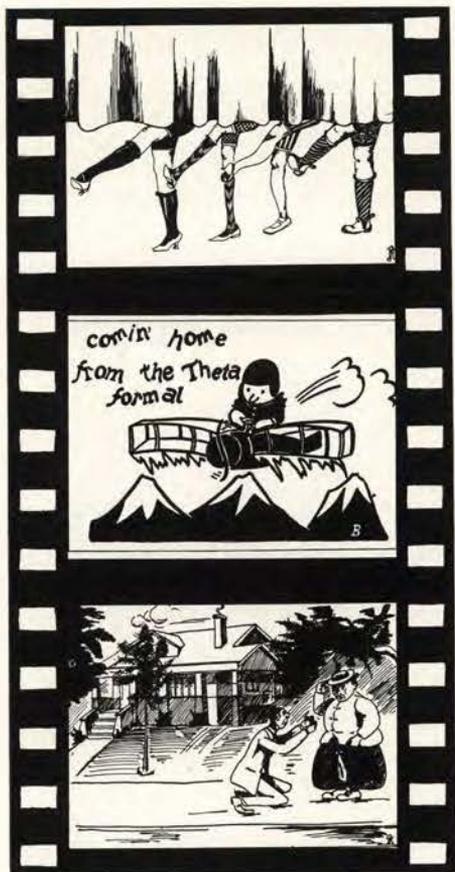

**M**ORONS are scapegoats, and are slated to pull brodies. A few of the things that they have a habit of doing are: Taking four years of war; when they get a spot on their house table cloth, they butter a piece of bread and put it butter side down. The butter is used to keep the bread from sliding off the spot.

# ORGANIZATIONS

### Alpha Chi Omega

WHY don't the Alpha Chi's standardize their pins? Just look at the picture, do they look like girls from the same house. What is the use of having pins if they are not the same? A fellow might have out one of the girls and think she was from another house. The matter of standardizing the pins came up before Lindsey Spight, chief remonstrator, and he says that he is going to look into the matter, at least help them next fall in their pledging.

### Kappa Alpha Theta

It is a cold night, the wind is blowing from the Theta house. A storm is expected some time this evening. The Kappa Sigs have again donned their winter underwear to be prepared. Art Boone just

dropped into the Lily to warm up, on his way home from the Theta formal. Poor old Bob Slinger started to fuss the Theta house and froze his feet on the way over. Brady Montgomery grew a moustache to gain its additional warmth. Baker got the cold shoulder and gave up. Oh, ——— my radiator has frozen.

### Delta Kappa

THE DELTA KAPPA boys have had a great deal of trouble keeping a cook. They would just get one and out she would go, and leave the poor boys to eat cold sandwiches. You can see Fred Reed on his knees pleading with one of the ladies that has just given up the job to stay. It is believed and the Delta Upsilon boys say that Fred is always trying to get a date with one. A number of the Delta Kappa boys have registered in Home Ec to solve the cook problem.

### *Sigma Phi Epsilon*

"How would you like to marry an S. P. E.? Would they make good wives?" That is the question asked every spring when it is about the time a young man's fancies turn to love. Prof. Livingston said: "The S. P. E.'s are the last of the Archeozoic Era, or the age of the primitive marine invertebrates." And Bill Shakespeare said, "What manner of men are these?"

### *Alpha Rho*

Alpha Phi and Alpha Rho remind one of the hunter and the duck. From the picture we might be led to believe that the hunter got the duck although the Alpha Rho let go with both barrels. The girls are having quite a time, they creep up and are just about to put a hat over

Alpha Phi when away she goes. One day an Alpha Phi went up the street and the Alpha Rho's—due to habit—let go with a mighty charge which blew out all the tires on George Condon's Ford.

### *Gamma Phi Beta*

THE GAMMA PHIS are a question—can't dope out just what they are. The following was cut from Martha Mason's note book: "I believe this world would be happier and women's position much more pleasant if men did not exist, and I thank my stars my mother was a woman." Quoting Dorothy Eddy: "Us women do not lack brains, we have none. But there is one thing that I wish we did lack and that is the desire for husbands. No matter how much we cuss them in the living room, as soon as we get out we grab for the first man we see." Har! Brady.

