

Sanno fest.

Heyei-jinja.

The parishioners of this shrine are the descendants
of the lowly mountain soldiers of Mt. Heyei.

Many of them belong to the Eta, a lowest class
of people. Old scores are settled on ^{the night of the} Sanno Matsuri
at this festival in 1919 the owner of the old armour.
worn in the procession, received a very thorough
drubbing at the hands of his fellow parishioners.

It is very desirable that foreigners should
remain in the seats provided for them instead
of mingling with the crowd.