## Delta Upsilon

THE DELTA UPSILON boys are all the real old dog. Wherever they go, they are walking advertisements for Palmolive Soap. Their days are spent in the Co-op and their evenings pressing their pants. They wear bright red ties and noses which are a characteristic of the Mexican bull fighters, but—by Jove—they don't fight the bull, they master it. One of the tribe is giving a course in scientific bulling for social purposes. May his good work meet with success and he be rewarded with bounteous blessings.

## Chi Omega

I once knew a man whose pedal extremities were so bent that when he bent over and crossed his arms he spelled Chi Omega. The girls are said to be put through this exercise every evening, so in case they get lost in the crowd they can bend over and spell the name of their house. You know not every girl can whistle, but let us hope that every Chi Omega can bend over. So every night in the pale moonlight you could hear Marie Kuehn say: "Assume the Angle."

## Zeta Tau Alpha

"ANOTHER poor dear soul has gone Zeta Tau Alpha." We have big girls, and small girls, and fat girls, and thin girls; and all kinds of other things. I suppose that George Couper wonders what the other things are. All the girls are in for marine sports and the other sports like Phi Delta. You know what I mean, Coup.

## *Kappa Sigma*

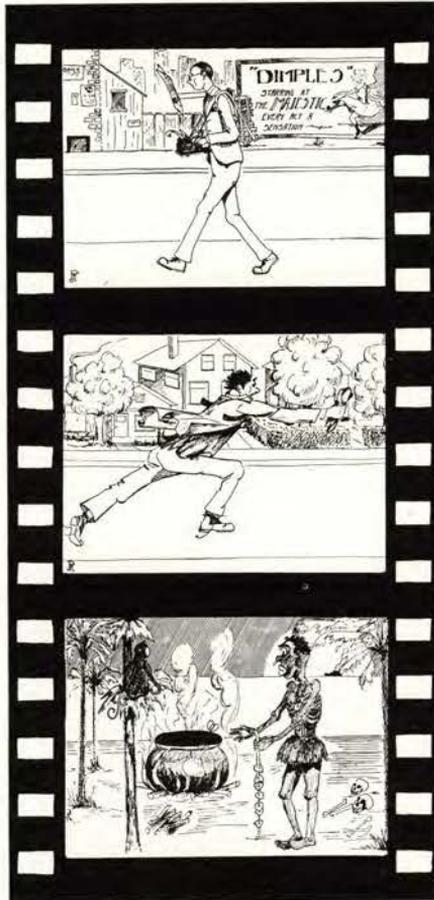

YOUR COLLEGE is NOT complete without a chapter of Kappa Sig. We are all beautiful men, and our word is the law on the campus. We go to all the formals, and cop the best dates. What would the Theta's do without their Kappa Sig's: what would the activities do? Our men are in everything: even in high water. We are very generous. Oh: we are wonderful.

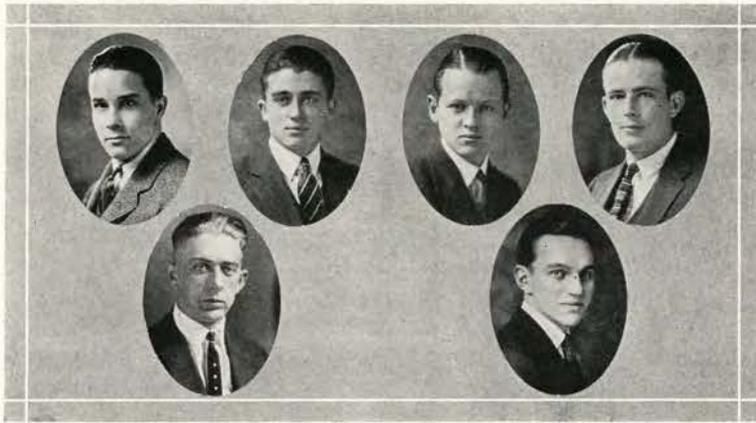

## *Sigma Alpha Epsilon*

THE POOR S. A. E. has to keep in training all year around to be able to get to his first hour class. I have seen them rush past me in the mornings, dressing on the fly. I wandered up that way about ten to eight, and upon rounding the corner past the Delta Kappa house I saw a black cloud coming down the center of the street. "It is rain," I said, putting up my umbrella. It was not long till the air was filled with flying socks and shoes, ties and collar buttons. It was then I made the discovery it was just the S. A. E. boys on their mad rush to the college.

## *Phi Gamma Delta*

WE HAVE quite a number of Fiji Islanders at the college. They all have long hair and wear rings, and also pack a shield. The wild men are quite dangerous to a rook; they catch the wild rooks, tie them up and put on a pledge pin. Then these rooks get other rooks, and these other rooks get still other rooks. Just think—they keep this up year after year.

### *Delta Lambda Chi*

**D**ELTA LAMBDA CHI was installed at the Oregon Agricultural College January 15, 1925. The purpose of the club is to supply defeated lovers with a new ambition.

All the members of the defeated lovers club have met with an accident in some venture in the fields of love. Many of the members tell sad horrible tales of their failure to reach the altar. Old Dan Cupid has let fly with a load of buckshot instead of the proverbial arrow, till at last he is nothing but a fool and a scapegoat. All the members are Forum, but they never Getum.

"We believe that women were created chiefly to demonstrate to man our sense of humor,"—such is the common belief of the members.

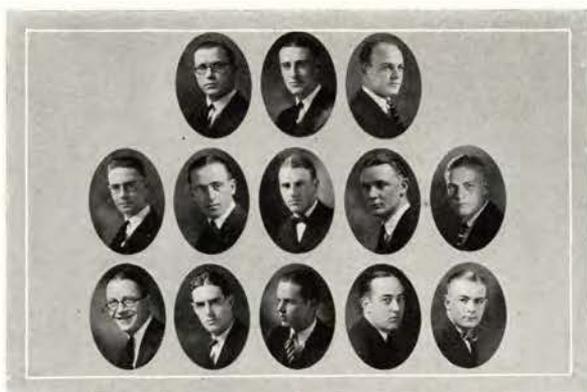

## *Alpha Gamma Lambda*

*(Anti-garter league)*

**T**HIS LEAGUE which has been granted a chapter by those monkeying with student affairs, was founded at the Delta Upsilon house. Every one in the house went without garters but Ed Coleman, he said the only reason that he did not was that he wore knickers.

The local fraternity has drawn members from every organization on the campus. No ladies belong to the fraternity as one would be lead to believe. There has long been a rumor, however, that many co-eds belong to this league, as one has noticed, but we have no positive proof to give. Some of the pictures in this book will explain the point.

### MYSTERY OF RED HANDKERCHIEFS SOLVED BY EAGLE-EYED SLEUTH AS OFFICIAL EMBLEM OF S. O. L.

An inquisitive straggler stood on the Sigma Nu corner at midnight. One by one, men came from all directions, and silently filed into the darkened hallway. His curiosity could restrain itself no longer, and as "Georgie Condon" pulled up in a rattletrap roadster, he put the question, "Where yuh goin'!"

"To a meeting," said Georgie, wrenching open the gate of the flivver.

"Political?"

"Naw," and Condon, too passed through the doorway.

Schoenfeldt, Sullivan and Saddler came along in quick succession, and the same question met the same answer. But the eye of the straggler had noted one peculiar characteristic, every man had fluttering from his pocket a brilliant red kerchief, with a black border.

Weeks passed, and the red kerchiefs excited no little comment, but without a whisper of the meaning thereof. But at last, an enterprising reporter of the Daily has discovered the truth; it is the emblem of Sigma Omicron Lambda, Oregon State chapter.

Sigma Omicron Lambda, or S. O. L., as it is affectionately known by the members, was founded on this campus in

the fall of 1923. It has 12 members and one pledge, making a total of 13 members in all, the limit of the chapter. It is similar to the chapter at the University of Washington in that it only takes in as members artists, poets, actors, and humorists.

The Washington chapter was recently investigated by the Dean of Men, who gave his hearty approval of the principles and policies of the organization. Through the efforts of Sigma Omicron Lambda, intramural baseball, held in the early hours of the morning on the Seattle campus and a bone of contention for years, was discontinued, giving rise to the investigation by the Dean. Results of his inquiries and a history of the local chapter were reprinted from the Washington Daily by the Seattle P. I., and sent all over the world by the International News Service.

The roster of the Oregon State chapter include Brady Montgomery, "Snake" Welsh, George Condon, John Sullivan, Spencer Alexander, Robert Theiring, Stafford Sadler, Ralph Schlegel, George Couper, Francis Redfield, Art Schoenfeldt, and Gus Naulty members, and "Duke" Farra, pledge.

### *Avoid Blind Dates—Get a 1925 Beaver*

**D**ID YOU EVER HAVE a blind date? You know how they come out. What do you say in a case like that? It reminds me of this story; an old maid with bobbed hair and short skirts; it is like the farmer that has locked the barn after the cow was stolen. Don't be a farmer.

### *Our Dancing Master*

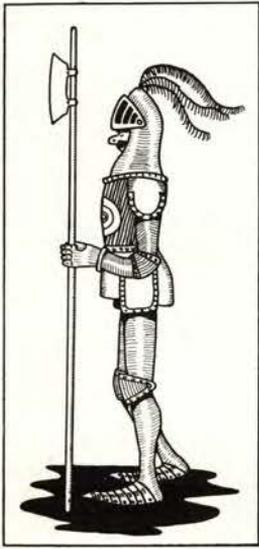

**H**ELEN used to avoid me when I asked her for a dance, others said they were tired or wanted to take a smoke. I did not wake up until my partner left me in the center of the floor after a long slide on her back. That night I went back to the Theta Delta Nu House lonesome and blue, as well as having a hole in my suit. As a social success I was a first-class plumber. I got busy that evening; an old flame gave me a start since then I have made wonderful strides.

# Making the Right Start in Life-

*"So your son is in college, eh! How is he making it?"  
"He isn't. I'm making it and he's spending it."*

It is soon after leaving college that a majority of young people start out on their business or professional career and the struggle to win is often long and hard.

Getting ahead in this world isn't a matter to be treated lightly. Competition for the best positions and biggest pay is keen. This being so, it is hard to understand how any young man or woman can afford to waste either time, effort or money just when everything counts in making a right start in life.

Earning—Saving—Spending—should be the aim and purpose of everyone who is about to enter upon the task of making the most of the future. A good plan for all who expect to get ahead is to make it an ironclad rule to spend less than they earn. "Wishing" to save isn't going to help after the money is gone.

The advantages of a savings account in this bank are many. One can be opened for any amount available and added to regularly as circumstances permit. Every deposit will earn a liberal rate of interest, which will be added to the principal and compounded semi-annually, thus increasing the total in a most substantial way.

*If you're anxious to have ready money,  
Just live on a little bit less;  
Your EARNINGS are not so important,  
It's the SAVINGS that make for success.*

DON'T SPEND IT ALL—SAVE AND HAVE

"How did you get that cold?"  
"Drinking out of a damp glass."

PORTER: "This train goes to Boston and points west."

LADY: "I want to go to Boston, and I don't care which way it points."

RUTH LE VAN (after a show): "I am ready to eat."

VERNE JENKINS: "Gwan: I'm no cannibal."

One should always be careful: even of birds. Many a swallow has been known to possess a wicked kick.

# *It is-or it isn't*

PRINTING is artistic—or it isn't printing; printing is legible, lucid, thought-conveying, awakening the imagination—or it isn't printing; an emancipator, not a slave; a conqueror, not the vanquished; an educator, not a fearsome superstition; printing must measure to these standards, or it falls short of REAL printing. To these standards we aspire in our work for you students of the Oregon State Agricultural College; we are grateful for your support and your appreciation of our efforts.

If, because of us, the pictures in this Beaver  
are better;  
If those who look upon its pages shall read,  
by our pictures, the true spirit of Oregon  
Agricultural College;  
Then we are glad for our part in its making.

Elvin Hoy was another beard grower. In this picture you see him right after he has come out of the brush. For a while he ran around the campus looking like one of the Airedale brothers.

ORIENTAL RUGS

ORIENTAL RUGS, in which we have specialized for a life time, have proven the most enduringly beautiful and serviceable of all floor coverings.

However, we do not rest with their general reputation, but take pains that every Oriental Rug passing through our hands can meet an expert's test for individual merit.

The rug making centers are thoroughly covered by three resident buyers of ours in the Orient,

who insure us, by direct importation, a large and steady supply of the best the Orient produces.

In our Portland store you will always find an extensive variety of sizes, shades and designs in all makes and in a range of prices that enables us to meet the requirements of any decorative scheme or to supply just the wanted rug for den or studio, modest home, or luxurious mansion.

Our policy of unvarying quality and fixed prices insures values that are rare in Oriental Rugs and eliminates all mystery and uncertainty.

*You are cordially invited to visit us any time you are in Portland.*

Every purchase from Miller's must be satisfactory from the standpoints of *Service, Quality and Price.* ¶ We aim to please, and solicit your continued patronage

“MILLER'S”

*“The store that undersells because it sells for cash”*

Complete new stocks now await your inspection — pleasing styles and popular prices prevail in every section of this great store

*Your Mail Order Will Receive Our Prompt and Careful Attention*

TEACHER: "What great women's letters show the suffering of the time?"

SADLER: "Lydia Pinkham's."

An Englishman hearing an owl for the first time said: "What is that?"

"An owl," was the reply.

"My dear fellow, I know it was an owl, but what was he owling."

LINDSEY SPIGHT: "You will get broke this time."

LIN KOONS: "And to think that I spent all this time bluffing it."

Father finding his girl in the arms of a young  
gentleman. "What does this mean?"

GEORGE COUPER: "Sir, I was just carrying her  
over to an easy chair."

FATHER: "Be careful you don't carry this joke  
too far."

SLOAN: "Have you seen the balloon tires?"

CLAUDIA PLANK: "Why, who ever heard of a  
balloon needing tires."

Ah, the loose-leaf system," said Adam as  
Eve's costume slipped.

SHE: "Can you drive with one hand?"

SADLER: "No, but I can drive back and get our  
chauffeur."

HISTORY PROF: "My students love their work."

ENGLISH PROF: "But they rarely open their  
books."

HISTORY PROF: "That's it. Love is blind."

WARREN CLARK: "Have you anything on for  
tonight."

RUTH JOSLYN: "No, nothing on."

WARREN CLARK: "Then it's a cinch that you  
can't come out then."

238 South Second Street

Bill North is the big "I Am" on the Greater O. A. C. He is supposed to pack a full set of brains, and if he does there is no doubt as to where he carries them. Bill lost his moustache the night before Judgment day, and was forced to mark time while a janitor substituted for him.

"Ruth Le Van said that she has never been on a necking party."

"Possibly she is not familiar with the slang."

A rook seeing Ray Dodge in his track pants was heard to say, "He must get cold wearing those little short trousers out in this weather."

DAD BUTLER: "Son, that's not where he wears them out."

DOUG KEECH: "This is a very lazy country."

GEORGE CONDON: "How do you figure that?"

DOUG KEECH: "I just saw a dog chasing a rabbit and they were both walking."

Chrisman is a big man on the campus. He is all like his head, so imagine the rest. He has a bunch of fine activities such as watering the horses at the armory.

PROF: "Can you tell me what a dilemma is?"

IKE: "I could not describe it, but I know that it has horns."

*If you would succeed-*

You must be equipped with something more than education. You must have ambition—a desire to get ahead. The habit of saving, early acquired, will lead you to success in later life.

What would you say if you were helping a friend get his car out of a mud hole, and just as you were standing in back of the car he gave her the gun. XX&\$!!&XGHI&\$!! Oh how do you do Mrs. Brown.

Fitts Elmore ran a point system up till the time he left school. He is in the south now writing a book, "Get Rich Quick by the Point System." It is said of Pitts that he once worked in a department store, but lost his position when he moved a card bearing this sign, "How would you like to see your best girl in this for a dollar ninety-eight," and put it over a bath tub.
